## CUSTOMER SERVICE

Nobody does Customer Service like Edge Products! We are committed to putting customers first at all times. We don't believe in auto attendants or putting people on hold. When you call our Technical Support line you get a live person. We even have an emergency line that is open 24/7. The tech support gurus at Edge Products eat, sleep, and drink auto performance. We can promise you there is no other company in the industry as dedicated to customer support as much as Edge Products.

What does this mean for you and your business? It means you can solve more problems and free up more of your time to do the things you want to do.

# LEADING THE PACK IN 2011 IN THE PERFORMANCE ELECTRONICS INDUSTRY

POWER  
CONTROL  
STYLE

There's a reason our name is what it is: When it comes to performance electronics for late-model trucks, Jeeps, cars and SUVs, we live on the edge, we lead the pack, we set the standard and we continue to raise the bar. We are always pushing the limits of performance and technology, form and function, style, and ability. The result is a family of products that combines superior performance, unmatched control, and unparalleled style that our competitors can only try to imitate.

Because Edge pioneered and revolutionized this market, customers and competitors alike look to us to define performance. We not only put performance on the map, but we are charting its course for the future.

 Edge realizes that performance is not measured in raw horsepower alone, it's measured at the pump and in your pocket book. That's why Edge offers a range of products designed for your specific needs at a price you can afford.

IN THE PURSUIT OF PERFORMANCE THERE ARE WINNERS AND LOSERS - THESE ARE THE WINNERS

### EDGE PRODUCTS EMISSIONS COMPLIANCE

Edge Products fully supports efforts by the California Air Resources Board (CARB) and the EPA to make certain that emissions-certified products are available to the specialty parts customer. In fact, Edge is able to meet these requirements while delivering the performance benefits for which our products are widely known. On a consistent basis, Edge applies for, and obtains, CARB Executive Orders (E.O.s) for its street-legal products.

Apart from our Edge Racing line, Edge has submitted their full line of aftermarket performance products for testing to ensure they are in compliance with CARB standards. Currently, all of Edge's products for gasoline-powered vehicles have received CARB E.O.s and are legal for sale and use on gasoline-powered pollution-controlled vehicles in California. It is Edge's intention to provide customers with up-to-date, technologically state-of-the-art, street-legal parts that comply with regulatory requirements while preventing problems for the consumer when engaging in emissions test programs and registration procedures mandated by governmental agencies.

MYSTYLE  
SOFTWARE

At Edge, we take pride in not only making the best performing products, but also the best looking ones. We put thought into how each product will look in your vehicle. We offer custom-designed dash pods to integrate the product into your vehicle and give you the ability to customize the product to your personal style with the MyStyle™ software.

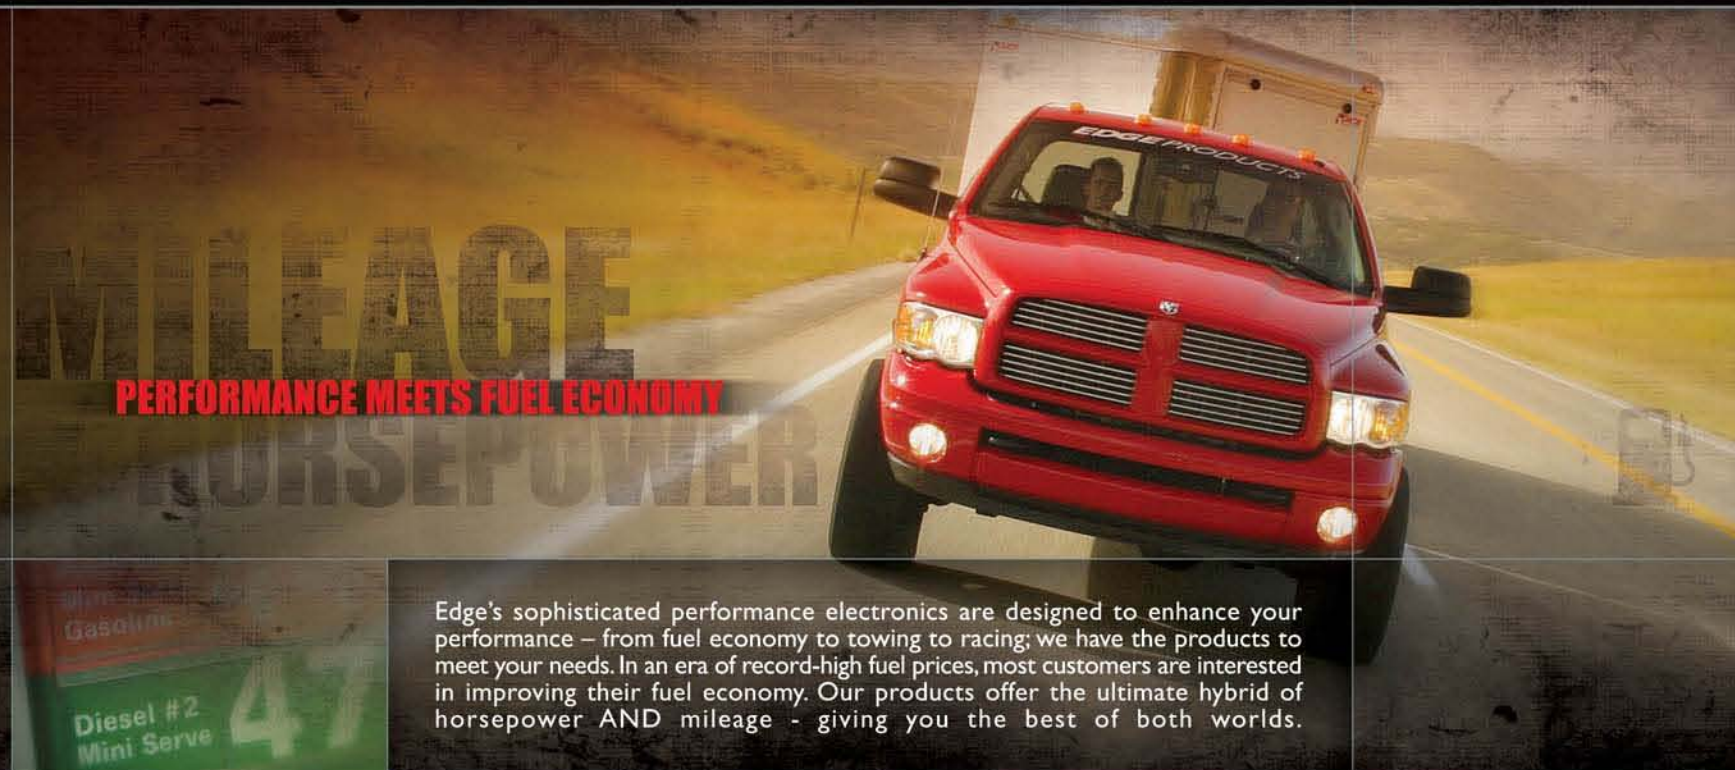

EAS  
EDGE ACCESSORY SYSTEM

Edge doesn't just make great looking products, we make quality, functional, feature-rich products that enhance your overall driving experience. The new Edge Accessory System (EAS) offers another level of customizability. With the EAS Universal Sensor Input and the MyStyle™ software, users can set up multiple pressure, temperature, and other sensor data to be displayed on your CS or CTS device.

