SPIN-ON FILTER INSTALLATION INSTRUCTIONS

An increasing number of motorists today are performing oil and filter changes on their cars. However, present installation instructions vary from manufacturer to manufacturer, and may be confusing to the installer.

These instructions may be used in changing any spin-on oil filter.

1. Clean base.

Unscrew and remove old filter. Be sure old gasket is removed with filter. Wipe filter mounting base with clean cloth.

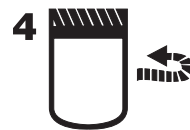

2. Apply clean oil to gasket.

Apply thin film of clean motor oil to new filter gasket. Do not use grease.

3. Hand tighten to gasket contact.

Line up threads carefully to avoid cross-threading. Spin new filter on until gasket contacts base.

4. Tighten additional turns.

Important – Follow instructions (usually found on filter) of the filter manufacturer for final tightening.

5. No leaks.

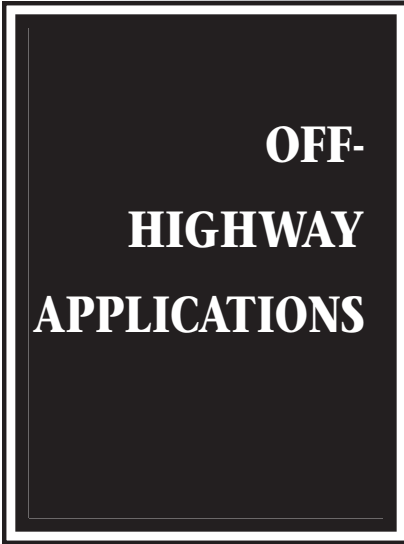

Be sure oil shows full on dipstick. Start engine and check for leaks. Correct source of any leaks observed. Shut off engine. Re-check oil level. Add oil if necessary.

6. Inspect for dents.

Important – Do not use filter if it is dented.

ARRANGEMENT OF ...

Farm Equipment
Off-Highway
Engines
Off-Highway
Equipment

English

ALPHABETICALLY BY MAKE

All off-highway equipment is listed in this section alphabetically by make. Names starting with initials are listed under the last name, while names which are initials only are listed as if the initials spelled a word. Therefore, G. H. Tennant is listed under "T". Wherever the possibility of confusion may exist, a reference to the correct listing will be found in this section.

ALPHABETICALLY BY MODEL NAME

Within each make, all models are arranged alphabetically. If the model has numbers as all or part of their model name, they will be listed numerically after the alphabetically listed models.

BY ENGINE MAKE

Under each model, the engines are listed according to make and then size, from the smallest to the largest engines. If you don't know the model of the equipment, refer to the engine listing in this section.

OPTIONAL FILTERS

Optional filters often appear at the beginning of the list ahead of the first model listing. Refer to the Hastings Cross-Reference Catalog (F111-17) or the Hastings Electronic Catalog on the internet at www.hastingsfilter.com if you have an Original Equipment (OE) or competitive part number.

ENGINE LISTING

Not all air filters are listed under the engine listing. Refer to the Hastings Cross-Reference Catalog (F111-17) or the Hastings Electronic Catalog on the internet at www.hastingsfilter.com if you have an Original Equipment (OE) or competitive part number.

NUMBERS IN BRACKETS OR PARENTHESES

The number in square brackets in front of our bold face part number shows the quantity for a single change per piece of equipment. If the number is in parentheses at the close of our part number, that is the quantity included in the package and sold as a unit.

A number in parentheses ahead of our part number is the Original Equipment number for that filter. Verify that the OE number is the same on your piece of equipment before use. If the OE number is different on your equipment, refer to the Hastings Cross-Reference Catalog (F111-17) or the Hastings Electronic Catalog on the internet at www.hastingsfilter.com for the proper replacement filter. Help us make a better catalog by letting the Hastings Catalog Department know of any exceptions.

MEANING OF SYMBOLS USED IN THIS SECTION

When there are variations of a Hastings product, a plus sign (+) (FF945+) indicates you can find these variations in the Hastings Product Guide Catalog (F111-17) or the Hastings Electronic Catalog on the internet at www.hastingsfilter.com.

Numbers representing screens or other permanent filters (not replaced by Hastings) are marked CLN&R* (Clean and Reuse) if they have been reported as capable of being cleaned and reused. Hastings cannot be responsible for such reuse.

