GP TECH LEATHER SUIT

RACING / PERFORMANCE RIDING / 48-60 EUR

- Highly durable, premium kangaroo and bovine leather multi-panel construction for maximum abrasion resistance, with reinforced stitching for optimum tear resistance in the event of an impact and abrasion slide.
- Strategic perforations throughout suit for excellent levels of airflow and comfort.
- The GP Tech Suit has class-leading protective capabilities, internally and externally.
- with: Alpinestars race-derived, CE-approved internal GPR elbow, shoulder, knee and tibia protectors.
- Alpinestars exclusively developed Dynamic Friction shield (DFS) external shoulder, elbow and knee sliders, race tested in MotoGP.
- Snap connection system allows integration of CE level 2-certified Bionic Race Back Protector for the ultimate in protection.
- Chest pad compartments with advanced poly-foam padding (Alpinestars Bionic chest pads available as accessory upgrade).
- Soft 3D mesh collar and cuff construction for improved level of comfort and breathability.
- Ankle cuff edges constructed from stretch fabric for fit and comfort.
- Moto GP profiled, aerodynamic back hump is ventilated for improved suit cooling performance.
- GP tech affords a superior transversal performance fit due to: Alpinestars developed accordion leather lumbar stretch insert allows for superb flex fit while in an aggressive, tucked riding position.
- Extensive elbow and rear torso accordion leather stretch panels offer great fit to cater for various riding styles. Newly developed extensive stretch calf panel features diagonal accordion stretch leather for performance fit.
- All leather accordion inserts are perforated for comfort, airflow and are reinforced with Aramidic fabric for abrasion and tear resistance.
- Extensive Aramidic fiber stretch panels are strategically positioned on the underarms, shoulders, crotch and thigh areas.
- Removable and washable inner mesh liner with multi-panel construction and 3D mesh inserts to improve comfort and ventilation. Liner incorporates strategically positioned padding inserts for comfort and fit.
- Liner designed to work perfectly in conjunction with main shell for a superior performance racing fit.

MOTEGI LEATHER SUIT

RACING / PERFORMANCE RIDING / SIZE: 46-60 EUR (44-60 BLACK-WHITE)

- Constructed with premium 1.3mm full-grain bovine leather for high levels of abrasion resistance, comfort and durability.
- Multiple-stitched main seam construction provides maximum tear resistance in the event of an impact and offers improved durability.
- High-density perforation zones throughout suit plus perforated leather panels on torso and arms offer optimum cooling performance.
- Extended, reinforced stretch panels on the sides of the torso, arms, crotch and legs.
- Accordion leather stretch inserts on knees and elbows for excellent fit and reduced stress on body while in riding position.
- Removable, CE-certified protectors on elbows, shoulders and knees feature injection molded shells and dual density foam padding for exceptional protection against impact forces.
- External TPU shoulder sliders offer additional abrasion resistance in a key impact area.
- Integrated PE foam padding on the chest, hips, coccyx, upper arms and sides of the torso further enhance fit and comfort while riding.
- Snap connection system allows integration with Alpinestars CE level 2 certified Bionic Race Back Protector for the ultimate in protection.
- Replaceable Alpinestars PU Sport knee sliders can be positioned according to riding style.
- Removable mesh liner features built-in stretch inserts to ensure a snug fit and is washable for extra convenience.
- Premium YKK fasteners used throughout garment including flat-profile YKK semi auto lock wrist zippers.
- Ventilated back hump is aerodynamically sculpted for superior air flow and performance at high speeds.
- Soft, 3D mesh and Neoprene collar for comfort while arm and leg cuffs feature soft poly-fabric.
- Lightweight, contoured stretch calf panels, plus zippered expansion gusset, enhance fit and ensure comfort with riding boots.
- Reflective detailing on arms and legs improve visibility of rider in poor light conditions.

THE AIRBAG
CONTROL
UNIT (ACU)

