PHV-200-BL

Grip-iT™ Universal Rotating Vent Mount

Provides a stable, secure mounting solution for your portable mobile electronics. The Grip-iT universal holder is designed for portable mobile electronics and easily connects to the louvers of your vehicle's air vent to provide a stable, secure, and easily accessible mounting solution for your portable device.

- Adjustable support legs
- No tools needed for installation
- Compatible with all horizontal air vent louvers
- Single T-Notch head
- Spring-loaded locking mechanism
- Allows for horizontal and landscape viewing

PHW-203-BL

Grip-iT™ Universal Window Mount

Get the ultimate in flexibility and versatility for mounting your mobile device. The windshield mount's 360° rotating head adds even more adjustability to the Grip-iT's versatility, allowing easy mounting to any windshield while providing a secure base for most portable devices.

- Sturdy windshield mount
- Transfers to multiple vehicles
- Grip-iT adjustable arms expand up to 4.5"
- Does not block device controls

UCH-101-BL

Cup-iT™ Universal Cup Holder Mount

Quick and easy cup holder mounting kit secures most portable devices. The Cup-iT's sturdy flex shaft and 360° rotating capability adds more versatility for easier viewing and access with a secure base. Also included is the Grip-iT Mobile Device Holder that works with almost any portable device.

- Fits large cup holder sizes up to 3.75" in diameter
- Transfers to multiple vehicles
- Grip-iT adjusts out to 4.5" wide
- Fits most portable devices
- No tools required for installation

IPM-202-BL

iPod® Docking Kit

Easily connects to your vehicle's vent louvers for a quick and easy mounting solution. The iPod Docking kit is the ideal solution to easily mount your iPod or mobile device in your car. It connects easily to the louvers of your vehicle's air vent to provide a stable, secure and accessible mounting solution.

- Works with most generation iPods
- Easily mounts to your air vent louvers
- Adjustable to fit most mobile phones

IPM-228-BL

MobileDock™ Dash Mount

The MobileDock is a breakthrough in suction-mounted technology that allows you to mount your device directly on your dashboard. The MobileDock can be securely mounted on most hard surfaces without glue or adhesives. The cradle securely holds any phone or mobile device using advanced, adhesive-free grip technology.

- Innovative, patented super stick-and-grip flexible material mounts to most hard surfaces
- No need for separate cradle to hold your device to the mount
- Allows for full access to all device controls
- Portable design for easy installation and removal

MobileDock™ Vent Mount

The MobileDock Vent Mount is a breakthrough in mobile mounting technology, featuring a sleek, new universal cradle that holds virtually any mobile device. MobileDock easily mounts to your vehicle's air vent and uses advanced, adhesive-free grip technology to hold your device, keeping it close and allowing easy access to all device controls when you're on the go.

- Simple and sleek complete mounting solution
- One-touch device placement and removal on the cradle
- Easy installation
- Leaves no residue on your device
- Works with most cases

IPM-247-BL

Dash-Mat™ Dash Mount

Keep all of your portable devices handy with this weighted portable dash mount. The portable Dash-Mat combines the physics of weight distribution with a high-tech, anti-skid material to provide a solid mounting base for your portable electronic devices. Dash-Mat contours to the top of your vehicle's dashboard so it works on any uneven or textured surface and keeps your device from sliding.

- Includes adjustable device holder and Dash-Mat
- Holder rotates 360° for vertical or landscape viewing
- No installation required
- Arms expand to 3.75"

UFM-200-BL

Hold-iT™ Universal Mobile Vent Mount

Easily and securely mount your mobile electronic device anywhere in seconds. The slim Hold-iT mount is designed for all portable mobile electronic devices and provides a sleek, professional mounting solution that is easy to install with 3M™ VHB Tape. Or, you can choose the Standard Vent Mount option (included) that easily mounts to the air vent louvers on your dashboard.

- Hold-iT attaches to your mobile device using 3M™ VHB tape
- Infinite dash mounting options
- Vent mount fastener included
- Won't damage dash, easily removable with no residue
- Silicone case compatible

STM-100-BL

Hold-iT Mini™ Mobile Device Holder (2-pk)

Unique Low Profile "Slide On Fastening System" Easy-On and Easy-Off Action. Universal application—the uses are endless. The slim Hold-iT mount is designed for all portable mobile electronic devices and provides a sleek, professional mounting solution that is easy to install with 3M™ VHB Tape.

