INSTRUCTION MANUAL

JVCKENWOOD Corporation

For customer Use:
Enter below the Model No. and Serial No. which are located on the top or bottom of the cabinet. Retain this information for future reference.
Model No. ____________________________
Serial No. ____________________________

B5A-0831-00 [K]
BEFORE USE

IMPORTANT
• To ensure proper use, please read through this manual before using this product. It is especially important that you read and observe Warning and Caution in this manual.
• Please keep the manual in a safe and accessible place for future reference.

⚠️ Warning
Do not operate any function that takes your attention away from safe driving.

⚠️ Caution
Volume setting:
• Adjust the volume so that you can hear sounds outside the car to prevent accidents.
• Lower the volume before playing digital sources to avoid damaging the speakers by the sudden increase of the output level.

General:
• Avoid using the external device if it might hinder safe driving.
• Make sure all important data has been backed up. We shall bear no responsibility for any loss of recorded data.
• Never put or leave any metallic objects (such as coins or metal tools) inside the unit to prevent a short circuit.
• If a disc error occurs due to condensation on the laser lens, eject the disc and wait for the moisture to evaporate.

Remote control (RM-RK52):
• Do not leave the remote control in hot places such as on the dashboard.
• The Lithium battery is in danger of explosion if replaced incorrectly. Replace it only with the same or equivalent type.
• The battery pack or batteries shall not be exposed to excessive heat such as sunshine, fire or the like.
• Keep the battery out of reach of children and in its original packaging when not in use. Dispose of used batteries promptly. If swallowed, contact a physician immediately.

How to read this manual
• Operations are explained mainly using buttons on the faceplate of KW-R925BTS.
• English indications are used for the purpose of explanation. You can select the display language from the menu. ( 5 )
• [XX] indicates the selected items.
• ( ⇒ XX ) indicates references are available on the stated page.

**RADIO**

“ST” lights up when receiving an FM stereo broadcast with sufficient signal strength.

**Search for a station**

1. Press \(\) / **SOURCE** repeatedly to select FM or AM.
2. Press \(\) / \(\) (or press \(\) / \(\) on RM-RK52) to search for a station automatically. 
   (or)
   Press and hold \(\) / \(\) (or press and hold \(\) / \(\) on RM-RK52) until “M” flashes, then press repeatedly to search for a station manually.

**Settings in memory**

You can store up to 18 stations for FM and 6 stations for AM.

**Store a station**

While listening to a station,...
- Press and hold one of the number buttons (1 to 6).
- (or)
  1. Press and hold the volume knob until “PRESET MODE” flashes.
  2. Turn the volume knob to select a preset number, then press the knob.
     The preset number flashes and “MEMORY” appears.
RADIO

Select a stored station
Press ▲/▼ or one of the number buttons (1 to 6).
  1 Press ○.
  2 Turn the volume knob to select a preset number, then press the knob to confirm.

Other settings
1 Press and hold ↺△○.
2 Turn the volume knob to select [TUNER], then press the knob.
3 Turn the volume knob to select an item (see the following table), then press the knob.
4 Repeat step 3 until the desired item is selected/activated or follow the instructions stated on the selected item.
5 Press ◄○ to exit.
To return to the previous setting item, press ○ ◄.

Default: XX

RADIO TIMER
Turns on the radio at a specific time regardless of the current source.
1 ONCE/DAILY/WEEKLY/OFF: Select how often the timer will be turned on.
2 FM/AM/SIRIUS XM*: Select the source.
3 01 to 18 (for FM/SIRIUS XM)/01 to 06 (for AM): Select the preset station.
4 Set the activation day*2 and time.
  “ĉ” lights up when complete.
Radio Timer will not activate for the following cases.
  • The unit is turned off.
  • [OFF] is selected for [AM] in [SRC SELECT] after Radio Timer for AM is selected. (☞ 4)

SSM
SSM 01 – 06 / SSM 07 – 12 / SSM 13 – 18: Automatically presets up to 18 stations for FM. “SSM” stops flashing when the first 6 stations are stored. Select SSM 07 – 12 / SSM 13 – 18 to store the following 12 stations.

IF BAND
AUTO: Increases the tuner selectivity to reduce interference noises from adjacent FM stations. (Stereo effect may be lost.)
WIDE: Subjects to interference noises from adjacent FM stations, but sound quality will not be degraded and the stereo effect will remain.

MONO*3
ON: Improves the FM reception, but the stereo effect will be lost.
OFF: Cancels.

AREA
AREA US: For North/Central/South America, AM/FM intervals: 10 kHz/200 kHz.
AREA SA: For some South American countries, AM/FM intervals: 10 kHz/50 kHz.
AREA EU: For any other areas, AM/FM intervals: 9 kHz/50 kHz.

