# MISSION STATEMENT

Here at United Pacific, we are dedicated to providing today's drivers with innovative and exciting products that deliver exceptional performance and value. Because United Pacific's continuing success depends on our customer's satisfaction, we constantly push our designers and engineers to upgrade our facilities and processes in order to bring products of superior quality and reliability to the market. We at United Pacific promise to continue our passionate pursuit to be the first in

## QUALITY, INNOVATION AND DESIGN.

### QUALITY

With over 30 years of experience in the heavy duty trucking industry, United Pacific Industries understand the rigors and stresses that our products are subjected to on the road. It is our mission to provide our customers with products of superior quality and reliability. In achieving this goal, United Pacific only partners with manufacturing facilities that conforms to our quality control requirements and standards. Our manufacturing partners meet or exceed ISO-9001 requirements. In addition, United Pacific's manufacturing partners must be equipped on site to perform the following quality assurance tests:

- AGING TEST
- AIR TIGHT TEST
- DUST TEST
- FLUX TEST
- PHOTOMETRIC TEST
- PULL FORCE TEST
- RAIN TEST
- SALT SPRAY TEST
- SHOCK TEST
- TEMPERATURE TEST
- HUMIDITY TEST
- VIBRATION TEST

United Pacific's manufacturing partners must maintain a track record of consistent quality and low product failure rate. Furthermore, our internal quality control structure allows us to function as the final quality control station prior to shipping. With the assistance of 3D computer technology, United Pacific can adhere to strict quality control standards during prototype creation and the production process. Our engineers and technicians perform a battery of tests to ensure that our products meet the demands of today's drivers and our goal to be first in quality.

# ABOUT US

## DESIGN

Located near some of the nation's most progressive automotive design centers, United Pacific established the UP Design Studio in 2002 to consolidate our position as the design leader in the heavy duty trucking industry. UP Design Studio utilizes the latest generation of computer aided design (CAD) and studio/graphic software. The design studio is equipped with the newest computers and rapid prototyping systems. In addition, UP Design Studio is staffed by graduates from the nation's most prestigious design colleges.

Unlike our competitors, United Pacific's design and manufacturing capabilities mean that we carry more new and original items than our competitors. The establishment of the design studio will enable us to generate even more new products with significant shorter concept-to-shelf time. The reduction in development cost mean that we can develop products utilizing design based development processes. Design based product development allows United Pacific to create new product concepts based on designs incorporating driver demands and needs instead of economic considerations. United Pacific's emphasis on design distinguishes and positions us ahead of our competitors.

## HOW TO ORDER

To order from United Pacific Industries, you must be an authorized dealer, distributor or OEM.

## INNOVATION

Known as the leader in innovation, United Pacific is dedicated to be the first to bring new and exciting products to the market. United Pacific's global expertise allows us to search the globe for new ideas and concepts. Not only do we search the globe for new products, United Pacific invest a significant amount of resources into our own research and development efforts. With the assistance of advance 3D scanning technology, our engineers and designers can acquire accurate and precise data in seconds. The 3D data allows United Pacific to verify designs, perform quality assurance tests, and reverse engineer with unprecedented speed and accuracy. Digital inspection contributes to the early detection of shape problems, provides rapid feedback on design, and eliminates unnecessary work in downstream processes. Our rapid prototyping facility permits us to have a concept-to-shelf time of less than 5 months. In addition, United Pacific's 3D printing capabilities permit our designers to have physical models of their design concepts in hours. The physical models allow our designers and marketing staff to evaluate and test the viability of different design ideas. Our rapid prototyping facility allow United Pacific to compress design cycles, improve manufacturing planning, shorten concept-to-shelf time, most importantly, generate new and innovative products.

## WARRANTY

With LED (Light Emitting Diodes) rated at 100,000 hours of operation and solid-state construction, United Pacific's LED lights are extremely reliable and durable. Purchase with confidence, United Pacific offers a complete line of LED lighting products with extended warranties. Please see the warranty policy page for more details.

## INVENTORY & SHIPPING

United Pacific carries over 20,000 items in our California distribution center. No other company in the heavy duty trucking industry can match United Pacific in the variety and range of in-stock inventories. With an order fill rate of over 98.5%, United Pacific is the largest and most reliable supplier in the industry. Our shipping department ships 96.8% of all orders within 24 hours and 98.9% within 48 hours. United Pacific's vast inventory and prompt shipping has made United Pacific the only source for our customer's chrome and lighting needs.

## ASSEMBLED IN U.S.A

United Pacific strives to provide today's drivers with innovative and exciting products that deliver exceptional performance and value. With our international background and expertise, we search the globe for the best and most reliable products. However, as an American company, we believe and support the American way of life. Look for the "Assembled in the USA" label on many of our products. Although the components are manufactured overseas, the products, bearing the "Assembled in the USA" labels, are hand assembled with pride in the United States.

