GetOffGrid

Few brands in the off-road industry can match the legacy of Smittybilt. For over 60 years, Smittybilt has been the brand customers trust to outfit their Jeeps and trucks with reliable, functional accessories. All Smittybilt products are created by off-road enthusiasts who recognize a need for something better than what has been previously available. This deep heritage of innovation continues today with over two thousand unique products for not only Jeeps, but trucks and SUVs as well.

Smittybilt is best known for their distinctive bumpers and armor. However, their expansive line extends well beyond Jeep accessories and includes trail equipment, winches, soft goods and much more. Smittybilt's winch products offer the best value in the industry and are packed with features typically reserved for products costing much more, with sizes tailored to fit everything from ATVs to full-size trucks.

Backed by the superior customer service and the best warranty in the industry, Smittybilt service doesn't end with your purchase. Smittybilt, Get the Original.

GET THE ORIGINAL

For over 60 years, Smittybilt has been the brand customers trust to outfit their Jeeps with reliable, functional accessories. And because our products are created by off-road enthusiasts, they are made to withstand the roughest, toughest treatment that can be dished out.

That is why Smittybilt's M-1 truck line, the SRC/XRC lines of rock crawling accessories and the XRC/X20 winch families are backed by the Smittybilt Advantage Warranty – one of the strongest warranties available in the off-road market.

This warranty features limited lifetime coverage for all steel-based products, such as bumpers, sides, steps and armor, from manufacturer defects. It also offers a five-year warranty on our signature two-stage powdercoat finish, which is available in textured, satin or gloss black. For Smittybilt's line of waterproof winches, enjoy peace of mind with a lifetime mechanical warranty, as well as an extended electrical warranty (five years for X20 and three years for XRC models).

Smittybilt offers these extended warranties because they stand behind their products and want their customers to enjoy the freedom of off-roading without the worry and limits of fragile equipment. Welcome to the new Smittybilt – where history and experience lead to innovation and quality.

- C** Winchless Shroud
- D** Winch Cradle
- E** Removable Mesh Panels
- F** Light Brackets

MODULAR

1/8" steel with a 3/4" radius construction provides performance and protection

Winch cradle accommodates up to 17k winch. Can be removed with bumper installed

Removable mesh panels include provisions for 3"x3" LED cube lights

Front bumper includes 21" and (2) 6" LED light bars. Rear includes (2) 6" LED light bars

THE ALL NEW

M1A2 HEAVY DUTY MODULAR TRUCK BUMPER

The all new M1A2 Heavy Duty Modular Truck Bumper gives you full control to transform your truck – depending on whether you want to conquer the toughest trails or simply make heads turn. The powerful, 1/8" steel bumper is smart-engineered for both strength and weight savings and the lower panels can be removed for better approach angles and tire clearance. The blazing 21" LED center light bar can be installed above your bumper to light up the darkest roads. Once off the trails, the modular design allows you to take out the winch and plate (without removal of the bumper) and install the main light bar inside the winch cavity, giving it a sleek, stylish display that will be the envy of any urbanite.

M1A2 Front Bumper

- Modern, modular design allows front bumper to go from winch to winchless with ease
- 1/8" steel frame makes it stronger and lighter, with less flex than traditional bumpers
- 1/4" steel winch cradle offers increased durability and load capacity
- 21" LED light bar and two 6" LED side lights included
- Winch cradle can be removed or installed without bumper removal
- Mesh panels improve airflow while protecting engine components
- Optional OE 3x3 lights can be installed behind mesh panels
- Fully compatible with OE sensor packages
- Radius to match OE styling

M1A2 Rear Bumper

- Sleek design follows truck body and matches M1A2 front bumper
- Integrated D-ring mounts for added strength
- Two bright, 6" LED light bars included
- Removable mesh panels for customization
- Mounting points provided for OE license plate lighting/trailer plug
- Fully compatible with OE sensor packages
- Radius to match OE styling

3 STAGE TREATMENT

- Dual stage powdercoating
- Special "E-Coat" inside & out
- Acid dipped to remove impurities

M-1 FENDER FLARES

M-1 FENDER FLARES

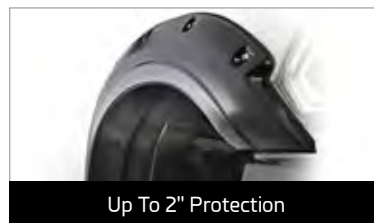

These M-1 truck fenders will not only provide additional tire coverage, they'll give your truck an instant rugged off-road look. They are constructed from an OEM-quality ABS material that is heat resistant and UV stable. As a benefit of superior material quality, these fenders are paintable. No drilling is required and all hardware, rubber gaskets and rivets are included to make fitment hassle free.

- Rugged, off-road look
- Up to 2 inches extra tire coverage to prevent road debris from hitting side of truck
- Lightly textured and paintable
- Stainless steel rivets and rubber gasket is included for tight fit

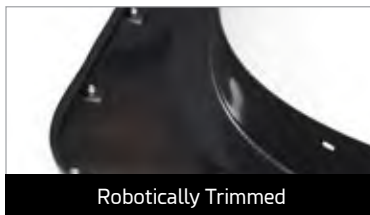

NOTE: Vehicle badging may need to be relocated

NERF STEPS

Smittybilt Nerf Steps are truly the next generation in side step technology. They feature a 3" main tube with an innovative four-step drop down design with a cleated step plate. Each bar is custom-made for each application and provides one of the sturdiest attachments in the industry. The new stainless steel bars are constructed completely of 304 marine grade stainless steel and comes with a limited lifetime warranty. The drop steps are welded on and then ground down and smoothed out to provide a truly finished look. Nerf Steps are also available for Jeep applications.

- Designed to go wheel-to-wheel on all models
- Most Nerf Steps have a 445 lb. weight rating – the highest in the industry
- The drop-down step features a welded, cleated step plate that won't crack or break
- Welded one-piece units for faster, easier installation – no assembly needed or brackets to bolt on
- No drilling required on most applications
- No modification necessary on trucks with body lift
- High-gloss black powdercoat or polished stainless steel finish

SURE STEPS

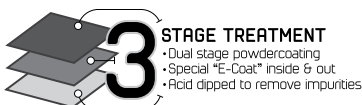

All Smittybilt Sure Steps™ are custom fit to the specific vehicle application. Unlike other brands, we do not use generic length tubes with cheap brackets. Smittybilt incorporates a third center bracket for greater strength. The 300 lb. weight rating makes the Sure Step™ the firmest, easiest to install tube step ever created. Every Sure Step™ uses powdercoat painted 3/8"-1/4" steel. No drilling of brackets is required. All step pads are secured with five pins into a compressed step area. No exposed metal to rust or flimsy pad attachments! Each bracket has been custom designed to ensure a "No Bounce" fit and ease of installation. Powdercoated Sure Steps™ are pretreated with an "E-Coat" creating a rust barrier found only on OEM manufacturing levels and very few other side bar steps. Each Sure Step™ has been tested to a minimum 500-hour salt spray test. On a side-by-side comparison, our competition failed at 250 hours! Sure Steps are also available for Jeep applications.

SMITTYBILT

GET THE ORIGINAL

SMITTYBILT *Defender Rack*

Smittybilt has the answers to all your storage and cargo needs. Made with heavy duty 16-gauge steel, the Smittybilt Defender Rack series maximizes your cargo carrying capabilities while boasting aerodynamic styling that complements today's vehicles.

Racks feature fully welded joints and light tabs; one-inch tubing that acts as a base for a variety of attachments; integrated flooring to maximize functionality; and multiple mounting options for a wide variety of applications.

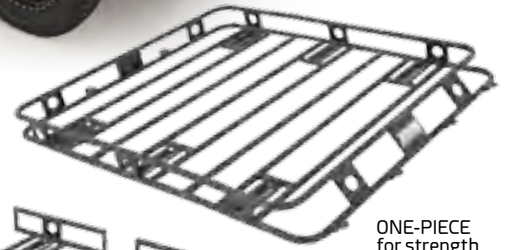

Choose from three versions: the one-piece rack offers additional structural stability with fewer moving pieces; the two-piece bolt-together version is shippable via UPS for added convenience; and the platform rack is perfect for mounting large items, such as a tent. Speciality packages are also available for customers with vans. These packages are available in either a 9.5 ft. or 12 ft. lengths, can be modified by installing additional center sections and come complete with the rack and mounting kits.

Optional mounts for axes, shovels, trail jacks and spare tires can also be bolted directly on to your Smittybilt Defender Rack. All Smittybilt Defender Rack products are finished in Smittybilt's signature two-stage matte black textured powdercoat and backed by some of the industry's best warranties.

