Best Value In Safety Since 1975!

Company History: First introduced in 1975, the RaceQuip brand was built on a reputation of manufacturing and distributing high quality auto racing safety equipment at affordable prices. In 2006, the Safe-Quip and RaceQuip brands were joined together under Vesta Motorsports, USA to offer an expanded product line for the grassroots racing marketplace. Today, RaceQuip offers a complete head-to-toe safety program of value-priced, quality built SFI rated auto racing suits, shoes, gloves, Snell SA helmets, and SFI & FIA seat belts & harness sets. Our mission is to carry on the tradition of delivering "The Best Value in Auto Racing Safety".

Kids X-Small	6-7	45"-47"	45-60lbs
Kids Small	8-10	48"-55"	55-70lbs
Kids Medium	10-12	50"-57"	60-75-lbs
Kids Large	12-14	55"-60"	70-85lbs
Kids X-Large	14-16	57"-62"	75-99lbs
Kids 2X-Large	16-18	60"-66"	85-110lbs

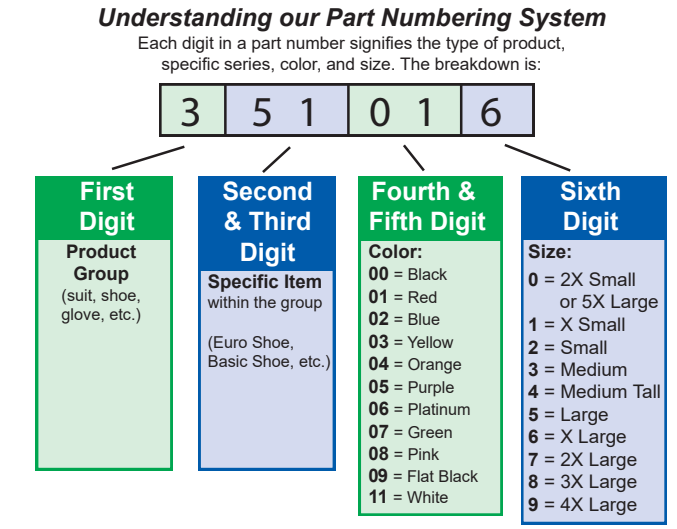

Note:
Kids 2X-Large & Adult X-Small are the same

RaceQuip Glove Sizing Chart			
#	Size	Inches	CM
2	KSM	4-5	10-13
4	KMED	4.5-5.5	11-14
6	KLRG	5-6.5	13-16
7	XS	6-7.5	15-19
8	SM	7-8.5	18-21
9	MED	8-9.5	20-24
10	LRG	9-10.5	23-26
11	XL	10-11	25-28
12	2XL	11-12	27-31
13	3XL	12-13	30-33

To find glove size, make a fist, measure over knuckles, excluding thumb, around largest part of hand. K = kids sizing with short fingers.

SA2015 Helmet Size Chart			
Helmet Size	Inches	Centimeters	Hat Size
Youth*	20 to 20 7/8	51 to 53	6 3/8 to 6 5/8
XX-Small	20 to 20 1/2	51 to 52	6 3/8 to 6 1/2
X-Small	20 7/8 to 21 1/4	53 to 54	6 5/8 to 6 3/4
Small	21 5/8 to 22 1/16	55 to 56	6 7/8 to 7
Medium	22 7/16 to 22 7/8	57 to 58	7 1/8 to 7 1/4
Large	23 1/4 to 23 5/8	59 to 60	7 3/8 to 7 1/2
X-Large	24 to 24 3/8	61 to 62	7 5/8 to 7 3/4
2X-Large	24 13/16 to 25 3/16	63 to 64	7 7/8 to 8
3X-Large	25 1/2+	65+	8 1/8+

*Youth SFI Helmets have a smaller, lighter shell and are designed for lower speed youth racing. Measure with a cloth tape around the head about 1" above eyebrows. A snug fit is optimum. Use size in CM for best accuracy and go with the largest measurement you get. Hat sizes are only a guideline and not the most accurate. Inches are rounded to nearest 1/16. If you are between sizes you must go with the larger size. Add 1 to 1.5cm for a head sock.
When fitting a helmet, be sure to tighten chin strap before evaluating fit.

In the case of shoes, all part numbers have an extra two digits to accommodate the actual shoe size. The last three digits of the shoe part numbers are the exact size with the half size in the last position, 090, 095, 100, 105, 110, 115, etc.

Introducing the RaceQuip Premier Line. Our mainline goods have always catered to budget conscious grassroots racers. For years, racers and dealers have been asking us to expand the RaceQuip product line with higher end offerings. Due to this demand, we have started to introduce these premium items. We are releasing the first of these "Premier" items with plans to roll out many more in the months and years to come.

One of the reasons we resisted offering more expensive, premium products is that we could not offer our typical margins to dealers and still be competitive on retail price. Consequently, the wholesale discount on the RaceQuip Premier Line (RPL) products is lower than that in our mainline (RQP) product line.

Sizing Note: RaceQuip shoes fit about like any other athletic shoe except that the toe is a little more narrow so your feet have pedal clearance. Also remember that you will typically wear racing shoes with a thick Nomex® sock. All sizes shown are U.S. men's sizes. For women's sizes, add 1 and 1/2 to the listed size to get the women's equivalent or subtract 1 and 1/2 from women's size to find listed size. Example: A men's 6.5 is equal to a woman's 8.

For extra wide feet, it is possible to remove the insole to create more space. RaceQuip suede racing shoes will stretch and mold to your feet after just a few days of wear.

Latch & Link Racing Harness Sets

Most belts include the hardware for both wrap around and bolt in mounting

RaceQuip Latch & Link harness sets feature a locking lever system to retain the belts. The latch & link system is distinguished by a pivoting "hammer," called a Duckbill, which locks all of the belts into place by snapping down into a detent. Both shoulder belts and the sub belt are hooked over the link; the link is inserted into the latch; the Duckbill is then brought down into and over the link, securely holding all of the pieces in place.

RaceQuip Duckbill Style Latch & Link

- All Belts Exceed SFI 16.1 Rating
- Constructed of Premium 2" and 3" Polyester Webbing
- Pull Down Style Lap Belt
