## ACCESSORIES/MOUNTING OPTIONS

CTS<sub>2</sub>  
CS<sub>2</sub>

## ACCESSORIZE FOR CUSTOM STYLE AND ABILITY

Every CTS2 device is compatible with Edge's back-up camera. In addition, Edge has a variety of dash pods and mounting options available for various vehicle makes and models. These dash mounts combine with any Edge CS2 or CTS2 device so it looks like it was installed from the factory.

### ACCESSORY PRODUCTS

#### • BACK-UP CAMERA

The CTS2 has a built-in video port that allows users to connect the state-of-the-art Edge back-up camera to the CTS2 unit. The camera mode on the CTS2 automatically engages when the vehicle goes into reverse\*. The Edge back-up camera comes with night vision capability so you can see in the dark, and all cables and parts necessary to make a clean, easy installation.

#### • CUSTOM DASH PODS

Edge offers a wide variety of custom dash pods for various vehicle makes and models. These dash mounts combine with any Edge CS2 or CTS2 (with adapter\*) device to make your truck look like it came from the factory with the product installed.

#### • UNIVERSAL GAUGE PILLAR ADAPTER

Allows any CS2/CTS2 to be mounted in a 2-1/16" gauge opening

\* Auto-engage feature not available for all models

\* All pods come with CTS and CTS2 adaptors included

# EAS

## EXPANDABLE ACCESSORY SYSTEM

CTS<sub>2</sub>  
CS<sub>2</sub>

## A PROVEN SYSTEM OF PERFORMANCE

The EAS allows you to connect and display multiple accessory sensors, daisy-chain style, to customize the CS2/CTS2 to your specific vehicle and needs. Don't add clunky gauges when you can have the clean look of monitoring and displaying dozens of parameters on a single device using Edge's Expandable Accessory System.

### AVAILABLE EAS ACCESSORIES

- **EAS 12 Volt Power Supply Cable**  
(Allows users to connect any CS2 or CTS2 device to a 12v vehicle not equipped with a OBDII port)
- **EAS Control Kit**  
(Includes EGT sensor and EAS Power Switch)
- **EAS Competition Kit**  
(Includes a EGT sensor, Temperature Sensor, and a 0-100 PSI Pressure Sensor)
- **EAS Data Logging Kit**  
(Includes two EGT Sensors, two Temperature Sensors, and two 0-100 PSI Pressure Sensors)
- **Pressure Sensor** (0 – 100 psig 1/8" NPT)
- **Temperature Sensor** (-40°F to 300°F 1/8" NPT)
- **Ambient Temperature Sensor** (-40°F to 230°F)
- **Universal Turbo Timer** (Keeps engine running after turning off vehicle to allow turbo to cool)
- **EGT Sensor** (Connect one, or multiple sensors to monitor temperature at different locations)
- **Power Switch** (Allows users to set up and control accessories on/off from their CS2 or CTS2 device)
- **Universal Sensor Input** (5 Volt)

\* Results and feature set may vary based on vehicle make, model and aftermarket upgrades on the vehicle.

# JAMMER

COLD-AIR INTAKE

CAI

## THE BEST IN POWER-PRODUCING AIRFLOW

The all-new Jammer cold-air intake is a revolutionary design that improves airflow by blocking the hot air and using cooler, more dense air for optimal efficiency. Edge Products' performance tuning, combined with the Jammer cold-air intake, offers best-in-class results for maximum performance, and improved continuous power.

### FEATURES\*

- High density, cold air intake
- Added power and fuel economy
- Compatible with Edge tuning products
- Enclosed housing for superior cool airflow
- Improves continuous power\*
- Lifetime reusable filter
- High flow, low restriction
- Pre-oiled filter

## STAGE 1 KIT

Our Stage 1 Kit pairs an Evolution CS2 or CTS2 performance programmer with a Jammer Cold-Air Intake, giving you superior performance at a tremendous value.

\* Results and feature set may vary based on vehicle make, model and aftermarket upgrades on the vehicle.

# EvoHT2

## HANDHELD TUNER/PROGRAMMER

### HT2

## POWER IN THE PALM OF YOUR HAND

The EvoHT2 was developed specifically for the most power at the best price, with industry leading service and quality that comes standard. With the Edge EvoHT2, you literally hold the power to unlock the hidden potential of your truck or SUV in the palm of your hand!

### FEATURES\*

- High-definition, 2.8" color screen
- Redesigned graphic interface for improved user experience
- Increased memory with faster processor for improved tuning and updating speed
- Performance tuning for economy, towing, daily driving, and extreme tuning
- Added power helps eliminate downshifting when climbing hills
- Speedo correction for tire size and gear ratio changes\*
- Tuning for shift points, shift firmness, TQ management, and more\*
- Adjust speed & rev limiters\*
- Internet updateable with all new update software via USB
- Datalogging with new gauge screen
- Vehicle parameter monitoring capabilities
- Read & clear diagnostic trouble codes
- Compatible with other "hard part" performance upgrades

\* Results and feature set may vary based on vehicle make, model and aftermarket upgrades on the vehicle.

