

From its humble beginning in 1984, Dynacorn has been focused on service as the cornerstone of the company. Paul quickly earned a reputation for taking care of his customers, always asking "What else can I help you with?" As his customer base grew, so did Dynacorn's inventory of the faster moving parts and the staff to keep up with the volume of calls. Before long, the warehouse was full of parts and the office was full of people, so a larger facility had to be found. The bigger building with the bigger office made it easier to take care of more customers and help grow the inventory, and outgrow another facility. Again, more room for parts and more happy customers mean adding employees and, you guessed it, outgrow yet another building!

Fast forward to 2004 when Larry returned to Dynacorn assuming the role as Sales Manager. Along with that, the duties of R&D/New Product Development for Dynacorn International and ground work for a new venture; Dynacorn Classic Bodies, became fixtures in Larry's wheelhouse. With his help, our industry learned the difference between restoration quality parts and collision repair metal with the release of Dynacorn Certified Restorers Choice parts and components, that became the new high water mark of quality. In February of 2017, our General Manager retired (bye Jim) and Larry was moved into a new role as Operations Manager for the Dynacorn Brands.

The logical choice to replace Larry was long-time employee James Liapis. Having held several different positions in the company, James has proven himself as a versatile member of the team. As the new Sales Manager for both Dynacorn International and Dynacorn Classic Bodies, James will continue to lead the Sales Team and provide the level of service to our dealers that we have become famous for. Do yourself a favor and give him a call sometime. James may be new at this position, but he's been around the track a few times and he is always willing to lend a helping hand or share the benefit of his experience when asked.

Paul Hsiao, President

Larry Brogden, Operations Manager

James Liapis Sales Manager

Welcome to the new 2019 Dynacorn International Catalog. We are happy to have several hundred new parts that are now available to our dealers.

As you begin to look through your catalog, I ask that you read the intro section thoroughly. Our basic rules and procedures are outlined here in these pages. We want to make it simple to do business with us. If you have any questions in regard to these policies or procedures, please ask your sales or customer service person.

Necessary evil section: Dynacorn International, LLC. prints and distributes this catalog as a tool for our dealers to market and sell Dynacorn parts. We make every effort to be accurate in the descriptions and application of our products as printed in this catalog. Pricing in this catalog is subject to change at any time. We will make every effort to give our dealers notice as pricing changes. Dynacorn International reserves the right to change, amend or delete anything in this printed material at any time for any reason.

That out of the way, I'm glad that you have chosen Dynacorn as your Muscle Car parts supplier. Please call us with all questions, comments, complements, humorous stories and party invitations. After all, you're one of us...the Muscle Car People.

Thanks and Good Hunting,

Larry Brogdin

Explanations, terminology and legalese:

To help you to understand and use this catalog, please read these pages completely. If you have ANY questions, please contact the sales or customer service departments to get them answered. Many everyday and automotive terms and acronyms are used throughout this catalog. This is our explanation to these terms.

LH = Left Hand Side **RH** = Right Hand Side

These two acronyms are based on a person sitting behind the steering wheel and looking through the windshield.

SMC = Synthetic Multi-polymer Composite, a modern version of fiberglass that is denser, stronger and better suited for automotive uses.

A/C = air conditioning

CP = Coupe

cyl. = cylinders

FB = Fastback (Sports Roof)

pr. = pair (that would be 2)

W/ = with

Assy. = assembly

CV = Convertible

ea. = each

Pcs./pcs./pc. = pieces/piece

V8 = 8 cylinder

W/O = without

Dynacorn International, LLC. (***Dynacorn***) has published and issued this catalog to our wholesale customers for their use exclusively. All images, part numbers, descriptions and logos are the intellectual property of Dynacorn International, LLC. As a dealer of our products, you have Dynacorn's permission to use the images, verbiage and descriptions within this catalog to sell the products that this information represents. In the effort to maintain a business relationship, we require that our employees maintain honesty, courtesy and respect when dealing with our customers. We expect your company and employees to operate in a similar fashion. Our business relationship as your vendor is "at will" and may be terminated at any time, for any or no reason by either party.

DID YOU KNOW?

If you click on your name when you log into the dealer door, you can go to **VIEW BACKORDERS**: These items are the ones remaining to be filled from previous orders. Print the list and you can search in the catalog tab to see if the items are currently in stock.

SUBMIT AN RA REQUEST: If you find yourself having to send something back, this is a convenient place to request the Return Authorization (RA).

EXPORT A PART SPREADSHEET PER MODEL: You can get a current spreadsheet of all the parts available for a particular model with current pricing. A must have if you are building a catalog.

VIEW YOUR ORDER HISTORY: Self-explanatory; you can see your order history and track your sales, bring up an order you may have deleted with the email confirmation. This tab will show all orders done on the website and track everything you order.

You can search new parts by model or year or both.

You can search catalogs for parts and add them to your order. And, you can save your order by just assigning it a name and you can come back to it at a later date, so you can assist your customers as well.

Bring up a full catalog of each model with our unique flip feature. (Google Chrome recommended). All you do is grab the corner of the page with your cursor and flip the page.

You can save an open order by hitting save and name your order. Then, you can return at any time, bring it up and work on it some more. In fact, you can have several orders going if you like. Use the customer's name for the order name. Simple, and available to you in the dealer door.

Using Dynacorn's new website is easy, time saving and fun. Once you get into the habit of using it, it will become your new best friend. And, the best part, it refreshes itself every fifteen minutes so to you, that means you'll always have access to the most current pricing and availability.
