LIGHTS. PRECISION. SAFETY

Dear valued customers,

Our latest edition of TYC Europe lighting and mirror catalogue features 600+ new added items which have vast vehicle brand applications. All the data incorporated in this catalog are researched thoroughly by our product team through reliable data available. You will find more references and applications of TYC products for easy and accurate search of automotive replacement parts.

TYC is a certified data supplier for TECDOC, making our products available and visible to industry's leading search catalog. Aside from this, we developed our own online catalog that you and your customers can easily access and find our products. You get real-time product updates from this on-line tool.

All products of TYC are compliant of European regulation - Emark certification through TUV. TYC, as an Original Equipment lighting manufacturer for brands like BMW, Ducati, Holden, produces OE matching quality aftermarket replacement parts. This differentiates us from other lighting independent aftermarket manufacturers.

Thank you for buying our products. We assure you a promising and successful business with our competitive and high quality automotive replacement parts.

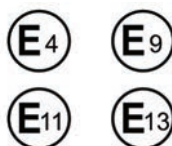

Best Regards,
Angie Wu
Managing Director

TYC Europe is the European headquarter of TYC Brother Industrial Corporation.

We serve as a sales, marketing and logistic center that covers 33 countries throughout Europe. It is also a logistic hub for TYC OE customers in Europe.

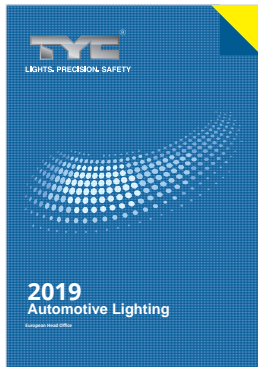

We have a team of multilingual capabilities to service most of our customers in their own languages. As a manufacturer, we are able to deliver the goods with high fill rate and we are flexible in providing customized shipments according to the needs of our customers.

TECHNOLOGY

By working closely with OEM partners and with intensive ongoing research and development, we are able to provide efficient lighting products. We use top grade material and precise manufacturing to ensure product durability, reliability and safety.

QUALITY

As an OEM manufacturer, TYC adheres to high quality standards that exceed customers' expectation. Quality is more than just a word, it is a philosophy, a source of inspiration, achievement and motivation.

PROCESSES

The latest technologies are used in the creation of all TYC products. Robotics are used to ensure quality consistency, and sensory devices are used in conjunction with production and assembly jigs to help detect any product variation during production processes.

SUSTAINABILITY

TYC incorporates principles of sustainability and environmental protection into all of its major business decisions and operations. At TYC, we continue to improve our production systems through extensive research programs and employee training to meet current and future demands of global customers without environmental compromise.