# HORSEMILEAGE

HORSEPOWER AND MILEAGE - THE ULTIMATE HYBRID

**ANNUAL SAVINGS**  
Projected annual savings with MILEAGE MAX module. Based on an average fuel consumption of 15 miles per gallon with a possible 7% gain in fuel efficiency

FUEL COST PER GALLON	MILES DRIVEN PER YEAR			
	15,000	20,000	25,000	30,000
\$4.00	\$280	\$373	\$467	\$560
\$3.75	\$263	\$350	\$438	\$525
\$3.50	\$245	\$327	\$408	\$490
\$3.25	\$228	\$303	\$379	\$455
\$3.00	\$210	\$280	\$350	\$420
\$2.75	\$193	\$257	\$321	\$385

Edge's sophisticated performance electronics are designed to enhance your performance – from fuel economy to towing to racing; we have the products to meet your needs. In an era of record-high fuel prices, most customers are interested in improving their fuel economy. Our products offer the ultimate hybrid of horsepower AND mileage - giving you the best of both worlds.

## HOW OUR PRODUCTS WORK

- 
**INCREASES TIMING**  
 With the Mileage Max (or the "Mileage" setting on the Juice with Attitude or Evolution), the product increases the timing of the fuel delivery. With an advanced timing of fuel delivery, you get a more complete burn. A more complete burn is equivalent to getting more power out of your fuel. This is the first way our products serve to increase fuel economy – by getting more power out of the fuel you already use.
- 
**ALLOWS TRUCK TO RUN IN A HIGHER GEAR**  
 When towing or driving up a steep grade, the increased horsepower offered by the Mileage Max, Evolution, or Juice with Attitude allows your truck to run in a higher gear. Running in a higher gear consumes less fuel because you downshift less, which lowers your RPMs. This is why we consider our products to offer the best of both worlds – increased horsepower and improved fuel economy. And, as an added benefit, less downshifting not only means improved fuel economy; it can help to prolong the life of your transmission.
- 
**IMPROVED ATOMIZATION OF FUEL (BURN EFFICIENCY)**  
 Atomization is the process by which a bulk liquid is turned into a spray. Our products improve the atomization of your fuel. We achieve this by increasing fuel pressure, which creates a finer mist. The increased fuel pressure achieved by our performance electronics improves your fuel's burn efficiency, thereby improving fuel economy by (once again) getting more out of the fuel you use.

## CUSTOMER TESTIMONIALS\*

\*Note: All testimonials are unsolicited, independent submissions by actual Edge customers using Edge products.

I have had my Edge Juice with Attitude for my 2008 F-250 for about a month. I wanted to let everyone know that there is a huge power gain on level 5 and there are no problems with regeneration. My truck has only gone through regeneration once since installation. I run my truck on level 3 most of the time and it provides plenty of power for everyday use. Fuel mileage has gains of 4+ MPG when at normal speeds. I hope others will buy the Edge Juice with Attitude to gain power and mileage as I have.

– Miles C., Oklahoma, 2008 Ford 6.4L Powerstroke

How can you beat this deal? Programmer, gauges, and a custom mount. I have run many programmers/chips and Edge's Evolution is by far the best product out there. Power is unbelievable – it took my 4x4 F-250 0-60 MPH in 7.1 seconds on just the second level. Mileage increased by 3-4 MPG. If you have

a 7.3L and are looking for power, mileage, and gauges, this is it.

– Erik B., California, 7.3L Ford Powerstroke

I was skeptical of magic boxes that claim they can do miracles. The Mileage Max does everything it is supposed to. If you mash your foot, you feel more power, enough so that on my '03 I no longer need to power break up to 2000 RPM to get my back tires to get loose; now if I go past 1200 or so, everything goes wild. I have also noticed about 2 or so MPG gain, putting me at 21.8 (hand calculated) mixed city/highway use. I have 3.73 gears and a 48RE tranny, stock 265/70/R17 tires.

– Anthony T., Florida, 2003 Dodge Cummins

JUICE  
ATTITUDE

EVOLUTION

MILEAGEMAX

**CS** 2.4-inch  
COLOR SCREEN

The CS is an in-cab controller, monitor, and digital gauge display. The CS features a full-color, high-resolution 2.4-inch, button-controlled screen. It is offered as an Attitude monitor, Evolution programmer, or Insight digital gauge display. The CS features user-friendly buttons and an easy-to-navigate menu.

**CTS** 4.3-inch  
COLOR TOUCH SCREEN

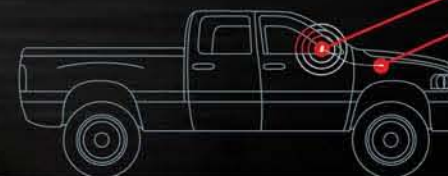

The CTS is an in-cab controller, monitor, and digital gauge display. The CTS features a full-color, high-resolution 4.3-inch touch screen. It is offered as an Attitude monitor, Evolution programmer, or Insight digital gauge display. The CTS also comes equipped with a video-in port to connect to Edge's state-of-the-art back-up camera (sold separately).

## JUICE ATTITUDE

### MODULE / IN-CAB CONTROLLER

The Juice is a power module that mounts under the hood into existing factory harness connections. It receives signals from the truck's engine control unit and constantly monitors and modifies those signals to improve performance. This allows it to make real-time adjustments to affect the way your vehicle performs.

The Attitude CS and CTS is an in-cab controller and monitor that controls the Juice module. The device also functions as a data acquisition and data monitoring display. It captures and displays vital engine information like exhaust gas temperature, turbo boost, and engine coolant temperature, to name just a few.

## PERFORMANCE WITH A WHOLE NEW ATTITUDE

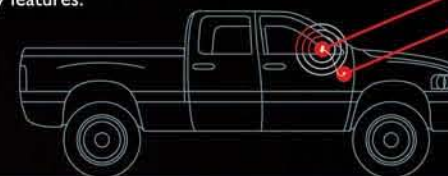

### KEY FEATURES (Features vary by vehicle make and model)

- The same popular in-line (plug-n-play) device plus monitoring that made Edge popular
- New-and-improved, full-color display/controller
- 5 on-the-fly adjustable power levels
- Safety features, such as:
  - Turbo timer (designed to protect the turbo)
  - Transmission slip protection
  - Cold-engine protection (does not add fuel until truck is warm)
  - Back-down fueling (reduces fueling for overboost or high EGTs)
  - Audible alerts (sound when defined values are reached/exceeded)
  - Monitors exhaust gas temperature (EGT)
- A full set of aftermarket gauges in one color display
- Provides perfect, flexible power for towing, daily driving, or racing
- Includes MyStyle™ and Maintenance Manager™ software
- Measure in either Metric or U.S. units

## EVOLUTION

### PROGRAMMER / IN-CAB DISPLAY

The Evolution CS and CTS is a power programmer that maximizes the performance in a variety of ways. Simply plug into the OBDII (diagnostic) port under the dash and select a program level to re-program the truck's computer. The CS and CTS is also a full-featured, in-cab, digital gauge display that monitors and displays vital engine information. In addition, the device acts as a diagnostic scan tool and features a multitude of performance and safety features.

## THE EVOLUTION OF PERFORMANCE

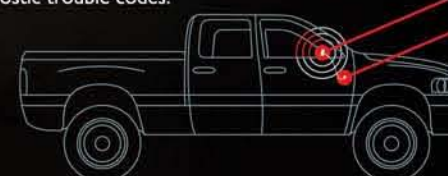

### KEY FEATURES (Features vary by vehicle make and model)

- One simple connection to the OBD II (diagnostic) port to install
- Installs and programs ECU in minutes
- New full-color digital in-cab controller and display
- Improves fuel economy and towing performance
- Displays and clears diagnostic trouble codes with full code description
- Adjusts for non-stock tire sizes to display true speed
- Adjusts the speed and rev limiters
- Multiple power levels for fuel economy, towing, performance, or racing
- Includes MyStyle™ and Maintenance Manager™ software
- Measure in either Metric or U.S. units
- Internet updateable

## INSIGHT

### DIGITAL GAUGE DISPLAY

The Insight is a powerful, full-featured, in-cab, digital gauge display that works on both gas and diesel vehicles. The Insight is the ultimate data acquisition tool that installs in minutes by simply plugging into the OBDII (diagnostic) port under the dash. The device includes a multitude of performance and safety features and also acts as a complete diagnostic scan tool that reads and clears diagnostic trouble codes.