PTY SEARCH*3
Select a PTY code (see below).
If there is a station broadcasting a program of the same PTY code as you have selected, that station is tuned in.

PTY code:
NEWS, INFORM (information), SPORTS, TALK, ROCK, CLS ROCK (classic rock), ADLT HIT (adult hits), SOFT RCK (soft rock), TOP 40, COUNTRY, OLDIES, SOFT, NOSTALGA (nostalgia), JAZZ, CLASSICL (classic), R & B (rhythm and blues), SOFT R&B (soft rhythm and blues), LANGUAGE, REL MUSC (religious music), REL TALK (religious talk), PERSNLTY (personality), PUBLIC, COLLEGE, HABL ESP (Spanish talk), MUSC ESP (Spanish music), HIP HOP, WEATHER

*1 Selectable only when SiriusXM Vehicle Tuner is connected.
*2 Selectable only when [ONCE] or [WEEKLY] is selected in step 1.
*3 Only for FM source.
CD / USB / iPod / ANDROID

CD / USB / iPod / ANDROID

Select control mode

While in IPOD FRONT/ IPOD REAR/ USB-IPOD source, press 5 USB MODE repeatedly.
HEAD MODE: Control iPod from this unit.
IPHONE MODE: Control iPod using the iPod itself. However, you can still play/pause or file skip from this unit.

While in ANDROID/ ANDROID-F/ ANDROID-R source, press 5 USB MODE repeatedly.
AUTO MODE: Control Android device from this unit via JVC MUSIC PLAY application installed in the Android device.
AUDIO MODE: Control Android device using the Android device itself via other media player applications installed in the Android device. However, you can still play/pause or file skip from this unit.

Select music drive

Press 5 USB MODE repeatedly.
Stored songs in the following drive will be played back.
• Selected internal or external memory of a smartphone (Mass Storage Class).
• Selected drive of a multiple drives device.

Select a file from a folder/list

1. Press $\uparrow\downarrow$.
2. Turn the volume knob to select a folder/list, then press the knob.
3. Turn the volume knob to select a file, then press the knob.

Quick Search
If you have many files, you can search through them quickly.
Turn the volume knob quickly to browse through the list quickly.
– Not applicable for iPod.

Alphabet search (applicable only for iPod):
You can search for a file according to the first character.
Press $\uparrow\downarrow$ or turn the volume knob quickly to select the desired character (A to Z/ 0 to 9/ OTHERS).
– Select “OTHERS” if the first character is other than A to Z, 0 to 9.

• To return to the previous setting item, press $\uparrow\downarrow$.
• To cancel, press and hold $\uparrow\downarrow$.
• For iPod, applicable only when [HEAD MODE] is selected.
• For ANDROID, applicable only when [AUTO MODE] is selected.
Pandora®

Preparation:
Install the latest version of the Pandora application on your device (iPhone/ iPod touch), then create an account and log in to Pandora.
- Select [ON] for [PANDORA] in [SRC SELECT]. (☞ 4)

Start listening
1  Open the Pandora application on your device.
2  Connect your device to the USB input terminal.

3  Press ⟨/SOURCE⟩ repeatedly to select PANDORA/ PANDORA-F/ PANDORA-R.
   Broadcast starts automatically

Create and save a new station
1  Press ⟨ ⟩.
2  Turn the volume knob to select [NEW STATION], then press the knob.
3  Turn the volume knob to select [FROM TRACK] or [FROM ARTIST], then press the knob.
   A new station is created based on the current song or artist.
4  Press and hold one of the number buttons (1 to 6) to store.
   To select a stored station, press one of the number buttons (1 to 6).

Search for a registered station
1  Press ⟨ ⟩.
2  Turn the volume knob to select an item, then press the knob.
   [BY DATE]: According to the registered date.
   [A-Z]: Alphabetical order.
3  Turn the volume knob to select the desired station, then press the knob.
   To cancel, press and hold ⟨ ⟩.

Bookmark current song information
Press and hold the volume knob.
“BOOKMARKED” appears and the information is stored to your device.
The bookmark is available on your Pandora account but not on this unit.

**SiriusXM® Radio**

Only SiriusXM® brings you more of what you love to listen to, all in one place. Get over 140 channels, including commercial-free music plus the best sports, news, talk, comedy and entertainment. Welcome to the world of satellite radio. A SiriusXM Vehicle Tuner and Subscription are required.

