WARRIOR

The Original HoodLift System for your Car, Truck & SUV

# HoodLift

By Warrior Products

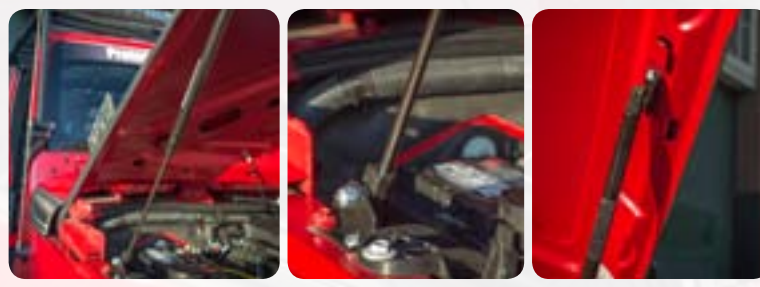

Started in 1994, HoodLift is the original gas spring powered strut system for Jeep CJ7 and Wrangler. In 2006, the new platform of Wrangler was released and dubbed the JK. Almost immediately, HoodLift developed systems to not only lift the hood of this new Jeep, but additional tailgate systems were released to counteract the constantly closing rear gates on these new Jeeps. Today, HoodLift has expanded their product offering into several car, truck and SUV applications in order to bring our high-quality product to all types of vehicles.

Great effort has been taken with HoodLift's systems to ensure that we are offering the best of quality in our product. High-Quality gas springs that are assembled in the USA are used alongside strong mounting systems and all of this has been backed by HoodLift's Lifetime Guarantee. Backed by the best in customer service and great pricing, HoodLift is the finest choice for your vehicle.

## HOODLIFT SYSTEM

2007-2013 Jeep Wrangler (p/n HL 95691)
