Part # DOD-1252B

Part # DOD-1252S

Picture #1:

Here is the GrillCraft Mx-Series Custom Mesh Grille kit Part# DOD-1252 for the Dodge Durango. Available in Alloy silver or black powder coat finish.

Picture #2:

Our project Dodge Durango in need of a custom GrillCraft mesh grille.

Picture #3:

Start with removing the plastic clips that secure the grille panel cover.

Picture #4:

Using a needle nose pliers works great.

Picture #5:

Remove the bolts on the top side of the grille.

Picture #6:

Remove plastic clips that secure the bottom of the grille shell. Note: these clips are located on the under side of the vehicle.

Picture #7:

Using a long screw driver release the grille shell side clips, just by pushing down. Now remove grille shell from vehicle.

Picture #8:

Using a flat screw driver unclip factory plastic grille center as shown.

Picture #9:

Removing factory plastic grille center.

Picture #10:

Place the Grillcraft grille insert in from the front side as shown.

Picture #11:

Mark mounting tab center holes as shown.

Picture #12:

Drill 3/16 inch hole for the mounting screws.

Picture #13:
The supplied grille fasteners.

Picture #14:
Fasten the grille in place.

Picture #15:
Position the grille in order to leave the gap on the bottom of each insert.