## GAINING INSIGHT INTO PERFORMANCE

### KEY FEATURES (Features vary by vehicle make and model)

- Designed to work on any late-model vehicle with an OBDII (diagnostic) port
- Reads and displays dozens of different vehicle parameters in real-time
- Built-in safety features with audible alerts for user-defined peak values that are reached/exceeded
- Can be used in conjunction with Edge or other performance products to read vital engine data
- Functions as a scan tool to read and clear diagnostic trouble codes (DTCs) with full text description of the code
- Performance testing: performs and records 0-60, quarter-mile times, and graphs performance
- Includes MyStyle™ and Maintenance Manager™ software
- Measure in either Metric or U.S. units
- Internet updateable

## INTRODUCING THE ALL NEW CS AND CTS

From the pioneers of display-based technology and engine performance management, comes the new CS (Color Screen) and CTS (Color Touch Screen) for popular domestic late model trucks, cars, and SUVs. Edge has reinvented three of its most popular lines - the Juice/Attitude, Evolution, and Insight - with an all-new look, improved features and benefits, and pricing that makes the competition obsolete.

Monitors vehicle vitals by displaying up to 8 different parameters at a time on both the CS and CTS

Easy to navigate menus and multiple power options

Perform 0-60 and quarter-mile performance tests as well as engine diagnostic scans

CTS is back-up camera ready and engages camera on screen when vehicle is put in reverse

### THE ULTIMATE IN OVERALL CUSTOMIZABILITY

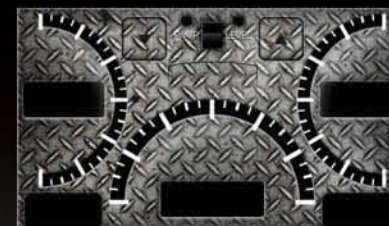

Now you can get the best in performance, control, and monitoring with added style that's all your own. Edge Products proudly announces the release of its all-new MyStyle™ software applications! Free with your CS and CTS products comes this exciting software package that allow users the ultimate in customizability.

Select any image to size and shape to your preference with simple point and click actions. Create your ideal screen image or choose from several custom screen skins provided with the MyStyle software package.

### CUSTOM SKINS

The MyStyle™ software application comes preloaded with multiple, custom, screen backgrounds.

### FEATURES

- Customize gauge screen background with any image of choice
- Images can be sized and shaped to preference
- Clean, easy-to-use program interface
- Simple point and click navigation
- Design and save up to 10 custom background images at a time
- Choose from various custom gauge arc colors for individual gauge displays

# NEW FEATURES

## MAINTENANCE MANAGER™

Maintenance is one of the most important aspects of vehicle ownership. Over time, maintenance is the greatest factor in influencing the longevity, performance, and reliability of your vehicle. The all-new Maintenance Manager™ app from Edge Products, helps you manage vehicle maintenance items that directly affect the overall performance of your vehicle.

The Maintenance Manager™ is available with the latest software release for CS and CTS devices. Create your ideal maintenance schedule from a comprehensive list of vehicle maintenance items to set up, including air filter, axle fluid, engine coolant, oil, fuel filter, spark plugs, transmission fluid, brake pads, tires, and more! The Maintenance Manager™ allows you to customize, and monitor, specific maintenance parameters based on user-determined mileage and interval specifications.\*

\* Refer to your vehicle user manual to determine appropriate service and intervals for your specific vehicle.

Maintenance Manager™ will alert you when maintenance item is coming due

Easy to navigate Maintenance Manager™ menu options

Choose from the list of maintenance items you wish to manage

Turn on alerts for individual maintenance items and set intervals between service

Set odometer and mileage intervals for each specific maintenance item you choose to monitor

Edge Products proudly announces the release of its all-new Maintenance Manager™ software! The release of this new software allows the utmost control in managing your vehicle's maintenance.

Simply download the latest software update for your CS or CTS from Edge Products for **FREE**, and take advantage of this powerful new tool in controlling the performance, reliability, and longevity of your vehicle.

### MAINTENANCE MANAGER™ FEATURES

- Customize a comprehensive list of maintenance items to monitor
- Set up and monitor each selected maintenance item based on user-defined parameters
- Set alerts for advance notification of services that are coming due
- Once it has been indicated that a service has been performed, the Maintenance Manager will automatically reset the next service value

## NEW FEATURES FOR CTS BASED PRODUCTS

### MILEAGE COACH™ SOFTWARE

Coming in 2011, Edge's All-New Mileage Coach™ Software will help you change your driving habits to increase your fuel economy. With Edge's state-of-the-art Mileage Coach™ gauge you can receive instantaneous feedback on whether your current driving style is improving or worsening your fuel efficiency. Going on a trip? Now with the Mileage Coach's Trip Meter you can calculate the cost of fuel for a trip, average MPG, and the amount of fuel used. Not only will the Mileage Coach Software show you actual improvements it will also give you driving tips to help you increase your MPG.

### INCLUDED MILEAGE COACH™ DRIVING TIPS

- How to change Acceleration and Braking
- Proper vehicle maintenance (With the help of Edge's Maintenance Manager Software you can keep your vehicle in ideal working condition.)
- Idling
- Excessive Speed
- Cold Weather/Short Trips
- Terrain
- 4wd vs. 2wd
- Cruise Control
- Cargo/Towing
- Proper way of filling your fuel tank

### EDGE PERFORMANCE TOOLS SOFTWARE

Coming in 2011, The Edge Performance Tools (EPT) software measures various vehicle performance parameters. The software is designed to work with any CTS model and will measure acceleration forces. From measuring the pitch and roll in your rock crawler, to the amount of G-force your sport car pulls around corners, the EPT software has it all. With the EPT software, you can finally measure the performance gains of your vehicle before and after you make aftermarket performance upgrades.

### THE EPT SOFTWARE MEASURES

- Vehicle Horsepower
- Foot Pounds of Torque
- Pitch and Roll
- Acceleration and Deceleration G-Forces
- Lateral G-Forces
- 1/8 Mile and 1/4 Mile Performance Tests
- 0-60 Performance

DIESEL  
GAS

# EAS

EDGE ACCESSORY SYSTEM

## EXPANDABLE ACCESSORY SENSOR SYSTEM

### EDGE ACCESSORY SYSTEM - CUSTOM EXPANDABILITY

The Edge Accessory System (EAS) was created with future expandability in mind. The architecture of the EAS allows users to connect multiple accessories, daisy-chain style, to the CS and CTS platform. The ability to daisy-chain multiple accessories using the EAS allows users to monitor and display dozens of parameters on a single device.

Add up to 16 additional sensors with the EAS Universal Sensor Input. Then setup, configure, and customize those sensors through Edge's MyStyle™ software package.

#### EAS ACCESSORIES

The EAS starter kit allows different type of accessories to be daisy-chained together to create your own accessory system to meet your specific needs and wants. Edge offers a variety of accessories like the Exhaust Gas Temperature (EGT) probe, Turbo Timer, and the EAS Universal Sensor Input System.

