Billet Aluminum Oval LED Taillights
Cutting Templates

Billet Aluminum Oval LED Taillights Cutting Templates

General Installation Notes:

Please read the instructions completely before beginning the installation.

Before beginning the installation, disconnect the negative battery cable and use wheel chocks to block the vehicle's wheels.

NOTE: Before cutting the templates, double check the length and width measurements to make sure they match the dimensions listed, or match them up with the inside of the oval washer.

The templates for XL-size taillights are on the other side of this sheet.