INFLATORS

TECH-AIR™ VEST AIRBAG SYSTEM

SIZE: S-2XL - WOMEN'S SIZE: S-M

- Alpinestars' Tech-Air™ is the world's most technologically advanced electronic airbag system for street motorcycle riders. Following years of R&D, hundreds of thousands of miles of road testing and a multitude of full-scale crash tests, the Tech-Air™ system's innovative design and sensor positioning provides active safety performance in a wide variety of situations.
 - Tech-Air™ is the world's first fully self-contained airbag system to function independently of the motorcycle, with its sensors, electronic control unit and full upper body airbag system incorporated into an airbag vest worn with an outer jacket.
 - The Tech-Air™ system's sensors detect a rider's impending loss of control with the greatest of precision and, once fired, the airbag will fully inflate within 25 milliseconds. The system's sensors are not required to be fitted to the bike, meaning Tech-Air™ can be worn in a variety of riding situations, both on and off-road.
 - Interchangeable with a choice of Alpinestars' compatible riding jackets for all-weather and everyday use, the Tech-Air™ street airbag system offers you the highest levels of protection and versatility, combined with true convenience and usability.
 - Switching the system on before your ride is as simple as zipping up your jacket and regardless of motorcycle or scooter type, age or model – Alpinestars' Tech-Air™ is there to protect you all the time; whatever the bike, season or surface.
- Designed to be used in conjunction with airbag-compatible outer jackets
 - Comprehensive inflatable upper body protection for back, shoulders, kidney area, chest and upper abdomen.
 - Electronic sensors are securely and unobtrusively incorporated within the system's chassis, meaning the vest is completely self-contained and allows it to be worn interchangeably between compatible jackets.
 - Constructed from a strong and durable mesh main shell with stretch poly-fabric on shoulders and torso for a compact and secure fit that is close to the rider's body while allowing freedom of movement.
 - Removable inner mesh and elastic Hook and loop fastener waistband to position airbag system to customize fit and improve adjustability.
 - Full internal back lining constructed from 3D mesh for optimized levels of ventilation and breathability.
 - The Airbag Control Unit
- (ACU) of Tech-Air™ is incorporated within strong, lightweight polymer back protector, which features an ergonomic plate construction for structural strength and a fit to follow the natural contours of the back.
- Tech-Air™ ACU is seal-protected within vest to ensure its all-weather performance.
 - ACU has been homologated to ECE R10 04, which ensures the electromagnetic integrity and stability of the unit.
 - Tech-Air™ uses an integrated, certified lithium ion battery, with a battery life of 25 hours and a recharge time of approximately 6 hours. Micro USB charger allows convenient recharging of system, with one hour of charging time giving four hours of riding coverage.
- CERTIFICATIONS
- Argon inflator cartridges are CE certified to ISO 14451 standard, meaning that they will only fire if commanded by the electronic unit. It also certifies that the cartridges can be safely handled, assembled and transported.
 - System's firmware is upgradable and external service record will be managed by a custom-made data portal.
 - Tech-Air™ is Category II CE Certified to the 686/89/EEC European PPE Directive, using a version of EN1621-4:2013, which guarantees impact protection performance from 25 milliseconds to 5 seconds.
 - Certified to function at -10°C and +50°C to guarantee system's use in wide range of weather conditions.
 - Tech-Air™ design and manufacture is CE certified to the 2007/23/EC pyrotechnic directive, guaranteeing it has been assembled following all pyrotechnic handling and safety regulations, which means the system can be transported by car, ship, train or airplane.

TECH-AIR™ VALPARAISO DRYSTAR® JACKET FOR TECH-AIR™ SYSTEM

ALL WEATHER RIDING / ADVENTURE TOURING / SIZE: S-2XL

- Fully featured and highly versatile 4-in-1 all-weather jacket optimized for comfort and performance with airflow, thermal and waterproof configurations.
- Superior, multi-material main shell construction featuring an advanced poly-fabric main shell, which has been specially designed to accommodate larger volume mass in the event of airbag deployment.
- Features integrated sensors securely and subtly on the upper zip: electronic airbag system 'arms' automatically when jacket is closed, offering peace-of-mind security and safety.
- Intelligent LED panel on left sleeve indicates if airbag system is functioning correctly.
- Internal conduits for quick and convenient attachment of airbag vest.
- Leather panels on shoulder and sleeves for high levels of durability and abrasion and tear-resistance in critical areas.
- Removable and interchangeable waterproof and breathable DRYSTAR® full ensures long term all-weather performance.
- Long sleeve thermal liner (130g on body, 100g on sleeves) can be fully removed and has zipper connection for easy identification with integrated stretch comfort edge. Thermal liner is 'sonic quilted' for improved insulation.
- Featuring Ventilation System (VS) large zippered air intakes on torso with large rear air exhaust window on back and on the arms for cooling performance on long rides.
- Removable CE-certified shoulder and elbow.
- Chest and back pad compartments with PE padding (Alpinestars Nucleon back protector available as accessory upgrade).
- Extended accordion stretch inserts on shoulders for improved fit and expansion to accommodate inflated airbag.
- Pre-curved, articulated sleeves with gusseted Hook and loop fastener cuffs enhance fit and comfort in the riding position.
- Waterproof external storage provided by two chest front water resistant zips and one internal waterproof wallet pocket.
- Convenient storage options with two front cargo style pockets and large rear utility pocket.

