# TECHSTAR FACTORY JERSEY

CODE 376 1017 / SIZE: S - 2XL

- Extremely lightweight, vented poly-fabric main chassis construction for moisture-wicking and performance fit.
- Perforated mesh inserts around collar for excellent breathability, especially when using Alpinestars BNS neck support.
- Extended perforation inserts on side torso and forearms for excellent airflow and comfort.
- Pre-curved sleeves for maximum comfort and performance.
- Extended rear for compatibility with Alpinestars' MX pants.
- Comfort neck collar and Raglan construction for easy entry and exit.
- Seamless collar and cuffs for weight-saving and durability.
- Wrist cuffs feature stretch inserts for excellent fit and convenient in and out.
- Sublimated fade-resistant graphics in exciting new colorways.
- Available in international sizes S-2XL.

MOTOCROSS / OFF-ROAD

# TECHSTAR FACTORY PANTS

CODE 372 1017 / SIZE: 28 - 40

- Multi-panel, poly-fabric construction with PU coating for excellent strength and durability.
- Innovative, strategically positioned four-way stretch panels for freedom of movement and riding fit.
- Localized perforation zones allows for cooling airflow and comfort.
- Exclusive, patented 'Vector' back panel provides maximum comfort and flexibility when riding.
- Patented 'Babel' knee design features a pre-bent, reinforced and padded 3D knee construction with hidden stretch spandex expansion gusset for excellent fit in the riding position.
- Heavy poly-fabric reinforcement on the seat area provides high levels of abrasion resistance.
- Includes perforated foam hip pads for fit, comfort and breathability.
- Lightweight and ventilated mesh lining with stretch panel insert for better fit in riding position.
- Leather panels on the inner leg provide heat resistance, grip and comfort.
- 3D injection molded rubber logos and details for additional durability.
- Silicon webbing on inner waist helps keep garment in position.
- Durable waist adjustment pull-tabs with Hook and loop fastener for personalized fit and safe closure.
- Inner hip pocket for safe key/coin storage.
- Available in international sizes 28-40.

A professional motocross rider, Jeremy Van Horebeek, is captured in a dynamic pose on a dirt track. He is wearing a blue and red Yamaha racing suit with various sponsor logos, including Alpinestars, Monster Energy, and Yamaha. His helmet is black with green and yellow accents. The motorcycle is a blue Yamaha YZF-R450, featuring a white number plate with the number 44. The bike is heavily splattered with mud, particularly on the front fender and the rear wheel, which is also covered in a thick layer of yellowish-brown dirt. The background is a dark, textured wall of earth, suggesting a deep rut or a steep bank on the track. The overall scene conveys the intensity and physical nature of the sport.

## BNS TECH CARBON NECK SUPPORT

CODE 650 0014 / SIZE: XS - M / L - XL

- The BNS Tech is constructed from an advanced, high-performance carbon polymer compound to offer:
- Structural integrity and frame strength against heavy impact energies during a crash.
- Ultra-lightweight performance and comfort while riding.
- Resilience to low temperatures, below 0°C.
- The BNS Tech is designed to provide a customizable, secure and personalized fit with:
- SAS (Size Adapter System) for a versatile fitment in size ranges XS-M and L-XL.
- Lycra®-laminated foam padding kits: adaptable and interchangeable EVA foam pads allow compatibility with body protection systems.
- Strap System: Light strap worn over or under the jersey.
- The BNS Tech incorporates a bio-organic engineering design for superb ergonomics:

- Rear stabilizer promotes PFR (Progressive Force Relief) and dissipates energy loads by transmitting them across the back and shoulders and away from spine (thoracic vertebrae), and is connected to the frames via pivot key.
- Frame construction promotes improved contact with helmet during impact – including rear support edge that fits closer to the body, extra width to account for different helmet sizes and raised chest to reduce hyper-flexion.
- Innovative quick-release locking system for rapid and efficient fitting/removal offers secure and convenient closure.
- Compressed EVA foam compound padding to distribute the impact force over the widest area, yet remain lightweight.
- Category 2 CE certified under the PPE Directive (89/686/EEC).