- Hold-iT attaches to your mobile device using 3M™ VHB tape
- Installs in seconds
- Infinite dash mounting options
- Easy viewing & reach
- Won't damage dash, easily removable with no residue
- Silicone case compatible

STM-213-BL

Mobile Docking Kit

Easily connects to your vehicle's vent louvers for a quick and easy mounting solution. The Mobile Docking Kit is the ideal solution to easily mount your iPod or mobile device in your car. It connects easily to the louvers of your vehicle's air vent to provide a stable, secure and accessible mounting solution.

- Works with most generation iPods
- Easily mounts to your air vent louvers
- Adjustable to fit most mobile phones
- Optional 3M VHB mounting tape included
- Optional AMPS Plate for mounting to MVMS and CBMs
- Mounting hardware included

PHM-201-BL

GVM-207-BL

Travel Stand

The Travel X-Stand features five (5) adjustable angle positions for optimal viewing and performance with your laptop, netbook and iPad®. The stand improves your overall comfort and productivity by promoting neutral wrist postures, while keeping your device cool. The lightweight stand folds flat and collapses making it easy to take with you or stow away.

- Sets up in just seconds without tools
- Five(5) adjustable viewing angles - from 0°- 45°
- Compact when folded flat
- Easy to carry and store when on the go

LTM-205-BX

Universal Vehicle Laptop Mount

Designed for security, safety, and convenience, the Universal Vehicle Laptop Mount lets you convert your car into a mobile office so you can be even more productive when you're on the road. Heavy-duty construction combined with a sleek design makes using your notebook computer in your car or truck a snap. The mount is perfect for insurance adjusters, courier drivers, contractors, realtors or any other road warriors that need to use their computer while on the go.

- Safely and securely holds your computer.
- Quick release for easy computer removal.
- Easily installs in most every vehicle.
- Folds away when not in use.

LTM-MS-525

Big Rig Base Laptop Mount

Our Semi-Truck Laptop Mounting System converts your truck into a mobile office making you more productive while on the road. Make every second count when you're on the go. Designed for security, safety and convenience.

- Easy to install
- Safely secures the Semi-Truck Car Laptop Mounting System to the cab's floor to give you quick and easy access to your computer
- Installation instructions included

LTM-212-BX

Universal Semi-Truck Mounting Base

The big rig mounting bolts underneath either the driver or passenger seat of your semi to easily mount your laptop mount. Works in most big rig trucks including Freightliner®, International®, Kenworth®, Mack®, Peterbilt® and Volvo® to give you quick and easy access to your computer.

- Big rig mounting base and vertical upright
- Safely secures the laptop mount to the semi floor
- Easy to install

LTM-TB-103

Telescoping Support Brace

Telescoping support brace provides added stability and support for our Universal Vehicle Laptop Mount when needed. The brace can be mounted several different ways, either to another seat bolt or to any hard stable surface using 3M® Dual Lock Fastener. More than one brace can be used with the Universal Vehicle Laptop Mount if desired. The brace utilizes an easy "twist lock mechanism" to lock the telescoping tubes in place after installation. The support brace is easy to install and is a great additional accessory.

- Provides extra support for In-Vehicle Mount
- Easy twist lock mechanism
- Telescoping tubes extend from 15" to 24"
- Mounts to adjacent seat bolt or any hard surface using 3M® dual lock fastener

LTM-SA-102

LTM-FM-101

Universal Floor Mount

The Universal Floor Mount is the ideal solution for mounting your laptop mount when the underseat bolts are not accessible. Featuring the same easy-on/easy-off design, the black powder-coated Universal Floor Mount can be mounted anywhere using the six (6) included sheet-metal screws.

- Strong sturdy base
- Allows mounting on vehicle floor
- Sheet metal screws included

LTM-CC-105

Adjustable C-Clamp for Laptop / Tablet

Adjustable C-Clamp allows you to take your laptop mount out of vehicle and into the home or office to perform double duty. The unique two piece design fits together and offers four (4) different positions to accommodate various tabletop thickness. The large T-Knob screw makes for easy tightening and securing that clamp to the tabletop. The Clamp is designed to work with the Universal Vehicle Laptop Mount for mounting computer LCD monitors in an office environment.