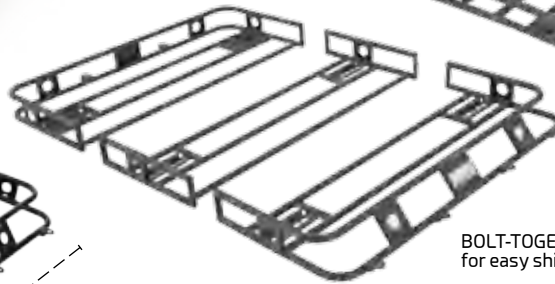

SMITTYBILT DEFENDER RACK

AM

AM - DRILL-IN MOUNTS (ADJUST-A-MOUNT)

Designed for the vehicle's roof without rain gutters or mounting on any other flat surface. Rubber expansion nuts attach the pivoting base plate bracket to the roof. The upper bracket then attaches to the base plate and rack. This system requires drilling the vehicles roof and should be considered permanent.

DS

DS - O.E. MOUNTS

The hardware kits are vehicle specific. They are designed to attach a Defender Roof Rack to the factory roof rack rails without drilling or modifications.

SMITTYBILT DEFENDER RACK

HD/HDS-RAIN GUTTER MOUNTS

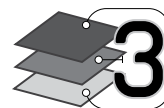

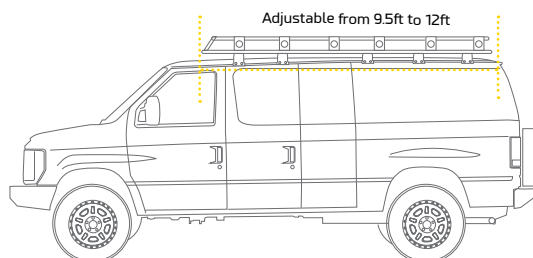

The heavy duty rain gutter clamps are designed to mount to vehicles with factory roof to rain gutters. Rain gutter clamps are available in two heights. HD Part # (6" from bottom of clamp to the top of the extension bracket) HDS Part # (3" from bottom of clamp to the top of the extension bracket)

ATLAS

ATLAS BUMPERS

The Smittybilt Atlas bumpers have gone through extensive design and testing to meet stringent international pedestrian safety standards. As a result, these bumpers are extremely strong and functional as well as being stylishly chiseled. The rear bumper utilizes a new cam-style pin adjustment for ensuring perfect gate stowing every time. Re-opening the gate requires minimal effort and the double latch will eliminate accidental opening.

**INNOVATIVE
4-PIECE
DESIGN**

- A** Bull Bar
- B** Winch Plate
- C** Skid Plate
- D** Atlas Bumper

ATLAS – FRONT BUMPER

- Innovative 4-piece design

- O. Carattini, San Marco, CA*

XRC GEN2 BUMPERS

The new XRC Gen2 bumpers have been completely redesigned with more aggressive styling and heavy duty features, giving you the ultimate performance for rock crawling. These stubby bumpers provide increased clearance and have angled corners for more aggressive approach angles in extreme conditions – perfect for vehicles running oversized tires.

The redesigned solid D-ring and jack point mounts are welded on the inside and out, and feature an integrated recovery point for easy access. This new bumper also allows the use of the OE fog lights. The winch plate has been placed lower for greater airflow to the radiator, while the new overrider is 1.75" diameter and has integrated mounts for additional lighting. The modular nature of the rear bumper allows you to add a bolt-on tire carrier to the bumper (#76857). The XRC Gen2 is also available in the new Light Texture finish. See the following pages for details on the entire line.

XRC GEN2 JK FRONT

Max solid D-ring and jack point mount welded on the inside and out!

AGGRESSIVE, STUBBY DESIGN.
 Raised corners for better entry and exit angles in extreme conditions

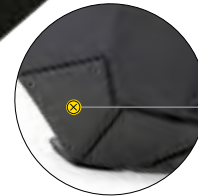

Light mount tabs for lights up to 9 inches in diameter

OE fog light ports (Lights not included)

1.75" .120 wall kickers offer fender-to-fender coverage

Ability to accommodate up to 12k winch. Comes with both 6x4.5 and 10x4.5 bolt patterns

Two-stage textured matte black finish (also available in new Light Texture)

PP+TPO slip strips – the ultimate for rock crawling, provides 5/16" additional damage protection

Manufactured from 3/16" cold rolled steel

SRC GEN2 BUMPERS

The SRC Gen2 bumpers have been completely redesigned for greater fender-to-fender protection. Manufactured from 3/16" cold rolled steel, the bumpers feature corners that extend to match the factory fender lines. The raised corners allow for better entry and exit angles in extreme conditions.

The bottom and sides have been reinforced with replaceable PP+TPO slip strips, which provides an extra 5/16" of damage protection. The redesigned solid D-ring mounts are welded in the inside and out and feature an integrated recovery point for easy access. Each rear bumper features two bright 6" LED lights and a class III, 2" receiver hitch that is incorporated into the bumper and bolts directly up to your factory mounting points. The modular nature of the bumper allows you to add a bolt-on carrier that fits up to a 40" tire and can be easily opened and closed with one hand. See the following pages for details on the entire line.

10X MODULAR BUMPER JK

10X MODULAR BUMPER

The NEW Smittybilt 10x Modular Bumper was inspired by the 10th Anniversary Wrangler Rubicon but can fit on any JK. The modular features allows you to install a winch (up to 12k) or go winchless when needed. Wings can be added for a sleek, streamlined look or can be removed to become an aggressive stubby bumper.

FRONT BUMPER

- Includes center base bumper, wings, winch plate, winch plate cover, fairlead cover and hooks
- Heavy gauge, 3mm stamped steel and internal gussets for superior strength
- Heavy duty winch plate included – compatible with most winches up to 12k
- Recessed winch mounting location does not restrict engine cooling
- Modular design – center base is aggressive, stubby bumper. Wings, winch cover plate and fairlead cover can be affixed for a sleek, winchless look
- Red factory-style tow hooks included
- Removeable shackle mounts included (Note: not compatible with mid-2012 and earlier JKs)
- Provision included for OEM anniversary fog lights
- Airbag compatible

REAR BUMPER

- Low profile design for addition clearance
- Works with Smittybilt XRC Gen2 Tire Carrier (#76857/76857LT)
- Surface cap (not shown) gives rear bumper a sleek appearance when tire carrier is not in use
- Compatible with the factory receiver hitch and OEM tow hooks

Shown with wings removed

Custom-build your own bumper with the **M.O.D. BUMPER SYSTEM [MULTI OPTIONAL DESIGN]**

Shown: Center Section (#76825) with Full Width End Plates (#76828), Modular Stinger (#76827) and black quick disconnect D-rings (#13049B)

Smittybilt appreciates that Jeep owners want to customize their vehicles to fit their specific needs. This was the inspiration behind the Smittybilt XRC M.O.D. bumpers for 07+ Jeep Wrangler JKs. The base unit was developed around our XRC platform and comes standard with a high-capacity winch cradle and D-ring mounts that provide a towable anchor point. What you do from there is up to you. The ends can be left bare to optimize approach angle, or you can add stylish end plates to protect your fenders. They can be easily bolted and unbolted to create a whole new look in minutes.

- Manufactured from 3/16" cold rolled steel
- Solid mount D-rings - welds on the inside and out
- Multi-piece options allow you to build your bumper in any configuration for any situation
- Built-in plate to accommodate up to 15k winch
- 6x4.5 and 10x4.5 winch bolt patterns
- Marine grade stainless steel hardware

" I love my XRC MOD Bumper system! It's quality made and it just looks amazing!"

SRC GEN1 FOR TJ / YJ / CJ

These heavy-duty bumpers are designed for off-road use and abuse. Durable powdercoat painted 2" x .120" wall tube protects your front end from those large rocks or boulders. Each bumper has sloping ends for greater tire travel and enhanced entry and exit points. Just like the front, each rear bumper has a 3/16" solid plate center section which is designed to contour around an oversized tire to give you the maximum tire clearance when opening and closing your tailgate. Each rear bumper features a class III, 2" receiver hitch that is incorporated into the bumper and bolts directly up to your OE points. Includes two D-ring mounts for those sticky situations (D-rings sold separately)

- Manufactured from 2" x .120 wall tube

TUBULAR BUMPERS

With three different finishes and multiple applications, Smittybilt offers the highest-quality tubular program on the market. Each front and rear bumper is robotically welded to exacting specifications to ensure long life and continued good looks. It is then specially treated with a dense zinc undercoating before being put through a dual powdercoat painted finish or triple chrome plating. The stainless version begins with the highest-quality virgin 304L stainless steel that is polished to a mirror finish. All Smittybilt tubular front bumpers have the signature look with pre-cut vertical uprights and come with or without hoop. Rear bumpers are available with a 2" square receiver hitch that has a 3500 lb. towing weight, 350 lb. tongue weight.

§ Not compatible with winch plates.
Not compatible w/ most winch plates. TJ must lower fuel tank.