STELLA MOTEGI LEATHER SUIT

WOMEN'S RACING / PERFORMANCE RIDING - SIZE: 38-50 EUR

- Anatomically profiled for a fully optimized female fit.
- Constructed with premium 1.3mm full-grain bovine leather for high levels of abrasion resistance, comfort and durability.
- Multiple-stitched main seam construction provides maximum tear resistance in the event of an impact and offers improved durability.
- Extended, reinforced stretch panels on the sides of the torso, arms, crotch and legs.
- Accordion leather stretch inserts on knees and elbows for excellent fit and reduced stress on body while in riding position.
- Removable, CE-certified protectors on elbows, shoulders and knees feature injection molded shells and dual density foam padding for exceptional protection against impact forces.
- External TPR shoulder sliders offer additional abrasion resistance in a key impact area.
- Integrated PE foam padding on the chest, hips, coccyx, upper arms and sides of the torso further enhance fit and comfort while riding.
- Snap connection system allows integration with Alpinestars CE level 2 certified Bionic Race Back Protector for the ultimate in protection.
- Replaceable Alpinestars PU Sport knee sliders can be positioned according to riding style.
- Removable mesh liner features built-in stretch inserts to ensure a snug fit and is washable for extra convenience.
- Premium YKK fasteners used throughout garment including flat-profile YKK semi auto lock wrist zippers.
- Ventilated back hump is aerodynamically sculpted for superior air flow and performance at high speeds.
- Soft, 3D mesh and Neoprene collar for comfort while arm and leg cuffs feature soft poly-fabric.
- Reflective detailing on arms and legs improve visibility of rider in poor light conditions.

VIKA LEATHER JACKET

WOMEN'S URBAN COMMUTING - SIZE: 38-50 EUR

- Fashion now meets Function.
- Part of a full set of jacket, pants, gloves, and boots, this body contouring, ultra-comfortable protective jacket is inspired by runway trends from the top design houses and engineered to women's needs.
- The proprietary design pattern visually and physically thins, lengthens, and flatters the female figure.
- Buttery soft full-grain leather combines with generous ergonomic aramid stretch zones to optimize fit, comfort, and freedom of movement for many body types in a full range of positions.
- Removable CE-certified heat-and-impact-sensitive shoulder and elbow protection hardens on collision; especially chosen for Vika because it's so soft and thin that it's easy to forget it's there.
- Single-piece soft leather collar provides a seamless construction around the neck for a highly comfortable fit.
- Pre-curved sleeves.
- Lower back extended for riding comfort and coverage.
- Internal waist connection zipper for connection to Vika pants.

WINTER TECH PERFORMANCE TOP / BOTTOM

COLD WEATHER RACING - SIZE: XS/S-M/L-XL/2XL

- Developed for cold weather riding conditions with double density fabric covering the most exposed areas.
- Comfortable moisture wicking material for optimal thermal protection.
- Made from polypropylene with elastane fabric that will not melt under abrasion.
- Tubular, seamless construction.
- Compression fit for muscle support to reduce fatigue.
- Hypoallergenic and bacteriostatic fabric.

SUMMER TECH PERFORMANCE

LONG AND SHORT SLEEVE TOP / BOTTOM

WARM WEATHER RACING - SIZE: XS/S-M/L-XL/2XL

- TOP: Polypropylene fabric main construction.
- Hypoallergenic, anti-static, aggressive, athletic, and adaptable fit to reduce muscle fatigue.
- Ergonomic flat-lock seams.
- Designed to help maintain a constant body temperature.
- High resistance to chemicals and acids.
- Low specific weight (60% less than cotton).
- Hydrophobic construction for excellent breathability and moisture wicking helping to keep the body cool and dry.
- Heat Resistant.
- Mock turtle neck for optimal thermal protection (LONG SLEEVE TOP ONLY).
- PANTS: Elasticated waist band for adaptable fit.
- Male pants opening.

HOW TO MEASURE

- A. Chest** - Measure around the fullest part, under the armpits, keeping the tape horizontal.
- B. Waist** - Measure around the natural waist line, inline with the navel, keeping the tape horizontal.
- C. Hip** - Measure around the fullest part of your hips, about 20cm below waist line, keeping the tape horizontal.
- D. Thigh** - Measure around the thigh just below the crotch, keeping the tape horizontal.
- E. Inseam** - Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.
- F. Arm Length** - Measure from shoulder (Humerus) to wrist.
- G. Height** - Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.

HOW TO MEASURE

- A. Chest**
Measure around the fullest part, under the armpits, keeping the tape horizontal.
- B. Waist**
Measure around the natural waist line, inline with the navel, keeping the tape horizontal.
- C. Hip**
Measure around the fullest part of your hips, about 20cm below waist line, keeping the tape horizontal.
- D. Thigh**
Measure around the thigh just below the crotch, keeping the tape horizontal.
- E. Inseam**
Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.
- F. Arm Length**
Measure from shoulder (Humerus) to wrist.
- G. Height**
Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.

