### GROPERZ ROUTE-SETTING HAND HOLDS

Patented Groperz Hand Holds are included with most of our climbing walls. We have a variety of shapes to offer climbers including pockets, pinches, slopers, jugs, crimps and edges. These high-quality holds are known throughout the climbing industry for their superb design and durability.

- 16 different sets available
- Color-coded to simplify level type when setting routes
- Each hold embossed with identifiers to easily set routes
- Mounting hardware and 5/16" Allen wrench included in each order
- Colors and codes are part of route maps in Route-Setting Guide (not included)

Protected by U.S. Patent. everlastclimbing/patents

Note: Our Route-Setting Guide is not compatible with Relief Feature, Magna Relief Feature, Superior Rock, WeeKidz or Mural Walls.

### TRAVERSE WALL ROUTE-SETTING GUIDE

The *Route-Setting Guide* is the only guide of its kind in the industry. The guide is intended for use with our Groperz Route-Setting Hand Holds that are labeled with numbers, letters and arrows to assist instructors with the route-setting process. Instructors can set routes of varying difficulty using the maps illustrated in this guide.

### ANATOMY OF A HAND HOLD

- Specially designed for children; tendon-friendly and easy to grip.
- Hybrid resin makes holds strong and durable.
- Standardized bolt length and type make mounting and remounting holds easy.
- Hand Holds are bolted into 5/8" mechanically-fastened preset placement options (T-nuts) that are attached to the climbing wall panels with screws. Most panels come with 66 T-nuts. These preset placement options allow for moving holds and adding additional hand holds.
- Special Round Relief Texture is designed for comfort.

## GROPERZ CHARACTER HOLDS

Reinforce character education concepts with alphabet hand holds that spell out eight character traits. Mounting hardware included.

SET 1: **CARING, RESPONSIBILITY, HONESTY, RESPECT**

SET 2: **COURAGE, DILIGENCE, KINDNESS, TRUST**

## GROPERZ ALPHABET & NUMBER HOLDS

Customize your climbing wall with your organization's name, team name, words to inspire climbers or numbers to label your panels. Available in blue or red. Choose from bolt-on, which attach with preset placement options, or easy mount, which attach with wood screws. Mounting hardware included.

NOTE: Available in every letter of the alphabet and numbers 1 through 10.

## GROPERZ CRITTERZ™ HAND HOLDS (10/SET)

Climbers will enjoy reaching for a turtle, dragonfly and other "critterz" when you add Groperz Critterz to your wall. Their bright yellow color attracts the eye and the fun shapes add variety to each panel. Available in yellow.

## ADAPTIVE HAND HOLDS

Our specially-designed Adaptive Hand and Foot Holds provide the stability and extra support some participants need to be successful on a climbing wall. Hand holds feature a comfortable grab bar that allows for a secure grip. Hand holds can be mounted vertically, horizontally or at an angle for versatility. The Adaptive Foot Holds provide 5" deep ledges that help climbers maintain balance and lessen fatigue. They are available in two lengths.

Adaptive Hand and Foot Holds increase climbing wall accessibility for people with a variety of disabilities or mobility needs and can be mounted on most of our climbing wall panel styles.

Holds are sold in sets of one large red foot hold, one small blue foot hold and four hand holds. Mounting hardware included. *Protected by U.S. Patent. everlastclimbing/patents*

Note: Adaptive Hand Holds are only for use with certain Everlast Climbing Walls.

**YELLOW/BLUE HAND HOLD**

**SMALL BLUE FOOT HOLD**  
19" X 5"

**LARGE RED FOOT HOLD**  
31" X 5"

## BALL HOLDER

This unique hand hold was specifically designed to hold a ball during activities and initiative games and can also be used as a hand hold. Sold with five activities and mounting hardware.

## TRAVERSE WALL & TOP ROPE WALL TRAINING

Everlast Climbing provides personalized, on-site training for your staff. Our comprehensive, one-day training on Traverse Walls or Top Rope Walls is designed to provide staff with the knowledge and skills necessary to confidently teach climbing at their facility and to inspire the adoption of indoor climbing as an additional lifetime fitness activity. The hands-on training sessions are facilitated by an experienced educator and include:

- Introduction to climbing and how to include climbing in your program
- Climbing vocabulary, techniques, procedures and equipment
- Climbing activities and assessment
- Opportunities to practice climbing
- Belay technique and practice (for Top Rope Walls)
- Safety and risk management protocols
- Climbing wall and equipment maintenance

Team Building and StartFIT Fitness Trainings are also available.

Note: A Top Rope Wall Training is included with purchase of a Top Rope Climbing Wall.

## INSPECTION & RETRAINING

This valuable service includes an inspection of your climbing wall with an examination of the surface features (panels, hand holds and belay anchors), as well as a review of your current risk management practices and procedures. You will receive a report of the inspection outcomes including recommendations for remediation, if applicable. Additionally, this service includes a half-day climbing wall refresher training course hosted by an educator on our staff. You may also opt for a more in-depth one-day training for staff not previously trained.