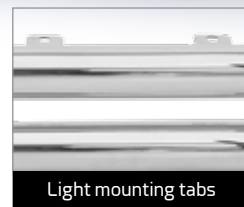

3 STAGE TREATMENT

XRC TAILGATE w/TIRE CARRIER

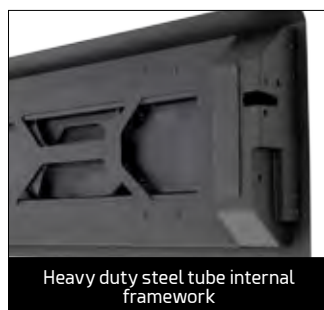

- Built-in, adjustable tire carrier eliminates need for factory or bumper tire carrier
- Tire carrier fits up to 37" tire and uses OE bolt configuration
- Cast steel hinge points and rigid, durable steel construction reduces sag
- 14 gauge steel outer skin with textured black finish
- Direct bolt-on - no drilling or cutting required
- Mounting holes for factory handle and latch
- Steps allow easy access to top, with integrated tie down points and bottle opener
- Stylish stainless steel badging on steps and hinge
- Integrated seal replaces factory vent location. Weather seals included
- Weighs only 100 lbs
- Can be installed with any Smittybilt bumper or accessory, as well as factory bumper
- Pre-drilled holes for Smittybilt G.E.A.R. Tailgate Cover (#56623XX) and Tailgate Table (#2793)

SLANT TIRE CARRIER ADAPTER KIT

Spare tire carriers in their conventional, upright positions are a necessity for every Jeeper, whether on the road or off, but when the terrain gets extreme and your standard hard top comes off, Smittybilt's new Slant Back Tire Carrier Kit allows you to move your spare tire into an aggressive, 45° pre-runner position.

- Designed for use with Smittybilt's XRC Gen2 Bolt-On Tire Carrier (#76857), Cargo Restraint System (C.RES) or JK Bowless Tops
- Manufactured from 3/16" cold rolled steel, weighs 8 lbs.
- 1" diameter hardened pin
- Easy, bolt-on installation. All hardware included
- Compatible with Rotopax® gas/water can and off-road jack mounts, if used with XRC Gen2 Bolt-on Tire Carrier (#76857)

PLEASE NOTE: Combination of Pivot Tire Carrier (#2843) and Slant Adapter (#76857-05) is not compatible with Smittybilt Slant Hard Top (#518702/517702)

SRC PIVOT HD OVERSIZE TIRE CARRIER

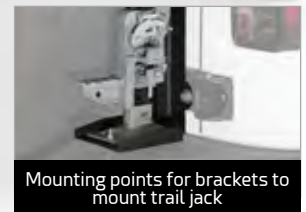

If you are running oversized tires on your 07+ Jeep® Wrangler JK you need a full-size spare tire, but perhaps you don't want to run an aftermarket rear bumper with an integrated tire carrier. Smittybilt has the solution with their Pivot Heavy Duty Oversize Tire Carrier.

- Maintains easy single action of opening and closing of the tailgate
- Strong monoblock aluminum construction eliminates tailgate sag
- Adjustable tire mount with 37" maximum tire size, up to 135 lbs
- Forged chrome mounting brackets – 30% stronger than steel
- Protective EPDM gaskets included to protect factory finish
- 1" diameter hardened pin and hardened hinge points
- Third brake light mount included
- No drilling required - you can maintain OE bumpers, if preferred
- Mounting points for brackets to mount trail jack. Mount (#2844) and Trail Jack (#2722) sold separately

PLEASE NOTE: Combination of Pivot Tire Carrier (#2843) and Slant Adapter (#76857-05) is not compatible with Smittybilt Slant Hard Top (#518702/517702)

Mount DS31-4

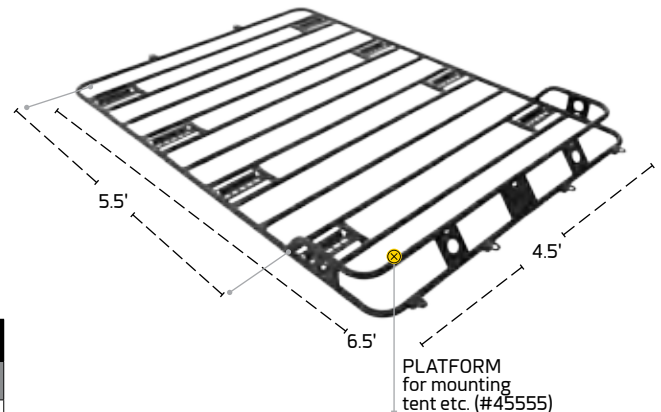

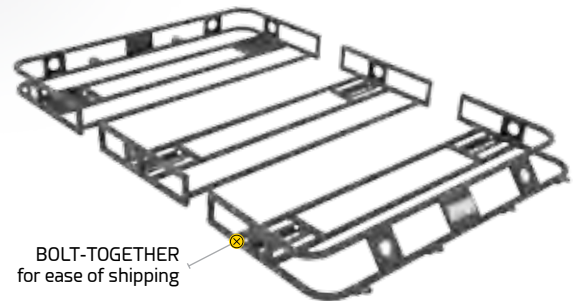

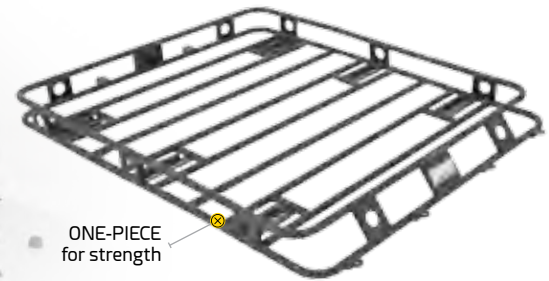

"It was so easy installing your SRC Roof Rack Base with the 4.5x5 Defender Roof Rack on my 1998 Wrangler. It not only looks great but it holds a lot of my stuff!"

– T. Wong, Cypress, TX

SMITTYBILT DEFENDER RACK

Made with heavy duty 16-gauge steel, the Smittybilt Defender Rack series maximizes your cargo carrying capabilities with aerodynamic styling that complements today's vehicles. Racks feature fully welded joints and light tabs; one-inch of attachments, integrated flooring to maximize functionality; and multiple mounting options for a variety of applications. Choose from three versions: the one-piece offers additional structural stability with fewer moving pieces, while the two-piece bolt-together version is shippable via UPS for added convenience. Optional mounts for axes, shovels, trail jacks and spare tires can also be bolted directly on to your Smittybilt Defender Rack.

ROOF RACKS

SRC ROOF RACK

Finally, a complete roof rack system that is tough enough for off-road! Constructed of powdercoated 2" x .120" steel tubing, backed by heavy-duty 3/16-1/4" brackets, this Roof Rack system is as tough as it is durable.

- Removable crossbars for easy top removal
- Designed for use with most aftermarket accessories (Thule, Yakima, etc.)
- The perfect add on rack for all SRC front, rear and side tubular products
- Four-point mounting system holds up to 700 lbs
- Contoured design eliminates "boxy" look
- Custom designed for your Jeep
- Add on the lightweight Smittybilt™ Rugged Rack for the ultimate off-road rack/basket combination (see below)
- Modular design is easy to install – Can be shipped UPS
- Smittybilt Advantage Warranty

- A** SRC Roof Rack JK 2-DR
- B** SRC Roof Rack JK 4-DR
- C** Rugged Rack

iRACK

INTELLIGENT RACKING SYSTEM

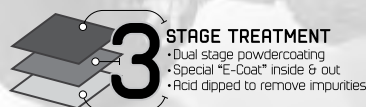

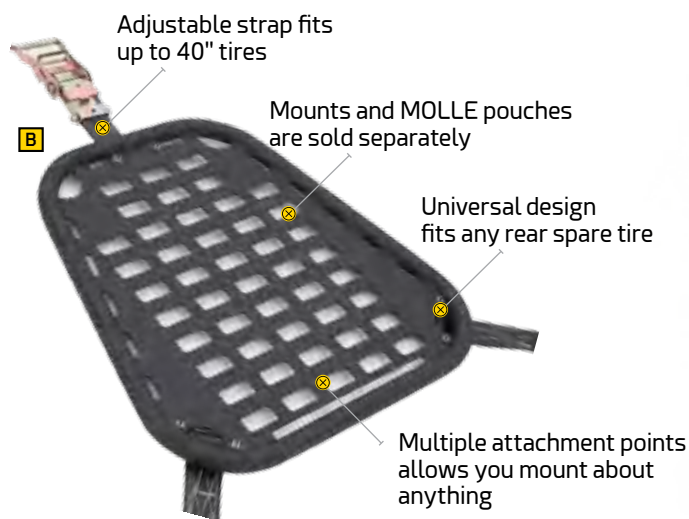

iRACK

iRack is one of the smartest products introduced to the trail. This system gives you a solid platform to mount just about anything you can think of to the back of your Jeep. The iRack comes with custom mounts for a Jerry can or jack. The multiple attachment points allow you the opportunity to run military bags, axes, picks and shovels. This is truly one of the smartest racks on the trail today.

- Attaches to any factory or aftermarket Jeep tire carrier
- Comes standard with Jerry Can attachments
- Manufactured out of 3/16" cold rolled steel
- Comes with all necessary hardware to mount trail or high lift jack
- Multiple attaching points

iRACK2

The all new Intelligent Rack 2 takes the functionality of the original iRack to a completely new level. You still get all the benefits of the original rack, except now it is a completely universal design allowing it to be mounted to any vehicle with a spare tire on the back! This is absolutely one of the smartest products introduced to the trail. Having this system provides you with a solid platform to mount just about anything you can think of to the back of your vehicle.