#### EGT PROBE

The EGT probe is a sensor that allows users to monitor critical Exhaust Gas Temperatures to ensure added power is not creating excessive heat which, in turn, can cause engine damage. With the EAS system a user can connect multiple EGT sensors to monitor temperatures in different locations and compare readings to be even more precise.

#### TURBO TIMER

A turbo timer is a device designed to keep an automotive engine running for a pre-specified period of time or until a specific temperature is reached in order to automatically execute the cool-down period required to prevent premature turbo wear and failure. This also allows the lubricating oil from the engine to circulate properly so the turbine won't burn the lubricating oil that would otherwise be trapped within the charger with the turbine rotating at high speed.

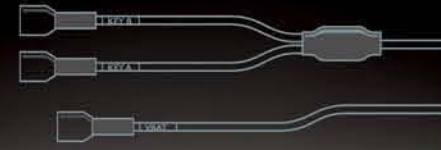

#### EAS UNIVERSAL SENSOR INPUT

The EAS Universal Sensor Input provides the ability to read any 0-5 volt signal and translate that signal to meaningful value for display on the Edge CS or CTS. This means you can add custom temperature, pressure, Air/Fuel and even Travel/Position gauges to your Edge CS and CTS! Using the Edge Accessory System provides the following benefits:

- Using the Edge MyStyle™ software, sensors can be easily configured and renamed.
- Up to 8 Universal Sensor Input accessories may be installed in any order on the vehicle. Each Universal Sensor Input will support up to 2 sensors for a total of 16 additional sensors that can be added to you CS or CTS device.
- Eliminates the necessity of routing multiple wires to the CS / CTS Monitor

Each EAS Universal Input accessory has two inputs to support two sensors which can be configured independently. While Edge sells the most common temperature and pressure sensors, each input can be configured for any 1, 2 or 3 wire sensor with a 0k, 1k, or 10k pull-up resistor that outputs 0-5 volts.

#### MyStyle™ EAS Software

The Edge MyStyle™ software will recognize any Universal Sensor Input that has been connected to your CS or CTS and allow the user to change the PID name, gauge name, description and units. The user can choose from a number of preconfigured sensors or enter in a custom look-up table to translate the input voltage to the measured parameter value and units.

# JUICE ATTITUDE

AVAILABLE FOR FORD, DODGE AND CHEVY DIESEL TRUCKS

CS 2.4-inch  
COLOR SCREEN

CTS 4.3-inch  
COLOR TOUCH SCREEN

The Attitude is available as either a CS color, button-controlled screen or a CTS color, touchscreen.

UNPARALLELED PERFORMANCE

The Juice with Attitude is our premium product offering for diesel vehicles and represents the finest technology on the market. It comes with five on-the-fly adjustable power levels, real-time data monitoring, and real-time, dynamic safety features designed to protect your truck.

The Juice with Attitude provides perfect, flexible power to suit your every need – from improved fuel economy to increased towing power to burning up the track, and everything in between. If you're interested in premium performance, then look no further. Visit [www.edgeproducts.com](http://www.edgeproducts.com) to learn more about the product that has been revolutionizing truck performance.

THE CS AND CTS BOTH COME WITH A STANDARD WINDSHIELD MOUNT FROM ARKON, THE LEADER IN DEVICE MOUNTING SOLUTIONS. THE CS AND CTS UNITS HAVE A STANDARD THREE-LAKE SYSTEM BUILT IN SO THEY CAN ACCEPT AN ARRAY OF DIFFERENT ARKON MOUNTS. ADDITIONALLY, BOTH UNITS CAN BE MOUNTED INTO ANY OF EDGE'S POPULAR CUSTOM DASH PODS.

Batt V	13.9	EDP	49
EGT F	530	DEF Stk	Off
EGT F	190	MPH	75

Monitors vehicle vitals by displaying up to 8 different parameters at a time on both the CS and CTS

Perform 0-60 and quarter-mile performance tests as well as engine diagnostic scans

CTS is back-up camera ready and engages camera on screen when vehicle is put in reverse

## FEATURES\*

- 6 On-the-Fly Adjustable Power Levels\*
- Full-color, high-res, 4.3 inch touchscreen (CTS)
- Full-color, high-res, 2.4 inch button-controlled screen (CS)
- Up to an Additional 180 HP and 440 ft lb Torque\*
- Increases Fuel Economy\*\*
- Greatly Improves Drivability
- Enhances Towing Performance
- Excellent Throttle Response
- Easy Installation
- Ships with a universal suction cup mount and is compatible with all Edge custom dash pods (sold separately)
- Includes light sensitivity meter to dim screen as ambient light decreases
- Internet Updateable (Attitude only)
- Hot Unlock Codes available on some models to unlock additional performance (additional fee and waiver required)

## GAUGES\*

When used with the Attitude CS or CTS monitor the unit is a comprehensive gauge package that stays mounted in the cab of the truck and displays up to eight from dozens of available parameters at a time. Monitor vital engine data, such as EGTs\*, engine coolant temperature, transmission fluid temperature\*, engine oil temperature, and RPM, to name a few.

## SAFETY FEATURES

- Automatic Defueling to Prevent Excessive EGT, Boost and Transmission Slip\*
- Turbo Timer\* (allows turbo to cool before truck shuts off)
- Cold Engine Protection (no extra fuel is added until the engine is warm)
- User-Adjustable Audible Alert Settings

## IMPROVED DRIVEABILITY FEATURES

- Low-Boost Fueling Adjustment
- Shift Defuel Setting\*
- Axle Ratio Adjustment\*

## PERFORMANCE TESTING, ALERTS & RECORDS

Performs and records 0-60 and quarter-mile times; quarter-mile MPH; peak engine temperature, RPM, speed and transmission temperature values. Sounds audible alerts when user-defined values are reached and automatically records the highest value of key parameters.

## EXPANDABLE (items sold separately)

- Compatible with optional Edge Accessory System (EAS) to allow users to connect multiple, additional accessories

## BACK-UP CAMERA (sold separately)

The Attitude CTS features a built-in video port that allows users to connect the state-of-the-art Edge back-up camera, or any other compatible video source directly to the CTS unit.

## MYSTYLE™ SOFTWARE (included - see pages 11-12 for details)

MyStyle™ software that allows users to choose from a variety of Edge custom backgrounds or simply upload an image of your choice. Size, crop and save to your CS or CTS unit for the ultimate in customizability.

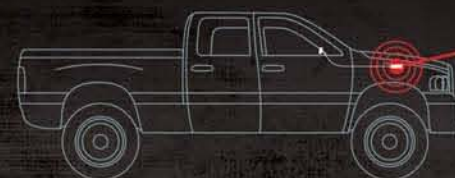

## PERFORMANCE MODULE

The Juice mounts under the hood into existing factory harness connections. It receives signals from the truck's engine control unit and modifies those signals to improve variables like the timing, pressure, and duration of fuel delivery. The Juice module is unique because it is always monitoring the engine's performance. This allows it to make real-time adjustments to affect the way your vehicle performs.

## IN-CAB CONTROLLER

The Attitude is an in-cab controller and monitor that controls the Juice module. The device also functions as a data acquisition and data monitoring display. It captures and displays vital engine information like exhaust gas temperature, turbo boost, and engine coolant temperature, to name just a few. No competitor offers the level of interaction and control provided by the Edge Juice/Attitude system.

\* Results and feature set may vary by vehicle make and model. 6 power levels and higher power gains with HOT unlock code and is not available on all models. Read all instructions before installation and/or operation of this product.