HOW TO MEASURE HAND CIRCUMFERENCE WITHOUT THUMB

GLOSSARY

4-IN-1 SYSTEM - Interchangeable system incorporating the removable, waterproof and breathable Drystar® liner and removable thermal liner. The 4-in-1 system enables the jacket to be used with the Drystar® and thermal liners together; the Drystar® or thermal liner by themselves; or without either liner, allowing the jacket to be configured in 4 different ways to suit any climatic condition.

ARMACOR® PRODUCT TECHNOLOGY it's a patented lattice structure with an integrated Dupont™ Kevlar® fiber core. This technology offers extreme tear and abrasion resistance yet lighter weight. Incorporated into a GORE-TEX® Pro Shell motorcycling jacket, it will protect enthusiastic motorcyclists in the event of a fall. This means safety and enhanced comfort - in ALL-WEATHER conditions.

CE CERTIFICATION - Protection and protectors that are CE-certified have met the strict performance standards and requirements of the European Union.

CLARINO® - This highly durable material provides great feel for the palm. Machine washable, Clarino® remains soft and supple even after repeated exposure to water.

CLIMATE CONTROL SYSTEM - System of zippered air intakes and exhausts that allow precise control of airflow while riding for superior body temperature regulation.

COOLMAX® - This unique material "wicks" moisture away from the skin and quickly transfers it to the outer surface to speed up evaporation.

CORDURA® - This textured nylon is durable, lightweight and abrasion resistant

DENIER - Denier is a measurement which denotes the thickness and the diameter of a fiber material.

DRYSTAR® - Alpinestars' waterproof and breathable membrane for all-weather comfort and performance.

DRYSTAR® PERFORMANCE - Alpinestars' exclusive sealed triple layer construction technology which bonds all layers in glove, thereby affording a highly reduced material chassis to promote good levels of sensitivity of bike controls.

E.V.A. - This comfortable and lightweight material provides superior shock absorption and impact protection.

GORE-TEX® - This world renowned waterproof and breathable membrane features pores that are smaller than water to keep rain out, but larger than water vapor, allowing perspiration to escape.

GORE-TEX® PRO SHELL - It is the optimum solution for outdoor professionals and serious enthusiasts, who need to face extreme weather and tough conditions. Made with the most rugged, most breathable, durably waterproof and windproof fabrics.

GORE-TEX® PACLITE® SHELL - Combines extreme breathability and durable wind and waterproofness with minimum weight and pack volume.

GORE-TEX® SOFT SHELL - Constructed with soft and warm fabrics. GORE-TEX® Soft Shells are designed for reduced layering and improved freedom of movement in colder conditions.

GORE-TEX® WITH GORE® GRIP TECHNOLOGY - Sealed triple layer material construction from GORE-TEX® for improved dexterity, grip and control sensitivity.

PERFORMANCE SHELL - Designed to provide comfort and durable waterproof protection.

DUPONT™ KEVLAR® - Used as a reinforcement, this high strength fiber is cut and tear resistant.

NEOPRENE - Comfortable and flexible, this water resistant material provides great insulation in cold and damp conditions and excellent wind stopping performance.

PITTARDS® DIGITAL LEATHER - Supple and quick drying leather which provides excellent grip in all-weather conditions.

SCHOELLER® KEPROTEC® - This stretchable and vented material features Dupont™ Kevlar® reinforced thread for maximum tear and abrasion resistance.

SUBLIMATED GRAPHICS - Utilizing a pressure and heat process, this system of design transfer produces fade free graphics even after extensive washing.

SUPERFABRIC® - Flexible, ceramic reinforced fabric that is extremely abrasion, puncture and cut resistant making it ideally suited for application on exposed areas such as knees and elbows.

TAPED SEAMS - Seam tape is applied along the stitch line of the garment, which prevents water intrusion at these small but critical areas.

TASLAN - Durable and water repelling nylon fabric.

THINSULATE® - Lightweight, breathable, moisture resistant and quick drying, Thinsulate® provides superior insulation for cold weather riding.

PRIMALOFT® - A lightweight, breathable insulation that repels moisture to offer superior performance for cold-weather riding.

PU COATING - A thin layer of film applied to the backside of the fabric to give strength, structural integrity and water resistance.

PU - Polyurethane. Polymer containing urethane used in plastics, rubber, foam, etc.

PE - Polyethylene. Thermoplastic material composed of polymers of ethylene. It is light, strong, water resistant and flexible at low temperatures.

TPU - Thermoplastic polyurethane. A hybrid material - a mixture between hard plastic and soft silicone. A very dense and smooth rubber.

WINDSTOPPER® - Laminated membrane offering total windproof performance and maximum breathability for complete comfort.