CAGE KITS JK

EXOSKELETON FOR JK

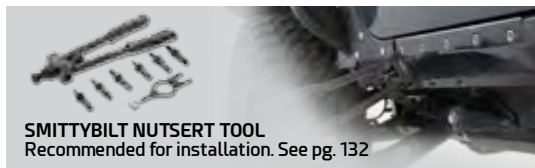

Smittybilt's new Exoskeleton for two and four-door 07+ Jeep Wrangler JKs fends off rocks and obstacles. The 1.75-inch diameter, 0.120-wall tubing is thick enough to prevent damage, yet the entire exoskeleton only weighs 257 pounds, minimizing the effects on your Jeep's handling and performance. Integrated mounting tabs allow you to add LED light bars, jacks, or anything else you can think of. The modular design of Smittybilt's Exoskeleton allows for a huge boost in safety while allowing easy installation and removal of both hard and soft tops.

- Made of sturdy 1.75" .120 wall tube
- Mounts directly onto vehicle body
- Maintains existing bumper and armor fitment of all Smittybilt bumpers and armor
- 14 touch points to improve mounting integrity
- B-pillar fixing point to reduce 'swaying' effect
- Four crossbars for rack/tent mounting
- Windshield crossbar for roof access
- Crossbars are removable for soft top or hard top removal
- Rear-facing light mounting tabs
- Front light bar mounting brackets can accommodate two 50" LED light bars
- Powdercoat finish - 5-year limited warranty
- Smittybilt limited lifetime warranty
- Entire system comes in at a light 257 lbs

3 STAGE TREATMENT

- Dual stage powdercoating
- Special "E-Coat" inside & out
- Acid dipped to remove impurities

SRC CAGE KITS FOR JK, TJ

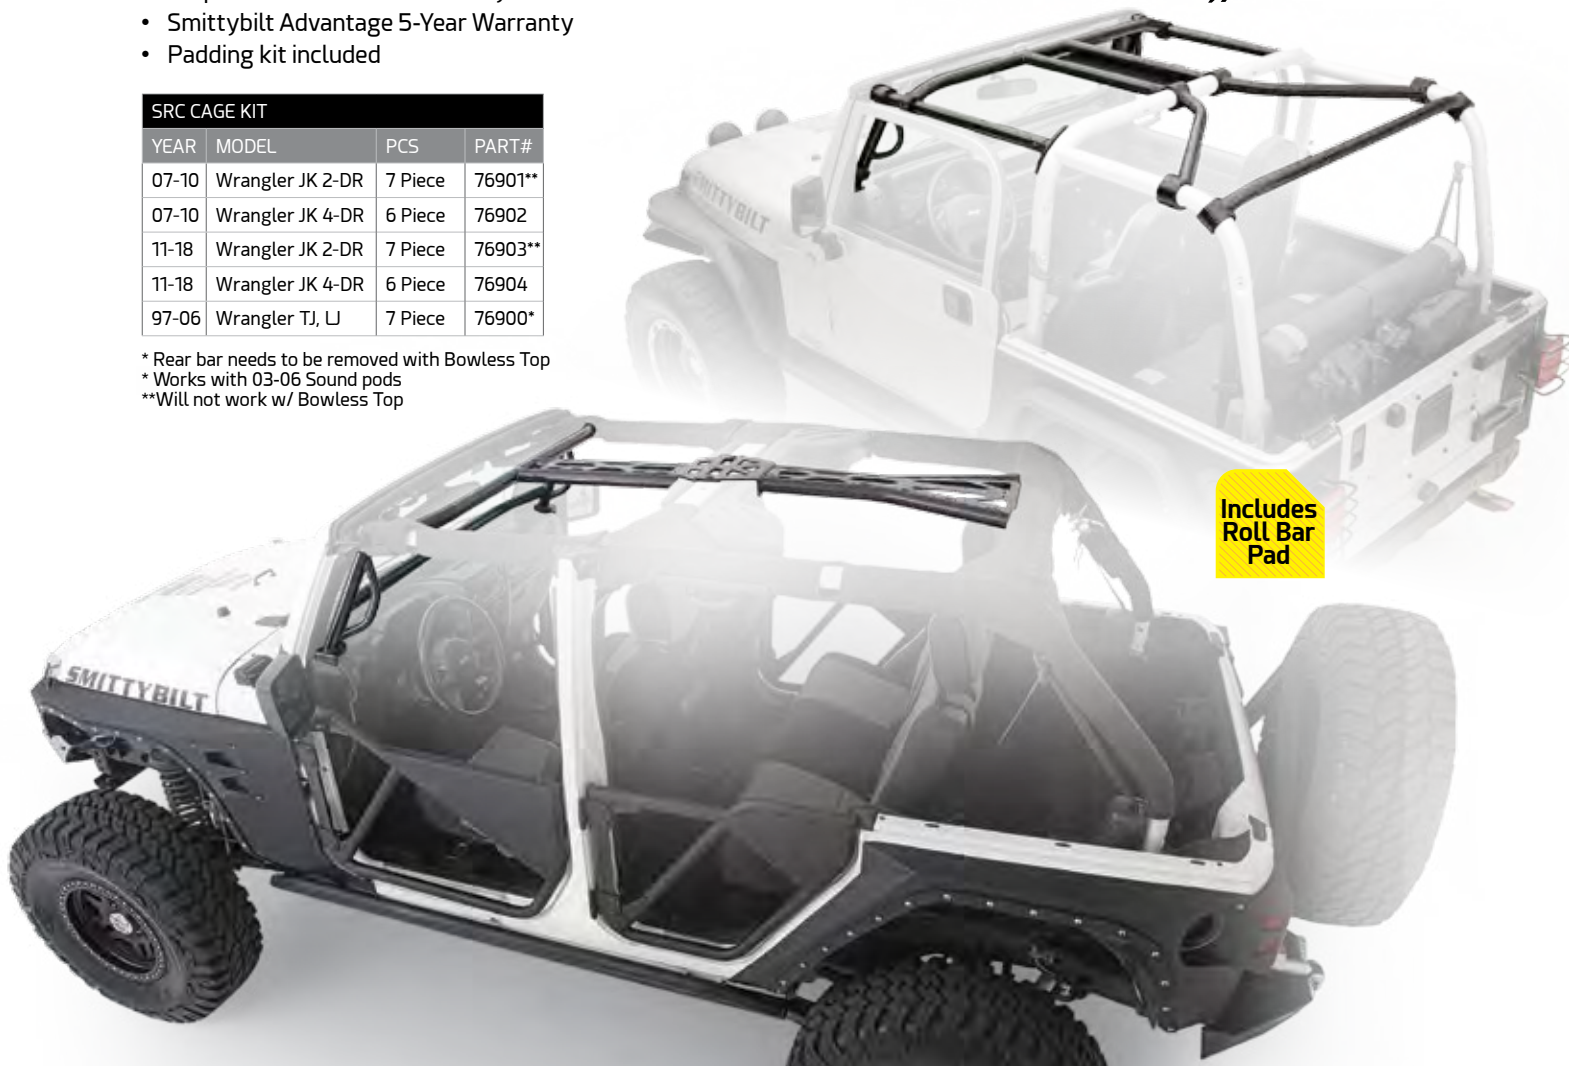

Smittybilt's reinforced cage kits are everything you'll need to strengthen your factory roll bar into a solid foundation. We start off with 1020 .120 Wall DOM tubing which is one of the strongest materials available. Each kit includes the new Knuckle System that attaches to the factory roll bar, using a unique pivot and fastening point which creates the strongest and the most durable mounting system available for your Jeep. All cages are engineered to bolt on directly and require no modifications to the vehicle. This ensures a rock solid install while creating one of the strongest cage kits available.

- Manufactured from 1020 .120" Wall DOM and made with 1.75" strong tubing material
- Built-in tubular grab handles provide easy entry and exit points when getting in and out of your vehicle
- Knuckle attaches using a unique pivot on one end and Grade 10 fasteners on the other, making it one of the strongest mounts available
- CNC-machined to exact specifications to ensure a rock solid mount
- Satin black powdercoat finish with 5 year limited finish warranty
- Requires modification to factory roll bar covers
- Smittybilt Advantage 5-Year Warranty
- Padding kit included

Smittybilt is proud to offer the most advanced Soft Top material in the industry...

