POWERBOARD®

*Powerboard on 2012
Ford F150 Crew Cab
75141-15*

POWERBOARD®

**LIMITED
3 YEAR/100k
WARRANTY**

- Electrically powered running boards hide underneath your truck when doors are closed and extends down to meet your foot when your door opens
- Drops down about 6" and out 2" to create a stair-step into your truck
- Full length board works with both front and rear doors, driver and passenger sides
- 600 pound load capacity per side
- Complete kit includes two full length boards, OEM quality sealed motor, controller, hardware, wiring harness with weatherproof connectors and LED Light kit
- Built-in anti-pinch safety features senses pressure to keep the board from retracting on your hand and feet
- Patented high strength, die-cast aluminum linkage built to last in any climate
- OEM quality sealed motors that perform in any weather
- OEM quality heavy-duty wiring harness with weatherproof connectors
- Sturdy 6.25 inch wide aluminum running board features ultra-durable, non-slip, powder-coated surface
- Integrated LED Light Kit mounts to linkage or to body and illuminates board and ground below for easier access in and out of your vehicle

POWERBOARD® NX

*Chevy Silverado
(gasoline) Application*

*Powerboard® NX is rated to support
600 lbs. and install with no drilling.*

POWERBOARD® NX

**LIMITED
3 YEAR/100k
WARRANTY**

The Powerboard® NX has new patented wireless technology that makes it a whole lot smarter, and a whole lot easier to install. But that's not the entire story. It's also the end result of several years' worth of continuous improvement and testing of every single component, on every Powerboard®, wired or Wi-Fi.

SMARTER: The same design as the original Powerboard®, but now using patented Wi-Fi technology that sends the door signals to the controller.

EASIER: Installation just got quicker, and far easier: no more removing door panels, no tapping into the factory color-coded door wires.

SIMPLER: Attachment of Bestop's exclusive door transmitters solves all the door open-close signaling and multiple connections.

- State-of-the-industry powered running board extends in about one second, retracts flawlessly after 4 second delay
- Splits the distance between the ground and your cab
- High quality, performance and value at a lower price
- Integrated LED lighting standard on all Powerboards

REAR MOUNT TREKSTEP®

*Works with your tailgate up or down
Ford F250 Rear Mount Trekstep
75303-15*

Simply extends with a push of your foot

REAR MOUNT TREKSTEP®
