Air Suspension Products

The Arnott Advantage

Since 1989, Arnott Air Suspension has been the trusted industry leader in aftermarket air suspension parts and accessories for luxury cars, trucks, and SUVs.

Arnott delivers exceptional innovation to the global aftermarket industry. Our state-of-the-art manufacturing and remanufacturing processes are driven by decades of extensive research and development, now housed in a 60,000-square-foot R&D facility. With a trusted global network of premier auto parts distributors, Arnott products have unparalleled availability in the marketplace. Our leadership in the industry is the result of unwavering dedication to:

- ▲ High quality aftermarket products that offer OE form, fit and function at an affordable price
- ▲ Professional, multi-lingual US based customer service
- ▲ Demonstrated engineering, manufacturing and management expertise
- ▲ Superior Limited Lifetime Warranties

THE BROADEST COVERAGE OF QUALITY AIR SUSPENSION PRODUCTS & OPTIONS

Arnott offers nearly 350 quality aftermarket air suspension products covering over 800 applications including remanufactured OE air struts, Arnott-designed new air struts, innovative air springs, OES air suspension compressors, and coil spring conversion kits.

Doing Business With Arnott

Our global team works every day to build on the trust and quality the Arnott name has signified to our customers for 30 years. We forge meaningful relationships with every customer and strive to support their continued success. By offering a comprehensive product line at an exceptional value backed by best-in-class support and a trusted global distribution network, Arnott gives its distributors, resellers and installers the necessary tools to maximize their growth opportunities.

Why Choose Arnott?

INFORMATION WITHIN REACH: Get the specs you need instantly with detailed product information on our website. Arnott products can also be found in standardized industry data feeds via ACES (Aftermarket Catalog Exchange Standard) and PIES (Product Information Exchange Standard). Need a custom ordering solution? Our catalog team can provide customized spreadsheets or feeds.

RELIABLE DISTRIBUTION: Having multiple Arnott warehouses and partnerships with the industry's foremost distributors, we provide total coverage of North America. This extensive network means fast and dependable deliveries, centralized billing, and discounted, tiered pricing.

SEAMLESS INSTALLATION: We provide the know-how needed to remove faulty OE products and quickly install Arnott replacement products. Arnott's expert Technical Support is complemented by detailed installation manuals and professional installation videos, making installation easy for technicians of all skill levels.

PRODUCT FEATURES

ARNOTT-DESIGNED NEW AIR STRUTS

- Custom-valved shock adapts to driving style
- Premium brand air sleeve, bump stop & dust boot
- Works with vehicle's auto leveling functionality
- CNC-machined aluminum or stamped steel top
- Improved seals to prevent leaks
- Many connect to ADS system to eliminate warning lights
- Engineered & assembled in the USA
- Limited Lifetime Warranty on Arnott-branded products

REMANUFACTURED AIR STRUTS

- Tested, cleaned & recharged OE shock
- New sealing cap & air line fitting
- Works with vehicle's auto damping & leveling system
- Premium air sleeve, bump stop, air fitting & dust boot
- OE top mount & sensor
- Remanufactured in the USA
- Limited Lifetime Warranty on Arnott-branded products

AIR SPRINGS

- Premium name-brand air sleeve
- Faster, easier installation
- Engineered & assembled in the USA
- Compatible with OE struts, air line and leveling system
- High-impact polyurethane or aircraft-quality aluminum tops

AIR SUSPENSION COMPRESSORS

- Compressors meet OE specifications
- Includes thermal overload protection
- Electrocoated epoxy finish to prevent corrosion
- Extensive life-cycle testing
- Most mate with OE lines & plugs for ease of installation
- Limited Lifetime Warranty on Arnott-branded products

COIL SPRING CONVERSION KITS

- Patented Electronic Bypass Module (EBM) eliminates fault codes
- Custom-valved shock absorbers
- Durable American-made, powder-coated coil springs
- Pre-assembled for easy & safe installation
- OE fit with no modifications needed

ARNOTT NEW AIR SPRING

- Works with the factory load-leveling functionality on the Navigator & Expedition
- Durable ContiTech air bladder designed for these heavy SUVs
- Reuses factory shock to lower cost
- Includes O-Rings for more reliable installation
- Replace in pairs for excellent ride comfort & stability
- A-2647

Superior Components

Through the use of OE parts and quality Tier 1 components such as leak-resistant seals, CNC-machined parts, premium name-brand rubber air sleeves, and VOSS air line fittings, Arnott delivers on the superior quality customers can expect with each Arnott part.

