- **STAINLESS STEEL BOLTS**
- **ELIMINATES VIBRATIONS & PAINT DAMAGE**
- **INTEGRATED MUD FLAP**
- **OEM APPROVED PRE PAINTED 2K SATIN BLACK FINISH**

No questions asked Unlimited Lifetime Warranty SUPERBOLT®, 100% Stainless Steel!

Patented SUPERBOLT® Installation Method: The ONLY Fender Flares that are installed without any drilling into the body using the Patented SUPERBOLT® attachment method that eliminates ALL vibrations and paint damage!

Air Design SUPERBOLT® Fender Flares integrated Mud Flap contour widens the bottom of the Fender Flare, protecting the vehicle sides from road debris and paint chips.

SUPERBOLT® Fender Flares are thermoformed with high-tech multilayer Black ABS Senosan Polymer from Austria. The top surface is painted at the factory with German OEM approved 2K Satin Black Paint providing ultra UV protection and OEM Finish.

**GM39A04
FRONT BUMPER GUARD**

Pre Painted in Satin Black & Silver
DOT approved DRL incorporated

Silverado's **Front Bumper Guard** with integrated **Skid Plate** delivers the heart of Off-Road country.

This High End part is manufactured with the most advanced OE materials providing a stunning premium upgrade to the front end of your Truck.

Silverado's heavy-duty, high-impact Front Bumper Guard fits like a glove on the factory Bumper in a matter of minutes without having to drill or cut any section of the vehicle. Each of our Front Bumper Guards include a pair of DOT approved Osram- Sylvania LED DRL Lights, for improved visibility and safety during all weather conditions.

Short Box (17 Pieces)

GM39A01 HOOD SCOOP

Pre Painted in Satin Black

Tri- compound molding manufacturing

Take your Silverado to the next level with Air Design's unique line of high performance muscle cars inspired **Hood Scoops**.

Manufactured with our proprietary Overmolding® technology that encapsulates high impact multilayer ABS Senoplast™ with elastomeric Polyurethane that contours to the hood surface for a No Drill, perfect fit.

GM39A35 CAB WINGLETS (CONSULT EGR)

Pre Painted in Satin Black

No Drill, ready to install

GM39A15 FENDER VENTS (SET OF 2)

Pre Painted in Satin Black

Clean and aggressive style

Fender Vents improve engine cooling by letting hot air out. Make your Silverado stand out with their chiseled look reminiscent of those found in trophy trucks.

GM39D10 DOOR ROCKER PANELS (SET OF 4)

Only fits on Crew Cabs

Pre Painted in Satin Black

Underbody protection from road debris and mud

Designed and engineered to enhance your Silverados' Styling and Aerodynamics, also provides effective protection from road debris and mud while traversing through the most extreme Off Road and Urban conditions.

They are manufactured with high performance Huntsman™ Polyurethane and top coated with German automotive Satin Black Class A OE Paint Finish. These parts are highly resistant to impact yet very light-weight. No Drill required, perfect fit, ready to install.

OUR DESIGN CENTER & MANUFACTURING PLANT

For almost 3 decades, Air Design has collaborated with different partners in the automotive industry to design, develop, produce and deliver a wide range of accessory solutions molded in thermosets and thermoplastics, aluminum and steel, for exterior and interior applications in passenger vehicles.

By fostering a culture of Innovation and emphasizing the extensive use of the latest technology and composite materials, Air Design is positioned as a clear leader in the automotive supplier partner area.

We consistently deliver impressive Industrial Design and Custom Manufacturing methods to support the most demanding vehicle personalization programs within the OEM segments.

Air Design is a true full-service development partner, offering a broad range of collaboration capabilities, including: Conceptual Sketches, Renderings, Design, 3D Modeling, CAD Engineering, Virtual Reality, Rapid Prototyping, Tooling, Manufacturing, Delivery, Installation, Training, and ongoing Support.

Air Design employs approximately 250 engineers, designers, and plant personnel from over 15 different countries.

A recent expansion into the Aftermarket via Dealer Direct channels and Wholesale Distribution partnerships with industry leaders in the US allows Air Design to call upon its extensive OE experience and increase consumer access to its high-end styling products.