**Preparation:**

1. Connect the optional SiriusXM Vehicle Tuner (commercially available).

2. Check your Radio ID for activation.
   The SiriusXM Radio ID is required for activation and can be found by tuning to Channel 0 as well as on the label found on the SiriusXM Connect tuner and its packaging. The Radio ID does not include the letters I, O, S or F.

3. Press SOURCE repeatedly to select SIRIUS XM to start updating.

**SmartFavorites and TuneStart™**

User preset channels are initially assigned as the SmartFavorites channels. SmartFavorite channel is available with SXV200 or later SiriusXM tuner models. The SiriusXM Vehicle Tuner automatically buffers the broadcast audio content of the SmartFavorites channels in the background.

- **Using SXV200:** This unit can assign a maximum of 6 SmartFavorites channels. If you try to assign the 7th channel, an error beep tone will be heard. Initially, preset channels 1 to 6 are assigned as SmartFavorites.
- **Using SiriusXM tuner models later than SXV200:** This unit can assign a maximum of 18 SmartFavorites channels. Initially, all preset channels are assigned as SmartFavorites.
- "*" appears at the last character of the channel name for the SmartFavorites channels.

When you select a SmartFavorites channel, you can rewind and replay up to 30 minutes of any of the missed news, talk, sports or music content.

- Playback starts from the beginning of the song if [TUNE START] is set to [ON] (13) for most music channels stored as a SmartFavorite.

Connect the microphone

Pair and connect a Bluetooth device for the first time

1. Press \(\) / **SOURCE** to turn on the unit.
2. Search and select “JVC UNIT” on the Bluetooth device.
   "BT PAIRING" flashes on the display.
   • For some Bluetooth devices, you may need to enter the Personal Identification Number (PIN) code immediately after searching.
3. Perform (A) or (B) depending on what scrolls on the display.
   For some Bluetooth devices, pairing sequence may vary from the steps described below.
   (A) “[Device Name]” ➔ “XXXXXX” ➔ “VOL – YES” ➔ “BACK – NO”
   “XXXXXX” is a 6-digit passkey randomly generated during each pairing.
   1. Ensure that the passkey which appears on the unit and Bluetooth device is the same.
   2. Press the volume knob to confirm the passkey.
   3. Operate the Bluetooth device to confirm the passkey.
   (B) “[Device Name]” ➔ “VOL – YES” ➔ “BACK – NO”
   1. Press the volume knob to start pairing.
   2. If “PAIRING” ➔ “PIN 0000” scrolls on the display, enter the PIN code “0000” into the Bluetooth device.
   You can change to a desired PIN code before pairing. ➔ 18
   • If only “PAIRING” appears, operate the Bluetooth device to confirm pairing.
   “PAIRING COMPLETED” appears when pairing is completed and “\(\)” will light up when the Bluetooth connection is established.

* Functionality depends on the type of the phone used.

Lights up to show the battery strength and signal strength.*

- This unit supports Secure Simple Pairing (SSP).
- Up to 10 devices can be registered (paired) in total.
- Once the pairing is completed, the Bluetooth device will remain registered in the unit even if you reset the unit. To delete the paired device, ➔ 18, [DELETE PAIR].
- A maximum of two Bluetooth phones and one Bluetooth audio device can be connected at any time.
- Some Bluetooth devices may not automatically connect to the unit after pairing. Connect the device to the unit manually.
- Refer to the instruction manual of the Bluetooth device for more information.
**BLUETOOTH®**

**Auto Pairing**

When you connect the iPhone/iPod touch/Android device to the USB input terminal, pairing request (via Bluetooth) is automatically activated.

Press the volume knob to pair once you have confirmed the device name.

Automatic pairing request is activated only if:
- Bluetooth function of the connected device is turned on.
- [AUTO CNNT] is set to [ON]. (18)
- JVC MUSIC PLAY application is installed on the Android device (7) and [AUTO MODE] is selected (8).

**BLUETOOTH — Mobile phone**

**Receive a call**

When there is an incoming call:
- The buttons will blink in the color you have selected in [RING COLOR]. (16)
- The unit answers the call automatically if [AUTO ANSWER] is set to a selected time. (16)

During a call:
- The buttons stop blinking and illuminate in the color you have selected in [RING COLOR]. (16)
- If you turn off the unit, the Bluetooth connection is disconnected.

**Improve the voice quality**

While talking on the phone....

1. Press and hold \( \text{ Call } / \) to select an item (see the following table), then press the knob.
2. Repeat step 2 until the desired item is selected or activated.
3. Press \( \text{ Call } / \) to exit.

To return to the previous setting item, press \( \text{ Call } \) \( \text{ Call } \).
BLUETOOTH®

Make a call
You can make a call from the call history, phonebook, or dialing the number. Call by voice is also possible if your mobile phone has the feature.

