

KD-X240BT

Digital Media Receiver

KD-X240BT

Digital Media Receiver featuring Bluetooth / USB/AUX Input / Pandora / iHeartRadio / 13-Band EQ / JVC Remote App Compatibility

Smartphone Integration

Android™ Music Playback via USB (AUTO MODE/AUDIO MODE)

Simply connect your Android smartphone or tablet to the receiver via USB and enjoy a totally “plug and play” music playback solution. The Android Open Accessory Protocol (AOA2) is supported so absolutely no preparation or set-up is necessary – just plug it in and it’s ready to play audio files stored on your Android device in what’s called “AUDIO MODE”. Or, by installing the free JVC Music Play app* available on Google Play, you’ll be able to access “AUTO MODE” for added functionality including Folder Up & Down, and Search Artist/Album/Song.

Bluetooth® Wireless Technology

2 Phones Full-Time Connection

You can connect two phones full time via Bluetooth, with secure and simple pairing. Calls to either phone can be received by a push of a key on the head unit.

Bluetooth AVRCP1.5 for Versatile Song Selection

In addition to repeat and random playback of music files, you can also easily search for songs using the browsing function. Just look for and choose the song you want to hear from the folder name and song name lists.

Bluetooth Hands-Free Profile 1.6

HPF 1.6 Wideband Speech is supported, so you can now enjoy hands-free phoning convenience together with higher voice quality and improved noise reduction.

iPhone[®] / Android[™] Bluetooth Automatic Pairing

Just connect your iPhone or Android device* via USB and the automatic Bluetooth pairing function will work to complete the pairing. No complicated manual procedure to worry about.

*JVC Music Play application is required for Android.

JVC Streaming DJ **NEW**

Connect up to 5 Bluetooth devices simultaneously, so you and your friends can take turns streaming music like a DJ.

Move to the groove and get the party pumping to the max.

Sound Optimization

K2 Technology for Enhanced Digital Sound Quality

K2 is a JVC KENWOOD's original technology that reproduces the original master sound by expanding the bit rate and frequency range. For example, K2 will expand the digital data of the audio CD recorded at 44.1kHz/16bit to 48kHz/24bit, and recreate the high-frequency range above 20kHz that is cut during the CD formatting.

Time Alignment **NEW**

By selecting the speaker type and the distance to the centre of the listening position, the head unit will automatically adjust the timing of the sound output from each of the speakers so that the sound from each of the speakers will arrive exactly at the same time to the listening position.

Space Enhancement

Space Enhancement is a virtual surround technology using 2 speakers. Just select the vehicle size, and the head unit automatically adjusts the sound effectively.

Sound Response

Cancels time distortion to create clearer sound during the playback of compressed audio files.

Sound Lift

Virtually manipulate the height of the speakers by adjusting the sound frequencies.

Volume Link EQ

Volume Link EQ boosts specific frequencies in the audio signal to compensate for the impact of road noise. It boosts frequencies in the music that are affected by road noise.

13-Band Equalizer

Use the 13-Band Equalizer to manually adjust the sound to your taste.

9-Preset EQ including "drvn EQ" **NEW**

Preset EQ patterns are selectable from 9 types including "drvn EQ" that is designed to maximize the performance of JVC drvn Series amplifiers and speakers, as well as producing dynamic sound for any speaker.

Internet Radio/Digital Radio

Pandora / iHeartRadio Control (Android/iPhone)

Listen to Pandora and iHeartRadio from your smartphone with smooth control on the headunit via USB or Bluetooth connection for iPhone, and via Bluetooth for Android devices.

Media Playback

24bit FLAC Compatible with Tag **NEW**

Compatible with FLAC format which allows digital audio to be losslessly compressed, so that file size is reduced without any information being sacrificed. Also compatible with playback of 24bit / 48kHz FLAC format.

Display

2-Line VA LCD Display **NEW**

Equipped with VA (Vertical Alignment) LCD panels that offer a broader angle of view and better visibility. The 2-line display provides more information with animation effects.

• Song and artist information

• EQ setting

• Phonebook information

Spanish Text Display Compatible

On-screen display menu now available in Spanish. Helpful for more users.

USB

High Current 1.5A Charging

Rapidly charge your smartphone using the USB port, with up to a maximum of 1.5A.

General

Remote Control App **NEW**

Control the receiver's source directly from the smartphone using simple finger gestures with "JVC Remote" app* now available for both iOS and Android. You can even customize your audio setting, and see detailed source information such as song title, artist name and album art etc. from the smartphone.

*JVC Remote App
