

## Patented 3-layer Structures

### Brand New Invention!

### Surface Layer

- a) Thermal Plastic Rubber (TPR) is a strong and durable texture that will not deform over time.
- b) Polyester Looped Carpet enhance vehicle's luxurious look.

### Inner Layer

This layer is made from the high density XPE foam known for its ability to withstand heat and water while its semi rigid properties provide high quality of shock and sound insulation.

### Bottom Layer

Made from Patented MAXpider Fiber that grip all carpet types to prevent sliding while not damaging the inner carpet and keep dirt away.

### Outstanding Features:

Patented 3-Layer Structure produced in 3D Design to fit your vehicle's inner carpet perfectly

Patented Bottom Layer is created using MAXpider Fibers to provide an absolute grip functionality

When the bottom layer comes in contact with vehicle's inner carpet it will absolutely grip and lock the mat in position.

3D MAXpider Mats are tested to withstand pulling force traction of 53kg hence able to prevent the mat from sliding to provide ultimate safety.

## A Safer Way to Mat your Car

3D MAXpider Mat is a custom made design mat with digitised technology to enable Cut-To-Fit each vehicle perfectly. Produced from the patented 3 layer structures, the mat provides a safe, comfortable and fun free driving experience while protecting your car's inner carpet from water, dirt and other damages.

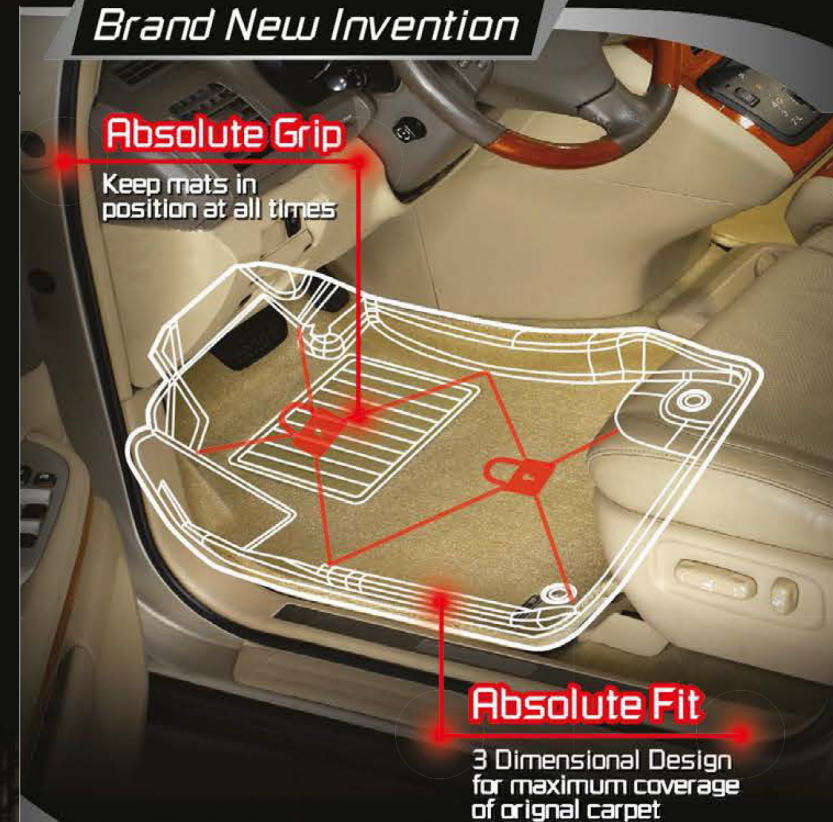

- Waterproof • Dirt Proof • Non-Toxic • Odourless
- Anti-Corrosion • Scratch & Stain Resistant
- Safety • Eco-Friendly • Durable

# MAXpider<sup>®</sup> Mat