1 Press \( \uparrow \) / \( \downarrow \) to enter Bluetooth mode.
2 Turn the volume knob to select an item (see the following table), then press the knob.
3 Repeat step 2 until the desired item is selected/activated or follow the instructions stated on the selected item.

To return to the previous setting item, press \( \leftarrow \) \( \rightarrow \).

RECENT CALL  (Applicable only if the phone supports PBAP)
1 Press the volume knob to select a name or a phone number.
   • “<” indicates call received, “>” indicates call made, “M” indicates call missed.
   • “NO HISTORY” appears if there is no recorded call history or call number.
2 Press the volume knob to call.

PHONEBOOK  (Applicable only if the phone supports PBAP)
1 Press \( \uparrow \) / \( \downarrow \) to select the desired letter (A to Z, 0 to 9, and OTHERS).
   • “OTHERS” appears if the first character is other than A to Z, 0 to 9.
2 Turn the volume knob to select a name, then press the knob.
3 Turn the volume knob to select a phone number, then press the knob to call.
   • The phonebook of the connected phone is automatically transferred to the unit when pairing.
   • This unit can display only non-accent letters. (Accent letters such as “Ú” is shown as “U”.)

DIAL NUMBER
1 Turn the volume knob to select a number (0 to 9) or character (\$\, #, +).
2 Press \( \leftarrow \) / \( \rightarrow \) to move the entry position.
   Repeat steps 1 and 2 until you finish entering the phone number.
3 Press the volume knob to call.

VOICE
Speak the name of the contact you want to call or the voice command to control the phone functions. (➡ Make a call using voice recognition)

➡ Make a call using voice recognition
1 Press and hold \( \uparrow \) / \( \downarrow \) to activate the connected phone.
2 Speak the name of the contact you want to call or the voice command to control the phone functions.
   • Supported Voice Recognition features vary for each phone. Refer to the instruction manual of the connected phone for details.
   • This unit also supports the intelligent personal assistant function of iPhone.

Settings in memory

➡ Store a contact in memory
You can store up to 6 contacts into the number buttons (1 to 6).
1 Press \( \uparrow \) / \( \downarrow \) to enter Bluetooth mode.
2 Turn the volume knob to select [RECENT CALL], [PHONEBOOK], or [DIAL NUMBER], then press the knob.
3 Turn the volume knob to select a contact or enter a phone number.
   If a contact is selected, press the volume knob to show the phone number.
4 Press and hold one of the number buttons (1 to 6).
   “MEMORY P(selected preset number)” appears when the contact is stored.
To erase a contact from the preset memory, select [DIAL NUMBER] in step 2 and store a blank number.

➡ Make a call from memory
1 Press \( \uparrow \) / \( \downarrow \) to enter Bluetooth mode.
2 Press one of the number buttons (1 to 6).
3 Press the volume knob to call.
   “NO PRESET” appears if there is no contacts stored.
**BLUETOOTH®**

### Bluetooth mode settings

1. Press and hold Bluetooth mode settings.
2. Turn the volume knob to select [BLUETOOTH], then press the knob.
3. Turn the volume knob to select an item (see the following table), then press the knob.
4. Repeat step 3 until the desired item is selected/activated or follow the instructions stated on the selected item.
5. Press to exit.

To return to the previous setting item, press to exit.

### Bluetooth compatibility check mode

You can check the connectivity of the supported profile between the Bluetooth device and the unit.

- Make sure there is no Bluetooth device paired.

2. Search and select “JVC UNIT” on the Bluetooth device within 3 minutes.

3. Perform (A), (B) or (C) depending on what appears on the display.

   (A) “PAIRING” ➔ “XXXXXX” (6-digit passkey): Ensure that the same passkey appears on the unit and Bluetooth device, then operate the Bluetooth device to confirm the passkey.

   (B) “PAIRING” ➔ “PIN IS 0000”: Enter “0000” on the Bluetooth device.

   (C) “PAIRING”: Operate the Bluetooth device to confirm pairing.

After pairing is successful, “PAIRING OK” ➔ “[Device Name]” appears and Bluetooth compatibility check starts. If “CONNECT NOW USING PHONE” appears, operate the Bluetooth device to allow phonebook access to continue. “TESTING” flashes on the display.

The connectivity result flashes on the display.

“PAIRING OK” and/or “H.FREE OK”*1 and/or “A.STREAM OK”*2 and/or “PBAP OK”*3: Compatible

*1 Compatible with Hands-Free Profile (HFP)
*2 Compatible with Advanced Audio Distribution Profile (A2DP)
*3 Compatible with Phonebook Access profile (PBAP)

After 30 seconds, “PAIRING DELETED” appears to indicate that pairing has been deleted, and the unit exits check mode.