- Allows easy mounting of an LCD monitor display
- Rubber padding won't scratch mounting surface
- Accommodates various table thicknesses
- Made of heavy-duty 2/16" steel

Travel Stand

The Travel Stand is the ideal accessory for your iPad® or tablet. A compact, portable design that features five adjustable angle positions for optimal viewing and performance

- Sets up in just seconds without tools
- Five(5) adjustable viewing angles - from 0°- 45°

USB Socket Charger

Low-profile charger sits flush in your dash and charges your device at the fastest possible speed. The sleek design ensures that the charger fits neatly and safely in your dash. Works well for anyone that needs to charge their handheld device or GPS in the car. With over 3 billion devices shipped in 2008 alone, USB is perhaps the most successful interface in modern history. However, most cars do not have a USB port...until now.

- Small and compact
- Fits in to any 12v power port
- Charges virtually any USB-powered device
- Red power indicator light

UGC-257-BL

High-Power USB Socket Charger

Low-profile charger sits flush in your dash and charges your device at the fastest possible speed. The sleek design ensures that the charger fits neatly and safely in your dash. Works well for anyone that needs to charge their handheld device or GPS in the car. With over 3 billion devices shipped in 2008 alone, USB is perhaps the most successful interface in modern history.

- Fast charging
- Charges most USB-powered devices including iPad, iPhone/iPod and GPS
- Red power indicator light
- Fits into any 12v power port
- High current output 2.1A

UGC-298-BL

Dual USB Charger

With the Dual USB charger, you can now charge or power two devices at the same time. The low-profile dual charger includes both high and low-current USB outputs, perfect for charging your tablet and handheld mobile device simultaneously while you're on the road.

- Fast charging for multiple devices, including iPad, iPhone/iPod, MP3 and smartphone
- Low profile charger fits into any 12v port
- 2.1A and 1.0A USB ports
- Power LED light

UGC-101-BL

Traveler's Adapter

Now you can charge your cell phone wherever you go! Now you'll never be at a loss for power when you travel. Just plug the Traveler's Adapter into wall outlet and plug your car charger into the Adapter. It's that simple. No need to pack your phonecharger when you travel.

- Charge your cell phone or smartphone
- Can be used to charge other 12V electronics
- Powers 12V electronic devices from 110V wall outlet
- Input 110V AC, 60Hz
- Output 12-15V DC, 0.5 Amp

UGC-102-BL

Dual Socket Power Adapter

The Dual Socket Power Adapter provides two power receptacles from a single outlet in your vehicle, allowing you to use two car chargers to power or charge multiple devices at one time. Simply plug the Power Adapter into your cars power outlet and connect the car chargers for your two devices. The Power LED light will turn on indicating that both devices are receiving power.

- Dual Sockets - charge two devices at once
- 12V/10A Power Capacity
- Power LED light
- Works with all 12V car chargers
- Device cables not included

GPS/Cell Phone Power Charger

Universal replacement power charger for most major GPS brands. Now you can charge your GPS on the go with this universal car charger. Compatible with Garmin®, TomTom®, Magellan® and Mio™, this charger includes four different connectors that make it easy to charge virtually any GPS system.

- Includes 4 different connectors that are compatible with various popular GPS systems
- Works with most Garmin, TomTom, Magellan and Mio GPS systems
- LED power indicator
- 4' power cord
- Rated 5V 2A output

UGC-229-BL

Universal USB Power Dock

The ideal solution to quickly, easily and securely mount and power your GPS, iPhone or mobile electronic device. Our exclusive Grip-iT™ universal holder with USB powered auxiliary jack includes everything you need to securely mount many of today's mobile electronic devices while charging and using them at the same time!

- LED power on indicator
- Works with 12v electronics
- Adjustable 360° pedestal mount
- Powers and charges Up to two(2) electronic devices
- Also includes standard 12v charging receptacle

IPM-197-BL

GPS Power-Pack

The ideal solution to quickly and easily charge your mobile GPS unit in your vehicle or wall outlet. Our exclusive Universal GPS PowerPak includes everything you need to charge your Garmin®, TomTom® or Magellan® GPS unit in your car, office or home. The PowerPak includes a retractable USB cable, a wall charger and a vehicle charger.

- 3-Piece modular design allows you to take it anywhere
- Charge your GPS unit on the go in any vehicle with the automotive power socket adapter
- Plug your GPS unit into any wall outlet with the 110V power adapter
- Charge any GPS unit with a mini-USB plug
- Retractable USB cable for easy portability and storage
