

STRAP ASSEMBLY/ADJUSTMENT INSTRUCTIONS

Components of the 3-piece adjustable strap (Fig.1)

2 loop-end extension straps

1 padded shoulder strap with strap adjusters

Step 1 - Thread tag end of loop-end extension strap through top of channel on the side of your Grizzly (**Fig. 2**)

Step 2 - Thread tag end of loop-end extension strap through the loop and pull to tighten, creating a simple knot at the channel. (**Fig. 3 and 4**)

Step 3 - Repeat on opposite side of cooler.

Step 4 - Holding end of loop-end extension strap in one hand and shoulder strap adjuster in the other hand, thread tag end through underside of innermost slot on adjuster. (**Fig. 5**)

Step 5 - Loop tag-end of extension strap back down through outermost slot on shoulder strap adjuster. (**Fig. 6**)

Step 6 - Pull to tighten

Step 7 - Repeat steps 4-6 on the other side of the cooler

To Adjust Length of Assembled Strap

Step 1 - Release tension on strap adjuster by placing your Grizzly on a flat surface.

Step 2 - To shorten strap length, pull on tag end of extension strap while holding strap adjuster

Step 3 - Repeat on other side of cooler

Step 4 - To lengthen strap, grasp strap adjusters and pull upward until desired length is reached.
