<b>STEERING</b>					
<p>The diagram illustrates the assembly of a steering tie rod. The central tie rod has an inner end and an outer end. The outer end is connected to a tie rod end (outer) which is mounted on a control arm. The inner end is connected to a tie rod end (inner) which is mounted on a control arm. Two R&amp;P Boot Kits are shown, one on each side of the tie rod, used to seal the ends of the tie rod.</p>

<b>STEERING</b>				
<p>The diagram shows a steering tie rod assembly in an exploded view. On the left, the tie rod end is connected to the steering rack via an insulator bushing. The assembly includes an inner tie rod end, a steering rack insulator bushing, an R&amp;P boot kit, and an outer tie rod end. On the right, another R&amp;P boot kit is shown, along with an inner tie rod end and an outer tie rod end.</p>

**FRONT SUSPENSION**

The image contains two exploded view diagrams of front suspension components for Optima-KIA models. The top diagram, labeled F291, shows a MacPherson strut suspension system. Components labeled include: MacPherson Strut Mount, MacPherson Strut Bearings, MacPherson Strut Insulator, MacPherson Strut Bumper & Bellows, Coil Spring Seat (Upper), Coil Spring, Coil Spring Seat (Lower), MacPherson Strut, Sway Bar Bushing (To Frame), Sway Bar Link, Control Arm Bushing (Lower Rear), Control Arm (Lower), Control Arm Bushing (Lower Front), and Ball Joint (Lower Outer). An arrow points to the left, labeled 'FRONT'. The bottom diagram, labeled F553, shows a strut suspension system. Components labeled include: Strut Mount, Coil Spring, Spring Seat (Upper), Spring Seat (Lower), Sway Bar Bushing, Strut Bumper and Bellows, Strut, Control Arm Bushing (Lower Rear), Control Arm Bushing (Lower Front), Control Arm (Lower), and Ball Joint (Lower). A Sway Bar Link is also shown.

<b>STEERING</b>					
<p>The diagram shows an exploded view of steering components. At the top center is a rack and pinion assembly. To its left are two tie rod ends: one labeled 'Tie Rod End (Outer)' and one labeled 'Tie Rod End (Inner)'. To its right is another 'R&amp;P Boot Kit'. Below the rack and pinion is another tie rod assembly with two tie rod ends labeled 'Tie Rod End (Inner)' and 'Tie Rod End (Outer)'. The 'R&amp;P Boot Kit' is shown in two orientations, one above and one below the rack and pinion.</p>