\*\* Increase in fuel efficiency varies based on individual driving style.

## UPGRADE YOUR ATTITUDE TO AN ATTITUDE CS OR CTS

Already running an older Juice with Attitude on your truck? Upgrade from the old Attitude to a new Attitude CS or CTS. The all-new Attitude CS and CTS is backward compatible with most of our existing (supported) legacy Juice/Attitude applications!

### FEATURES\*

- Full-color, high-res, 4.3 inch touchscreen (CTS)
- Full-color, high-res, 2.4 inch button-controlled screen (CS)
- All the features of your old Attitude and more!
- Easy Installation
- Ships with a universal suction cup mount and is compatible with all Edge custom dash pods (sold separately)
- Includes light sensitivity meter to dim screen as ambient light decreases
- Internet Updateable
- Hot Unlock Codes available on some models to unlock additional performance (additional fee and waiver required)

### GAUGES\*

The Attitude CS or CTS monitor displays up to eight gauges from dozens of available parameters at a time. Monitor vital engine data such as EGTs\*, engine coolant temperature, transmission fluid temperature\*, engine oil temperature, and RPM, to name a few.

### SAFETY FEATURES

- Automatic Defueling to Prevent Excessive EGT, Boost and Transmission Slip\*
- Turbo Timer\* (allows turbo to cool before truck shuts off)
- Cold Engine Protection (no extra fuel is added until the engine is warm)
- User-Adjustable Audible Alert Settings

### IMPROVED DRIVEABILITY FEATURES

- Low-Boost Fueling Adjustment
- Shift Defuel Setting\*
- Axle Ratio Adjustment\*

### PERFORMANCE TESTING, ALERTS & RECORDS

Performs and records 0-60 and quarter-mile times; quarter-mile MPH; peak engine temperature, RPM, speed and transmission temperature values. Sounds audible alerts when user-defined values are reached and automatically records the highest value of key parameters.

### EXPANDABLE (items sold separately)

- Compatible with optional Edge Accessory System (EAS) to allow users to connect multiple additional accessories

### BACK-UP CAMERA (sold separately)

The Attitude CTS features a built-in video port allowing users to connect the state-of-the-art Edge back-up camera, or any other compatible video source directly to the CTS unit.

### MYSTYLE™ SOFTWARE (included)

MyStyle™ software allows users to choose from a variety of Edge custom backgrounds, or simply upload an image of your choice. Size, crop, and save to your CS or CTS unit for the ultimate in customizability.

### ATTITUDE CS/CTS UPGRADE KITS

PART#	YEAR	DESCRIPTION
83500	Multiple Makes	ATTITUDE CS UPGRADE KIT (GM 01-10, Dodge 98.5-05, Ford 99-07)
83600	Multiple Makes	ATTITUDE CTS UPGRADE KIT (GM 01-10, Dodge 98.5-05, Ford 99-07)
83501	Multiple Makes	ATTITUDE CS UPGRADE KIT (Dodge 2006-2011)
83601	Multiple Makes	ATTITUDE CTS UPGRADE KIT (Dodge 2006-2011)
83503	Multiple Makes	RACING ATTITUDE CS UPGRADE KIT (Dodge 2007.5-2011)
83603	Multiple Makes	RACING ATTITUDE CTS UPGRADE KIT (Dodge 2007.5-2011)

Available for select Ford, Dodge, and Chevy/GMC vehicles

Monitors vehicle vitals by displaying up to 8 different parameters at a time on both the CS and CTS

Perform 0-60 and quarter-mile performance tests as well as engine diagnostic scans

CTS is back-up camera ready and engages camera on screen when vehicle is put in reverse

### IN-CAB CONTROLLER

The Attitude CS is an in-cab controller, monitor, and digital gauge display that controls the Juice Module. The Attitude CS Upgrade Kit is a direct replacement for your old Attitude monitor. The Attitude CS features a full-color, high-resolution 2.4-inch, button-controlled screen and includes user-friendly buttons and an easy-to-navigate menu.

### IN-CAB CONTROLLER

The Attitude CTS is an in-cab controller, monitor, and digital gauge display that controls the Juice Module. The Attitude CTS Upgrade Kit is a direct replacement for your old Attitude monitor. The CTS features a full-color, high-resolution 4.3-inch touchscreen. The Attitude CTS also comes equipped with a video-in port to connect to Edge's state-of-the-art back-up camera (sold separately)

THE ATTITUDE CS AND CTS BOTH COME WITH A STANDARD ARKON WINDSHIELD MOUNT. THE CS AND CTS UNITS HAVE A STANDARD TWO-TAB SYSTEM BUILT IN SO THEY CAN ACCEPT AN ARRAY OF DIFFERENT ARKON MOUNTS. ADDITIONALLY, BOTH UNITS CAN BE MOUNTED INTO ANY OF EDGE'S STANDARD CUSTOM DASH PODS.

\* Results and feature set may vary by vehicle make and model. 6 power levels and higher power gains with HOT unlock code and is not available on all models. Read all instructions before installation and/or operation of this product.

\*\* Increase in fuel efficiency varies based on individual driving style.

DIESEL  
GAS

# EVOLUTION

AVAILABLE FOR FORD, DODGE AND CHEVY TRUCKS

The Evolution is Edge's popular programmer line. Available for both gas and diesel pickups, the Evolution comes with four power levels and installs in minutes without ever popping the hood. The Evolution increases power up to 100 hp and 200 ft-lbs of rear-wheel torque. Not only does it re-tune your vehicle, it features real-time, in-cab monitoring of vital engine data.

**CS** 2.4-inch  
COLOR SCREEN

**CTS** 4.3-inch  
COLOR TOUCH SCREEN

**PERFORMANCE HAS EVOLVED**

THE CS AND CTS BOTH COME WITH A STANDARD WINDSHIELD MOUNT FROM ARKON, THE LEADER IN DEVICE-MOUNTING SOLUTIONS. THE CS AND CTS UNITS HAVE A STANDARD TWO-TAB SYSTEM BUILT IN SO THEY CAN ACCEPT AN ARRAY OF DIFFERENT ARKON MOUNTS. ADDITIONALLY, BOTH UNITS CAN BE MOUNTED INTO ANY OF EDGE'S POPULAR CUSTOM DASH PODS.

The Attitude is available as either a CS full-color, button-controlled screen or a CTS full-color, touchscreen.

### FEATURES\*

- Full-color, high-res, 4.3 inch touchscreen (CTS)
- Full-color, high-res, 2.4 inch button-controlled screen (CS)
- Available for GAS and DIESEL trucks
- Adds up to 100 horsepower and 210 ft-lbs of torque on DIESEL vehicles\*
- Adds up to 40 horsepower and 50 ft-lbs of torque on GAS vehicles\*
- Improves fuel-economy and towing capabilities
- Monitors and displays Diesel Particulate Filter (DPF) status on new emission diesel trucks.
- Adjusts for non-stock tire sizes to display true speed\*
- Includes light sensitivity meter to dim screen as ambient light decreases
- Installs in minutes with no tools required
- Ships with a universal suction cup mount and is compatible with all Edge custom dash pods (sold separately)
- Internet Updateable

### SCAN TOOL/DIAGNOSTICS

The Evolution functions as a diagnostic tool to display and clear trouble codes with full code description.

- Display injector balance rates\*

### GAUGES\*

The Evolution is a comprehensive gauge package that stays mounted in the cab of the truck and displays up to eight from dozens of different parameters at a time. Monitors vital engine data, such as engine coolant temp, transmission fluid temp, engine oil temp, and RPM, just to name a few.