Note: This opportunity is offered only on Everlast Climbing walls.

“The facilitator was incredibly knowledgeable and upon ending the inservice, I feel very capable teaching the climbing wall.”

**JESSICA ALLRED**  
Health and Physical Education Teacher

## TRAVERSE WALL CHALLENGE COURSE

Our patented Traverse Wall Challenge Course offers exciting opportunities for individual and team challenges. Three sizes of foam “noodles” fit into specially-designed Groperz Hand Holds to form loops, lines and starburst obstacles for children to climb over, under, around and through. You can even place balls on your Challenge Course! Set includes: six Small Single-Noodle Holds, six Large Quintuple-Noodle Holds, six 72-inch Noodles, ten 18-inch Noodles, fourteen 12-inch Noodles, five Activity Balls, mounting hardware, 5/16” Allen wrench and five sample wall activities. *Protected by U.S. Patent. everlastclimbing/patents*

## STARTFIT® SYSTEM

Our StartFIT System is an innovative product designed to increase the fitness-enhancing capabilities of your existing climbing wall. The StartFIT System attaches to your existing climbing wall and creates up to 11 fitness stations. The product package includes resistance tubes of varying length and strength, our detailed StartFIT Guide, individual instruction cards for each exercise station and specially-designed StartFIT Anchors to “host” each station. Available in full and small sets. Also available in Direct Mount for attaching to a CMU or brick wall. *Protected by U.S. Patent. everlastclimbing/patents*

## DISCOVERY™ PLATES

Facilitate cross-curricular activities and games with these magnetic dry-erase plates. Instructors and participants can write on them with dry-erase markers or place magnets on them. They fit easily between the hand holds and your climbing wall. Each set of ten plates includes dry-erase markers, five activities and one set each of word, letter and math magnets. *Protected by U.S. Patent. everlastclimbing/patents*

**WE ARE PROUD TO OFFER THE MOST COMPREHENSIVE SET OF EDUCATIONAL CLIMBING MATERIALS AVAILABLE.**

## CLIMBING THE WALLS™ - NEW! VERSION 3

This third edition includes more activities, expanded resources, color photos and a fresh new look! See full details on page 8.

## TRAVERSE WALL ASSESSMENT PACKAGE

An inspiring way to collect, document and celebrate climbers' efforts and progress during the climbing wall session. Using goal-setting, journaling, rubrics, observations, self-assessment and more, you will be able to comprehensively and objectively assess participants' physical climbing skills, as well as social, emotional and cognitive progress.

## CHOOSE WELL, BE WELL™

Promote awareness of proper nutrition and exercise through climbing activities. Children will learn the key components of the MyPlate food guidelines and develop an understanding of the importance of adopting healthy exercise and nutrition habits. Includes a full-color MyPlate activity board (23" x 35") with a dry-erase and magnet-accepting surface; a set of 30 food magnets; a detailed activity guide divided by grade level (1st–8th) and hardware.

Note: For use on magnet-accepting walls or with Discovery™ Plates.

## CLIMBING FOR CHARACTER™

Link character education with the world of climbing! This unique guide supports the development of eight key character traits: Honesty, Courage, Diligence, Responsibility, Kindness and Caring, Respect, Trustworthiness and Service to Others. *Climbing for Character* contains introductory and background information on character education and cross-curricular lesson plans linking climbing and character traits for children in primary, middle and upper grades.

## CLIMB ACROSS AMERICA™

Learn the locations of states and capitals and unscramble facts about our great nation all while enhancing physical fitness levels. The 23" x 25" Climb Across America activity board features a colorful dry-erase and magnet-accepting map of the United States. The package also includes names and capital magnets, an activity guide and hardware.

Note: For use on magnet-accepting walls or with Discovery Plates.

## TEAM BUILDING RESOURCES

Team building resources are a great complement to any climbing program. They're fun and foster cooperation, communication, problem solving and more. We offer our version of classic team challenges, along with some innovative, new challenges.

### ALL ABOARD™

The group will learn to work together as they move from platform to platform, relying on communication, problem solving and cooperation skills. Solid wood platforms nest together for easy storage and the bases are designed to protect floors. Includes three platforms (26" x 26", 20" x 20" and 14" x 14") and activity guide.

### MEMORY MAZE™

Visual memory, cooperation, concentration and problem solving are required in this team challenge. The group must work together to uncover the invisible path. Square by square, they move through the grid from start to finish, starting over each time an incorrect square is used. Set includes Memory Maze grid, card set with illustrated paths and activity guide.

### TOXIC WASTE TRANSFER

Using only handles of the ropes attached to the transport basket, ten people work together to move and dump the toxic waste into the neutralizing container. Set includes transport basket with 10 detachable ropes, "toxic waste" (16 balls), "neutralizing container" (basket) and activity guide.