Smittybilt's all new ProT3k fabric offers exceptional cold-weather performance with ability to handle frigid temperatures. The 37 oz. multi-layered, wrinkle-free material is 24% thicker than OE specs and has three layers of features:

Top Layer: Exterior striped outer canvas with sleek European styling

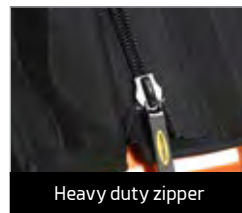

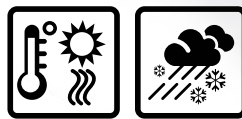

Center layer: Core of rubber/PVC provides waterproof protection

Interior layer: Luxurious cotton canvas lowers ambient road noise

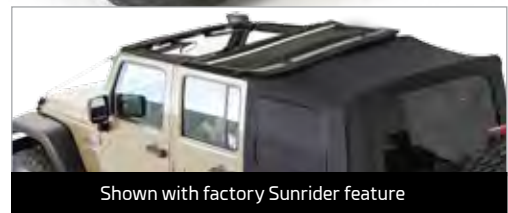

Our traditional Black Diamond canvas has been (and still is) the stalwart workhorse of soft tops, but if you want to take your Jeep® into the extremes, look no further than ProT3K:

BOWLESS COMBO TOP KIT

The most adaptable Jeep® top on the market – now available as a complete kit

SMITTYBILT
NEW PRODUCT

The Bowless Combo Top Kit from Smittybilt is the most adaptable Jeep® top on the market. If you're hitting the trail and clouds roll in unexpectedly you can quickly transform your Jeep so it is protected with a weatherproof full top. When the sun returns, simply zip out the side and rear windows and you're back to crawling in the open air again.

To make it even easier to enjoy this remarkable top, Smittybilt is now offering the complete Bowless Combo Top kit, which includes everything you need to install it on your TJ or JK.

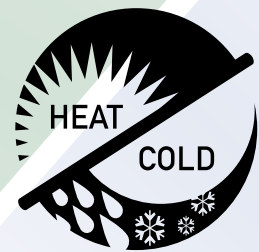

- Functions as primary full top – Convertible to extended top with removable side/rear windows
- DOT-approved tinted vinyl windows
- Easy storage and packing of side curtains
- Heavy duty buckle system prevents flapping
- Front internal storage compartments for easy access
- Self-correcting zippers run smoother and last longer
- Seams and stitch holes are heat-sealed to prevent leaking
- Top and accessories can be purchased separately if needed

Available in two choices:

- 1) Black Diamond: Marine grade, OEM diamond style material
- 2) Premium PROT3K multi-layered, wrinkle-free fabric (for 4-door JKs)

JK 4-door comes with six knobs, JK 2-door comes with four knobs

Works with cable and clip-in-style tops

OE-STYLE BOW ASSEMBLY

Smittybilt offers a variety of OE-style replacement soft top parts for the 07-18 Jeep Wrangler and Unlimited for a fraction of the cost from the OE Dealer.

If you've damaged your bow assembly or just need a door surround for either the driver or passenger side of your Wrangler, you can count on Smittybilt to get your soft top back to its OE-quality.

- CNC bent to exacting specifications
- Powdercoated to match OE finish
- Uses existing factory locations
- Some drilling or modifications required

NOTE: Converting an OE hard top to soft top will require door surrounds, (above) bow assembly and tailgate bar.

C.RES CARGO RESTRAINT SYTEM

When you're charging through the hammers, the last thing you want is your gear flying out. To avoid this, look to Smittybilt to provide you with a cargo restraint system. The C.RES top is manufactured out of OE soft top material, which is durable and will last you a lifetime. With a rear zippered curtain you're not limited to the size cargo you can carry.

- Mounts into the factory belt rail channel and straps around the factory roll bar for perfect fit
- OE diamond black finish
- Industrial grade zippers

Please note: TJ/YJ applications require factory tailgate channel*. JK applications require Smittybilt tailgate bar (or factory tailgate channel)* and factory door surround†.

CAB COVERS

Constructed with new space age fabric, Climate Cover protects your vehicle from the elements while allowing the paint to breathe. Soft and durable fabric pampers paint finish and protects from sun, dirt, dust, moisture and pollution with a unique diamond bond pattern allowing damaging trapped air & moisture to escape, preventing paint deterioration. UV protection against sun and heat buildup, spun bond polypropylene is naturally water repellent and double-stitched elastic hems for a custom fit.

Heavy-duty grommet, bag, lock and cable included.

- Constructed of durable, water-resistant material
- Protects your vehicle's interior from the elements
- Our water-resistant Cab Cover installs in just seconds and fits snugly over the windshield frame and roll bar for a custom fit
- For proper fit, soft top must be lowered

XRC PERFORMANCE SEATS

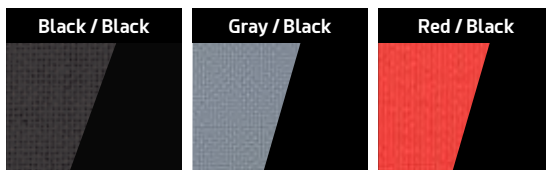

This lineup of race seats was developed for the true off-road enthusiast who demands the very best in suspension seat technology. Each XRC seat starts off with a Kodiak frame which is one of the strongest tubular frames in the industry. A high performance foam pack with a contoured single suspension liner provides the ultimate in comfort and quality. Each seat is covered with mil spec fabric and vinyl material. With its fixed headrest design and fully adjustable reclining system, the XRC Seat gives the look and performance needed for every situation. Matching rear seat covers for Jeep Wranglers applications also available.

- Dimensions: Height 34.50", Width 20.50", Depth 24.50"
- Mounts up to CJ / YJ applications directly to the factory sliders
- TJ / JK applications require additional brackets. Sold separately - see page 81.

REPLACEMENT SEATS

When you're looking for a quality replacement seat, go with one from Smittybilt. Each seat is manufactured to the exact specifications OE's require and features poured foam which provides the proper density needed in key areas of the seat. Seats are manufactured from a tubular frame and then powdercoated for long life. The trim cover is the toughest in the industry and is available in a variety of colors to complement your Jeep®. Each front seat is available in either a classic fixed back style or recliner to provide the optimum in comfort.

A

Two Large Storage Pouches (Rear)

SEAT COVERS

G.E.A.R. SEAT COVERS

The ultimate storage solution for your off-road vehicle! The G.E.A.R. seat cover is a completely new way of looking at storage for your off-road needs and fits factory and most aftermarket seats from 1976 to 2018. Each cover is completely adjustable and manufactured from 600 denier polyester with a PVC liner. Each seat includes pouches that fasten securely using a MOLLE/PALS Restraint System, which will not come loose under the harshest off-road conditions. Pouches can be moved around for ease of use or transferred to any backpack or bag with the MOLLE/PALS attachments. Seven pouches of various sizes are included with front seat covers. Five large multi-compartment pouches are included with rear seats covers. A removable American or Canadian flag is also included with each front seat cover as an added bonus! See part numbers on following page.

*Please note: pouch contents (compass, tool, etc) are shown for illustration purposes only and are not included with pouches

"One night I left [my Jeep] parked at the Portland Airport for a few hours. Unfortunately, that was enough time for someone to think he could break in and rob me. Obviously armed with a crowbar the robber pried and pried unsuccessfully to gain access to the Smittybilt console. My tool kit and controller remain in my possession due to the Smittybilt floor console that was so well designed. Thank you for making such a great product."

— Marc and Michelle C.

SECURITY FLOOR CONSOLE

- 16-gauge steel for heavy-duty security
- Lockable security compartment protects your stereo, CD player, CB or scanner while you're away from your vehicle

The new line of stainless steel accessories for the 2007-16 Wrangler has been completely redesigned to offer you the highest quality parts available. Each part starts off as chunk of solid 304 marine grade stainless steel. It's then cast in a pretreated mold which provides a part guaranteed to meet OEM Specifications every time. Once the casting is complete each part goes through an electrostatic polishing process that creates a high quality mirror finish. When you want a quality part that will fit and is built to last look to Smittybilt!

- Locking bucket drawer with height-adjustable stainless steel stabilizer legs
- Vented drawer with maximized air flow ideal for a generator
- Hardened steel sliders with 100 lb. capacity

D TONGUE BOX

- Lockable T-handle and water resistant door seals
- Ideal for towing accessory storage

E SPARE TIRE MOUNT

- Universal spare tire mount fits up 37" x 12.50" tire
- Dual ratcheting tire straps
- Multiple tie-down configurations
- Removable

F INDEPENDENT TRAILING A-ARMS

- Strong construction to withstand random hits from rocks, roots, and plain old dirt. Articulates for maximum ground clearance

G COMFORT RIDE COIL SPRINGS

- Helical Axis design for a smooth ride

H DUAL SHOCK ABSORBERS

- Reduces the effect of traveling over rough terrain with spring-loaded check valves that control the flow of oil through an internal piston

I LIMIT STRAPS

- Heavy duty dual-layered nylon-sewn webbing designed to prevent trailing a-arm over extension and avoiding suspension damage

OVERLANDER TENT AND ANNEX

Shown: Standard size Overlander tent with protective rain fly

OVERLANDER ROOF TOP TENT AND ANNEX

Few things are more rewarding than camping in the backcountry and roof top tents are a great way to set up camp in a hurry. Smittybilt's Overlander Tent is packed full of features and sets up in just minutes, keeping you safe and secure as you sleep. An optional Annex can be added to the bottom of the deployed tent with rugged zippers. Both the tent and annex are constructed from 600D heavy duty ripstop polyester that has been impregnated with polyurethane to ensure they are completely waterproof. Available in Standard (sleeps 2-3) or XL (sleeps 3-4) sizes.