IMPORTANT NOTICE

All product applications and specifications in Hastings catalogs are based upon the most authoritative information available at the time of publication. However, there are many filter options offered by equipment manufacturers during a given model year making it impossible to be absolutely certain that all equipment of the same make, model and year will use the same filter. For this reason, we cannot be responsible for misapplications.

Original equipment manufacturer's tradenames or trademarks are for identification purposes only. There is no affiliation, sponsorship or connection with the original equipment parts or manufacturer.

PAR ORDRE ALPHABÉTIQUE PAR MARQUE

Dans cette section, tout l'équipement de travaux publics est classé par ordre alphabétique et par marque. Les noms commençant par des initiales sont classés sous le nom principal tandis que les noms qui ne sont composés que d'initiales sont classés comme si les initiales formaient un nom. Donc, G.H. Tennant est donné sous "T". Quand il y a possibilité de confusion, cette section donne une référence pour le nom correct.

PAR ORDRE ALPHABÉTIQUE PAR NOM DE MODÈLE

Pour chaque marque, tous les modèles sont classés par ordre alphabétique. Les noms de modèle composés entièrement ou partiellement de chiffres sont classés par ordre numérique après la liste alphabétique.

PAR MARQUE DE MOTEUR

Pour chaque modèle, les moteurs sont classés par marque puis par cylindrée, du plus petit au plus gros. Si vous ne connaissez pas le modèle de l'équipement, veuillez consulter la liste des moteurs de cette section.

FILTRES EN OPTION

Les filtres en option apparaissent souvent au début de la liste, avant le premier modèle. Consultez la section Numéros de renvoi du catalogue Hastings (F111-17) ou le Catalogue électronique Hastings disponible sur le web à www.hastingsfilter.com si vous avez le numéro de pièce d'un concurrent ou du fabricant d'origine (OE).

LISTE DES MOTEURS

Tous les filtres ne sont pas indiqués dans la liste des moteurs. Consultez la section Numéros de renvoi du catalogue Hastings (F111-17) ou le Catalogue électronique Hastings disponible sur le web à www.hastingsfilter.com si vous avez le numéro de pièce d'un concurrent ou du fabricant d'origine (OE).

NUMÉROS ENTRE CROCHETS OU PARENTHÈSES

Le numéro entre crochets devant notre numéro de pièce en caractères gras indique la quantité pour un remplacement unique par pièce d'équipement. Tout nombre entre parenthèses à la fin du numéro de pièce indique la quantité incluse dans le paquet et vendue comme unité.

Un nombre entre parenthèses devant notre numéro de pièce correspond au numéro d'équipement d'origine pour ce filtre. Si le numéro d'équipement d'origine est différent sur votre engin, consultez la section Numéros de renvoi du catalogue Hastings (F111-17) ou le Catalogue électronique Hastings disponible sur le web à www.hastingsfilter.com pour obtenir le filtre de rechange correct. Aidez-nous à créer un meilleur catalogue en indiquant ces exceptions au Service Catalogues de Hastings.

SIGNIFICATION DES SYMBOLES UTILISÉS DANS CETTE SECTION

Quand il existe des variations pour un produit Hastings, un signe plus (+) (FF945+) indique que vous pouvez trouver ces variations dans la section Guide des produits du catalogue Hastings (F111-17) ou le Catalogue électronique Hastings disponible sur le web à www.hastingsfilter.com.

Les numéros représentant les crépines et autres filtres permanents (pas remplacés par Hastings) sont identifiés par CLN&R* s'il a été déterminé qu'ils peuvent être nettoyés et réutilisés. Hastings ne saurait être tenu responsable de leur réutilisation.

AVIS IMPORTANT

Tous les renvois de ce catalogue sont basés sur les informations les plus récentes disponibles à la mise sous presse. Cependant, les fabricants d'équipement changent fréquemment de fournisseurs de composants sans préavis, tout en continuant à utiliser le même numéro de filtre. Ce changement peut changer une dimension non-critique en dimension critique. D'autres fabricants de filtres peuvent utiliser un filtre pour remplacer deux des nôtres. Par conséquent, à partir d'un numéro de filtre de fabricant autre que le fabricant d'origine, un problème peut apparaître. Si un filtre n'est pas étanche après installation, il ne doit pas être utilisé. Nous ne pouvons pas être tenus responsables des mauvaises applications.

