NEW PRODUCT ANNOUNCEMENT

84 - 01 JEEP CHEROKEE XJ HD FRONT WINCH BUMPER WITHOUT HOOP PART NUMBER 83241

Designed by off-road enthusiasts, for off-road enthusiasts, OR-Fab bumpers incorporate everything Jeep XJ owners want in ultimate trail protection and function. Our rock slider bumpers easily bolt in place without any cutting, drilling or welding.

OR-Fab's Jeep XJ rock-slider front bumper provides superior trail protection for Jeeps not using a front mounted winch. Made from 1 3/4-inch diameter, .120 wall steel tube, the bumper incorporates a unique three-piece modular design that makes it incredibly strong and able to clear up to 37-inch diameter tires. The OR-Fab XJ rock-slider bumper also provides 16 mount-points to handle high-stress winch pulls from just about any angle. The bumper attaches to the factory locations using 1/4-inch steel plate mounts. Available in Textured Wrinkle Black or Gloss Black powder coat finish.

- 3/16" thick steel plate construction
- Hand Welded and Ground for quality
- Precision LASER cut
- CNC Press Brake Formed
- Bolts directly into factory location
- High quality hardware
- Full width designed to clear 37" tires and maximizes approach angles
- 2.5 inch diameter steel tube hoop
- Tapered design easily slides off large rocks and ledges
- OEM driving light mounting holes
- Heavy Duty reinforced D-ring mounts and shackles included
