# Bumpers & Accessories

AMD bumpers are made from heavy gauge steel and feature OE quality chrome finish. All parts feature, depending on application, correct holes for turn signals or back up lamps. Installation is fast and easy as all parts are designed to be a direct bolt-on utilizing OE bumper brackets and hardware. Our bumpers are manufactured on our new, state of the art chrome production line. **All bumpers are covered by a 5 year limited rust-through warranty.**

# Bumper Bolts, Brackets & Accessories

AMD offers new bolts, mounting brackets, bumper guards, and license brackets to complete the installation of your new bumper. You'll find your bumper installation easier when using new parts instead of bent or rusty originals. AMD bumper mounting bolts are precision-manufactured from steel with a chrome finish to match up to AMD's chrome bumpers perfectly. AMD bumper brackets are accurate reproductions of factory originals. Don't waste your time trying to refurbish your rusted and pitted originals.

# Valances, Headers & Spoilers

AMD grille fillers, front valances, and header panels are a great choice for your next musclecar restoration project! Constructed from durable steel: these panels are EDP coated for rust resistance. AMD panels are direct replacements for the stock pieces so you can be assured that you are getting the right fit for your vehicle. Our plastic grille fillers and front spoilers are injected molded like the originals and are the most accurate on the market.

Our Name Says It All!™

All of our own AMD parts in this catalog are listed in Blue, bold-face Type.

# Fenders & Accessories

AMD fenders are manufactured using high quality, heavy gauge steel on our exclusive new tools and features correct as original body lines, braces, marker light holes, and antenna cut-out (*certain models only*). Like all AMD parts, these fenders arrive in a black EDP finish and will require standard prep work prior to paint. **Please note that fenders with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the fenders we produce.**

## 200) Fenders

All fenders are shipped  
TRUCK  
FREIGHT.

# Inner Fenders

Factory inner fenders lead a tough life. Acid dripping from the battery, holes drilled for mounting accessories, rust, and accident damage all take their toll. All of AMD's inner fenders are stamped from heavy gauge steel and EDP coated for protection and licensed through GM's Restoration Parts Program. We offer the only correct '71 & '72 Chevelle inner fenders and we also offer versions for Standard or RS Camaros.

## 250) Front Inner Fenders

# Hoods

Eliminate the dents, rust and body filler on your old hood with a new AMD hood made on our own tools. AMD offers a wide selection of hoods for many models. All OE style AMD manufactured hoods are GM licensed. All underside braces and brackets are reproductions of originals so each hood has the correct appearance on both sides. All hoods are designed to be a direct bolt-on replacement for your vehicle's stock hood, and utilize your vehicle's stock hinges and latch assembly.

We also offer a large selection of cowl induction hoods that resembled hoods that the factory "should have" offered. **Please note that hoods with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the hoods we produce.**

**All hoods are shipped  
TRUCK FREIGHT.**

# Hood Accessories

When replacing your hood, be sure to replace your vehicle's worn out hood hinges with a brand new set from Auto Metal Direct. Our hood hinges are brand new - not rebuilt like cheaper knock offs. Each hinge features correct as original hood springs. We also offer items like hood latches and bumpers to complete your installation.

# Battery Trays & Accessories

AMD offers correct battery trays for many GM models. All of our battery trays are licensed through the GM Restoration Program. Please note that battery trays with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the trays we produce.

## Correct Battery Trays

- Correct nuts, unlike competitor's parts
- Made on new AMD tools!

# Radiator Supports

AMD radiator supports are the most correct on the market. Our radiator supports are stamped on heavier grade steel than generic versions on the market and are made for specific applications. Please note that radiator supports with a part number starting with "X" (instead of a number) are not made by AMD may not meet the same quality standards as the radiator supports we produce.

# Full Floor Pans

Rusted, cut, or weakened floors should be replaced during any restoration project. AMD's full floor pans are made from heavy gauge steel as original, and feature all correct reinforcing ribs and shapes. Most pans include OEM-style braces, and some feature inner rocker panels, too. Licensed by the GM Restoration Parts program, these full floor pans are top quality reproduction parts for your project.

# Outer & Inner Rocker Panels

Replace rotted, dented, or damaged Rocker Panels with our premium quality reproductions. Rocker panels provide critical structural support for the entire body, and are easily weakened from years of rust and corrosion. Made from heavy gauge steel like original units, our rocker panels are fully licensed by the GM Restoration Parts program. **Please note that rocker panels with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the rockers we produce.**

## 450) Outer Rocker Panels

All of our own AMD parts in this catalog are listed in Blue, bold-face Type.

