SOLiD®

THE WORLD'S FIRST FLOW-FORMED OFF-ROAD TRUCK WHEEL

20"

Available Widths:
9" (2" & 3" LIP OPTIONS),
10" (4" LIP), 12" (6" LIP)

22"

Available Widths:
10" (4" LIP),
12" (6" LIP), 14" (8" LIP)

24"

Available Widths:
10" (4" LIP),
12" (6" LIP), 14" (8" LIP)

— FLOW FORM BY SOLiD —

Utilizing the latest forge-hybrid, flow-forming technology, SOLiD FF (Flow Form) wheels are 20-30% stronger and lighter than other cast wheels. The Flow Form manufacturing process maintains the integrity of the design, while improving the grain structure of the aluminum, creating a stronger, lighter, and thinner barrel. This new forging technology allows our wheels to achieve a massive lip up to 8 inches.
