## NEW Mass Air Flow (MAF) Sensors

The Mass Air Flow (MAF) sensor measures the amount of airflow entering the intake manifold and must communicate clearly with the Engine Control Module (ECM). To ensure accurate airflow, precise performance, and longer service life, Standard® and Intermotor® offer a line of **100% NEW, never remanufactured, MAF Sensors**. All SMP-manufactured MAF Sensors are engineered and built in our vertically integrated TS16949-certified facility in Orlando, FL.

**NEW**  
**NOT**  
**REMAN**

Our Choked Air Flow Calibration and Test System ensures precise mass airflow output to match the OE so you can install Standard® and Intermotor® **NEW** MAF Sensors with confidence. As a result, our Sensors match the OE output precisely, and perform flawlessly under all operating conditions, every time.

**140+**  
**SKUs**

Standard® and Intermotor® offer more than 140 **NEW**, never remanufactured, MAF sensors. In total, both lines provide greater than 90% coverage for all domestic and import MAF-equipped vehicles. That's industry-leading coverage.

### Features and Benefits: SMP-Manufactured NEW MAF Sensors