2 Includes Air Dryer	5 Rear Only
4 Complete 4-Wheel Kit	9 Heavy Duty for Limousine Use

F / R Front or Rear of Vehicle

PRODUCT IN-DEPTH

Arnott-Designed Air Springs

- ▲ Long-lasting premium brand multi-ply air bladders
- ▲ Improved design installs up to 94% faster than OE
- ▲ Quick, economical repair option

Arnott air springs are engineered for a luxurious ride in the company's 60,000-square-foot Research and Development Center. Our air springs undergo extensive testing on a fleet of 40 Arnott-owned vehicles. Driven by our commitment to innovation, several of Arnott's proprietary air spring designs are patented or patent-pending. All provide a cost effective option to air suspension repair.

Durable Multi-Ply Bladders & Inspired Design Add Longevity

Most air suspension problems occur because one or more of a vehicle's air springs have deteriorated and developed leaks. Thin rubber air bladders and seals combined with weak crimping rings are common problems in many low quality knock-offs and some stock air springs. Arnott springs feature multi-ply bladders manufactured by industry-leading companies and are engineered to address the common problems many springs develop.

Optimizing Installation

Arnott's innovative air springs for Mercedes-Benz (W211) E-Class and (W219) CLS-Class vehicles do not require the removal of the vehicle's rear sub-chassis to access the air tank reservoir. By optimizing the internal piston and bladder, Arnott air springs save mechanics up to 94% in installation time.

ARNOTT OFFERS AIR SPRINGS FOR:

Audi • BMW • Buick • Chevrolet • Citroën • Ford • GMC • Iveco • Jeep
Land Rover • Lexus • Lincoln • Mercedes-Benz • Mercury • Oldsmobile
Porsche • RAM • Saab • Volkswagen

COIL SPRING CONVERSION KIT

- Premium shocks & components designed for large GM SUVs
- Custom-valved Eibach shock absorbers engineered to provide a great ride
- Specially-tuned, powder-coated rear coil springs made from USA steel
- Installation manual & video for a fast, flawless installation
- Exclusive Electronic Bypass Module turns off dashboard warning lights
- C-3185

Road Tested

From Audi to Porsche, Range Rover to BMW and Mercedes, Arnott has more than 40 test vehicles to ensure that the products they engineer provide the luxury ride and durability that owners expect.

PRODUCT IN-DEPTH

Arnott-Designed New Air Struts

HEAVY-DUTY CRIMPING RINGS

POLYURETHANE BUMP STOP

SUPPORTS AUTO-LEVELING FUNCTIONALITY

CUSTOM-VALVED SHOCK ABSORBER

DESIGNED & ASSEMBLED IN THE USA

Struts cycle millions of times over their lifespan. While remanufactured struts offer OE functionality at an affordable price, they eventually wear out and can no longer be rebuilt. Our unsurpassed experience with remanufactured struts led us to truly understand the limitations of some reused components. Given that, Arnott's engineers apply decades of knowledge to each and every new strut they design.

Refined to exacting standards and improving on weaknesses found in OE struts, Arnott's completely new struts are built from the ground up with best-in-class components:

Arnott's ability to make new **custom-valved struts** replicate the OE-like ride drivers expect

Dust baffles and aluminum cans protect the unit from road debris

Arnott's advanced technology eliminates dashboard suspension warning lights

More Tier 1 Components: Longer-lasting seals, new polyurethane bump stops and heavy-duty crimping rings

Replacing an aging air suspension with new Arnott struts yields the comfort, luxury and auto-leveling desired in air springs, with an eye towards cost-effectiveness.

ARNOTT OFFERS NEW AIR STRUTS FOR:

Audi • Bentley • BMW • Buick • Cadillac • Chevrolet • Ford • GMC • Jaguar
 Land Rover • Lexus • Lincoln • Mercedes-Benz • Oldsmobile • Pontiac
 Porsche • Toyota • Volkswagen

Comprehensive Quality Assurance

Arnott's Quality Assurance Team is part of the process from development to production. At every step, they make sure that Arnott's high standards of quality, engineering and manufacturing are maintained.

Precision Production

Our precise production processes ensure the highest quality products are built every time, and that our discerning customers only receive the best parts for their vehicles.

With facilities in North America and Europe, Arnott has over 300,000 square feet of manufacturing floor space which includes multiple 5-Axis CNC machines, advanced recharging stations, automated painting, and state of the art warehousing.