## FLUID TECH CARBON KNEE BRACE

CODE RIGHT 650 0316 LEFT 650 0416 / SIZE: S - L / XL - 2XL

- EN 1621-1:2012 K type B / LEVEL I
- New strong and advanced high-performance carbon polymer compound PAI2 LCF reinforced for higher breaking resistance.
- New additional thin Ergo Fit spacer on the medial (bike) side to have the knee closer to the bike.
- New graphics
- New softer and comfortable strap system to avoid skin irritations.
- New soft comfortable lateral knee padding to avoid pressure points.
- The Fluid Tech is lightweight, strong and is constructed from an advanced, high-performance carbon polymer compound to offer:
  - Optimized structural integrity and frame strength
  - The Fluid Tech features a lightweight 'exoskeleton', reduced material construction design.
  - Highly ventilated: Channeled padding and mesh zones for optimized ventilation and airflow.
  - Crucial weight-saving: the Fluid Tech is 40 per cent lighter than current B2 brace versions.
  - Extreme temperature resilience: Fluid Tech performs at temperatures as low as -20°C (-4°F).
- The Fluid Tech is designed to provide a highly customizable, personalized and stable fit:
- SAS (size adapter system): provides adjustable and versatile brace fitment in size ranges S-M-L and XL-2XL.
- Innovative spacer system: Brace supplied with leg-size adjustment spacers (1mm, 2mm and 3mm) on either side of hinge, plus two pairs of flexible, anatomically optimized 'ergofit' spacers (6mm and 9mm) for improved directional articulation performance.
- Knee pivot system: New double-pivoting hinge system incorporating tool-free, fast, easily exchangeable extension stops (0, 5, 10, 15, 20 degrees) to prevent hyper-extension injuries.
- The Fluid Tech incorporates a bio-organic engineering design for superb anatomical performance:
- Innovative patella/knee cup protection system: Ergonomically sculptured and ventilated knee cup system constructed from semi-rigid TPU backed by shock-absorbing PU memory foam.
- Correct position of knee cup is secured accurately in place with top and bottom elastic straps, allowing multi-directional freedom of movement.
- Additional protection in strongly angled positions afforded by upper and lower patella cuffs.
- Innovative, dual X-strap system promotes secure fitment of brace in all riding positions and includes combined buckle and Hook and loop fastener closures for rapid and easy mounting.

## SX-1 KNEE GUARD

CODE 650 6316 / SIZE: S - M / L - XL / 2XL

- CE certified knee brace to the latest EN 1621-1: 2012 K type A (level I)
- Upper and lower frames are constructed from a high performance polymeric material blend for optimized levels of flexibility and strength as well as excellent weight saving properties.
- Polymer protector plates are strategically perforated for maximum breathability and air ventilation.
- Featuring Alpinestars Dual Gear System (DGS) a dual pivot with integrated hinge gear system for dynamic fit for mobility.
- Upper frame features extended frame for increased thigh protection without compromising mobility.
- Innovative patella construction features 'floating' protection cup for continuous coverage and mobility regardless of leg position.
- Patella cup constructed from impact resistant PU foam knee cup that is CE certified to Type A.
- Patella cup is backed by soft, viscoelastic padding for adaptive fit and breathable air mesh for ventilation and comfort.
- High Abrasion resistant fabric with an over injected TPU frame structure on outer central knee-cup area to improve the impact performances.
- Thermoformed foam backing for excellent comfort against the skin.
- Frames are asymmetrical and feature a slim, ergonomic design for comfort and performance fit.
- Hook and loop fastener and TPR dual strap closure systems for easy in and out and a personalized, safe fit.
- Straps feature airprene for optimized comfort and airflow.
- Available in sizes: S/M - L/XL - 2XL

## VAPOR PRO KNEE PROTECTOR

CODE 650 2316 / SIZE: S - M / L - XL / YOUTH CODE 654 2316 / SIZE: OS

- CE certified knee brace against the latest EN 1621-1: 2012 K type A or B (level L)
- New color combination
- CE certified protection systems utilizing robust protective structures and impact absorption padding.
- Thermo-formed polymer material construction offers improved impact performance.
- Highly ergonomic design improves streamlining while providing crucial protection for MX and off-road riding.
- Asymmetrical and lightweight ergonomic panel construction offers extended protection surfaces to reduce rotation.
- Dual strap closure system on Knee Protectors specially designed to offer more comfort and adjustment, with top strap mounted above the knee and lower strap positioned for ergonomic fit.

