CRISP AGGRESSIVE STYLE

Make that statement. Your Mustang ownership experience begins up front, and Air Design's Front Splitter clearly communicates with the Mustang rich performance heritage and DNA. Our custom splitter is a functional pass-through, designed to improve downforce and aerodynamics.

QUICK AND EASY INSTALLATION!

F024A31 FRONT SPLITTER FOR OE FRONT BUMPER

Pre Painted in Satin Black
Does not fit with Ford's Performance Pack Level 2

F024A28 AIR CURTAINS FOR OE FRONT BUMPER

Pre Painted in Satin Black

LIGHTWEIGHT COMPONENTS. STRIKING STYLE

Racing inspired and crafted with precision, our Front Air Curtains work harmoniously with our Mustang Front Spoiler. Functionally designed to reduce drag and improving aerodynamics, Air Design's Front Air Curtains help to guide air around the wheels, rather than into the wheelhouses. Added benefit: They also make your Mustang look great.

MUSCULAR STYLE FUNCTIONAL PERFORMANCE

Leave that impression. As eyes follow your captivating Mustang around every turn, send a message of athletic strength. Besides looking powerful, Air Design's Rear Valance Diffuser is designed to improve aerodynamics and manage airflow on the way out. To ensure your Mustang emerges from the herd. Finished in gorgeous Satin Black paint. QUICK AND EASY INSTALLATION!

OUR DESIGN CENTER & MANUFACTURING PLANT

For almost 3 decades, Air Design has collaborated with different partners in the automotive industry to design, develop, produce and deliver a wide range of accessory solutions molded in thermosets and thermoplastics, aluminum and steel, for exterior and interior applications in passenger vehicles.

By fostering a culture of Innovation and emphasizing the extensive use of the latest technology and composite materials, Air Design is positioned as a clear leader in the automotive supplier partner area.

We consistently deliver impressive Industrial Design and Custom Manufacturing methods to support the most demanding vehicle personalization programs within the OEM segments.

Air Design is a true full-service development partner, offering a broad range of collaboration capabilities, including: Conceptual Sketches, Renderings, Design, 3D Modeling, CAD Engineering, Virtual Reality, Rapid Prototyping, Tooling, Manufacturing, Delivery, Installation, Training, and ongoing Support.

Air Design employs approximately 250 engineers, designers, and plant personnel from over 15 different countries.

A recent expansion into the Aftermarket via Dealer Direct channels and Wholesale Distribution partnerships with industry leaders in the US allows Air Design to call upon its extensive OE experience and increase consumer access to its high-end styling products.
