

SP1836P

2009 Mitsubishi Lancer GTS 2.4L 4 cyl.

injen[®]

TECHNOLOGY

+Gains of up to
11 hp - 10 ft.lbs torque

Features and Benefits:

- **MR Technology** (Tuned intake to factory air/fuel ratios)
- **Air Fusion** (adjust short/long term fuel trim levels)
- **Injen/AMSOIL Ea nano-fiber dry filter**
- **Heat-resistant 4-ply silicone intake**
- **Tuned sensor adapter**
- **calibrated sensor housing**
- **Mandrel-bent prime aluminum alloy**

Technology at work!

What do you get when you combine Injen's patented "MR" step-down process with the "Air Fusion" tuning technique? You get 11 h/p and 10 ft./lbs. of torque. The all new SP1836 is the only cold air intake on the market that brings together the latest in technology. Also new to the line is the Injen/AMSOIL Ea nano-fiber dry filter, the most advanced, oil-free filtration media ever developed. Who would you trust: the company that invented the step-down process or the copy-cats trying to figure out the step-down process? Injen Technology, the right choice!.