PROTECTION

## VAPOR PRO ELBOW PROTECTOR

CODE 650 2216 / SIZE: S - M / L - XL / YOUTH CODE 654 2216 / SIZE: OS

- CE certified elbow protection against the latest EN 1621-1: 2012 E type A or B (level L)
- New padding construction and profiles on the upper part to have a better flexibility and reduce any material wrinkles.
- New V-strap system with Hook and loop fastener closures for rapid and easy mounting.
- New color combination.
- CE certified protection systems utilizing robust protective structures and impact absorption padding.
- Thermo-formed polymer material construction offers improved impact performance.
- Highly ergonomic design improves streamlining while providing crucial protection for MX and off-road riding.
- V strap closure system on Elbow Protectors specially designed to offer rapid and easy mounting and adjustment.
- Advanced 3D poly padding for increased comfort and a close-fitting performance.
- Asymmetrical and lightweight ergonomic panel construction offers extended protection surfaces to reduce rotation.
- Vented panels and 3D mesh material give comfort to the rider, preventing heat build-up while maintaining tactile contact with skin.

# BIONIC TECH JACKET

CODE 650 6516 / SIZE: S - 2XL

- EN I621-1:2012 / LEVEL 1
- EN I621-2:2014 / LEVEL 2
- prEN I621-3:2013 / LEVEL 2
- Upgrading of the back protector CE level: CE certified against the EN I621-2 : 2014 Level 2. Grid technology embedded on the back protector .
- Upgrading of the chest protector CE level : CE certified against the prEN I621-3 : 2013 Level 2 FULL CHEST Type A .Grid technology embedded on the chest protector.
- Shoulder and elbow PU foams new softer formulation and channeling design for more flexibility. CE certified against the EN I621-1 : 2012
- Grid technology makes the product lighter and improves the breathability and air ventilation.
- Soft touch BNS puller for an easy and safe engagement with the BNS.
- New kidney belt system.
- Highly versatile, modular and customizable fit for different forms of off-road riding is afforded by: removable BP, removable comfort padding; v-strap kidney belt; Cross Lacing Sleeve.
- (CLS) closures; removable sleeves; full compatibility with BNS protection.
- Innovative, CE certified chest protector backed by technical, eva shock

absorbing material which molds to rider's body shape.

- Premium, CE certified shoulder and elbow/forearm protectors systems feature: hermoformed 3d poly padding for comfort and shock absorption; dual protector cup for excellent flexibility and range of movement; protector cups are asymmetric to offer extended protection surfaces, which are contoured to ensure a close fit to keep the protection located and reduce rotation.
- Detachable back protector can be removed to further enhance ventilation capabilities or adapted to accommodate BNS.
- Protector panels are constructed from a polymer performance blend for optimized flexibility and excellent weight saving properties. Shells are vented and channeled to improve airflow and prevent heat build-up.
- Innovative cross lacing system (CLS) for securing sleeves features elastic cord and breathable microfibers to give lightweight and highly customizable fit. CLS significantly reduces risk of arm pump.
- Technical, elastane stretch mesh main construction is highly breathable and retains shape.
- Strategically positioned Cordura panels for durability and abrasion resistance.
- All components engineered for a reduced material construction garment that is extremely lightweight, slim and highly ventilated.
- Convenient pull tab loops on shoulders for secure fitment of Alpinestars BNS.
- Removable comfort padding on shoulders, chest and kidney area.
- Premium, auto-locking YKK zips for main frontal closure and on detachable sleeves ensures security.