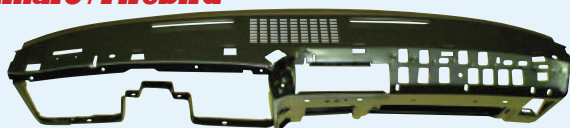

Our Name Says It All!™

# Dash Structure

Moisture and debris gather over the years at the base of front windshields, and the rust which results will inevitably reach the lower front area of the dash panel. Moreover, many muscle car owners have mounted tachometers, oversize speakers, and other accessories on the dash, leaving ugly screw-holes. If the dash top on your GM muscle car is damaged, replace it with one of these high quality reproduction Dash Repair Panels from AMD.

# OE Style Door Shells

AMD's '69 Camaro/Firebird door shell is the highest quality door on the market. It contains all the internal structure required to mount, glass, window regulators, door handles, etc. Unlike others on the market AMD doors are stamped on OE gauge steel to replace your rusted or damaged door perfectly. **Please note that the OE door shells with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the doors we produce.**

# Door Skins

AMD has you covered if you need to replace a door skin. Built to factory specifications, these high-quality stamped steel OE style reproductions are the perfect fix to replace old rusted or damaged skins. The door skins produced by AMD are officially licensed through GM's Restoration Parts Program. **Please note that the door skins with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the door skins we produce.**

# Roof Panels & Parts

It is often easier to replace the entire roof panel than to repair rusted areas. If you have rust under a vinyl top this item can be a real time saver. Made to OE specifications this skin covers the entire roof area and mates with the A pillars and quarter panels, including the windshield and back glass channels. We also offer additional roof parts including inner braces, drip rails, and drip rail moldings to complete your installation. **Please note that the roof panels with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the roofs we produce.**

## 600) Roof Panels, Complete OE Style

### Nova

66-67 2-Door Coupe (non-post) .....	X600-3066
-------------------------------------	-----------

All roof panels are shipped TRUCK FREIGHT.

# Deck Filler Panels & Accessories

Window channels often fill up with moisture and debris, and eventually rust through at the bottom and corners. The bottom window channel on some GM cars is a part of the Rear Deck Filler Panel. This component usually includes both the lower rear windshield panel and the upper decklid channel. Both channels are subject to moisture retention. Made on our own steel tools, these premium panels are sure to please. **Please note that the deck filler panels with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the panels we produce.**

## Look for the Highlighted Parts!

All  exclusive products are made on our own steel tools. All **AMD** parts are listed in **Blue, Bold Face Type**.

Since we do not yet make every part for every model, we have filled out our line by also selling the finest available parts we can find on the market.

Our Name Says It All!™

All of our own **AMD** parts in this catalog are listed in **Blue, bold-face Type**.

# OE Style Quarter Panels

Each AMD full OE style quarter panel is manufactured from high quality, heavy gauge steel on our exclusive new tools and feature correct body lines, marker light holes, door jambs and full sail panels. We use heavier gauge steel than other manufacturers which provides a more durable finished panel. Please note that the quarter panels with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the panels we produce.

## 700) Quarter Panels, Complete OE Style

# Quarter Panel Skins & Accessories

## OEM-Style!

- Cut from the OE version so more accurate than competitor's
- Factory gauge steel
- Extends to mating parts like the OE version
- Include the door jamb (competitor's don't)
- Have pre-drilled holes like OE

Correct holes and flanges

Competitor

Complete with door jambs, unlike competitor's parts

## 709) Quarter Panel Skins without Door Jambs

- New tools
- Economical way to replace quarter panels
- Include marker light holes, where applicable

Pair .....	H-130

# Outer & Inner Wheelhouses

AMD offers outer and inner wheelhouses for most GM applications. The outer wheelhouses are often overlooked until a rusty quarter panel is removed, revealing a rusted outer lip. Often the inner wheelhouse is rusty, too, especially if the car has a rusty trunk floor. All of the wheelhouses that AMD manufactures is officially licensed through the GM Restoration Parts Program. **Please note that the wheelhouses with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the panels we produce.**

## 770) Rear Outer Wheelhouses

# Frame Crossrails & Crossmembers

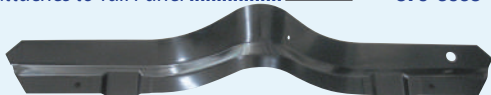

Next time you're underneath your GM muscle car, take a look at the Rear Frame Crossmembers and Crossrails. These vital components are crucial to keeping body panels and frame rails supported and aligned correctly. Yet over the years many, many of these fragile components have been damaged by collision, rust, and ill-advised attempts at pushing or towing.

# Windshields

AMD offers windshields for most GM musclecar applications in both clear and factory style tint with shaded upper section. Correct thickness glass helps moldings and gasket fit better. Be sure not to forget the gasket or ribbon seal to ease installation.

A SEDAN has a post between the door and quarter glass. COUPES and HARDTOPS have no post. All glass is for 2-Door cars unless noted.

All windshields are shipped **TRUCK FREIGHT**.