- To cancel, press and hold SOURCE to turn off the power, then turn on the power again.
BLUETOOTH®

BLUETOOTH — Audio

Audio player via Bluetooth

1 Press SOURCE repeatedly to select BT AUDIO (or press SOURCE on RM-RK52).
2 Operate the Bluetooth audio player to start playback.

Select a file from a folder/list

Refer to “Select a file from a folder/list” on page 8.

Operations and display indications may differ according to their availability on the connected device.

Internet radio via Bluetooth

Listen to Pandora

You can listen to Pandora on the Android device via Bluetooth on this unit.

Preparation:
Select [ON] for [PANDORA] in [SRC SELECT]. (➡ 4)
1 Open the Pandora application on your device. (1)
2 Connect your Bluetooth audio player via Bluetooth connection. (➡ 14)
3 Press SOURCE repeatedly to select PANDORA. The source switches and broadcast starts automatically.

You can operate Pandora in the same way as Pandora for iPod/iPhone. (➡ 9)

Listen to iHeartRadio

You can listen to iHeartRadio on the Android device via Bluetooth on this unit.

Preparation:
Select [ON] for [IHEART] in [SRC SELECT]. (➡ 4)
1 Open the iHeartAuto application on your smartphone. (14)
2 Connect your smart phone via Bluetooth connection. (➡ 14)
3 Press SOURCE repeatedly to select IHEARTRADIO. The source switches and broadcast starts automatically.

You can operate iHeartRadio in the same way as iHeartRadio for iPod/iPhone. (➡ 10)
AUX

Use a portable audio player

1. Connect a portable audio player (commercially available).
   - 3.5 mm (1/8") stereo mini plug with “L” shaped connector (commercially available)

2. Select [ON] for [AUX] in [SRC SELECT]. (⇨ 4)
3. Press EQ / SOURCE repeatedly to select AUX.
4. Turn on the portable audio player and start playback.

   Use a 3-core plug head stereo mini plug for optimum audio output.

AUDIO SETTINGS

Select a preset equalizer

- Press EQ BASS repeatedly.
- (or)
- Press EQ BASS, then turn the volume knob within 5 seconds.
- Preset equalizer:
  - FLAT (default) / HARD ROCK / POP / HIP HOP / R&B / JAZZ / CLASSICAL / USER

Store your own sound settings

1. Press and hold EQ BASS to enter EASY EQ setting.
2. Turn the volume knob to select an item, then press the knob.
   - Refer to [EASY EQ] for setting (⇨ 21) and the result is stored to [USER].
   - To return to the previous setting item, press .
   - To exit, press EQ BASS.

Other settings

1. Press and hold .
2. Turn the volume knob to select an item (⇨ 21), then press the knob.
3. Repeat step 2 until the desired item is selected/activated or follow the instructions stated on the selected item.
4. Press . to exit.
   - To return to the previous setting item, press .

Speaker output settings

(Only for X’ OVER 2-WAY)
Select the output setting for the speakers [SPK/PRE OUT], base on the speaker connection method.

Connection via lineout terminals

For connections through an external amplifier. (☞ 33)

(For KW-R920BTS)

Setting on [SPK/PRE OUT] Audio signal through lineout terminal

FRONT REAR SW
REAR/REAR Front speakers output Rear speakers output Subwoofer output
REAR/SUB.W (default) Front speakers output Subwoofer output
SUB.W/SUB.W Front speakers output Subwoofer output

Connection via speaker leads

For connections without using an external amplifier. However, with this settings you can also enjoy the subwoofer output. (☞ 33)

Setting on [SPK/PRE OUT] Audio signal through rear speaker lead

L (left) R (right)
REAR/REAR Rear speakers output Rear speakers output
REAR/SUB.W Rear speakers output Rear speakers output
SUB.W/SUB.W Subwoofer output (Mute)

If [SUB.W/SUB.W] is selected:
– [FREQ 120HZ] is selected in [SUB.W LPF] and [THROUGH] is not available.
– [R02] is selected in [FADER] and selectable range is [R15] to [00].

Speaker output settings

(Only for X’ OVER 2-WAY)
Select the output setting for the speakers [SPK/PRE OUT], base on the speaker connection method.