# TECH 10 BOOT

CODE 201 0014 / SIZE: 7-14 US CORRESPONDING TO: 40.5-49.5 EUR

- Lightweight upper combines full-grain leather with lightweight microfiber and impact and abrasion resistant TPU shell.
- Innovative, evolutionary TPU shin-plate construction for greater range of fitment features a reinforced Hook and loop fastener closure for comfortable, highly customized closure.
- Shin zone incorporates TPU blade system engineered to prevent frontal hyperextension and provides greater flex control.
- Evolutionary design for lateral flex zone provides front and rear flexion support and helps prevents torsion.
- Medial-facing panel constructed from TPU with rubber insert for maximum grip contact with bike and improved heat and abrasion resistance.
- Contoured TPU calf protector plate offers impact resistance.
- Innovative TPU rear blade system protects heel and features a rear hyperextension guard.
- Extensive TPU protection on toes, foot, heel, ankle, calf and shin with extra hard compounds on the toe-box, heel and achilles tendon.
- New closure system includes polymer buckles plus aluminium frame with innovative self-aligning, quick release closures for customized secure fitment.
- TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.
- All the buckles are replaceable.
- Soft microfiber gaiter helps seal out excessive water and dirt entry.

- Poly fabric lining with 3D open cell foam incorporates anti-sliding suede reinforcement on heel area.
- Ankle brace system innovative biomechanical inner brace features torsion bars to control ankle and leg rotation, while allowing freedom of movement.
- Shock absorbing padding on the heel and ankles plus an ultra thin and flexible forefoot area for increased sensitivity and control.
- Replaceable footpeg insert on sole is constructed from hard compound vulcanized rubber for durability and protection.
- Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support; the sole superior durability and grip.
- Removable anatomic footbed.
- Tech 10 boot is CE certified to EN 13634:2010.

## ANKLE BRACE SYSTEM

- Innovative biomechanical inner brace features torsion bars to control ankle and leg rotation, while allowing freedom of movement.
- Shock absorbing padding on the heel and ankles plus an ultra thin and flexible forefoot area for increased sensitivity and control.

# TECH 8 RS BOOT

CODE 201 1015 / SIZE: 5-15 US CORRESPONDING TO: 38-51 EUR

- Upper constructed from a combination of full grain leather and innovative and light microfiber that is flexible and abrasion resistant.
- Alpinestars inner ankle sleeve is constructed from leather with 3D mesh panels and incorporates adjustable shock absorbing gel inserts on the ankles and a removable anatomic footbed for enhanced comfort, fit and protection on the ankle and lower leg.
- Alpinestars exclusive high grip, dual density rubber outsole includes footpeg area which is reinforced with hard polymer compound for durability and comfort. The outsole is fully replaceable.
- Reinforced lateral flex zone above outward facing ankle helps prevent torsion.
- Contoured shin plate injected with high modulus polymer for superior impact and abrasion resistance is perforated for ventilation.
- Contoured calf protector plate is injected with high modulus polymer for impact resistance.
- Extended, internal protection plates constructed from injected polymer to guard the ankle and lower foot as well as the toe box area.
- Advanced closure system features strong techno-polymer buckles for easy adjustability with a precise, secure and streamlined fit.
- Top and bottom reverse closure design provides superior impact security and improved fit.
- Low profile toe for improved control and sensitiveness in the shift area.
- Full length, sculpted rubber panel on the inner side of the boot gives superb grip against the bike and is insulated with aluminum foil for improved heat resistance.
- Instep and Achilles flex zones for superior comfort, control and support.
- Replaceable kick starter protection insert located on the right boot.
- Stamped steel sole and heel guard.
- Soft, polymer gaiter provides effective seal around the top of the boot, preventing excessive water and dirt entry.
- Breathable 3D tech mesh lining reduces heat buildup and improves comfort.
- Contoured tempered steel shank is over injected inside the mid sole assembly for rider safety and support.
- New buckle closure system includes polymer buckles plus aluminum frame with innovative self-aligning quick release closures.
- All buckles are replaceable.
- Full inner bootie is constructed with 3D breathable mesh plus synthetic material chassis for support, plus breathable textile lining on the ankle areas.
- Ankle features perforated soft comfort padding and incorporates adjustable shock absorbing gel inserts on the ankles. Gel inserts are replaceable.
- Dual compound, removable anatomic footbed features polymer forefoot plus EVA arch support and top textile lining for support and comfort.
- Replaceable footpeg insert on sole is constructed from hard compound vulcanized rubber for durability and protection.
- Tech 8 RS boot is CE certified to EN 13634:2010.

