

NEW LEVEL LIFT KIT FOR COLORADO/CANYON

Pro Comp is proud to announce the release of the Level Lift system for the all-new 2015+ Chevrolet Colorado and GMC Canyon. Pro Comp's Level Lift system is an affordable way to achieve the additional clearance needed to fit larger wheel and tire combinations on the new midsized GM pickups without negatively affecting the factory suspension or steering geometry. The precision engineered leveling system installs on top of the factory strut to maintain OE ride and handling characteristics. Like all Pro Comp products, this Level Lift system is backed by the Pro Comp Promise Lifetime Warranty.
