

X.G10

REBIRTH OF THE FREE SPIRIT

PREMIUM MATERIAL

X-MATRIX technology, a process that combines multiaxial fiberglass, 3D organic fibers and kevlar, special aramid fibers and carbon reinforcement. The result is a super strong and lightweight shell, 35% stronger for extension and bending resistance than normal fiberglass.

THE CUSHIONY, LUXURIOUS INTERIOR

The masterly designed interior is both stylish and simplistic and the pinnacle of the X.G10 comfort.

The X-Mart Dry technology brings a soft touch and a clever cooling system featuring a drying rate, twice as fast as normal cotton and gives extra insulation on colder days. All the interior pieces are fully removable and washable, anti-sweat and anti-allergic.

DOUBLE D-RING

All the X.Garage collection came with the double D-ring closure retention strap system simple, and reliable.

A SMALL AND COMFORTABLE HELMET

X.G10 comes in 3 Shell sizes to combine more compact dimensions with outstanding fit and Comfort.

GET YOUR STYLE

To complete an authentic styling and allow the riders the opportunity to customize their helmet, an extensive line of accessories is available.
