YouFab "Do It Yourself Bumpers"

We have received repeated customer requests to provide an inexpensive option that allows the ultimate "Do It Yourselfer" to customize and build their own product. YouFab takes our years of engineering and design and puts it in the hands of the custom builder. Our engineers designed this product with them in mind and with all the parts pre-cut, pre-bent and scribed, makes it a snap for the average garage welder to put together and finish. ICI provides step by step welding and finishing tips on our website, YouTube and Facebook. (YouFab patterned products are copyrighted.) Your Labor, Your Savings!

Magnum Grilles (W/ KC HiLites LED Lights)

Magnum Grilles are available in two series, the Black Accented LED Series (Rivets and Logo) or the Chrome Accented LED Series (Rivets and Logo). Dependent on the model, they offer twin 6"-10" KC LED light bars. The grilles are constructed from durable wire mesh steel which is then E-Coated and finished in black powder coat to match the Magnum Bumpers and Magnum RT Steps. All grilles come with a plug-and-play wiring harness. Most applications require cutting the factory grille.

TROPHY BUMPERS

Trophy By ICI

The ICI Trophy Front Bumpers offer the So-Cal pre-runner look which features a tubular design with a highly durable valance material that is waterjet cut for precision fit and style. The bumpers are designed to include a skid plate that offers the protection you'd expect from an ICI bumper and the styling to keep your truck looking mean! All Trophy Bumpers have a welded in light mount top plate that offers multiple options for lighting. **(Patent Pending)**

BAJA BUMPERS

Baja Bumpers And Baja Steps By ICI

The Pre-Runner inspired design by ICI features a tubular style bumper that integrates aluminum paneling with aluminum custom washers and stainless-steel mounting hardware.

ICI will also offer sensor options for those who want to keep the factory add-on. The Baja Bumper also provides a

fixed light mounting top plate that allows for multiple LED light options. Keeping true to our ICI design commitment, we also have engineered matching Baja Side Steps utilizing the same finish washers as the bumpers to tie it ALL TOGETHER! **(Patent Pending)**

MAGNUM BUMPERS & RT STEPS

Magnum RT Steps By ICI

The Magnum RT Steps are available in both Cab and Wheel to Wheel lengths and are finished in our popular black powder coat. With Chrome Wheels making a comeback, we have released our Cab Length Stainless Steel finished steps. The RT Steps add attitude and function to any application and compliment today's factory lines. They feature a "Magnum" cut out patented angular drop-down step and heavy-duty brackets. The Wheel to Wheel length steps feature a Patent Pending 3rd step support strap to prevent the notorious sag that happens with standard wheel to wheel steps. (ICI Magnum RT Steps Patented #D757622)

Magnum Front Bumpers By ICI

ICI has been producing Magnum plate style bumpers since 2009. We have been pioneers in the development of factory sensor housing to provides a "Plug and Play" feature on all applicable Front and Rear bumpers. We offer both Round or Square light options, W/ or W/O sensors options and W/ or W/O winch options. All of our bumpers are available as a Standard Bumper replacement or upgrade to our Magnum Pre-Runner Series with a 2" round tube light mount or the most popular, our Magnum RT Series with patented RT light mount. The Magnum difference are the design features that showcase blended lines that tie in your wheel openings and tapered styling that enhance the look of your truck. (RT Light Mount - Patent #D744405)

Magnum Rear Bumpers By ICI

Magnum Rear Bumpers come standard with all OE Factory "Plug and Play" options. In addition, most Magnum Rear Bumpers now include standard Tow Hooks that are designed with function in mind. Our tow hooks tie directly into our mounting brackets which mount to the rear frame mounts of the truck, providing optimal recovery potential. With the help of our new partner, KC HiLites, we co-designed a rear back-up light that has a flush mount fit and was designed to fit in all of our new bumpers. You can purchase this light and retro-fit it to your existing bumper as well!

3" NERF BARS

ICI 3" Nerf Bars

The iconic and classic ICI 3" Side Step Bars have long been the standard for fit and finish. ICI was the first to offer a stainless mirror finish with a lifetime warranty. ICI was also the first to design the worry-free saddle step which to this day is the industry standard. We offer all of our tubular products in stainless steel or black powder coat finish. We have 100's of applications for cab only and wheel to wheel variations. All ICI nerf bars have an easy, no drill installation.

