- 3/16" OUTER STEEL SHELL
- INTERNAL MOUNTING BRACKETS AND GUSSETS
- LIFETIME GUARANTEE AGAINST BREAKAGE!!

CUSTOMER TESTIMONIALS

NAME: DON HARWARD

TRUCK MODEL: FORD BRONCO

This is what happens to a Road Armor bumper when it hits a 30 ft. 18 in. dia. tree at 50 mph. the front fenders and hood were the only damage outside. the frame moved 6 inches, front of engin mounts, but every one inside was fine. The bumper not only saved our lives, it is saveable and will be on my next monster truck. The Bronco has a 6in. lift from superlift and there steering set up. Tires are Micky Thompson Baja Bear Claw 37 in. with 513 gears and locked up with ARBs front and rear. The real reason that I am taking the time to write is to say Thank you. It was your bumper in deed that saved my buddy his son and my two boys. So if anyone is triing to decide if they want to spend the money on a Road Armor bumper look at this and aks, How safe do you want to be for not only you but every one in your rig. The tree snapped off about 15 ft up and the truck and bumper up rooted the rest of the tree. Then the top portion doped on the hood of my truck. Road Armor is the tuffest.

Thankyou

NAME: DAVID

TRUCK MODEL: H2

I have received and installed the Road Armor bumper and my dealings with James and Road Armor have been exemplary. The product is one of the best manufactured products that I have seen. I have showed it to other fabricators and they rave about how sturdy and well made it is. The next question they ask is how much, followed by, "...I wouldn't make you one of those for that...". I will continue to do business with Road Armor and will recommend them highly to anyone that is looking for a first rate "functional" product for their H2.

NAME: NICK

TRUCK MODEL: 2006 CHEVY 1500 4X4

I love the bumper bought from you. I have a 2006 Chevy 1500 4x4 and it went on so easy and looks great. Me and my friend had it on my truck in about 6 hours that is with putting the winche on to. Then we went out to test it out. I pulled a 2004 Chevy 2500 HD out of a deep mud pit and pushed over trees with it and it held up great the paint didn't even get messed up. I have taken it to truck shows and won 1st and 2nd place. I can't go any place with out someone asking me where i got the bumper from. I just wanted to say thanks for making a bad ass bumper.

NAME: ANONYMOUS

TRUCK MODEL: 2007 SILVERADO 2500HD

As a business owner I know how people are fast to complain yet slow or never to say thank you. This email is to say thank you for such a great product. We have your Road Armor bumpers front and rear on our 2007 Silverado 2500HD and were in a crash 2 weeks ago. A drug dealer on crack pulled out in front of us, nothing we could do. The truck is totalled and the world has one less drug dealer. However my wife (driver) and 10 year old son were fine with only minor bruises. We see that you get what you pay for with a Road Armor bumper, money well spent! Yes, the bumper is ruined, but it is amazing that the bumper took up a lot of the impact. We have purchased your bumpers for two of our trucks and will continue buying your product for all of our trucks in the future. We just purchased a 2007 1/2 GMC Sierra 2500HD (new body style) and are anxiously awaiting your bumpers to come out for them.

Thank you for possibly saving my wife and sons life.

NAME: AARON S. WHEELER

TRUCK MODEL: 2002 DODGE RAM 4X4

Dear Road Armor, I have owned my stealth Road Armor Bumper with Titan Guard now for three years and it not only still looks great but it has also endured two deer strikes and a car accident without sustaining any damage. Ok, the car backing into the front of me scuffed the powder coat a little but that was it. I am extremely impressed with your product and even though the price may seem a bit high at first, this bumper has saved my truck three times and I know that has made a world of difference, it clearly has paid for itself more than once. It was worth every penny I spent for it and I am still glad I got it today, keep up the great work!

P.S. The first deer I hit I was doing 45mph, NO DAMAGE to the truck, one dead deer though.

NAME: COTTIN ROOD

TRUCK MODEL: FORD F-350

Thanks for the indestructible product!!!!

NAME: LLYOD HIE3

TRUCK MODEL: FORD SUPERDUTY

So far I have had one guy stop me while I was crossing four lanes of traffic just to ask me where I got the bumper. I gave him your web site as quick as I could with on coming traffic getting closer and closer. The next day I went to a business that sells some wheel drive parts and accessories, I was looking for d-ring shackles and PIAA lights. The owner saw me pull up and he was out looking at the bumper before I got out of the truck. After crawling all over it he told me that he sells Warn bumpers and that they couldn't hold a candle to mine (yours) and he wanted your address because he wanted to be a dealer for your bumpers. He may have got in touch with you already. I just want this bumper to look its best. I almost forgot to tell you my wife likes it so much she wants me to put one on the back.

NAME: DANNY

TRUCK MODEL: H2

All I can say is this thing is AWESOME!!! It looks like it is suppose to be part of the vehicle. I love this thing. It has been the best purchase yet for my vehicle. I am going to be getting the rear and the Atlas Guard too. I have had nothing but positive feedback from everyone who has seen it.
