

BUSHWOLF[®]

PROFESSIONAL CAMOUFLAGE

BUSHWOLF®

TALLGRASS®

Bushwolf® Camouflage

- Wrap almost any smooth non-porous surface for concealment in the field and protection from the elements.
- Featuring the highest quality vinyl with air-egress technology for fast, easy installation and long term durability.
- Total Specular Dispersion matte laminate eliminates reflection and glare.
- Non-Repeating pattern gives your wrap a natural look when compared to competitor camouflage patterns.

THE BUSHWOLF™ DIFFERENCE

Compare Bushwolf NON-REPEATING Camo to the other leading camo patterns and one thing will become obviously clear. Our competitor's patterns are used primarily in the garment business and other small scale printing so they've only ever created a small swatch of each of their patterns. In order for them to cover a large surface such as a vehicle or even a refrigerator they have resorted to simply repeating the pattern 10 or fifteen times to make it look bigger. The results are something similar to a quilt-like repetitiveness. Bushwolf patterns do not repeat. Our patterns have been created from the ground up with the idea that if nature doesn't repeat, why should your camo?

EASIER INSTALLATION THAN YOU MIGHT THINK.

Bushwolf® vinyl is designed for easy installation. After all this isn't regular vinyl. The first thing you'll notice is that it's quite a bit thicker and stronger than normal vinyl, and becomes very pliable with heat. You'll also notice tiny channels on the adhesive side. These air egress channels allow you to easily push out bubbles that may get trapped under

“air egress channels allow you to easily push out bubbles”

the surface. Bushwolf® forms a strong bond after installation and is easily removed months or years later without effecting the underlying surface.

PATTERNS

1 OBLITERATION BUCK

Show the world what you're all about! Obliteration Buck Camo is the premiere lifestyle pattern. Bark covered buck skulls intertwined into natural woods add a new dimension to the standard spring summer and fall camouflage pattern.

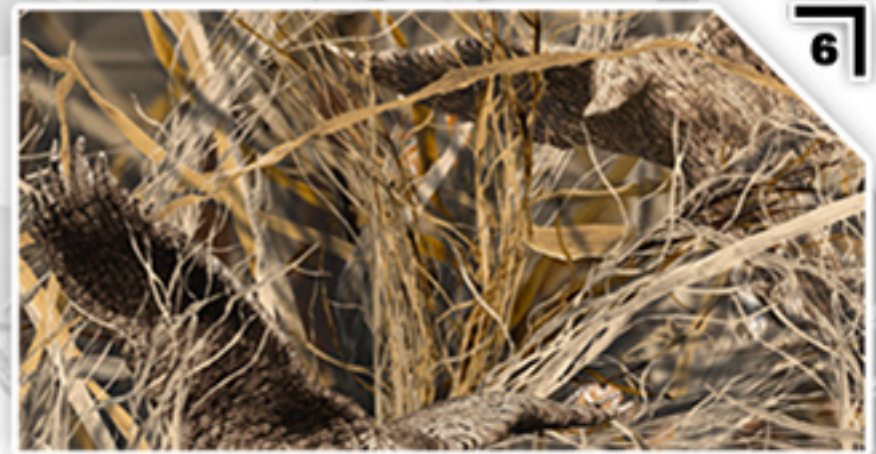

2 OBLITERATION BUCK SNOW

Obliteration Buck Snow Camo takes our Obliteration Buck pattern into the winter. Snow covered branches and winter colors dominate this premiere lifestyle camo pattern.

3 OBLITERATION

Obliteration Camo is designed for total outline obliteration. Intense depth and large wooded elements recreate natural visual and peripheral optics into the pattern itself for unrivalled outline obliteration.

4 OBLITERATION SKULL

We've taken the traditional skull camo pattern to a whole new level with the Obliteration Skull pattern.

5 TALLGRASS

Our grassland pattern is clad in fall foliage and natural tan hues. Tallgrass is designed to blend into its surroundings creating near total imperceptibility in dry grasslands.

6 TALLGRASS DUCK

Tallgrass Duck is a lifestyle pattern that appears as a more subtle wet grassland camo at first glance. On closer inspection you'll see Mallard ducks taking flight.

7 OBLITERATION SKULL BLAZE

The Obliteration Skull Blaze pattern takes our Obliteration Skull camo and twists in an inferno of blaze orange.

8 OBLITERATION BUCK BLAZE

We took our most popular lifestyle pattern, Obliteration Buck, and set it ablaze! Obliteration Buck Blaze has safety orange flames twisting throughout the pattern making you and your gear clearly visible to anyone in the immediate area.

9 TALLGRASS PINK

Let them know who's behind the wheel of that jacked up truck or who just bagged that 20 pointer! Our Pink Tallgrass camo mixes pinks, purples and blacks to create a unique camo that shows the world what you are about!

10 OBLITERATION SKULL PINK

Pretty in pink, dangerous in camo! Our Obliteration Skull camo features intertwined branches of skulls in pinks and magentas over purple and black elements. The Obliteration Skull camo takes the traditional skull camo to a whole new level!