### PERFORMANCE TESTING, ALERTS & RECORDS

Performs and records 0-60 and quarter-mile times; quarter-mile MPH; peak engine temperature, RPM, speed and transmission temperature values. Sounds audible alters when user-defined values are reached and automatically records the highest value of key parameters.

### EXPANDABLE (items sold separately - see pages 19-20 for details)

- Compatible with optional Edge Accessory System (EAS) to allow users to connect multiple, additional accessories
- Compatible with optional EGT pyrometer for engine protection

### BACK-UP CAMERA (sold separately - see page 37)

The Evolution CTS features a built-in video port that allows users to connect the state-of-the-art Edge back-up camera, or other compatible video source directly to the CTS unit.

### MYSTYLE™ SOFTWARE (included - see pages 15-16 for details)

MyStyle™ software that allows users to choose from a variety of Edge custom backgrounds or simply upload an image of your choice. Size, crop and save to your CS or CTS unit for the ultimate in customizability.

### EVOLUTION CS/CTS

PART#	YEAR	DESCRIPTION
85100	Multiple Makes	DIESEL EVOLUTION CS
85150	Multiple Makes	GAS EVOLUTION CS
85200	Multiple Makes	DIESEL EVOLUTION CTS
85250	Multiple Makes	GAS EVOLUTION CTS

Available on both GAS and DIESEL vehicles for Ford, Dodge, and Chevy/GMC

### PROGRAMMER / IN-CAB DISPLAY

The Evolution is a power programmer that maximizes the performance of your vehicle in a variety of ways. Simply plug into the OBDII (diagnostic) port under the dash and select a program level to re-program your truck's computer. The Evolution is also a full-featured in-cab digital gauge display that monitors and displays vital engine information. In addition, the device acts as a diagnostic scan tool and features a multitude of performance and safety features.

Monitors vehicle vitals by displaying up to 8 different parameters at a time

Perform 0-60 and quarter-mile performance tests as well as engine diagnostic scans

Easy to navigate menus and multiple power programs

CTS is back-up camera ready and engages camera on screen when vehicle is put in reverse

\* Results and feature set may vary by vehicle make and model. 6 power levels and higher power gains with HOT unlock code and is not available on all models. Read all instructions before installation and/or operation of this product.

# INSIGHT

AVAILABLE FOR MULTIPLE GAS AND DIESEL VEHICLES

EDGE  
PRODUCTS

KNOWLEDGE IS POWER.

GAINING INSIGHT INTO PERFORMANCE

The Insight is available as either a CS full-color, button-controlled screen or a CTS full-color, touchscreen.

THE CS AND CTS BOTH COME WITH A STANDARD WINDSHIELD MOUNT FROM ARKON, THE LEADER IN DEVICE-MOUNTING SOLUTIONS. THE CS AND CTS UNITS HAVE A STANDARD TWO-TAB SYSTEM BUILT IN SO THEY CAN ACCEPT AN ARRAY OF DIFFERENT ARKON MOUNTS. ADDITIONALLY, BOTH UNITS CAN BE MOUNTED INTO ANY OF EDGE'S POPULAR CUSTOM DASH PODS.

## CS 2.4-inch COLOR SCREEN

## CTS 4.3-inch COLOR TOUCH SCREEN

### DIGITAL GAUGE DISPLAY

The Insight is a powerful, full-featured in-cab digital gauge display that works on nearly any 1996 or newer OBDII-enabled vehicle. The Insight is the ultimate data acquisition tool that installs in minutes by simply plugging into the OBDII (diagnostic) port under the dash. The device includes a multitude of performance and safety features and also acts as a complete diagnostic scan tool that reads and clears diagnostic trouble codes.

Monitors vehicle vitals by displaying up to 8 different parameters at a time on both the CS and CTS

Perform 0-60 and quarter-mile performance tests as well as engine diagnostic scans

CTS is back-up camera ready and engages camera on screen when vehicle is put in reverse

### COMPREHENSIVE GAUGE DISPLAY

The Insight is an easy-to-install standalone multi-gauge display. With what would otherwise cost thousands of dollars and take hours to install, the Insight provides inexpensively and instantly. Some of its many features and benefits include:

- One simple connection to the vehicle's OBDII (diagnostic) port
- Displays all data from your vehicle's computer
- View parameters in numeric or analog style gauge display
- Built-in safety features: user-defined visual and audible alerts
- Digital gauge display/scan tool (does not reprogram/tune the vehicle or add power)
- Can be used in conjunction with Edge or other performance products to read vital engine data
- Great value because it monitors much more than just a typical 3-gauge cluster
- Sounds user-defined audible alerts

### SCAN TOOL

Capture and record even more information about the vehicle's performance with the Insight's scan tool features.

- Display and clear diagnostic trouble codes with full text description
- Capture and record up to five parameters for 90 seconds
- Display peak values such as speed and RPM
- Performance testing: 0-60 and quarter-mile times

### EXPANDABLE (items sold separately)

- Compatible with optional Edge Accessory System (EAS) to allow users to connect multiple, additional accessories
- Compatible with optional EGT pyrometer for engine protection

### BONUS FEATURES

In addition to all of the parameters that can be displayed, diesel owners can purchase a thermocouple probe that connects to the Edge Accessory System and display EGT (Exhaust Gas Temperature). And for owners of new diesels with diesel particulate filter (DPF) traps, the Insight displays DPF regeneration status.

With its gauges, built-in safety features, and scan-tool capabilities, the Insight is a valuable, comprehensive tool. With touch-of-a-button control, it's never been easier to gain insight into your vehicle's vital engine information.

### BACK-UP CAMERA (sold separately)

The Insight CTS features a built-in video port that allows users to connect the state-of-the-art Edge back-up camera, or other compatible video source directly to the CTS unit.

### MYSTYLE™ SOFTWARE (included - see pages 11-12 for details)

MyStyle™ software that allows users to choose from a variety of Edge custom backgrounds or simply upload an image of your choice. Size, crop and save to your CS or CTS unit for the ultimate in customizability.

### INSIGHT CS/CTS

PART#	YEAR	DESCRIPTION
83730	Multiple Makes	INSIGHT CS MONITOR (1996 & NEWER OBDII ENABLED VEHICLE)
83830	Multiple Makes	INSIGHT CTS MONITOR (1996 & NEWER OBDII ENABLED VEHICLE)

Available for all 1996 and newer OBDII enabled CARS and TRUCKS

The Insight is a standalone product that only monitors and displays various engine and vehicle performance parameters; it does not modify, enhance or alter engine performance. As such, a California Air Resources Board (CARB) Executive Order (EO) certification is not required for this product.

