RT STEPS BY ICI

The Magnum RT Steps are available in both Cab & Wheel to Wheel lengths and are finished in our popular block powder coat. With Chrome Wheels making a comeback, we have released our Cab Length Stainless Steel finished steps. The RT Steps add attitude and function to any application and compliment today's factory lines. They feature a "Magnum" cut out patented angular drop-down step and heavy-duty brackets. The Wheel to Wheel length steps feature a Patent Pending 3rd step support strap to prevent the notorious sag that happens with standard wheel to wheel steps. (ICI Magnum RT Steps Patented #D757622)