OVERLANDER TENT

- Comes in two sizes: Standard (sleeps 2-3, 661 lb. max load) and XL (sleeps 3-4, 770 lb. max load)
- 60 mm high-density foam mattress with removable cover
- Easy to set up and take down, packable in heavy duty PVC cover keeps the tent completely dry and free from UV rays
- Includes sunroof, side windows with mosquito netting, heavy duty rain fly, Interior LED strips, shoe storage bag, anodized aluminum tent frame poles with stainless steel hinges

OVERLANDER ANNEX

- Provides extra privacy room for cooking, changing clothes, sleeping or more
- Attaches to tent with rugged, heavy duty zippers
- Comes in two sizes: Standard (70" x 80" floor, 10 ground stakes) and XL (82" x 93" floor, 12 ground stakes)
- Heavy duty, zippered removable floor keeps out mud and bugs
- Inner door flap allows easy access to your vehicle
- Side door and windows roll up for full access with underlying mosquito netting which can be opened or closed

*PLEASE NOTE: *XL tent is for trailer use only and not compatible with SRC cage kits. Illustration on this spread shown only to show relative size between Standard and XL Tent. See full specs in chart on the right.*

2600W EPS
ESSENTIAL POWER SOURCE
DIGITAL INVERTER / GENERATOR

Remote Start!

EPS INVERTER GENERATOR

Embrace the clean power of Smittybilt's new E.P.S. Inverter Generator. The latest technology has allowed Smittybilt to pack huge power into a small and quiet package. The "Smart Throttle" allows the motor to run at varying speeds for maximum fuel efficiency – something conventional generators cannot match. The Inverter's "3-phase inversion process" produces clean power allowing direct plug-in of sensitive electronics without worry. Count on Smittybilt to keep the power flowing.

- 2600w max output, 2300w continuous
- Years of service – Inverter has no moving parts
- C.A.R.B.-approved 4-stroke, OHV gas engine
- Low noise, 56~63 dB, 58 dB at 7M
- Dual 120 VAC outlets, Single 12VDC outlet
- 6-hour duty cycle at 50% load, with overload protection
- 1.5-gallon fuel tank
- One Year Warranty

Link Cable Included

X20 GEN2 WIRELESS WATERPROOF WINCH

The new generation of Smittybilt X20 winches have been enhanced in almost every area for increased performance and trouble free operation. Each X20 winch features a series wound amphibious 6.6 HP motor which is completely sealed, as well as a 3-stage planetary gear system. They have a completely waterproof, state-of-the-art 500AMP solenoid that has the versatility to be mounted in two different locations depending on your application needs. They also include a new controller that can be wired directly to the winch or unplugged for trouble free wireless operation. If you're looking for something more versatile, check out the X20 COMP series, complete with all the features and benefits of the original series, except equipped with a synthetic rope. The performance of the new X20 series cannot be beat. With gear ratios delivering lightning fast speed, coupled with Smittybilt's lifetime warranty, you can count on the X20 winch to be there every time, in every situation.

Multiple mounting options on the control pack

EXCLUSIVE FEATURE OF THE X20 SERIES: DYNAMIC INDUCTIVE BRAKING SYSTEM

XRC WINCH

XRC GEN2 WATERPROOF WINCH

The new series of Smittybilt XRC winches have been thoroughly updated with heavy-duty features for enhanced performance and durability. Ranging from 9,500lb – 17,500lb, Smittybilt's XRC winches can handle any situation you get into. The new 6.6HP motor is connected to a 3-stage planetary gear system with revised gear ratios for increased pulling power and line speed. Every winch is finished in a rugged UV-resistant matte black coating with stainless steel hardware and oversized aluminum crossbars to provide you with a great looking system that will last you a lifetime. Every system includes a heavy-duty remote control. The redesigned solenoid box can be mounted in three locations on the winch for maximum versatility. Each winch also includes a four way roller fairlead and a forged hook. If you're after a winch equipped with a state-of-the-art synthetic rope, look to the XRC COMP Series for the ultimate in pulling power and performance. A Smittybilt XRC winch is a complete recovery system with the muscle and reliability to bail you out of any situation.

Multiple mounting options on the control pack

ATV WINCHES

XRC ATV WINCHES ATV • UTV • MARINE • TRAILER

The 2,000lb, 3,000lb and 4,000lb XRC winches are some of the most powerful ATV winches on the planet today and come standard with more features and accessories than most winches in their class. These impressive little winches are also available in the COMP winches, which are fitted with synthetic rope and aluminum fairleads.

When you're looking for performance, state-of-the-art components and quality, look to Smittybilt for a premium product at an economical price.

H License Plate Holder with Roller Fairlead Mount	4432

BLACK BOX

The Black Box features three separate and completely lockable storage compartments to protect your winch and accessories from the weather and prying eyes.

- 4+ cubic feet of storage space
- Anti-wobble system eliminates need for external adapters
- Includes integrated D-rings mounts, recessed driving lights and illuminated light switch
- Mounts to any standard 2" receiver hitch
- Exterior: 42"W x 12"D x 13.75"H

NOTE: Winch, contents and D-rings sold separately

DESCRIPTION	PART#
XRC Black Box (universal)	2806

WINCH PLATES

- Manufactured from 1/4" steel
- Specifically for Jeep Wranglers
- Supports up to a Smittybilt 12,000lb winch
- Black powdercoat for long-lasting durability
- Pre-drilled holes. Mounting hardware included
- Some cutting required on OE bumper

YEAR	DESCRIPTION	PART#
87-06	Wrangler YJ, TJ - Winch plates for factory bumpers	2802
87-06	Wrangler YJ, TJ - Winch plates for aftermarket bumpers	2803
07-18	Wrangler JK - Winch plates	2804

WINCH CONNECTOR KITS

- Copper cable with cover
- Quick disconnect
- Oxygen-free copper wire
- Disconnects manufactured out of high impact PVC
- Includes 3' of 3 gauge winch mount connectors with covers

DESCRIPTION	PART#
8' Winch Connector Kit	35220
24' Winch Connector Kit w/On-Off Switch	35210

WINCH CRADLE

Attaching a winch just got easier with Smittybilt's heavy duty Winch Cradle. This kit gives you a variety of mounting options for front or rear installation because it works with any 2" receiver hitch. It is designed to accommodate most winches and includes a mounting plate for your roller fairlead.

- Manufactured out of the 3/16" and 1/4" cold rolled steel
- Finished in a two-stage satin black powdercoat
- Battery terminals sold separately
- Fits up 12k winch

DESCRIPTION	PART#
Universal Winch Cradle	2811

A.W.S. (ALUMINUM WINCH SHACKLE)

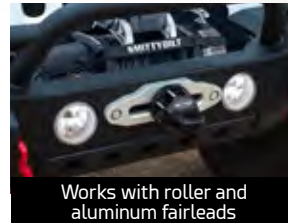

- Provides a safer and stronger winch point than standard winch hooks
- Easy install or removal
- Precision machined from lightweight billet aircraft grade 6061 T-6 aluminum
- Max load rating of 17,000 lbs
- Rugged, durable long lasting powder coat finish

17,000 lbs
MAX LOAD RATING

DESCRIPTION	PART#
A.W.S. Shackle	2820

Fits synthetic ropes and wire cables up to 1/2" in diameter

Works with roller and aluminum fairleads

Works with 3/4" and 7/8" D-Rings

POWER RECOIL SHACKLE ROPE

- Made from durable UHMWPE material
- Spliced on one end, knotted on the other
- Breaking strength of 34,000 lbs
- 1" rope creates 6" diameter when looped
- Flexible and easily wraps around anchor points
- Floats

NOTE: Do not use on sharp corners or tow balls

DESCRIPTION	PART#
Soft Shackle Rope	13051-B

RECOIL KINETIC ROPE

- Heavy duty and flexible Nylon 66 material available in 30' lengths
- Each rope has 12 carefully woven strands to provide better elasticity and strength, and are spliced at both ends
- Max elongation is at 30% - gives you an added 30% of length
- Each rope is carefully coated using ICO-THANE 10 material from Belgium, which has outstanding abrasion and cut resistance when applied. It gives a hard, highly extensible and tough layer over the rope and reduces dirt infiltration
- Breaking strength at 30k lbs and 60k lbs
- Abrasion, mildew- and UV-resistant
- Storage Bag included

RECOIL ROPE	PART#
1" x 30' - 30,000 lbs	CC121
1 1/2" x 30' - 60,000 lbs	CC122

SYNTHETIC WINCH ROPES [DSK-75]

- UV and abrasion-resistant, specially coated to prevent slippage of the winch drum
- Floats – minimal weight – minimal stretch –torque free – non-rotational
- 1/7th the weight of steel cable
- Stainless steel thimble and coated hook with spring clip
- No kinks, curls or wire splinters
- Protective sleeve to prevent overheating

SYNTHETIC WINCH ROPES	PART#
5/16" x 100' 8,000LBS.	97780
3/8" x 94' 10,000LBS.	97710
7/16" x 88' 12,000LBS.	97712
1/2" x 92' 15,000LBS.	97715
9/32" x 35' 4,000LBS. (ATV)	97704