# Hard at Work for Our Customers. Hard at Work for the Environment

**United Pacific**  
**132,000** sq ft  
**Distribution Center**  
**Long Beach, CA**

**100%** reduction in potable water used for landscaping

**40%** reduction in total energy use due to high-efficiency mechanical and lighting systems

**82%** of construction waste was diverted from landfills

## LEED ACCOMPLISHMENTS

### Sustainable Sites

- On-site bicycle storage, showers and changing areas for company employees
- Preferred parking for low-emitting, fuel-efficient and carpool vehicles
- Stormwater is infiltrated on-site and treated to remove contaminants to reduce environmental impact on local waterways

### Water Efficiency

- In addition to using reclaimed water, drought-tolerant plants and a high-efficiency irrigation system were installed to reduce the use of potable water for irrigation by 100%.
- High-efficiency water closets, lavatory faucets, and showers were used to reduce annual water use by 30%

### Energy and Atmosphere

- Efficient HVAC equipment and a lighting system with daylight controls reduces energy consumption by over 30%
- Enhanced commission verifies that the building's energy and water-related systems are performing as intended by the initial design

### Materials and Resources

- Over 81% of construction and demolition waste was diverted from landfills

### Indoor Environmental Quality

- Building ventilation system was designed to provide enhanced levels of fresh outside air to building occupants
- Interior finishes (paints, sealants, adhesives, coatings, carpet systems and composite wood) were selected with low levels of volatile organic compounds (VOCs) to reduce indoor air contamination

# NEW PRODUCTS FEB - 2011

1947 THRU 1972

**CHEVY TRUCK  
CHROME BUMPERS**

Quality heavy stamped steel bumpers with all original detail and mounting holes. Great quality chrome plating with a one year limited warranty. Each bumper is individually boxed, or wrapped in cardboard and can be shipped by UPS. It is suggested that dealers order enough bumpers to use UPS freight shipment (on pallet) for lower shipping costs. Note that these bumpers are excluded from the prepaid freight policy.

 1.85 Amps @ 12.8V DC (23.68W)  
 0.80 Amps @ 28.0V DC (22.40W)  
 Lumen Output: 1520

**Warning:** United Pacific LED headlights (UP Item # 31354) meets current DOT/SAE photometric requirements for headlights. DOT/SAE is in the process of drafting guidelines specifically for LED headlights. However, as of November 2011, DOT/SAE have not published the guidelines for LED headlights. United Pacific recommends these headlights for Show/Off-Road use until DOT//SAE establishes formal guidelines for LED headlights.

## Dual Function LED Control Module

### Description

- Add Dual Function High/Low Brightness to 31378 and 31379 Headlamps with 34 LED Accent Lights
- Built-In Split Operation for Motorcycle Applications
- Easy Plug & Play Hookup. Wiring Instructions Included
- Sold Each, One Required Per Headlamp. For 12 Volt LED Use Only

Item Number	Description	Package	Pack
<b>31372</b>	Control Module	Carded	1 Pc./Card

### FOR AUTO/TRUCK

Right Turn

Left Turn

One Control Module Required Per Headlight

### FOR MOTORCYCLE

**Example Left Turn Shown**  
Left LED Flash on High Can Operate Independently From Right Hand Side for Motorcycle Applications

This setup allows each LED side to flash individually. For example, when making a left signal, only the left LEDs flash high and low. The right LEDs remain on low. Perfect for single headlight applications, such as motorcycles.

\* All Chassis Comes with Conventional Steering Box. Chassis Photo Shows Optional Rack & Pinion Steering.

**United Pacific Industries** is excited to offer a quality 1932 Ford chassis from Total Cost Involved. This '32 chassis features a full-length boxed x-member frame with the classic '32 side reveal detail as the original. Front suspension includes a dropped axle, leaf spring, shocks, radius rods, and disc brakes. The rear suspension includes RideTech coil-over shocks, 4-link suspension, 9" ford axle & third member, and rear 11" drum brakes. The frame is bare steel with suspension parts finished in a beautiful combination of chrome and polished stainless steel, or order a plain suspension package ready for your paint. This complete chassis has been engineered for strength, safety, performance, drivability and has a great looking stance. This is the perfect chassis for the United Pacific 1932 Ford 5-window coupe steel body shells Item # B20000-A, B20000-B, B20000-C, B20000-D.

### Chassis Features and Benefits

- Frames are Built Specifically for 1932 Ford Cars and Trucks
- Heli-Arc Welded for the Highest Quality and Strength
- Frame Retains the Factory Profile for Ease of Mounting the Body
- Heavy Duty 12 Piece 2" x .75" .120W Center Section Allows Plenty of Room for Most Exhaust Sizes
- The Front Suspension Has Been Engineered to Lower the Center of Gravity, Decrease Body Roll and Increase Handling Performance While Allowing Plenty of Ground Clearance
- Larger Brake Calipers and Smooth Vented Rotors Dramatically Reduce Stopping Distance
- Drastically Increase the Comfort and Drivability of the Vehicle
- Equal Length Adjustable 1" Performance 4-Link Bars Eliminate Wheel Hop
- Fully Adjustable Link Bars for Varying Track/Street Conditions
- 3 Height Adjustments Available on the Axle Brackets (1" Increments)
- Energy Suspension Polyurethane Bushings Help Insulate Road Noise
- New Currie Sportsman 9-Plus Made of 65,000 psi Nodular Iron 3rd Member Case is Lightweight and Strong
- New Case Features 3.062 Carrier Bearings for Additional Strength
- 3" O.D. x .188" Wall 10026 D.O.M. (Drawn Over Mandrel) Axle Tubes Keep Them From Twisting Under High HP Applications
- Late/Large Billet Steel 9" Ford Plus Bearing Ends for Strength
- 31 Spline 1541 Forged Induction Heat-Treated Alloy Axles will Withstand 600HP
- Axles are Made in the U.S.A. Using Tapered Roller Bearings for Strength and Durability
- Axles are Available with Either 1/2" or 7/16" Wheel Studs on 4.5" (Ford) or 4.75" (Chevy) Bolt Patterns
- 1330 Yoke is Strong, Lightweight and Common so Driveshaft Options will be Plentiful
- 56" Axle-Flange to Axle-Flange Width is Standard with Custom Widths are Available
- Your Choice of Gears (From 3.00-4.56)
- Chassis is Made in the USA