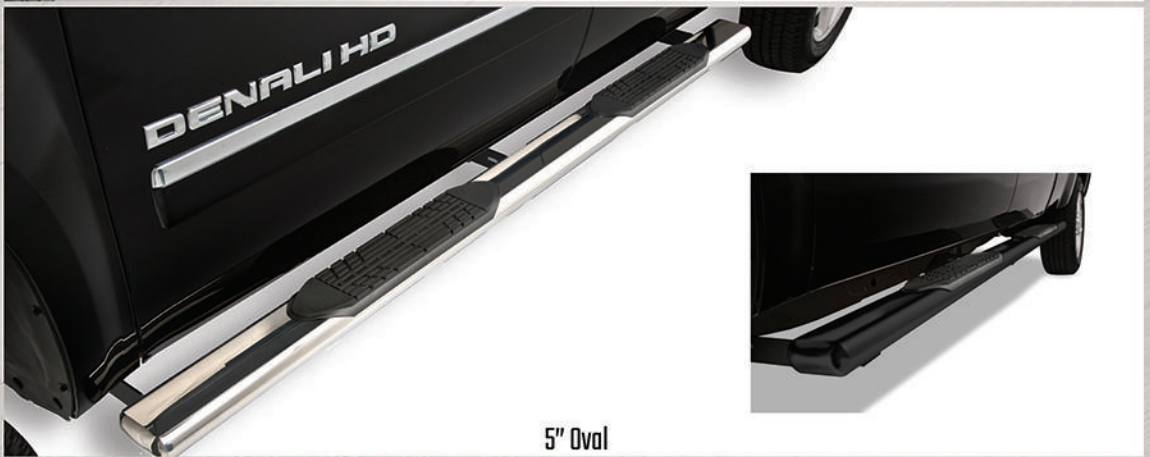

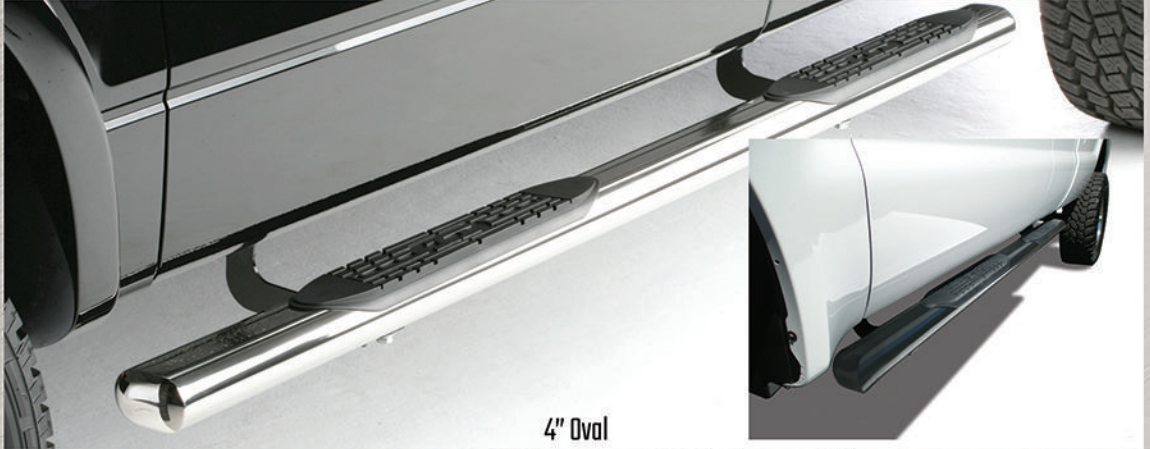

OVAL NERF BARS

ICI Oval Nerf Bars

ICI offers an assortment of Oval Step Products. We began with the popular 4" oval and followed up with the 5" & 6" applications. ICI was again the first to provide the stainless steel welded end caps to replace the problematic plastic end caps that presented many warranty problems industry wide. All oval steps feature a molded plastic step following our form fit saddle design to all but eliminate warranty replacements. All ICI Oval Step products feature no drill installations.

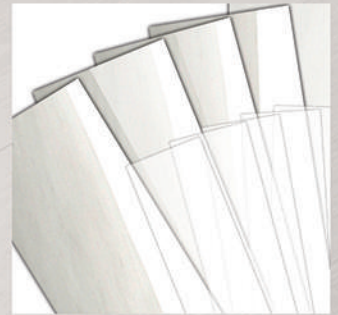

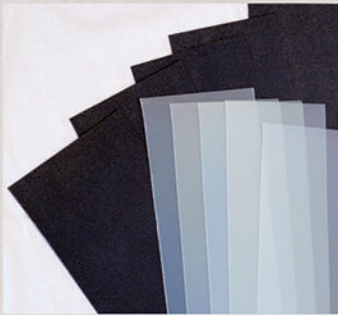

ROCKER PANEL AND FENDER TRIM

ICI Rocker Panels

ICI was the pioneer of Stainless Steel Trim Accessories and have been manufacturing and distributing the Rocker Panels since 1982. The Rocker Panels, which are made from 304 stainless and 3M backed adhesive, have been an innovative and highly popular accessory to both retailers and installers for over 35 years! We offer Stainless Steel pre-cut kits or our popular DIY Rocker Armor or Proflex Runner System kits which come complete with pattern material for one off applications. **"History of Innovation since 1982"**

ICI Fender Trim

Innovation has always been at the forefront here at ICI. Another example of this was the development of our Fender Trim products. ICI was the first company to develop Domestic Brand Fender Trim Accessories. We were also the first to provide applications for Pick Up Trucks and SUV's. Our fender trim features a polished stainless-steel finish and comes in half moon and full moon applications. Each set is formed for a perfect fit and is installed with 304 Stainless Self Tapping screws.