CODE 201 6016 / SIZE: 5-16 US CORRESPONDING TO: 38-52 EUR

- Upper construction is made from innovative and light microfiber material that is flexible and abrasion resistant plus light microfiber on front and rear bellow.
- Toe box is made of synthetic material.
- Replaceable stamped steel sole guard.
- Redesigned instep and achilles accordion flex zones.
- Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
- Contoured TPU calf protector plate, TPU higher medial protector, TPU outer lateral ankle and TPU heel counter offer support and resistance to impacts.
- Rear TPR gaiter patch applied on top of the TPU calf protector gives protection and comfort on rear flex.
- Injected TPU shin plate connected with the TPU medial protector panel; Hook and loop fastener upper closure, plus TPR flap for broad ranging calf fit adjustment and support.
- The TPU higher medial protector is designed with technical texture for improved grip.
- Bio-mechanical medial blade system allows a good front rear flex giving support and protection to the ankle.
- The ergonomic TPU triple buckle straps are wrapping harmoniously the front flex from the medial protector to the lateral side without compromising the flex.
- New closure system includes 3 polymer buckles with an innovative closure system. This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure; the all buckles are replaceable.
- Innovative one-piece TPU injected insole, reinforced by a metal shank inside and co-injected toe reinforcement.
- Soft foams surrounds the ankles and collar offer comfort and shock absorbing performance.
- Entire textile lining for more comfort.
- Replaceable EVA footbed with textile lining on top.
- Exclusive high grip rubber compound outsole. The sole is replaceable.
- Tech 1 boot is CE certified to EN 13634:2010.

# TECH 7S BOOT

CODE 201 5017 / SIZE: US 2-8 YOUTH CORRESPONDING TO: 34-42 EUR

- Tech 7S is specifically designed and sized for junior and/or smaller framed riders.
- PU-reinforced microfiber upper for flexibility, abrasion resistance, water-resistance and weight-saving. Material ensures consistent fit and is easy to maintain and clean.
- Contoured shin plate is injected with high modulus TPU for excellent levels of impact and abrasion resistance.
- Medial facing side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved heat and abrasion resistance.
- One-piece injected dual compound foot shell with co-injected hard toe protector and integrated steel shank. The shell is highly resistant to abrasion and impact, adds to the boot's overall durability and improves boot's streamlining.
- Excellent flexion provided by low profile medial and lateral pivot system to offer movement and support.
- Instep and Achilles accordion flex zones constructed for superior control and support.
- Extended microfiber gaiter helps seal out excessive water and dirt entry.
- Soft poly foam reinforcement on ankles and collar for long lasting comfort and shock absorption.
- 3D mesh textile with open cell foam for improved air circulation and comfort.
- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving. Buckle system features memory and a quick release/locking system with self-aligning design for easy, precise closure and improved riding performance and security. All buckles are easily replaceable.
- Compound sole is seamlessly integrated into the base structure for superior durability, high performing rubber grip patterning, and feel. The sole is replaceable.
- Removable anatomic footbed for comfort and support ensures even weight distribution.
- The Tech 7s boot is CE certified to EN 13634:2010.