# JUICE ATTITUDE

MODULE/IN-CABIN CONTROLLER

CTS<sub>2</sub>

CS<sub>2</sub>

## PERFORMANCE WITH A WHOLE NEW ATTITUDE

Featuring a sleek new look and state-of-the-art technology, the Juice with Attitude is our premium product for diesel vehicles and represents the finest technology on the market. It comes with multiple power levels with the ability to change on-the-fly, data monitoring, and real-time dynamic safety features designed to protect your truck.

### FEATURES\*

- Available as a 5" Full-color, high-resolution, touch screen (CTS2) or the smaller 2.4" button-controlled, color screen (CS2)
- Performance tuning for mileage, towing, daily driving, and performance
- Up to 6 on-the-fly adjustable power levels\*
- Gains up to an additional 180HP and 440 ft lb of torque\*
- Improves low-end response
- Dynamic safety features (cold engine protection, fuel backdown, turbo timer\*)
- Custom color mixer to customize gauge arcs and backgrounds
- Switch between US or Metric units of measure
- Multiple gauge screen layouts and fully customizable backgrounds
- HDMI plug for power & linking EAS accessories
- One-touch, easy menu navigation and notification center
- Back-up camera ready (CTS2 only)
- Internet updateable

\* Results and feature set may vary based on vehicle make, model and aftermarket upgrades on the vehicle.

# EVOLUTION

## PROGRAMMER/IN-CABIN CONTROLLER

CTS<sub>2</sub>  
CS<sub>2</sub>

## A LEAP IN THE EVOLUTION OF PERFORMANCE

The Evolution reprograms your vehicle to significantly increase HP and TQ. Not only does it re-tune your vehicle, it stays mounted in the cab and features real-time monitoring of vital engine data. This amazing product is available for both gas and diesel pickups and SUVs, and comes with multiple power levels designed specifically for your vehicle.

### FEATURES\*

- Available as a 5" Full-color, high-resolution, touch screen (CTS2) or the smaller 2.4" button-controlled, color screen (CS2)
- Performance tuning for mileage, towing, daily driving, & performance
- Up to an additional 180HP & 440 ft lb TQ\* on Diesel applications, 50HP & 50 ft lb TQ\* on Gas applications
- Custom color mixer to customize gauge arcs, backgrounds
- Multiple gauge screen layouts and fully customizable backgrounds
- HDMI plug for power & linking EAS accessories
- One-touch, easy menu navigation and notification center
- Tuning for shift points, shift firmness, TQ management, fuel pressure & more\*
- Correct speedometer and adjust speed and rev limiters\*
- Light sensitivity meter to dim screen as ambient light decreases
- Back-up camera ready (CTS2 only)
- Internet updateable

\* Results and feature set may vary based on vehicle make, model and aftermarket upgrades on the vehicle.

# INSIGHT

## DIGITAL GAUGE MONITOR/DISPLAY

CTS<sub>2</sub>  
CS<sub>2</sub>

## A GREATER INSIGHT INTO PERFORMANCE

The Insight is the most comprehensive, state-of-the-art, multi-gauge display on the market. This is the perfect tool for those who want to monitor their vehicle's performance and prefer not to program their vehicle, or for those who already have significant performance upgrades and want to safely monitor their vehicle's performance.

### FEATURES\*

- Slim, sleek case design
- Available as a 5" Full-color, high-resolution, touch screen (CTS2) or the smaller 2.4" button-controlled, color screen (CS2)
- Custom color mixer to customize gauge arcs, backgrounds
- Multiple gauge screen layouts and fully customizable backgrounds
- HDMI plug for power & linking EAS accessories
- One-touch, easy menu navigation and notification center
- Works on 1996 & newer vehicles equipped with an OBDII port
- Switch between US or Metric units of measure
- Comprehensive digital gauge display
- Compatible with other tuning devices
- Displays dozens of parameters
- Light sensitivity meter to dim screen as ambient light decreases
- Back-up camera ready (CTS2 only)
- Internet updateable

\* Feature set may vary based on vehicle year, make, and model.

# INSIGHT PRO

## CUSTOM TUNING INTERFACE/MONITOR/DISPLAY

**NEW**

CTS2  
CS2

### CUSTOM TUNING INTERFACE

Compatible with custom tuning software.

## GAINING INSIGHT INTO CUSTOM TUNING

Not only is the InsightPro the most comprehensive, state-of-the-art, multi-gauge display on the market, it is now a custom tuning interface. Load and name multiple custom tunes to your InsightPro device from approved custom tuning suites through our easy-to-use software package.

### FEATURES\*

- Load custom tunes from approved custom tuning suites\*
- Slim, sleek case design
- Available as a 5" Full-color, high-resolution, touch screen (CTS2) or the smaller 2.4" button-controlled, color screen (CS2)
- Custom color mixer to customize gauge arcs, backgrounds
- Multiple gauge screen layouts and fully customizable backgrounds
- HDMI plug for power & linking EAS accessories
- Thousands of vehicles supported\*
- Gas and Diesel applications supported\*
- Switch between US or Metric units of measure
- Comprehensive digital gauge display
- Compatible with other tuning devices
- Displays dozens of parameters
- Light sensitivity meter to dim screen as ambient light decreases
- Back-up camera ready (CTS2 only)
- Internet updateable

\* Feature set may vary based on vehicle year, make, and model.
