

This product requires a roof rack in order to attach to vehicle. Included compression straps attach to raised side rails, to raised cross bars or to both. The attachment points must be raised off the roof so that the straps can wrap around them. The product is not compatible with flush-mount side rails found on some newer vehicles.

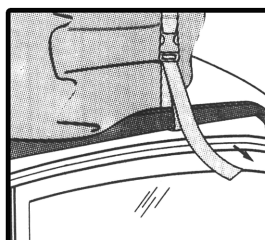

Important: Mount cargo bag to vehicle before loading cargo.

- Unclip side release buckles on each side.

- Pass webbing and buckle around roof rack cross member.

- Attach buckles and tighten webbing evenly on each side.

WARNING

LOADING and UNLOADING

- ZIPPER IS NOT TO FACE THE FRONT OF THE VEHICLE. Front-facing zippers are prone to leakage and may even blow open.
- When loading distribute the weight evenly and put heavier items on the bottom.
- For security use a small padlock on the zipper.
- Do NOT attempt to remove a fully loaded bag off vehicle.
- Mounting surface MUST be clean at all times during use. Debris trapped under cargo bag may cause damage to vehicle finish.

DRIVING

- Pack items that can be damaged by water in plastic bags.
- Do NOT exceed vehicle manufacturer's roof rack rating.
- This product will NOT prevent dents resulting from improper loading, securing, or driving.
- Do NOT exceed speed limit. If you hear a flapping noise when driving, immediately pull over and check to make sure all straps are secure and tight.

CARE

- To avoid mildew store your Roof Bag Cargo Carrier only when completely dry.
- Store out of the sun in a cool, dry place.
- Polyester fabric is intended for outdoor use, but is subject to color fading. Do not store in direct sunlight for long periods.

CLEANING

- Your Roof Bag Cargo Carrier may be cleaned with a soft brush and some lukewarm water.
DO NOT USE SOAP as it may remove the protective coatings added by the factory. Line dry.