- Shin zone incorporates a TPU blade system engineered to prevent frontal hyperextension and offer greater flex control.
- Specifically designed sole provides Enduro riders superior durability, grip, feel and a high level of structural rigidity.
- Wide entry aperture for convenience with Hook and loop fastener upper closure TPR flap to allow broad ranging calf fit adjustment and support.
- Medial-facing area constructed from one-piece TPU panel with honeycomb sculpturing for maximum grip contact with bike and improved heat and abrasion resistance.
- Top rear flexion of the boot is supported around the calf by an innovative TPU sliding blade system which dissipates the friction
- Ergonomic buckle system offers secure and highly personalised closure.
- Innovative TPU lateral ankle protection
- provides biomechanical link between the middle lateral and the bottom lateral of the boot. Instep and Achilles accordion flex zones constructed for superior control and support.
- TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.
- Extended microfiber gaiter helps seal out excessive water and dirt entry.
- New closure system includes polymer buckles plus aluminum frame with innovative self-aligning, quick release closures for customized secure fitment.
- All buckles are easily replaceable.
- Breathable mesh 3D liner with anti-sliding microfiber suede reinforcement on the heel area.
- Soft poly-foam surrounds the ankles and collar offer comfort and shock absorbing performance.
- Removable anatomic footbed.
- Exclusive high grip rubber double density compound outer sole.
- Sole and footpeg are replaceable.

CODE 201 6117 / SIZE: 7-13 US CORRESPONDING TO: 40.5-48 EUR

- Multi-material upper constructed from lightweight, abrasion resistant and durable microfiber which incorporates anatomically profiled copolymer protection.
- Featuring unique Alpinestars compound all terrain sole for grip and support. The sole is replaceable.
- Newly designed microfiber front and rear flex inserts for control, support and front and rear movement.
- Bio-mechanical medial blade system allows a good front rear flex giving support and protection to the ankle
- Contoured co-injected polymer shin and calf protection connects on the lateral side to provide excellent all-round protection.
- Comprehensive boot support and protection provided by copolymer protection in the lateral, medial, heel counter and toe box for excellent impact performance.
- Rear TPR gaiter patch applied on top of the TPU calf protector gives protection and comfort on rear flex.
- Injected TPU shin plate connected with the TPU medial protector panel; Hook and loop fastener upper closure, plus TPR flap for broad ranging calf fit adjustment and support.
- The ergonomic TPU triple buckle straps harmoniously the front of the boot without compromising flex.
- New closure system includes 3 polymer buckles with an innovative closure system. This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure; all buckles are replaceable.
- Extended PU gaiter helps seal out excessive water and dirt entry.
- Medial-facing texture patterning provides improved grip on bike.
- Replaceable stamped steel sole guard.
- Full technical textile lining for comfort and moisture wicking.
- Soft, multi-density foam surrounds ankles and collar for comfort and shock absorbing performance.
- Wide entry aperture for convenience with Hook and loop fastener upper closure TPR flap to allow broad ranging calf fit adjustment and support.
- Innovative one-piece TPU injected insole, reinforced by a metal shank inside and co-injected toe reinforcement.
- Replaceable EVA footbed features textile lining for comfort.

A motocross rider is captured in a dynamic pose, leaning into a turn on a dirt track. The rider is wearing a blue and red jersey with white accents, blue pants with red and white details, and a colorful helmet with a '100%' logo. The motorcycle is red and white, featuring 'Honda Racing' and the number '1' on the front fender. The rider's boots are blue and yellow, and the tires are black with 'PIRELLI' branding. The background is a blurred, reddish-brown dirt wall, suggesting a high-speed turn. The overall scene is action-packed and captures the intensity of motocross racing.

**FLUID KNEE BRACE  
SIZE RANGE**

SIZE	KNEE WIDTH
S - M - L	9.8 cm - 11.2 cm / 3.86" - 4.41"
XL - 2XL	11.2cm - 12.6cm / 4.41" - 4.96"

TO AID CORRECT FIT IT IS RECOMMENDED THAT A RIDER WITH A KNEE WIDTH OF 11.2CM WEAR A SIZE L. DEPENDING ON A RIDER'S LEG SHAPE THERE MAY BE SOME SIZING OVERLAP BETWEEN L AND XL.

TO ENSURE AN OPTIMIZED FIT IT IS THEREFORE RECOMMENDED THAT A RIDER REFER CLOSELY TO THE SIZING CHART AND/OR TRY ON BOTH SIZE VERSIONS (S-M-L AND XL-2XL) BEFORE PURCHASING.