3 Complete 4-Wheel Kit	8 Extended Travel & Improved Design	35 Gas Engine Only
4 Includes Shocks	25 Sport Suspension Only	

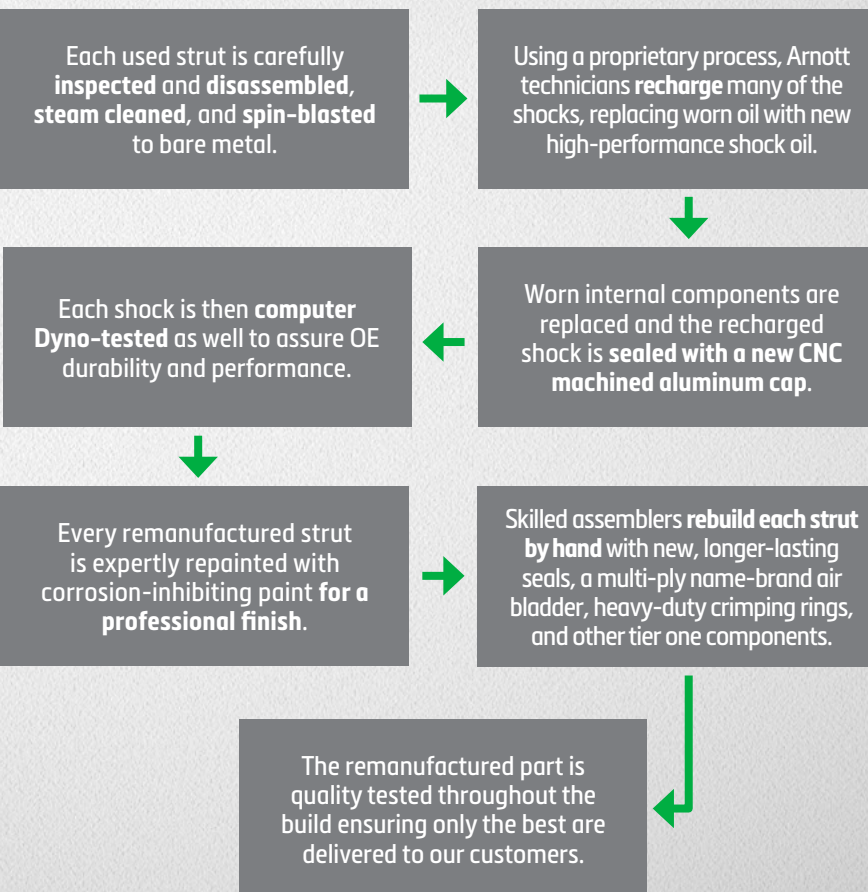

PRODUCT IN-DEPTH

Remanufactured Air Struts

Arnott has spent three decades redefining the air suspension remanufacturing industry. Our commitment to innovation is unsurpassed, and demonstrated in the care and skill our expert engineers take in improving OE designs, featuring:

- ▲ Factory active damping & ride
- ▲ Exact fit & functionality of OE
- ▲ Arnott-engineered to improve strut longevity
- ▲ Plug & play installation is identical to OE

Arnott's remanufacturing processes sets the standard for remanufactured air suspension struts and shocks.

ARNOTT OFFERS REMANUFACTURED AIR STRUTS FOR:

Audi • Bentley • BMW • Cadillac • Chevrolet • GMC • Land Rover • Maybach
Mercedes-Benz • Porsche • Volkswagen

PRODUCT IN-DEPTH

Air Suspension Compressors

Compressor burnout is one of the more frequent air suspension problems encountered by drivers. Burnout occurs when the compressor wears out, usually due to a leaking air spring or other component failure. By establishing partnerships with the leading suppliers of air suspension compressors, Arnott provides direct replacements for these critical components.

Many of our exceptional compressors are vigorously tested in Arnott's facilities to assure a long life and reduced failure rates. They are then fitted with application-specific components, providing fast, flawless, plug and play installation. Unlike some compressors simply modified to fit a vehicle, a growing number of Arnott-supplied compressors are identical to those designed by leading OE suppliers, featuring:

- ▲ High-level integration mechatronics fitted to each unique air suspension
- ▲ Maintenance-free integrated air dryers for a quiet, high-performance ride
- ▲ Thermal overload protection
- ▲ Most compressors from Arnott come fully assembled, including application-specific air lines, wiring harness and brackets

Air Suspension Compressors from Arnott come with a Limited Lifetime Warranty against manufacturer's defects. They are fully covered if they have not been subjected to burnout from leaking air suspension components, modified, missing labels, or damaged by water.

ARNOTT OFFERS AIR SUSPENSION COMPRESSORS FOR:

Audi Bentley BMW Buick Cadillac Chevrolet Ford GMC Jaguar Land Rover Lexus Lincoln Maybach Mercedes-Benz Mercury Oldsmobile Porsche Saab Toyota Volkswagen