Connection via lineout terminals

For connections through an external amplifier. (☞ 33)

(For KW-R925BTS)

Setting on [SPK/PRE OUT] Audio signal through lineout terminal

FRONT REAR SW
REAR/REAR Front speakers output Rear speakers output Subwoofer output
REAR/SUB.W (default) Front speakers output Subwoofer output
SUB.W/SUB.W Front speakers output Subwoofer output

If [SUB.W/SUB.W] is selected:
– [FREQ 120HZ] is selected in [SUB.W LPF] and [THROUGH] is not available.
– [R02] is selected in [FADER] and selectable range is [R15] to [00].
AUDIO SETTINGS

Crossover settings
Below are the available setting items for 2-way crossover and 3-way crossover.

⚠️ Caution
Select a crossover type according to how the speakers are connected. (33)
If you select a wrong type:
• The speakers may damage.
• The output sound level may be extremely high or low.

SPK SIZE (speaker size)
Selects according to the connected speaker size for optimum performance.
• The frequency and slope settings are automatically set for the crossover of the selected speaker.
• If [NONE] is selected for [TWEETER] of [FRONT], [REAR] and [SUBWOOFER] for [SPK SIZE], the [X ’ OVER] setting of the selected speaker is not available.

X ’ OVER (crossover)
[FRQ]/[HPF FRQ]/[LPF FRQ]:
Adjusts the crossover frequency for the selected speakers (high pass filter or low pass filter).
• If [THROUGH] is selected, all signals are sent to the selected speakers.

[SLOPE]/[HPF SLOPE]/[LPF SLOPE]:
Adjusts the crossover slope.
• Selectable only if a setting other than [THROUGH] is selected for the crossover frequency.

[PHASE]:
Selects the phase of the speaker output to be in line with the other speaker output.

[GAIN LEFT]/[GAIN RIGHT]/[GAIN]:
Adjusts the output volume of the selected speaker.

**DISPLAY SETTINGS**

### DISPLAY

#### DIMMER
- Dim the display and button illuminations.
  - OFF: Dimmer is turned off.
  - ON: Dimmer is turned on. Brightness changes to [NIGHT] setting. ([25], [BRIGHTNESS])
  - DIMMER TIME: Set the dimmer on and off time.
    1. Turn the volume knob to adjust the [ON] time, then press the knob.
    2. Turn the volume knob to adjust the [OFF] time, then press the knob.
      (Default: [ON]: 18:00 or 6:00 PM
      [OFF]: 6:00 or 6:00 AM)
- AUTO: Dimmer turns on and off automatically when you turn off or on the car headlights. [*1]

---

* Displayed only when [SUB.W] is set to [ON]. ([21])

---

* *1* Displayed only when [SUB.W] is set to [ON]. ([21])

---

* *1* Displayed only when [SUB.W] is set to [ON]. ([21])

---

* *1* Displayed only when [SUB.W] is set to [ON]. ([21])
### DISPLAY SETTINGS

#### BRIGHTNESS
Set the brightness for button and display illuminations for day and night separately.
1. **DAY / NIGHT**: Select day or night.
2. **Select a zone.**
3. **Set the brightness level (00 to 31).** (Default: **DAY**: 31; **NIGHT**: 15)

#### SCROLL
- **ONCE**: Scrolls the display information once.
- **AUTO**: Repeats scrolling at 5-second intervals.
- **OFF**: Cancels.

#### COLOR PRESET
Select color for display and button illuminations separately.
1. **Select a zone.**
2. **Select a color for the selected zone.**
   - **COLOR 01** to **COLOR 49**
   - **USER**: The color you have created for [DAY COLOR] or [NIGHT COLOR] is shown.
   - **COLOR FLOW01** to **COLOR FLOW03**: Color changes at different speeds.
   - **GROOVE**/TECHNO/EMOTION/RELAX/SPECTRUM/SWEEP/POP: The selected color pattern is shown.

#### DAY COLOR
Store your own day and night colors for different zone.
1. **Select a zone.**
2. **RED**/**GREEN**/**BLUE**: Select a primary color.
3. **00** to **31**: Select the level.

#### NIGHT COLOR
Repeat steps 2 and 3 for all the primary colors.
- **Your setting is stored to [USER] in [PRESET].**
- **If [00] is selected for all primary colors for [DISP ZONE], nothing appears on the display.**

#### COLOR GUIDE
- **ON**: Changes the button and display illuminations when settings are performed on menu and list search. Display zone will automatically change depending on volume level.
- **OFF**: Cancels.

*[NIGHT COLOR] or [DAY COLOR] is changed by turning on or off your car’s headlight.*

---

*1 The illumination control wire connection is required. (☞ 33)

*2 Some characters or symbols will not be shown correctly (or will be blanked).

