

Electrical Focus

CO Contact Cleaner – Precision Electronic Cleaning

A plastic-safe high purity general-purpose evaporating cleaner and degreaser for use on sensitive electronic and electrical equipment. Formulated to quickly penetrate into hard-to-reach areas and effectively flush away carbon deposits, dirt, light oils, dust, lint and other light contaminants. Rapid and complete evaporation – Leaves no residue. Non-conductive, non-corrosive and non-staining. Flammable - use on de-energised equipment only.

Size	500ml
Code	2016

A specially formulated plastic safe Food Grade evaporating precision cleaner for use in food manufacturing and processing industries. Removes light contaminants from electrical and electronic equipment. Fast evaporation minimises downtime and leaves no residue. Non-conductive, non-corrosive and non-staining. Flammable - use on de-energised equipment only. MPI C22. NZ AsureQuality assessment for food/beverage including dairy factories with incidental contact.

Size	400ml
Code	3102

PF Precision Cleaner

A specialised non-flammable, plastic safe, electrical cleaner. Strong cleaning action, fast evaporation, no residue and has no flashpoint. Effective in removing light oils, greases and similar soils from contacts, circuit boards, switches, telephones, PCs, motors, relays, generators, edge connectors, busbars and circuit breakers. Ideal for use around plastics and insulators. Dielectric strength 31,500 volts.

Size	400ml
Code	2143

Airbrush 360

Environmentally respectful HFO formula - Very Low Global Warming Potential (GWP). RoHS Compliant. Supplies a non-flammable powerful burst of compressed pure propellant gas to safely remove dust and lint from all delicate precision equipment and hard-to-reach areas. Ideal for offsite servicing when compressed air is not available. 360° spray system allows it to be sprayed at any angle. Non-abrasive, non-corrosive, moisture-free and leaves no residue.

Size	300g
Code	2070

Lectra Clean

A non-flammable heavy-duty evaporating cleaner and degreaser for use on electric motors and other heavy-duty electrical and mechanical equipment. Effectively removes wax, grease, oil, dirt, moisture and foreign matter that are common causes of current leakages and electric inefficiencies. Ideal for cleaning water and contaminants from flood damaged equipment. Minimises downtime by cleaning low-voltage motors and equipment while in operation. May be harmful to some plastics.

Size	400ml	20L
Code	2018	2021

Smoke Test

Simulates smoke to test the complete functional ability of commercial and residential smoke detectors. Checks the batteries and tests for obstruction or debris that may clog detector vents and prevent smoke from entering the sensing chamber. Non staining, non-toxic and plastic safe. Aerosol extends user reach up to 120cm. Safe to use on photoelectric and ionization type detectors.

Size	300g
Code	2105

Wire Pulling Lube

A polymer gel with PTFE for smooth pulling of electrical and communications wires and cables. Compatible with all commonly used cable types and conduits for electrical, telecommunications and data applications.

Size	1L	20L
Code	2053	2055

2.26

A non-flammable, plastic safe lubricant, penetrant, cleaner and corrosion inhibitor. Helps prevent electrical malfunction caused by water penetration, humidity, condensation or corrosion and restores electrical properties after water damage.

Size	300g
Code	2005

5.56

Penetrates, lubricates and prevents corrosion. Forms a thin film that lubricates moving parts. Superior penetrating power breaks through rust and corrosion. Displaces water from wet equipment and cleans away scale and dirt.

Size	400ml	4L
Code	5005	5007

5.56 Lite

5.56 in a low odour and no solvent formula. Ideal for use in confined places or areas where odour sensitivity is a concern. Lubricates, penetrates, displaces moisture and protects from corrosion.

Size	400ml
Code	5034

5.56 Industrial

Fortified with PTFE for additional lubricating performance and non-flammable making it safe for use in industrial applications. Aerosol or non-pressurised trigger and bulk available.

Type	Aerosol	Trigger
Size	550ml	500ml
Code	5003	5016

Marine 66

Prevents damage due to water and salt atmosphere in marine engines and boating equipment. Forms a thin film that protects metals from corrosion caused by humidity and salt air for extended periods. Contains no silicone.

Size	400ml	4L
Code	6006	6008

Electrical Parts Cleaner

Quick-drying, non-chlorinated evaporating parts cleaner for use on electric motors and other heavy-duty electrical and mechanical equipment. Safe on most plastics. Non-conductive and chemically inert. Extremely flammable.

Size	400g
Code	2019

Urethane Seal Coat

A single component polyurethane coating for electrical and electronic applications. Forms a hard, durable, flexible and non-conductive film. Used to reinsulate after repairs to electrical or electronic circuitry and electric motor rewinding.

Colour	Red	Clear
Size	300g	300g
Code	2044	2049

808 Silicone

A multi-purpose silicone spray for general lubrication. Leaves a thin, clear, odourless film that lubricates, waterproofs and revives without damaging treated surfaces or leaving marks or stains. It provides ongoing protection over a wide range of temperatures.

Size	500ml	4L
Code	3055	3056

Freeze Spray

A multi-purpose freezing agent for maintenance, trouble shooting and repair. Environmentally respectful HFO formula - Very Low Global Warming Potential. (GWP). RoHS Compliant. Tests for heat induced failures and aids assembly.

Size	300g
Code	2072

CDT Cutting Oil

A superior cutting, drilling tapping and reaming lubricant, formulated for hand and machine cutting on all types of metal. Significantly reduces friction and wear, increases cutting speeds, protects and extends tool life.

Size	400ml
Code	3063

Glass Cleaner

Quickly and easily removes tough dirt and grime including grease, finger prints, bugs and smoke haze. Guaranteed safe to use on glass, tinted windows, perspex, plexiglass, mirrors and marble bench tops.