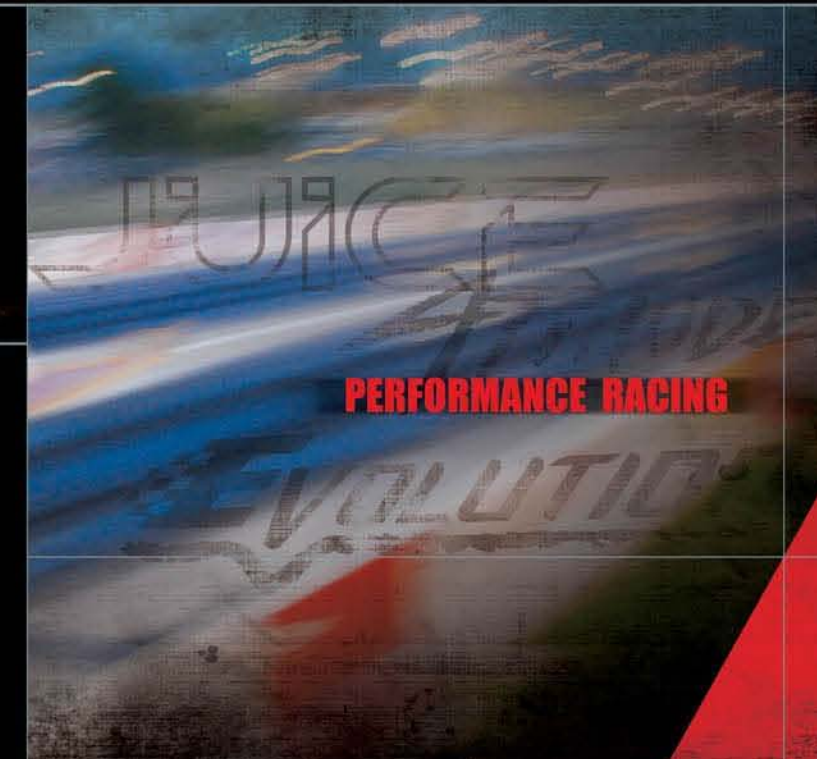

# EDGE RACING

### RACING JUICE WITH ATTITUDE

The Edge Racing Juice with Attitude is also available for the 2007.5-2009 Dodge 6.7L Cummins. This product offers 7 adjustable power levels on the fly. With jaw dropping horsepower gains of 175 HP and 315 ft-lbs or torque at its peak! Edge Racing products are not designed to be used on stock trucks. Users of Edge Racing products should consult a professional to ensure proper upgrades are in place to both maximize performance and protect the vehicle from unnecessary damage. At a minimum transmission upgrades should be performed on any truck when running extreme power levels offered by Edge Racing.

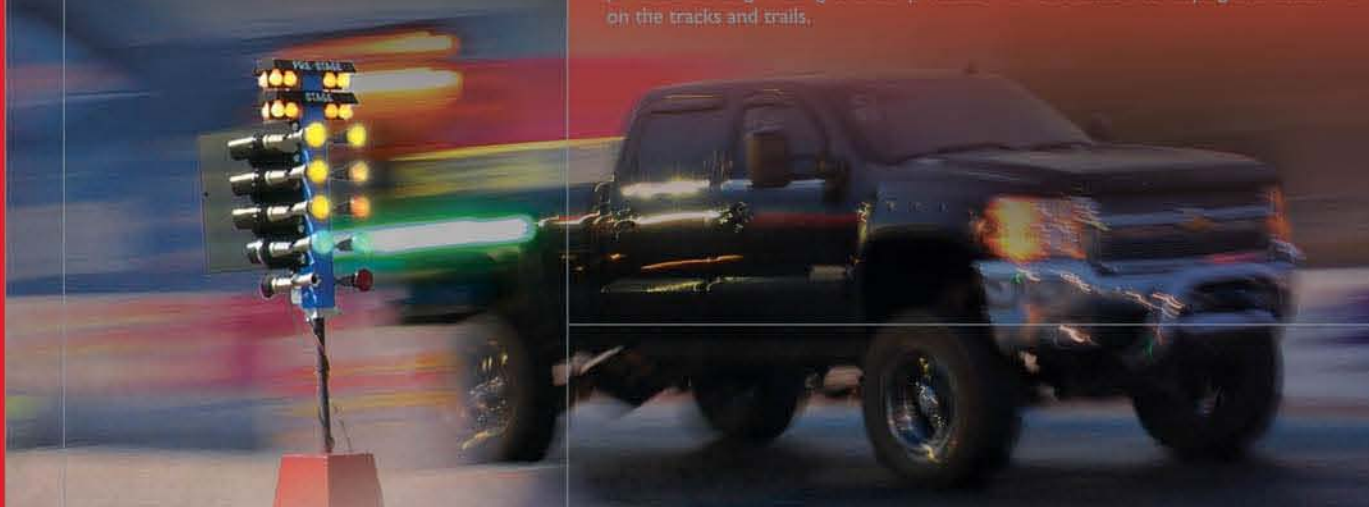

### PERFORMANCE RACING

### EDGE PRODUCTS ALL-NEW EDGE RACING BRAND

Edge Products proudly announces the launch of its new hardcore racing division - Edge Racing! The Edge Racing brand is dedicated to bringing to market new, race-only products designed to suit the needs of thousands of diesel motorsports enthusiasts that participate in sled pulls, drag racing, dyno competitions and other off-road events.

While the Edge Products brand remains completely committed to offering street-legal products the Edge Racing branded products will be dedicated to helping enthusiasts win on the tracks and trails.

### RACING EVOLUTION CS/CTS

The Edge Racing Evolution CS/CTS for the Chevy/GMC Duramax and the Ford Powerstroke are some of the first of many products that will be launched under the Edge Racing brand. The Race Evolution CS/CTS installs with one simple connection to the truck's OBDII (diagnostic) port, features up to seven different power levels, and provides monster gains of up to 180 HP and 385 ft-lbs of torque at its peak!

These products are intended for OFF-ROAD USE ONLY. Edge Racing products are NOT STREET LEGAL and are NOT approved by the California Air Resources Board (CARB).

**ATTENTION**  
Edge Racing products are designed for legal competition use only and are not intended for on-highway use. All Edge Racing products require an activation code that can only be obtained by signing an agreement that establishes the user understands the intended use of Edge Racing products.

EVOLUTION

### PROGRAMMER / IN-CAB DISPLAY

The Evolution is a power programmer that maximizes the performance of your vehicle in a variety of ways. Simply plug into the OBDII (diagnostic) port under the dash and select a program level to re-program your truck's computer. The Evolution is also a full-featured in-cab digital gauge display that monitors and displays vital engine information. In addition, the device acts as a diagnostic scan tool and features a multitude of performance and safety features.

The Legacy Evolution is Edge's original programmer. Available for both gas and diesel pickups, the Evolution comes with four power levels and installs in minutes without ever popping the hood. The Evolution increases power up to 100 hp and 200 ft-lbs of rear-wheel torque. Not only does it re-tune your vehicle, it features real-time, in-cab monitoring of vital engine data.

### FEATURES\*

- Available for GAS and DIESEL trucks
- Choose from 3+ power levels
- Adds up to 100 horsepower and 200 ft-lbs of torque on DIESEL vehicles\*
- Adds up to 40 horsepower and 70 ft-lbs of torque on GAS vehicles\*
- For DIESEL vehicles it's the first-ever standalone programmer to display and monitor EGTs with EGT probe included.
- Improves fuel-economy and towing capabilities
- Internet updateable (in compliance with all CARB requirements regarding downloadable information)
- Adjusts for non-stock tire sizes to display true speed\*
- Screen features adjustable color backlighting
- Installs in minutes with no tools required

### SCAN TOOL/DIAGNOSTICS

The Evolution functions as a diagnostic tool to display and clear trouble codes with full code description.

### GAUGES\*

The Evolution is a comprehensive gauge package that stays mounted in the cab of the truck and displays up to four of as many as 22 different parameters at a time. Monitor vital engine data, such as engine coolant temperature, transmission fluid temperature, engine oil temperature, and RPM, to name a few.

### PERFORMANCE TESTING, ALERTS & RECORDS

Performs and records 0-60 and quarter-mile times; quarter-mile MPH; peak engine temperature, RPM, speed and transmission temperature values. Sounds audible alerts when user-defined values are reached and automatically records the highest value of key parameters.

### CUSTOM DASH POD

Custom dash pod specifically designed to match the contour of the truck's dash, making the unit look like it came factory installed. Available for most models.

