EPA OBDII CONVERTERS

OBDII 5.9L Engine 6,500 lbs

- 40% Higher Precious Metal Content — Faster Light Off, More Durable, Better Conversion
- High Substrate Volume — Longer Contact Time, Better Performance
- Aristo® Intelligent Catalyst Technology® — Faster Light Off, Promotes Better Catalytic Reaction
- Proprietary Washcoat — Promotes Better Metal Activity and Durability, Improves O₂ Storage and Release

- **WARRANTY** — 50,000 miles for the emissions requirement, 5 years or 50,000 miles (80,000 kilometers) whichever comes first for the body and pipe nipples.

*NOT FOR SALE OR USE ON VEHICLES LICENSED IN CALIFORNIA OR IN STATES WHERE CARB COMPLIANCE IS MANDATORY.

40% Higher Precious Metal Content Than Other Brands

WE OFFER THE SOLUTION

Why offer an EPA Universal Converter with a large substrate volume, advanced washcoat and high metal content?

1. Increase in vehicles with **CALIFORNIA** emissions in states other than California
2. Keeps the air clean and the MIL light off on the hardest and dirtiest running vehicles
3. More vehicles are incurring higher mileage and heavier workloads