*3 If one of these color pattern is selected, the **ZONE 1**, **DISP ZONE**, **ZONE 2** illumination color will change to the default color.
**REFERENCES**

**Change the display information**
Each time you press \( \text{CF} \), the display information changes.
- If the information is unavailable or not recorded, “NO TEXT”, “NO NAME”, or other information (eg. station name) appears.

* The color of the button illumination and display illumination changes and synchronises with the sound level.

**Maintenance**
**Cleaning the unit**
Wipe off dirt on the faceplate with a dry silicone or soft cloth.

**Handling discs:**
- Do not touch the recording surface of the disc.
- Do not stick tape etc. on the disc, or use a disc with tape stuck on it.
- Do not use any accessories for the disc.
- Clean from the center of the disc and move outward.
- Clean the disc with a dry silicone or soft cloth. Do not use any solvents.
- When removing discs from this unit, pull them out horizontally.
- Remove burrs from the center hole and disc edge before inserting a disc.

**General**
- This unit can only play the following CDs:

  ![disc](image)

- **DualDisc playback**: The Non-DVD side of a “DualDisc” does not comply with the “Compact Disc Digital Audio” standard. Therefore, the use of Non-DVD side of a DualDisc on this product cannot be recommended.
REFERENCES

- Detailed information and notes about the playable audio files.

Playable files
- Playable audio file: MP3 (.mp3)/ WMA (.wma)/ AAC (.aac)
- Playable disc media: CD-R/CD-RW/CD-ROM
- Playable disc file format: ISO 9660 Level 1/2, Joliet, Long file name.
- Playable USB device file system: FAT12, FAT16, FAT32

Even when audio files comply with the standards listed above, playback may be impossible depending on the types or conditions of media or device. The AAC (.m4a) file in a USB device or a CD encoded by iTunes cannot be played on this unit.

Unplayable discs
- Discs that are not round.
- Discs with coloring on the recording surface or discs that are dirty.
- Recordable/ReWritable discs that have not been finalized.
- 8 cm CD. Attempting to insert using an adapter may cause malfunction.

About USB devices
- This unit can play MP3/ WMA/ AAC/ WAV/ FLAC files stored on a USB mass storage class device.
- You cannot connect a USB device via a USB hub.
- Connecting a cable whose total length is longer than 5 m may result in abnormal playback.
- This unit cannot recognize a USB device whose rating is other than 5 V and exceeds 1.5 A.

About iPod/iPhone
- Made for
  - iPod touch (2nd, 3rd, 4th, and 5th generation)
  - iPod classic
  - iPod nano (3rd, 4th, 5th, 6th, and 7th generation)
  - iPhone 3G, 3GS, 4, 4S, 5, 5S, 5C, 6, 6 Plus
- It is not possible to browse video files on the “Videos” menu in [HEAD MODE].
- The song order displayed on the selection menu of this unit may differ from that of the iPod/iPhone.
- Depending on the version of the operating system of the iPod/iPhone, some functions may not operate on this unit.

About Android device
- This unit supports Android OS 4.1 and above.
- Some Android devices (with OS 4.1 and above) may not fully support Android Open Accessory (AOA) 2.0.
- If the Android device supports both mass storage class device and AOA 2.0, this unit always playback via AOA 2.0 as priority.

About iHeartRadio
- iHeartRadio® is a third-party service, therefore the specifications are subject to change without prior notice. Accordingly, compatibility may be impaired or some or all of the services may become unavailable.
- Some iHeartRadio® functionality cannot be operated from this unit.

About Bluetooth
- Depending on the Bluetooth version of the device, some Bluetooth devices may not be able to connect to this unit.
- This unit may not work with some Bluetooth devices.
- Signal conditions vary, depending on the surroundings.

</tbody>
</table>
| • Check whether the connected Bluetooth audio player supports Audio/Video Remote Control Profile (AVRCP). (Refer to the instructions of your audio player.)  
• Disconnect and connect the Bluetooth player again. |
| “PAIRING FULL” | The number of registered devices has reached its limit. Retry after deleting an unnecessary device. (✿ 18, DELETE PAIR) |
| “PLEASE WAIT” | The unit is preparing to use the Bluetooth function. If the message does not disappear, turn off and turn on the unit, then connect the device again. |
| “NOT SUPPORT” | The connected phone does not support Voice Recognition feature. |
| “ERROR” | Try the operation again. If “ERROR” appears again, check if the device supports the function you have tried. |
| “H/W ERROR” | Reset the unit and try the operation again. If “H/W ERROR” appears again, consult your nearest service center. |

