

Instructions: PolyPRO™ 1

⚠ WARNING!

Cover for storage use only.

Do not occupy the RV while cover is on the RV.

Do not run the RV engine with the cover on.

⚠ WARNING!

Installation is best done with two people and most RVs require working from the roof of the RV. **Never install on a windy day or when the roof is slippery. Please take care when you are on a ladder or the roof.**

Be sure that your helper does not pull the cover while you are installing on the top of the RV.

For campers and 5th wheels: If you go on your roof, be careful to stay toward the back half—if you go out too far to the front your RV could tip forward.

Note: camper and 5th wheel covers are only for use when stored off the truck.

CAUTION

Installation and removal is safer and easier when done by two people.

Tools Needed

- Scissors
- Matches or lighter (optional)
- Screwdriver (usually Phillips head) for roof antennas.

Installation

1. Cover or tape any sharp edges on your RV that could wear against your RV cover. Be sure to lower any roof antennas.

2a. For Campers

Drape your camper cover over your pickup camper with the zippered panel at the back.

Pull the elasticized hems down over the front overhang and in the back.

Buckle the three front straps together (Fig.1).

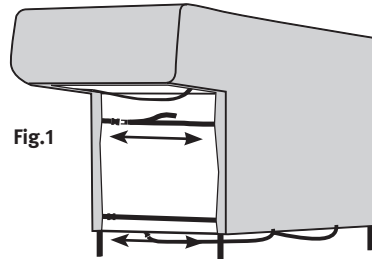

Fig.1

Fig.1 for camper covers only

Pull the two bottom straps under the camper and snap into the buckles on the opposite side (Fig.1).

Adjust all the straps for a snug fit. The back panel can be unzipped so that you can access the door to your camper. You can keep the back panel open by rolling it up and snapping the two short straps at the right over the rolled fabric. (Skip to Use and Storage).

2b. For folding camping trailers

Fold your camping trailer down and secure it before installing your cover. Find the Classic logo on your cover—this is the front. Slip your Folding Camping Trailer Cover over the top of your trailer then pull the elasticized bottom hem down along the bottom edge of the trailer. (Skip to step 4).

2c. For most RVs

On smaller RVs your cover can be installed with ladders but on most RVs it's easiest to install your cover from the roof.

Carefully climb up on the roof and have a friend hand you the cover in its storage bag. At the front of your RV carefully remove your cover from its storage bag. With the Classic logo to the front of your RV unroll the cover down the length of the roof. Drop the front of your cover over the front of your RV then carefully and slowly move toward the back spreading out your cover and letting the sides fall down the sides of your RV.

Climb down the rear ladder and pull the back end of the cover down the back of your RV.

3. Pull the elasticized corners down over the bumper(s) of your RV.

4. Tie an end of the supplied rope onto one of the D-rings (Fig.2) along the bottom hem. Toss the free end of the rope under your RV to the D-ring on the opposite side. Allowing enough rope to make a knot, cut it off and tie it to the D-ring. Repeat with the remaining rope and D-rings. To keep the rope ends from fraying you can carefully melt the ends with a match or lighter.

← D-ring

Use and Storage

A handy storage bag is provided. To fit your cover in the bag, fold and roll it tightly rather than stuffing it. Never store a wet cover in the storage bag or confined area as the cover can be damaged by mildew.

Care

Clean your cover with a hose or with a soft rag. Do not use soap as it could damage the protective coatings on the fabric.

DO NOT USE SOAP

LINE DRY

DO NOT IRON

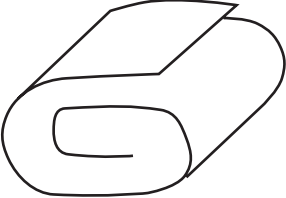

DO NOT PACK WET

Parts List

Before you begin please unpack the carton and check that you have all your parts.

A. RV Cover

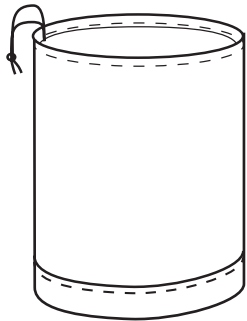

Your package should contain one of the following covers.

DESCRIPTION	QUANTITY	
Camper	1	
Folding Camping Trailer		
Class A		
Class C		
5th Wheel		
Travel Trailer		
Toy Hauler		

Parts List

A. Storage Bag

Your package should contain one of the following storage bags.

PART NUMBER	DESCRIPTION	QUANTITY	
PRT-80-005	Camper	1	
	Folding Camping Trailer		
	Class A		
	Class C		
	5th Wheel		
	Travel Trailer		
	Toy Hauler		

Parts List

A. Tie-down rope

Locate your cover below for the total quantity of tie-down rope included.

PART NUMBER	DESCRIPTION	QUANTITY	
PRT-80-006	Camper	NA	
	Folding Camping Trailer	3	
	Class A	4	
	Class C	4	
	5th Wheel	7	
	Travel Trailer	4	
	Toy Hauler	6