### INTERNET UPDATEABLE

A USB cable is included with the unit so that it can be updated via the Internet to include the latest firmware and calibration files, in compliance with all CARB restrictions placed on the availability of certain downloadable information and features.

### LEGACY EVOLUTION

PART#	YEAR	DESCRIPTION

PERFORMANCE MADE EASY

COMPETITION PERFORMANCE

THE EDGE COMP FEATURES FIVE ON-THE-FLY ADJUSTABLE POWER LEVELS. EACH OF THE FIVE POWER LEVELS HAVE 5 INDEPENDANT ADJUSTABLE SUB-LEVELS TO CONTROL LOW BOOST FUELING. A TOTAL OF 25 LEVELS OF ADJUSTABILITY! THE RESPONSIVENESS SETTINGS ENABLE YOU TO DIAL-IN THE OPTIMUM BALANCE BETWEEN RESPONSIVENESS AND LOW BOOST SMOKE CONTROL. NO MATTER WHAT MODIFICATIONS HAVE BEEN MADE TO YOUR ENGINE.

The EZ is the ultimate performance upgrade for the driver who wants on-the-fly adjustability\*, added towing power, quick and easy installation, improved fuel economy, and doesn't want to spend a lot of money.

The EZ offers real power and installation takes only 10 minutes. Simply plug the Edge EZ into 2 stock connections, snap in the power adjustment switch\*, and you're ready to go. The added power provided by the EZ helps to eliminate downshifting while towing and comes with a special fuel economy level to improve the atomization of fuel (burn efficiency) which allows the EZ to add power while also increasing fuel efficiency.

#### PERFORMANCE MODULE

The EZ module easily mounts under the hood into existing factory harness connections with no special tools, no drilling, and no expensive labor. By carefully monitoring timing, turbo boost pressure, and fueling parameters the EZ maximizes power, torque, overall driveability, and fuel efficiency. Some EZ modules even come with an in-cab switch so you can switch on-the-fly between the various power levels.

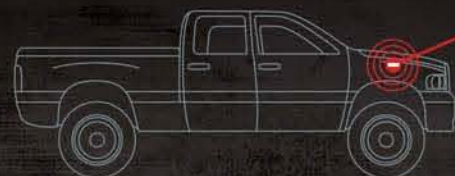

#### KEY FEATURES

- Up to 3 On-the-Fly Adjustable Power Levels\*
- Quick and Easy Installation
- Additional 60 HP and 100 ft lb Torque
- Increases Fuel Economy\*\*
- Greatly Improves Driveability and overall Performance
- Helps Eliminate Downshifting While Towing
- Excellent Throttle Response

#### EZ MODULE

PART#	YEAR	DESCRIPTION
30200	1998.5-2000	DODGE (5.9L) 24V EZ
30201	2001-2002	DODGE (5.9L) 24V EZ
30203	2003-2004	DODGE (5.9L) COMMON RAIL EZ
30204	2004.5-2007	DODGE (5.9L) COMMON RAIL EZ

Available for 1998.5-2007 Dodge Cummins  
Visit us online for the latest information and applications.

#### UNDER DASH MODULE

The Comp is a competition performance module that mounts inside the cab under the dash. The Comp maximizes engine efficiency by monitoring the RPM, timing, turbo boost, and fueling parameters. The Comp uses this information to determine and control fueling and timing. Timing and fueling enhancements are controlled via CAN-BUS through the Data Link and by connecting directly into the Bosch fuel injection pump.

#### KEY FEATURES

- 5 On-the-Fly Adjustable Power Levels
- Provides an Additional 120 HP and 350 ft lbs Torque
- Quick and Easy Installation
- Helps Eliminate Downshifting while Towing
- Excellent Throttle Response

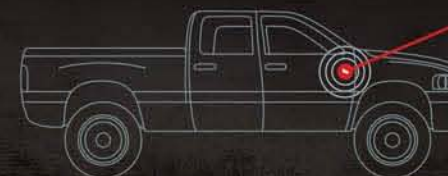

The following power levels are representative of a Dodge 5.9L with Comp module. Power gains may vary.

Level 0:	Stock
Level 1:	40 Horsepower - 150 Foot Pounds of Torque
Level 2:	60 Horsepower - 200 Foot Pounds of Torque
Level 3:	80 Horsepower - 250 Foot Pounds of Torque
Level 4:	100 Horsepower - 300 Foot Pounds of Torque
Level 5:	120 Horsepower - 350 Foot Pounds of Torque

#### COMP MODULE

PART#	YEAR	DESCRIPTION
30300	1998.5-2000	DODGE (5.9L) 24V COMP
30301	2001-2002	DODGE (5.9L) 24V COMP

Available for 1998.5-2002 Dodge Cummins

\* Results and feature set may vary by vehicle make and model. Read all instructions before installation and/or operation of this product.

\*\* Increase in fuel efficiency varies based on individual driving style.

ACCESSORIES FOR YOU

### CUSTOM DASH PODS

Edge offers a wide variety of custom dash pods for various vehicle makes and models. These pods combine with the Edge Attitude, Evolution, or Insight, CS and CTS (with adapter) to make your truck look like it came from the factory with the product installed. The custom dash pods are perfect for customers that want style, fit and finish to match the best-in-class power and control engineered into every Edge product.

### BACK-UP CAMERA (CTS only)

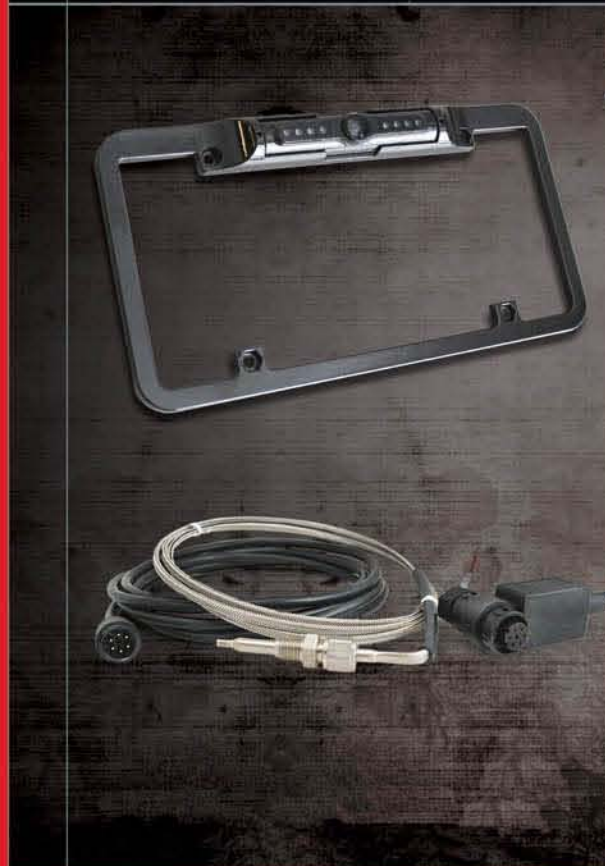

The CTS has a built-in video port that allows users to connect the state-of-the-art Edge back-up camera to the CTS unit. The camera mode on the CTS automatically engages when the vehicle goes into reverse. The new Edge back-up camera comes integrated into an elegant black metal license frame. The camera features night vision capability so you can see in the dark, and all cables and parts necessary to make a clean, easy installation with the CTS. The back-up camera option is a must have for towers and safety-conscious drivers. The CTS can also connect to any off-the-shelf back-up camera with an NTSC signal and standard RCA jack.