XRC RECOVERY PACK

All-in-One Winch Kit includes:

- One XRC 9,500lbs winch
- One pair XRC Trail Gloves
- Two - 3/4" black D-ring shackles
- One 2" x 20' 20,000 lb tow strap

DESCRIPTION	PART#
A XRC Recovery Pack	97495P

PREMIUM WINCH ACCESSORY BAG

- Heavy-duty 600-denier bag with strap
- 40,000lb. 8' premium tree trunk protector
- 17,000 lb. snatch strap
- Shackle kit
- Choker Chain
- Premium work gloves
- 3" x 30' recovery strap

DESCRIPTION	PART#
B Premium Winch Acc. Bag	2725

WINCH COVERS

- Fits XRC 8k-12k lbs winches

DESCRIPTION	PART#
C XRC Winch Cover	97281-99

	40,000 lbs 4"X8' Tree Strap	CC408

Cover Included

SNATCH STRAP

- For those tough situations where a recovery strap is not strong enough
- Capable of 20% stretch underload to store kinetic energy to catapult your bogged down vehicle out
- 17,000 lbs
- Unstretched: 2 3/8" x 17.75'
- Stretched: 2 3/8" x 30'

DESCRIPTION	PART#
J Snatch Strap	CC120

SNATCH BLOCKS

- 17,600 and 36,000 lb. capacity for self-recovery winches

DESCRIPTION	PART#
K Snatch Block 36,000 lbs	2748
L Snatch Block 17,600 lbs	2744

WINCH PULL STRAP

- Fits all winch hooks
- Molded rubber grip
- Durable weather-resistant webbing

DESCRIPTION	PART#
M Winch Pull Strap	769402

TOW STRAP STORAGE BAG

- Easiest way to store your tow strap
- Manufactured out of 600 denier ballistic nylon
- Holds up to a 3" x 30' tow strap
- Includes convenient grab handle
- Ends cinch down to secure strap or open up for quick use
- Bag only. Tow straps sold separately

DESCRIPTION	PART#
N Tow Strap Storage Bag	2791

C.A.S.T. (CATALYST ACTIVATED SECURING TAPE)

- Great for on-the-road repairs
- 1,000 times stronger than Duct tape
- Works on metals, wood, glass, rubber PVC and plastics
- Non-flammable and waterproof when cured
- Temperature resistant (-49°F to 293°F) (-45°C to 145°C)
- Working repairs ready in 30 minutes
- Full strength achieved in 24 hours
- Sandable and paintable
- Essential addition to any tool box or repair kit

DESCRIPTION	PART#
C.A.S.T. (Catalyst Activated Securing Tape)	2734

TRAIL GOGGLES

- TPU frame with PC lens
- High anti-impact lens
- Anti-fog and anti-scratch
- CE approved/ANSI certified
- Integrated dust cover
- Carrying case included
- Three interchangeable lenses: yellow, clear and gray

DESCRIPTION	PART#
Trail Goggles	1504

XRC TRAIL GLOVES

- EVA foam palm pads
- Reinforced finger tips
- Anatomically engineered – direct sonic welded rubber top for improved protection
- Padded palm and knuckle protection

DESCRIPTION	PART#
Trail Gloves	1505

54" TRAIL JACK

- Removable handle and synthetic rubber handle holder
- Steel handle 14-gauge tubing
- 1-5/16" W x 30"L with 28 sq. in. base plate

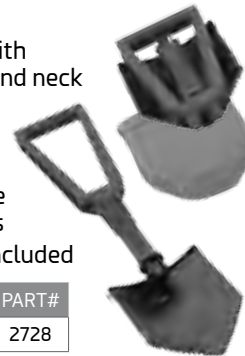

DESCRIPTION	PART#
Trail Jack 54"	2722

R.U.T. (RECOVERY UTILITY TOOL)

- Compact foldable military-style shovel with polycarbonate handle and neck
- Double position neck allows for picking or shoveling
- Serrated edge to handle the roughest conditions
- Soft side storage bag included

DESCRIPTION	PART#
R. U. T. (Recovery Utility Tool)	2728

ELEMENT RAMPS

- Sold in pairs
- Perfect traction aid for inclement weather conditions
- Heavy-duty nylon reinforced plastic construction and high traction surfaces to get you out of mud, snow, sand or any type of loose terrain
- Carrying handles and sloped entry
- Each ramp can support up to 7,700 lbs
- Stackable design that fits easily into 600D nylon carrying bag

DESCRIPTION	PART#
Element Ramps (pairs)	2790

W.A.S.P. (WINCH ANCHOR SUPPORT PLATFORM)

- Easy grip safety handle, solid steel cast arm and 4.5 ton D-ring
- Solid breaker head to break through the toughest ground
- Three angle settings depending on the soil conditions
- Completely collapsible system
- Includes storage bag
- Flexible mast to accommodate any angle
- 40" x 24" x 30" when completely open
- Storage bag included

DESCRIPTION	PART#
W.A.S.P. Winch Anchor	2727

RECOVERY / REPAIR

R.A.D. RAPID AIR DEFLATOR

- 0-60psi operating range
- Large easy to read 2" dial w/ 1psi increments
- Knurled brass knobs
- Protective rubber gauge housing
- Nylon braided hose
- Quick and accurate
- MOLLE PAL bag included

DESCRIPTION	PART#
A Rapid Air Deflator	2823

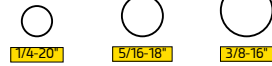

10-PIECE NUTSERT TOOLS

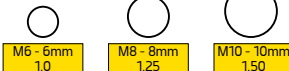

New "Quick-change head" design allows for easy changing of mandrels and nose pieces. Unique spring loaded mandrel automatically locks the mandrel lock pin for the fastest mandrel changes on the market.

INCLUDED MANDRELS

STANDARD

METRIC

1-Nutsert installation tool

3-SAE Mandrels

3-Metric Mandrels

2-Mandrel lock pins

1-Mandrel quick change tool

Perfect tool to install the following Smittybilt products:

M6-1.0	Your choice
M8-1.25	Flux Flares (76839)
M10-1.5	XRC Body Cladding (76886,76887), XRC Rock Sliders (76888,76889,76853), XRC Armor (76880,76881,76882), XRC Tailgate table (2793), Exoskeleton (76840,76841), XRC Armor Skins (76980,76981,76982)

DESCRIPTION	PART#
I Nutsert Tools	2834

TORX - MULTI TOOL

- Nine chrome Vanadium bits included
- T15 to T55
- Ballistic nylon carrying case included
- T50 (tamper proof), 3/8" ratchet and steel rail included

DESCRIPTION	PART#
H 9-Piece Torx Set - T15 to T50	2830

TIRE REPAIR KIT

- Compact soft pack for easy stowing in glove box or under car seat
- Self-vulcanizing plugs (30)
- Rugged aluminum hand tools: dual head tire pressure gauge, needle nose pliers, folding knife
- Includes: lubricant, extra valve stems, side wall bailing wire, interior tire patches
- Easy-to-follow illustrated instructions

DESCRIPTION	PART#
B Tire Repair Kit	2733

COMP-AIR

- 250PSI Integrated Regulator
- Max. 22 cubic feet per min (680 Liters per min)
- Inflates tires quick and easy
- Enough power to run small air tools
- Completely portable - can be used for off-road, RV or the everyday use
- Air hose, air chuck and carrying bag included

DESCRIPTION	PART#
C Comp-Air 10lbs Air Tank	2747
D Comp-Air Air Tank Roll Bar Mount	2749

2.5 AIR TANK

- Includes push-in fittings (male and female), quick connect studs, 90° elbows, drain cock, nylon hose, pressure gauge, and all necessary hardware
- Up to 150 Max. PSI

DESCRIPTION	PART#
E 2.5 Gallon Air Tank	99210-2

AIR COMPRESSORS

- 12-volt motor powered directly from car battery
- Quick release 24 ft. coil hose
- Includes E-Z twist brass inflator, three easy-needle adapters, heavy-duty clip connectors and convenient nylon carrying bag
- 10 ft. power cord

DESCRIPTION	PART#
F Air Compressor 5.65 CFM	2781
G Air Compressor 2.54 CFM	2780

SPECIFICATIONS	2780	2781
Max. Airflow Per Min.	72ltrs.	160ltrs.

POWER & LIGHTING

UP TO:
10 HOURS | **1,000** LUMENS

TR-9
1K LUMENS
HIGH-POWERED LED

TR-9 HIGH POWERED LED

The TR-9 rechargeable LED flashlight is constructed of heavy duty aluminum that can handle punishment and provides high light output with low power draw.

