

Grille Installation Process

Toyota Tundra '07-'09 MX & SW Upper Grille (TOY-1964)

Part # TOY-1964S

Part # TOY-1964B

Part # TOY-1964-SW

Picture #1:

Our project Toyota Tundra in need of a custom GrillCraft Grille.

Picture #2:

Remove the four bolts from the grille extension bracket as shown.

Picture #3:

Remove the nuts located on the back side of the grille.

Picture #4:

Remove the hood latch bolts.

Picture #5:

Remove latch lever from grille as shown.

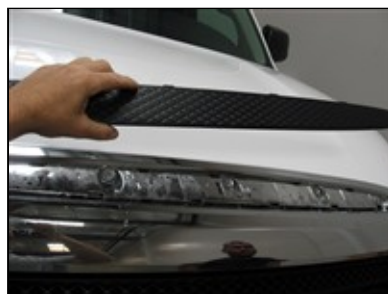

Picture #6:

The hood release lever can just hang in place for now.

Picture #7:

Pry the plastic grille cover using a small flat screwdriver.

Picture #8:

Remove plastic grille shell trim.

Picture #9:

Note: Bolts located under the plastic trim.

Picture #10:

Remove bolts located on the top of the grille shell.

Picture #11:

Remove grille shell from vehicle.

Picture #12:

Here is the GrillCraft hood latch extension bracket included with grille kit.

Picture #13:

Remove the hood latch bracket from the factory grille.

Picture #14:

Removing hood latch bracket screws.

Picture #15:

Removing hood latch bracket.

Picture #16:
Note: Plastic nubs.

Picture #17:
Remove the two plastic nubs using wire cutters.

Picture #18:
Place latch extension bracket onto grille as shown.

Picture #19:
Fasten latch extension bracket to factory grille as shown.

Picture #20:
From the front side of grille scribe the extension bracket holes onto grille shell.

Picture #21:
Cut the factory grille center bars off.

Picture #22:
Removing factory grille center bars from the grille shell.

Picture #23:
Here is the factory grille shell with the center bars removed.

Picture #24:
Drill the two scribed holes for the extension bracket.

Picture #25:
Mount extension bracket to grille shell.

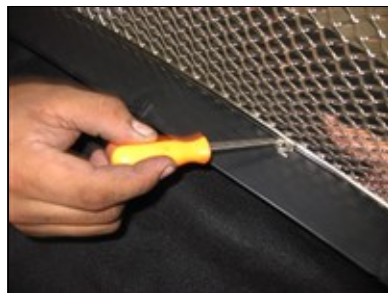

Picture #26:
Fasten extension bracket with supplied hardware.

Picture #27:
Mount the factory latch bracket to the extension bracket as shown.

Picture #28:
Place GrillCraft grille into grille shell opening.

Picture #29:
Mark grille mounting tab center hole locations using a sharp scribe.

Picture #30:
Drill 3/16 inch holes for Grille mounting screws.

Picture #31:

Remove the grille shell metal support along bottom of grille shell.

Picture #32:

Fasten GrillCraft grille to grille shell using supplied screws.

Picture #33:

Note: A clearance notch will need to be made to the metal grille support in order to clear the grille screws. Scribe the screw location onto the metal support.

Picture #34:

Drill 3/8 hole into metal support bracket.

Picture #35:

A view of the 3/8 hole.

Picture #36:

Cut the ends to create a notch as shown.

Picture #37:

Install the metal support to grille shell the cut out notch will now clear grille screws.

Picture #38:

Fasten support screws.