Les marques et noms de fabricant d'équipement d'origine ne sont utilisés que pour des raisons d'identification. Il n'existe aucune affiliation, parrainage ou connexion avec le fabricant d'équipement d'origine ou ses pièces.

ALFABÉTICAMENTE POR MARCA

Todo vehículo está ordenado alfabéticamente en esta sección. Los nombres que empiezan con iniciales están anotados por último nombre (equivalente a un apellido), mientras que los nombres compuestos únicamente de iniciales (acrónimos, siglas, etc.) están sorteados como vocablos normales. Cuando existe la posibilidad de una confusión, se hace una referencia en esta sección que facilita encontrar la partida.

ALFABÉTICAMENTE POR NOMBRE DEL MODELO

Dentro de cada marca, todos los modelos están ordenados alfabéticamente. Si el modelo tiene números como parte de o es la totalidad de su nombre de modelo, están puestos numéricamente después de la lista alfabética.

DE ACUERDO AL MOTOR

Para cada modelo, los motores están anotados de acuerdo a sus cilindradas, del más chico al más grande. Si se desconoce el número de modelo del equipo, véase el alistamiento del motor en esta sección.

FILTROS OPCIONALES

Los filtros opcionales frecuentemente aparecen al comienzo de la lista delante del primer listado de modelos. Consulte el Catálogo de referencia cruzada de Hastings (F111-17) o el Catálogo Electrónico de Hastings en la Internet en www.hastingsfilter.com si usted tiene el número de pieza del equipo original (OE) o de la competencia.

LISTA DE CILINDRADA

No todos los filtros de aire aparecen en la lista bajo cilindrada. Consulte el Catálogo de referencia cruzada de Hastings (F111-17) o el Catálogo Electrónico de Hastings en la Internet en www.hastingsfilter.com si usted tiene el número de pieza del equipo original (OE) o de la competencia.

NÚMEROS ENTRE CORCHETES O PARÉNTESIS

El número entre corchetes antes de nuestro número de parte indica la cantidad requerida para un solo cambio para un equipo. Si el número está entre paréntesis después de nuestro número de pieza, entonces indica éste la cantidad de piezas incluidas dentro del paquete que se vende como unidad.

Un número entre paréntesis delante de nuestro número de pieza corresponde al número del Equipo Original (OE) para ese filtro. Antes de instalarlo, verifique que el número OE sea igual al que aparece en su pieza de equipo. Si el número OE es diferente en su equipo, consulte el Catálogo de Referencia Cruzada de Hastings (F111-17) o el Catálogo Electrónico de Hastings para el filtro de repuesto correspondiente. Ayúdenos a mejorar nuestro catálogo, informando al Departamento de Catálogos de Hastings sobre cualquiera de estas excepciones.

SIGNIFICADO DE LOS SÍMBOLOS USADOS EN ESTA SECCIÓN

Cuando existen variaciones de un producto Hastings, un signo más (+) (FF945+) indica que usted puede encontrarlas en el Catálogo de la Guía de Productos de Hastings (F111-17) o en el Catálogo Electrónico de Hastings en la Internet en www.hastingsfilter.com.

Los números que representan tamices u otros filtros permanentes (no reemplazados por Hastings) están marcados CLN&R* (Limpiar y Reutilizar) si se informa que pueden limpiarse y reutilizarse; Hastings no puede aceptar responsabilidad por dicha reutilización.

NOTA IMPORTANTE

Todas las referencias cruzadas en este catálogo están basadas en la información más reciente disponible en el momento de la publicación. Sin embargo, los fabricantes de equipos a menudo cambian de proveedores de componentes sin previo aviso y continúan usando el mismo número de filtro. Este cambio podría dar por resultado la conversión de una dimensión no crítica en una crítica. Otros fabricantes de filtros a veces usan un filtro para sustituir a dos de los nuestros. Por lo tanto, cuando se estén haciendo averiguaciones a partir de un número de filtro de equipo no original, podrían surgir problemas. Si un filtro no cierra después de instalado, no deberá usarse. No podemos responsabilizarnos por aplicaciones incorrectas.

Los nombres comerciales o marcas registradas de los fabricantes de equipos se dan solamente para propósito de identificación. No existe ninguna afiliación, patrocinio o conexión con el fabricante o pieza de equipo original.