**SPECIFICATIONS**

**Tuner**

| Frequency Range | 87.9 MHz — 107.9 MHz (200 kHz step)  
| 87.5 MHz — 108.0 MHz (50 kHz step) |
| Channel Space Selection | 50 kHz/200 kHz |
| Usable Sensitivity (S/N = 26 dB) | 8.2 dBf (0.71 μV/75 Ω) |
| Quieting Sensitivity (DIN S/N = 46 dB) | 17.2 dBf (2.0 μV/75 Ω) |
| Frequency Response (±3 dB) | 30 Hz — 15 kHz |
| Signal-to-Noise Ratio (MONO) | 64 dB |
| Stereo Separation (1 kHz) | 40 dB |

**AM**

| Frequency Range | 530 kHz — 1700 kHz (10 kHz step)  
| 531 kHz — 1611 kHz (9 kHz step) |
| Channel Space Selection | 9 kHz/10 kHz |
| Usable Sensitivity (S/N = 20 dB) | 29 dBμ (28.2 μV) |

**CD player**

| Laser Diode | GaAlAs |
| Digital Filter (D/A) | 8 times over sampling |
| Spindle Speed | 500 rpm — 200 rpm (CLV) |
| Wow & Flutter | Below measurable limit |
| Frequency Response (±1 dB) | 20 Hz — 20 kHz |
| Total Harmonic Distortion (1 kHz) | 0.01 % |
| Signal-to-Noise Ratio (1 kHz) | 105 dB |
| Dynamic Range | 90 dB |
| Channel Separation | 85 dB |
| MP3 Decode | Compliant with MPEG-1/2 Audio Layer-3 |
| WMA Decode | Compliant with Windows Media Audio |
| AAC Decode | AAC-LC “.aac” files |

Subject to change without notice.
⚠️ Warning
- The unit can only be used with a 12 V DC power supply, negative ground.
- Disconnect the battery's negative terminal before wiring and mounting.
- Do not connect Battery wire (yellow) and Ignition wire (red) to the car chassis or Ground wire (black) to prevent a short circuit.
- Insulate unconnected wires with vinyl tape to prevent a short circuit.
- Be sure to ground this unit to the car's chassis after installation.

⚠️ Caution
- For safety's sake, leave wiring and mounting to professionals. Consult the car audio dealer.
- Install this unit in the console of your vehicle. Do not touch the metal parts of this unit during and shortly after use of the unit. Metal parts such as the heat sink and enclosure become hot.
- Do not connect the wires of speakers to the car chassis or Ground wire (black), or connect them in parallel.
- Connect speakers with a maximum power of more than 50 W. If the maximum power of the speakers is lower than 50 W, change the [AMP GAIN] setting to avoid damaging the speakers. (21)
- Mount the unit at an angle of less than 30º.
- If your vehicle wiring harness does not have the ignition terminal, connect Ignition wire (red) to the terminal on the vehicle’s fuse box which provides 12 V DC power supply and is turned on and off by the ignition key.
- Keep all cables away from heat dissipate metal parts.
- After the unit is installed, check whether the brake lamps, blinkers, wipers, etc. on the car are working properly.
- If the fuse blows, first make sure the wires are not touching car’s chassis, then replace the old fuse with one that has the same rating.

Basic procedure
1. Remove the key from the ignition switch, then disconnect the terminal of the car battery.
2. Connect the wires properly.
   See Wiring connection. (33)
3. Install the unit to your car.
   See Installing the unit (in-dash mounting).
4. Connect the terminal of the car battery.
5. Press 📻/SOURCE to turn on the power.
6. Reset the unit within 5 seconds. (3)

Installing the unit (in-dash mounting)
Install onto the car brackets using the supplied screws (B) or (C). The screw holes differ depending on the model of the cars.

Do the required wiring. (33)

Dashboard of your car
Car bracket
(A) Wiring harness
(B) / (C) Flat head screw M5 × 8 mm (M5 × 3/8")
(C) Round head screw M5 × 8 mm (M5 × 3/8")

Part list for installation

**USB cable** (DC 5 V 1.5 A)

**MIC (Microphone input terminal)**

**Expansion port** (12 V 500 mA)

**USB cable** (DC 5 V 1.5 A) (approx. 1.2 m/4 feet)

**JVC Amplifier**

**Car fuse block**

**Importantly,** we recommend installing the unit with a commercially available custom wiring harness specific for your car and leave this job to professionals for your safety. Consult your car audio dealer.

**Recommended connection**

1. **Firmly connect the ground wire of the amplifier to the car’s chassis to avoid damaging the unit.**
2. **You can also connect a subwoofer speaker directly using this lead without an external subwoofer amplifier.**
   - For setting, [22.]

**For setting,** [22.]

**IMPORTANT**

- Make this connection if your vehicle factory wiring harness does not have "12 V ignition switch" wire.