**MORE TEAM BUILDING RESOURCES ONLINE!** Visit our website to see other team-building activities: Marble Maze™, Bridge Connection™, Meteorite Mission™, Human Ladder, Spider's Web, Porthole Escape™, Don't Lose Your Marbles™, Sinking Raft™ and Dinosaur Egg Transfer™.

**SAFARI JUNGLE GYM**

The Safari Jungle Gym is a dynamic line of indoor adventure elements that introduce age-appropriate challenge, fun and fitness to your facility. Similar to some low-ropes course elements, the Safari Jungle Gym mounts to your facility wall and is great for physical education classes, after-school programs, camps, recreation centers and inclement weather situations. The pieces challenge a wide range of fitness levels and stow and lock to prevent unauthorized use.

Elements can be bought individually or in packages with a Mat Locking System. All elements include mounting brackets, hardware, closing tool, installation instructions, safety signage and an activity guide. Elements must be mounted to concrete blocks or poured concrete walls.

**MONKEY BARS**

We brought this classic play element indoors. The Safari Monkey Bars develop upper body strength and coordination. Use them to bridge space between climbing wall sections, over a doorway, above a climbing wall or on their own. Made of durable, powder-coated steel.

**WILD WEB**

Engage every muscle of the body to make it across the Safari Wild Web! This sturdy cargo net climber combines problem solving, fun and fitness.

**CIRCLE STEPPERS**

Thoughtful movement and great balance are required on the Safari Circle Steppers. Travel across all five hanging discs of this low-ropes element on feet or knees.

**SWING STEPPERS**

Get into the swing of it with Safari Swing Steppers. Children are required to move across a set of five swinging steps for a fun balancing challenge.

SAFARI MONKEY BARS

SAFARI WILD WEB

SAFARI CIRCLE STEPPERS

SAFARI SWING STEPPERS

EASY STEPS TO LOCKING SAFARI ELEMENTS

SAFARI PLANK WALK

PLANK WALK

Cross the Safari Plank Walk using the hanging guide ropes. It's fun and develops upper body and core strength, balance and coordination.

RETRACTABLE ELEMENTS & MAT LOCKING SYSTEM

Safari's retractable mounting brackets and Mat Locking System help prevent unauthorized use of elements. Simply push elements against the wall using the included tool and then push mats against the wall. Hang the nylon webbing loops onto the specially-designed holders, push up the red security latch and lock with a few turns of the security bolt. The mats fasten to one another and attach to the base of the wall. A "No Climbing" decal is printed on the outer side of the mats to serve as notice that Safari is closed.

Note: Circle Steppers are easily removed and stored separately prior to locking mats.

WEEKIDZ CHALLENGE COURSE

Run, hop, crawl, jump and wiggle your way through a variety of fun obstacles on the WeeKidz Challenge Course. From hurdles to agility ladders and arches, the many parts and pieces make the possibilities endless. You can even create courses for use with scooters. WeeKidz Challenge Course set includes: 20 red bases, 10 long noodles, 8 medium noodles, 11 small noodles, 3 balance beams, 6 rings, 50 - 4" connectors, 6 L-connectors, 5 T-connectors, 6 curved rubber directional arrows, 4 straight rubber directional arrows and activity guide.

**WARNING: CHOKING HAZARD**  
This product contains small parts. Not for children under 3 years.

WEEKIDZ PUZZLE BEAMS

Develop the body and mind with balance beams that link together with unique puzzle connectors. Children will call upon their creativity and have a blast designing a variety of interesting shapes to walk across. The beams offer children the opportunity to develop balance and coordination, while the puzzle feature helps children solve problems and develop persistence, hand-eye coordination, reasoning and fine motor skills. Activity guide included.

WEEKIDZ BALANCE BEAMS

Our lightweight beams offer a fun, balancing challenge with numbers, letters and shapes. Designed with young children in mind, our beams are constructed of 3-inch foam enclosed in an 18 oz. vinyl shell. Each beam has Velcro® on its end to easily attach multiple beams.

Each beam is 72"L x 4"W x 3"H. Beams are available in Alphabet, Food Groups, Numbers, Shapes, French Numbers, Spanish Numbers and Chinese Numbers. Activity guide included.

**PLAYGROUND WALL**

Climb the walls, even outside! Our freestanding Playground Wall allows for climbing on both sides, making it perfect for playgrounds, schoolyards or backyards. It is available in two panel styles, clear and color. Waterproof, durable and easy to clean, each panel comes with 20 Groperz Hand Holds per side and zinc-plated bolts. Panels are mounted to blue powder-coated steel posts. Walls are 12' long; make them longer with additional panel purchases. Available in two heights: 6' (for children ages 3 - 12) and 8' (for children ages 5 - 12). Required safety landing surface not included. Protected by U.S. Patent. [everlastclimbing/patents](#)
