Beauty in the details

Exquisite ultra-slim, frameless design

Designo MX27AQ fits well in any living space. Its ultra-slim profile measures just 1.25cm at its thinnest point, and takes up very little desktop space. Like other ASUS Designo MX Series displays, the elegant MX27AQ features an edge-to-edge frameless panel with bezel thickness of just 0.1cm.

A true work of art

The beautifully-crafted Designo MX27AQ features a simple yet elegant 2015 iF Award-winning design. It has a sturdy metal stand with a stunning sundial-inspired base.

Stunning 178° wide viewing angles

Designo MX27AQ features an advanced high performance in-plane switching (AH-IPS) panel to give you a stunning 100,000,000:1 contrast ratio and 178-degree wide viewing angles. The LED-backlit display also gives you extremely accurate color reproduction with 100% of sRGB color space – making MX27AQ ideal for professional-grade photo and video editing, or for home entertainment.

Powerful, immersive audio

Co-developed with ICEpower® | Bang & Olufsen Technology

ASUS Designo MX27AQ fully immerses you in awe-inspiring sound through a combination of advanced hardware and professional audio processing. MX27AQ features ASUS SonicMaster audio technology, co-developed with ICEpower® | Bang & Olufsen Technology. SonicMaster refines every acoustic detail to deliver crystal clear sound with richer, more distinct vocals and wide frequency range. The MX27AQ has an embedded ICEpower® | Bang & Olufsen Technology MobileSound 3 chip that delivers incredible audio fidelity through two built-in 3W stereo speakers for rich, satisfying sound.

Protect your eyes with ASUS Eye Care technology

Flicker-free Technology

Say goodbye to tired, strained eyes. Designo MX27AQ features the TÜV Rheinland-certified ASUS Flicker-Free technology designed to reduce flicker for a comfortable viewing experience. This minimizes instances of eyestrain and other damaging effects when you spend long, countless hours in front of a display.

ASUS Blue Light Filter

Designo MX27AQ also comes with the TÜV Rheinland-certified ASUS Blue Light Filter to protect you from harmful blue light; a new OSD menu lets you easily access and select four different filter settings onscreen. MX27AQ has undergone stringent performance tests and is certified by TÜV Rheinland laboratories, a global provider of technical, safety, and certification services, to be flicker-free and to emit low blue light levels.

Extensive connectivity options for a multitude of multimedia devices

Designo MX27AQ gives you unparalleled compatibility with most multimedia devices. It has a variety of video input options ranging from a DisplayPort 1.2, dual HDMI, and a HDMI/MHL2.0 port. The latter lets you view content from your MHL-compatible devices* on the MX27AQ while simultaneously charging the mobile device.

Exclusive ASUS features for added versatility

SplendidPlus™ Video Intelligence Technology

ASUS Splendid optimizes videos and images by enhancing color brightness, contrast, and sharpness. It includes 8 preset modes (Reading, Darkroom, Scenery, Night View, Theater, Game, sRGB and Standard) to suit whatever is currently onscreen.

VividPixel Technology

ASUS VividPixel Technology enhances image output and reduces noise bars, further adding to the De MX27AQ's crystal-clear, detailed visuals.

QuickFit Virtual Scale

A hotkey lets you preview your photos and documents on screen in their actual sizes prior to printing; it also provides you with an alignment grid to ensure everything is straight and true.