- Brightness up to 1,000 Lumens
- T-6061 Mil Spec Type 3 hard anodized finish
- Tactical grip handle, tactical strike crown head
- IP68 Rating waterproof up to 35 ft., impact resistant up to 5 ft. drop
- 5-setting on-off switch with low power monitoring system
- Rechargeable 18650-type Li-ion batteries with overheat protection

DESCRIPTION	PART#
TR-9 High Powered L.E.D.	L-1406

U.F.O. (UNIVERSAL FLASHING OBJECT)

- Compact and visible up to a mile
- Standard red LED in emergency flashlight mode
- Magnetic back can be mounted to vehicle for optimum visibility
- Waterproof/ideal for marine use: Coast Guard-approved "SOS" Morse Code
- Durable construction: high-grade military polymer shell that is strong enough to withstand being driven over
- High-capacity CR123 lithium battery has up to one year of storage life

DESCRIPTION	PART#
UFO LED Safety Light	L-1409

HALO HEADLAMP / DOME LIGHT

- For convenient use as a dome light
- Elastic headband quickly adjusts to fit your sun visor
- On/Off Switch and three LED light settings (high/low/flash)
- Cool running, high output CREE XP-E2 LED – head has integrated tilt control
- Water resistant with IPX 4 rating, ABS housing for impact resistance
- Spot beam, regulated output
- Output/run: High: 120 lumens/5hrs; Low: 38 lumens/22 hrs; Strobe: 120 lumens/30 hrs. Spot beam distance: up to 54 m/177"
- Weight: 86.5grams with batteries. Three AAA batteries included

DESCRIPTION	PART#
HALO Headlamp	L1410

CLINOMETERS

- Two gauges in one: left displays side-by-side angle and right displays front-to-back
- Graphic readouts show precise angle in degrees
- Gauges illuminate for night vision (791005 only)
- Compass included (791006)

DESCRIPTION	PART#
A Clinometer	791005
B Clinometer with Compass	791006

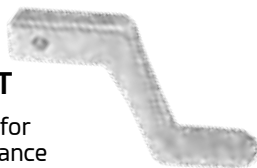

GLOVE BOX LED LIGHT

- 16 super bright LED wand
- 8 LED spot light
- Laser pointer
- Magnetic base
- Includes AAA batteries

DESCRIPTION	PART#
GB8 Light (Red)	L-1407RD
GB8 Light (Silver)	L-1407SL
GB8 Light (Blue)	L-1407BU
GB8 Light (Black)	L-1407BK

ALUMINUM DROP BALL MOUNT

- Hard anodized for weather resistance
- 6061 aluminum, forged for superior strength
- Gross trailer weight: 8,000 lbs
- Tongue weight: 800 lbs
- 2" x 2" dor standard receiver, 1" shank hole
- SAEJ684 V-5, Class 4 rated

DESCRIPTION	PART#
Aluminum 2" Receiver 2" Drop	2932
Aluminum 2" Receiver 4" Drop	2934
Aluminum 2" Receiver 6" Drop	2936
Aluminum 2" Receiver 8" Drop	2938
Aluminum 2" Receiver 10" Drop	2940

STEEL DROP BALL MOUNTS

- Hammer forged harden Q235 steel
- Robotic welded, reinforced gussets on drop ball mounts 6"+ for added strength
- Corrosion and rust retected
- Class III rated. Up to 6,000lbs GTW(8" drop rated 500/5000) (10" drop rated 350/3500)
- Up to 600lbs tongue weight
- 1" shank hole, fits 2 x 2 receivers

DESCRIPTION	PART#
Steel 2" Receiver 2" Drop	2902
Steel 2" Receiver 4" Drop	2904
Steel 2" Receiver 6" Drop	2906
Steel 2" Receiver 8" Drop	2908
Steel 2" Receiver 10" Drop	2910

HITCH BALL

- Chrome plated with 1" shank
- Cold forged balls for added towing strength

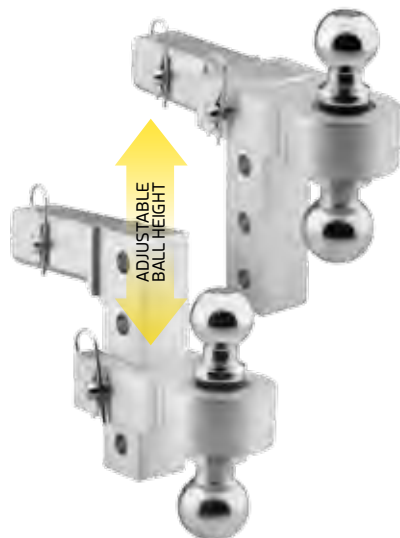

DESCRIPTION	PART#
2" Receiver Ball	2900
2 5/16" Receiver Ball	2901

LOCKING HITCH PIN

- 5/8" pin and clip
- Zinc-plated for long life
- Key style clip for easy removal

DESCRIPTION	PART#
Hitch Pin	2911
5/8" Diameter Pin w/ Lock and Key	2921

ALUMINUM DROP HITCH

This lightweight aluminum drop hitch is hard anodized for weather resistance and forged for superior strength. With this Class 4 rated hitch, you'll be able to haul up to 6,000lbs of toys to any destination.

- Hard anodized for weather resistance and finish retention, forged for superior strength
- Gross trailer weight up to 6,000 lbs
- Tongue weight up to 600 lbs
- 2x2 for standard receivers
- 6061 aluminum with 1" shank hole
- SAEJ684 V-5, Class 4 rated

DESCRIPTION	PART#
2" Receiver-2"/2-5/16" Ball, 6" Adjustable	2926
2" Receiver-2"/1-7/8" Ball, 6" Adjustable	2925

RECEIVER TOW HOOK

- Fits standard 2" receiver
- 10,000 lbs. weight rating

DESCRIPTION	PART#
Receiver Tow Hook (Black)	7610

JEEP TOW HOOK KITS

DESCRIPTION	PART#
All CJ & Wrangler (Chrome)	7505
All CJ & Wrangler (Black)	7605
97-06 Wrangler TJ, pair (Black)	7786

D-RINGS

DESCRIPTION	PART#
3/4" D rings 4.75 Tons Each (Red)	13047R
1/2" D rings 2.0 Tons Each (Black)	13046B
3/4" D rings 4.75 Tons Each (Black)	13047B
7/8" D rings 6.5 Tons Each (Black)	13048B
1/2" D rings 2.0 Tons Each (Zinc)	13046
3/4" D rings 4.75 Tons Each (Zinc)	13047
7/8" D rings 6.5 Tons Each (Zinc)	13048

QUICK DISCONNECT D-RING

DESCRIPTION	PART#
3/4" D rings 4.75 Tons Each (Zinc)	13049
7/8" D rings 6.5 Tons Each (Zinc)	13050
3/4" D rings 4.75 Tons Each (Black)	13049B
7/8" D rings 6.5 Tons Each (Black)	13050B

RECEIVER HITCH D-RING

- Fits standard 2" receiver
- Up to 6.5 tons weight rating

DESCRIPTION	PART#
Receiver D-Ring (Zinc)	29312
Receiver D-Ring (Black)	29312B

JEEP 2" RECEIVER HITCH

- Class III
- Factory-style towing solution for your JK
- Gloss black powdercoated
- 2" standard receiver hitch

DESCRIPTION	PART#
07-17 JK Factory Style Receiver Hitch	JH45

TOWING

TOW BAR

- When it's time to pull your Jeep behind your truck or motor home and need a reliable tool
- Kit includes 2" coupler, two universal brackets, two D-Ring brackets (works on Smittybilt bumpers only) and safety chains
- 5000 lb GVW, 5,000 pound tow capacity
- Fits any standard 2" ball

87451 Tow Bar Adapter Bracket
For use with bumpers 76892, 76724, 76807

DESCRIPTION	PART#
A Universal Tow Bar Kit	87450
B Tow Bar Adapter Bracket	87451

WEIGHT DISTRIBUTION SYSTEM

- Includes hitch, adjustable ball mount, bolt-together adjustable shank, hookup brackets, spring bars and chains
- Up to 1,400lb maximum tongue weight
- Up to 14,000lb maximum gross weight rating
- Adjustable ball mount height for different lift sizes, 5.5" max drop
- Forged, tapered, round spring steel bars for a smoother ride
- Operated with a positive cam latching hook up action
- 2 -5/16" ball included

DESCRIPTION	PART#
C Weight Distributing System	87550

JEOP TOW WIRING HARNESS

- Simple plug and play - easy install with no cutting, splicing or taping
- Takes the hassle out of trying to splice wires together and figuring out which wire goes where
- Smittybilt O.E. style wire adapter designed to plug right into the OEM wire harness for an effortless plug and play feature
- Custom-engineered to fit your vehicle and designed to OEM specifications
- Connectors are highest OEM quality to ensure watertight seal and a perfect connection
- Includes lead wires for auxiliary exterior lighting

MODEL	DESCRIPTION	PART#
D 07-17 Wrangler (JK) 2/4DR	Wiring Harness	2912

BEAVER STEP

- Stepping point to get in truck bed
- Universal use in any 2" receiver
- Hammer forged carbon steel and high gloss powdercoat
- 10,000lbs rated tow strap point

DESCRIPTION	PART#
E Beaver Step	27046B

NOTE: Secure tow strap while in use to prevent accidental slippage.
DISCLAIMER: The strength of this unit likely exceeds your Jeep's capacity to pull the load so as with all towing, use caution. Safe use requires accessories such as safety chains, magnetic light kit and wiring for lights.
