**THE ULTIMATE LINE OF PROFESSIONAL
CARGO MANAGEMENT SYSTEMS**

2016

TracRac® ...THE DETAILS OF DESIGN

ALUMINUM CONSTRUCTION is lightweight and strong

- 6000 series aluminum; common in aerospace and marine applications
- Occupies less payload capacity than competitive racks
- Will never rust
- Cast aluminum components increase strength and rigidity

DURABLE POWDER COAT finish for superior quality

- Electrostatic powder coating produces harder and tougher finish

AERODYNAMIC for a quiet ride

- Noise reducing crossbar extrusion contains aerodynamic profile to eliminate whistle from crossbar slots
- Uniquely shaped aluminum cast components lowers wind noise and improves racks aesthetics

USA MADE to ensure quality

- Products are built in an ISO 9000 Certified manufacturing facility
- The Seymour, Connecticut factory employs talented local labor to ensure products are manufactured to the highest standards

TESTED by a LIFETIME WARRANTY

- Validation testing of our products to 150% of rated strengths simulate over 20 years of operation
- OEM approved by top domestic automotive/truck manufactures
- U-channel bed protectors and rubber cushioning strips are designed to protect the bed of your vehicle from damage during installation and usage

TracRac® SR

THE ULTIMATE SLIDING RACK SYSTEM

TracRac® SR is engineered to maximize the functionality of your truck. You can slide the racks into any position along the base rails for different size loads and add accessories for extra capacity, storage configuration or tie-down points. **TracRac® SR conforms to your needs.**

Complete System: 21000 Series Base Rails & 43000 Series Overhead Racks

Aluminum Load Stops Adjust Across Full Width of Truck – accommodate multi-size loads

Aerodynamic and Quiet – features wind deflectors to reduce noise

Routed Entry Holes on Top and Bottom of Crossbar to Allow Easy Accessory Entry

Damage Free Installation – no drilling into truck bed

System Features

Base Rails Includes	<ul style="list-style-type: none">• 2 Black Anodized Aluminum Base Rails• Drill-free Mounting Hardware
Over Head Racks Includes	<ul style="list-style-type: none">• Front and Rear Sliding Racks• 4 Sliding Aluminum Crossbar Load Stops• 4 Aluminum ARC Side Cleats• Pre-assembled Uprights
Load Capacity	<ul style="list-style-type: none">• 1250 lbs.* <i>*When evenly distributed across both racks and installed correctly.</i>
Weight	<ul style="list-style-type: none">• 55 lbs. (Over Head Racks), 20 lbs. (Base Rails)
Finish and Material	<ul style="list-style-type: none">• Durable Powder Coat Finish• 100% Rust Free Aluminum

Accessories

TracRac® SR Accessories

25700 Locking TracKnobs

— Designed to add security to your Sliding TracRac SR and Utility Rac Systems, the top of the knob spins freely when locked so that the over racks cannot be moved or removed.

- Includes 2 Locking TracKnobs.
- *Exclusive to TracRac® SR and Utility Rac™.

25100 Base Rail Tie-downs

— Create additional mounting points anywhere along the bed rail with the sliding powder coated aluminum tiedowns.

- Includes 2 Base Rail Tie-downs.
- *Exclusive to TracRac® SR and Utility Rac™.

25200 TracRac Toolbox Mount Kit

— Enables user to mount, slide and reposition or remove a crossover toolbox for easy access to contents or bed space.

- *Exclusive to TracRac® SR.

Universal Accessories

24001, 24002 Cantilever Extension

— Protect your truck cab from potential damage carrying long loads, the cantilever provides 32 inches of additional coverage.

- 24001 (65" crossbar).
- 24002 (69.5" crossbar).

25110 Crossbar Load Stops

— Rugged aluminum Crossbar Load Stops can be adjusted along the full width of the crossbar to accommodate any size load. Built in eyelet and large knob allow user to quickly adjust, lock and secure cargo.

- Includes 2 Crossbar Load Stops.

28500 TracRac Cargo Buckle – Professional grade retractable ratchet tie-downs, the ultimate solution for securing all kinds of cargo gear and equipment to the TracRac crossbars
