AMERICA'S NO.1 SELLING TRUCK BED COVERS

TRIFECTA™

TRI-FOLD TONNEAU BY EXTANG

ENGINEERED TO BE A WINNER

SAFETY KLAMPS™

Extang's extremely strong glass-filled nylon constructed SafetyKlamps™ offer both a rapid-secure & rapid-release system and no tools are needed.

Cab section SafetyKlamps (*left*) secure by simply tightening, by hand, the threaded clamp with built-in heavy-duty handle.

Tail section SpeedKlamps (*left*) operate with spring-action technology for instant fasten and release. The clamps conveniently stow away within the rail when not in use.

Hold-Tite™ Straps & Snaps

Security is a must. Extang knows that, designs for it, and tests it aggressively. Our heavy duty luggage-style Hold-Tite™ fasteners are quick and easy to use and adjust. The

Hold-Tite™ straps and snaps combination allow the tonneau to be fully open and safely secured at the cab while driving.

MAXHINGES™

The new Extang MaxHinges™ are double pivot hinges with center link and padded seals. These Extang engineered glass filled nylon hinges are built to last. One of the smallest, but most important parts of the Trifecta tonneau system, they are just another reason why Extang tonneau covers are America's number one selling tonneaus.

WeatherTuff™ Seals

Extang uses pro-grade labyrinth rail seals that exceed OEM standards and provide the best seal possible. Seals at all contact points to protect the truck's finish and keep out the weather and dust. The permi-sealed tarp is pre-attached to rails for a permanent seal and no-gap fit.