# Vent Window Glass

See Vent Window Frames  
on Page 47

AMD offers vent glass for most GM 2 door musclecar applications in both clear and factory style tint. Correct thickness glass helps alignment and ease of installation. AMD carries additional accessories such as guides, hardware, and handles to help finish your installation.

# Emblems

See Emblem Templates  
on Page 125

AMD offers a wide range of emblems for GM vehicles from manufacturers such as CHQ, OER, OPGI, and Trim Parts. Perfect for replacing your original emblems or upgrading your car's looks to that of the various SS, Z-28, or R/S models. We also offer template kits to determine the location for drilling emblem mounting holes.

# Moldings

AMD offers a wide range of moldings for GM vehicles from manufacturers such as AMD, CHQ, OER, OPGI, Trim Parts, and TWE. Perfect for replacing your original trim or upgrading your car's looks with optional trim, We also offer template kits to determine the location for drilling trim molding mounting holes.

All of our own **AMD** parts in this catalog are listed in **Blue, bold-face Type**.

Our Name Says It All!™

# Gas Tanks & Parts

AMD OE replacement fuel tanks are stamped from high quality rust resistant steel which is lead/tin plated inside and out. Each tank features the correct shape, size, holes, ribs and curvature, like original. Mounting straps and sending units are sold separate. AMD also carries many gas tank accessories including straps, sending units, caps, & hardware.

# Hardware Kits

We offer AMK hardware kits to complete your restoration. They have developed many kits consisting of exact copies of original design fasteners. Kits are offered for the body, chassis, and underhood areas of most popular GM models. Hardware is individually bagged and marked for each component section.

## 225) Body Bolt Kits

### AMK Master Body Hardware Sets

Typical kit includes fasteners to attach: back-up lamps, battery tray, bumpers & brackets & guards, bumper filler panel, cowl panel, door latches, fenders & braces & extensions & splash grille & brackets & mouldings, headlamp bezels, & adjusters, header panel, hood & hinges, hood levelers, hood catch & lock plate, hood catch support, hood mouldings, license plate brackets, marker lamps, nameplates, parking lamps, taillamps, trunk latch & striker, trunk lid, valance, wheelhouses & brackets.

70-81 Bullet, Manual Mirror, RH .....  K-20154908

# The Details make the difference!

Don't settle for incorrect, knock-off parts for your car. Get premium sheet metal parts from the restoration pros at **Auto Metal Direct**. Our panels are made from the proper gauge steel and include all correct-as-original clips, tabs, flanges, bends and seams. Each time a prototype body panel comes off of new tools, we test fit it on a car. The marked up prototype is then used to change and improve the tools, and a new prototype is produced. This procedure might be repeated multiple times, but once the part is finally approved, you can be assured of a quality part.

18 to 19 Gauge Uncoated Steel Sheet..... PATCH-1

### Poster

69 Camaro Pace Car Poster ..... W-159

### Adhesives

3M Weatherstrip Adhesive, Black.....J-3M08008  
Sticky Stuff Spray Adhesive,  
for Heat & Sound .....J-INSULADH

# Our Products

Many of our products are advertised and packaged with the GM Restoration Parts logo. This logo indicates that the product is no longer available from General Motors, but is manufactured to GM's specifications and licensed by GM as an official GM Restoration Part. Such products represent a prestigious class of restoration parts that are nearly identical to the products offered by GM, and are made from the original GM tooling whenever possible.

We have filled out our line by also selling the finest available parts we can find on the market. Below are some of the manufacturers whose products are now in our inventory:

**Classic Headquarters** - for over 30 years the world's premier manufacturer for high quality, technically correct restoration products for General Motors Musclecars including - Camaro, Chevelle, Nova, Pontiac, Full size, Corvette and Chevy Truck.

**Original Equipment Reproduction®** is the restoration parts manufacturer who set the standard by which all other restoration parts are measured. Making their name in the industry by focusing on the details of their products and supplying highly demanded parts not elsewhere available, OER® brand products represent countless man-hours invested in a process of analyzing, developing, and refining. Products advertised with the OER® logo uphold the standard and tradition that consumers and installers have come to expect.

**TrimParts, Inc.** manufactures GM licensed restoration parts for Chevrolet and other GM cars and trucks. They are dedicated to manufacturing the highest quality products offered in the restoration industry by using the original GM tooling under licensing from GM when tooling is available. Otherwise, TrimParts engineers and builds in-house tooling to meet the original GM Specifications and TrimParts Quality.

**SoffSeal, Inc.,** is the industry leader in manufacturing quality weatherstripping and rubber detail items. Their tooling capabilities include both sponge and dense extrusions. They can bond molded parts to extrusions, both sponge and dense. Additionally, they make rubber parts such as pedal pads, bushings, grommets, seals and other related items. They can also manufacture custom molded parts. Their speciality has been in weatherstripping and sealing products for the restoration and Street Rod markets, as well as custom OEM applications and universal-use sealing products.

Our Name Says It All!™
