SUPERTECH R BOOT

RACING / HIGH PERFORMANCE RIDING

PRODUCED SIZES: 39-48 EUR

CORRESPONDING TO: 6-12.5 US

Durable and technical microfiber upper construction offering superb levels of flexibility. -- Front flex area is constructed with a soft TPU mesh with shaped reliefs for abrasion resistance and natural forward and back movements. -- Flexible accordion microfiber stretch at Achilles allows natural movement. -- Top gaiter follows leg contour and is made of flexible high-grade synthetic leather reinforced with PU for maintaining shape. -- Full length microfiber panel on inner side of the boot provides a smooth surface for excellent grip and feel against the bike and protects from abrasion and heat. -- Lightweight rubber compound sole offers excellent grip and feel and allows for natural flex as the rider changes position and pressure on the foot-peg. -- Flexible, lightweight toe shifter allows feel for changing gears. -- Strategically positioned ventilation in heel and shin TPU guides air through the boot, on vented version. -- Extremely protective, flexible and comfortable with excellent aerodynamics.

-- Separate internal bio-mechanical ankle brace works with the outer structure of the boot to form a protective system allowing full and free movement of the foot, ankle and leg. -- External TPU shin protection wraps around to outer calf and is engineered to spread and dissipate impact energy across the entire surface while remaining compact. Vented sections promote airflow into the boot. -- Clip-on toe-slider provides feel and protects the outer toe box structure from abrasion. (Upgradeable to a magnesium slider). -- Replaceable nylon heel plate slider protects from impact and reduces friction in the event of a crash. -- Outside entry/exit has stretch accordion panel for a close fit and ease of entrance and removal. -- Zip mounted on accordion stretch panel gives easy closure with excellent fit. **Hook and loop fastener** tab lock the zip pull closed, keeping it flat and secure. -- Micro adjustable ratchet top closure stows tab end inside calf TPU. -- The Supertech R boot is CE certified.

INNER ANKLE BRACE SYSTEM

Separate internal bio-mechanical ankle brace works with the outer structure of the boot to form a protective system allowing full and free movement of the foot, ankle and leg. New research has produced re-profiled double hinged inner and outer torsion bars to give greater impact protection of the ankle and progressively absorb flex and rotation stress, reducing pressure and hyper-extension injury to the lower leg joints. -- The inner ankle brace is constructed with a fiberglass re-inforced polyamide compound and ergonomically designed closed cell padding to give protection and comfort. -- Alpinestars exclusive lasting process has developed the Supertech

R's fit and feel characteristics to an even greater level, ensuring the inner structure allows the rider maximum feedback from the bike. -- Specially developed polyamide compound moldings give impact protection while retaining the ease of natural skeletal movement. -- Main upper material constructed from breathable mesh and microfiber chassis supported by an inner ankle soft padding for maximum comfort -- Metal eyelet closure ensures rapid and accurate entry and exit and with micro-adjustability, ensures perfect fitting and security. -- Removable anatomic footbed is sculpted for precision fit.

MAGNESIUM TOE SLIDER

compatible with all race boots.
offers extended track life.

SMX PLUS BOOT

HIGH PERFORMANCE RIDING

PRODUCED SIZES: 36-48 EUR
CORRESPONDING TO: 3.5-12.5 US

Contoured high modulus shin plate protector gives superior impact and abrasion resistance. -- Alpinestars unique Multi Link Control system provides advanced external protection and support for ankle articulation, limiting hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles and ankle impact protection. -- Wide heel counter with lateral ventilation extends to the ankle and is combined with a shock absorbing padded insert and self-molding ankle protectors. -- Dual density TPU toe slider, replaceable, with snap-in assembly providing protective coverage around the outer toe area. -- Replaceable heel slider and external side heel slider are positioned to dissipate and absorb shock and promote sliding during an accident. -- Large front and rear asymmetrical accordion zones are optimized to maximize flexibility for maximum comfort and improved safety. -- Advanced microfiber upper construction for

lightweight high performance protection. -- Durable sole, designed for improved riding feel, features evenly textured rubber for consistent grip, with aqua dynamic grooves to drain the water efficiently. -- Inner instep made with Dupont™ Kevlar® with metal eyelet lacing closure and a unique lateral zipper offer precise and secure fitting. -- Elastic mounted zipper gives easy closure with excellent fit. Hook and loop fastener tab locks the zip pull closed, keeping it flat and secure. -- Micro adjustable ratchet buckle closure on the calf features a hidden strap for security. -- Advanced synthetic forefoot lining, laminated with open cell foam for shock absorption and highly breathable lining in ankle and leg areas for comfort. -- Alpinestars anatomical and replaceable countered EVA footbed provides arch support and forefoot pedal feeling. -- The SMX PLUS boot is CE certified.