Type	Aerosol	Trigger
Size	500ml	500ml
Code	3070	3071

Zinc It

A quick drying coating that offers the same advantages as hot-dip galvanising. Forms a highly-protective coating with 95% highest purity zinc on bare steel or iron surfaces. Reapplication period up to 6 years.

Size	350g	500g	1L
Code	2085	2125	2185

Bright Zinc

Combines superior rust inhibiting properties of zinc with a tough but flexible enamel coating and the bright finish of new galvanising. More than 50% highest purity zinc in the dried film.

Size	400ml	1L
Code	2087	2187

Black Zinc

Combines superior rust inhibiting properties of zinc with a tough but flexible enamel coating and a coloured satin finish. High levels of anti-corrosive zinc complexes. Also available in white, blue, yellow, red, green and orange.

Size	400ml	500ml	1L
Code	2089	2129	2189

Paint It

Quick-drying industrial quality hardened enamel paint. Provides excellent coverage and dries to a durable, tough, scratch and solvent resistant coating to protect metal and other surfaces. Also available in Bright Red, Golden Yellow, Forest Green, Silver, Machinery Grey, Forest Blue and Safety Orange.

Colour	Black			White
Finish	Gloss	Satin	Matt	Gloss
Size	400ml	400ml	400ml	400ml
Code	3377	3378	3379	3380

Rust Converter

Neutralises rust and converts it to a tough black primer in one easy step. Binds to the surface and provides a waterproof barrier by sealing out moisture and other outside elements for effective long-lasting rust protection. No more sandblasting, heavy scraping, or grinding.

Size	425g	1L	5L
Code	14610	18418	3075

Soft Seal

Creates a dry, transparent, amber waxy film that will not wash or wipe off even in severe conditions. It is a premium heavy-duty, long-term, indoor/outdoor corrosion inhibitor for machined metal surfaces and assemblies.

Size	400ml	4L
Code	3013	3014

Lanocote

Protection for metals from corrosive effects of salt, acids and most alkalis and inhibits oxidation and galvanic corrosion even in extreme corrosive conditions. Provides natural protection for machinery and threaded devices.

Size	500ml
Code	3020

Peel Off

Uses the natural power of d-Limonene to soak through paper labels to release adhesive backings. MPI Approved C101-83. NZASUREQuality assessment for food/beverage including dairy factories food areas non-contact.

Size	400ml
Code	3352

White Lithium

A white lithium-based grease with an advanced additive package for long lasting lubrication, excellent water and heat resistance, corrosion protection, and film strength. Ideal for lubrication of hard-to-reach areas.

Size	400ml
Code	5037

Brakleen

A powerful, heavy duty cleaner and degreaser for general mechanical equipment, brake and clutch parts. Quickly and safely dissolves and flushes away grease, oil and fluids. Standard, Blaster, Fast Dry, Non-chlorinated (NC) and Non-flammable (NF) variants available.

Type	Original	Blaster	Fast Dry	Non Chlorinated	Non Flammable
Size	600gm	600ml	600ml	525ml	550gm
Code	5089	5087	5083	5084	5082

RTV Silicones

Single component, translucent, UV resistant, fast curing vulcanising silicone sealants. Variants are Universal Cure (Mould & mildew resistant), Neutral Cure – suitable for all metals and Acetic Cure – ideal for use where etching of the substrate is desirable.

Type	Universal	Neutral Cure	Acetic Cure
Size	310ml	310ml	310ml
Code	8358	8360	8365

MS Adhesive Sealant

Ados MS is a BRANZ APPRAISED high performance neutral cure adhesive sealant based on MS Polymers. Seals gaps in expansion joints in plumbing, roofing, concrete and brick. Exhibits extreme low shrinkage and is non-slump. Cures quickly, retains excellent bond strength, elasticity and tear resistance. The cured product can be painted with most solvent and water based paints.

Colour	Clear*	White	Black	Grey
Size	300g	400g	400g	400g
Code	8362	8361	8363	8364

*BRANZ Appraised except Clear.

Food Grade Silicone Sealants

A low modulus, highly flexible, silicone joint sealant with 100% neutral cure. Contains additives to resist mould and mildew, with excellent adhesion to plastics, ceramics, stainless steel, metals and glass. Specially formulated for use in food, pharmaceutical and other clean environments where MPI certification is required. Ideal for refrigerated rooms. Titania, white and translucent variants. MPI Approved C82. NZASUREQuality Approved.

Type	Titania	White	Translucent
Size	300g	300g	300g
Code	3314	3310	3312

Spray Adhesives

Multipurpose – Gives a fast tack off, low soak spray and dries clear. Repositionable for 1-2 minutes and bonds within 10-20 minutes.

Ultra High Strength – Ideal where immediate, permanent, high strength bonds are essential. High heat resistance – up to 75°C and variable nozzle. Suitable for porous and non-porous surfaces.

Type	Multipurpose	UHS
Size	210ml	575ml
Code	8015	8017

EXOFF Degreaser & Parts Cleaner

High Performance Cleaning Technology

Formulated to penetrate and dissolve tough grease, oil and contaminants for easy removal – safely.

Use confidently on all metals and alloys – will not damage bright metals including aluminium and brass. Safe on fibreglass, glass, plastics, rubber, painted surfaces and laminates.

For use in industrial, automotive, commercial hygiene and home applications.

Biodegradable, non-toxic, non-hazardous, pH balanced, and water soluble. Non-flammable so safe to use around ignition sources.

The advanced formula is powerful but is non-abrasive, non-corrosive and contains no solvents. Safe on surfaces, users and the environment.

Size	750ml	5L	20L	200L
Code	3410	3412	3413	3414
