

19 MMO OPTIMIZED PROGRAMMABLE BUTTONS FOR UNLIMITED COMBOS

In any MMO, the more spells you have instant access to, the greater your advantage becomes.

The Razer Naga Epic Chroma features a total of 19 buttons, including the iconic Razer Naga's 12-button thumb grid to maximize the actions at your disposal. Now letting you map and access even more abilities, macros, as well as controls, the Razer Naga Epic Chroma makes it easy to hit the right button at the right time.

WIRELESS GAMING-GRADE TECHNOLOGY FOR UNBRIDLED MANEUVERABILITY

The Razer Naga Epic Chroma's gaming-grade wireless technology gives you completely unrestricted

movement without compromising on mouse control or accuracy. With a response rate of 1ms whether wired or wireless, your Razer Naga Epic Chroma delivers peak performance all the time. Furthermore, by plugging in the USB when the battery is running low, your Razer Naga Epic Chroma charges while you use it, so you get zero downtime all the time.

CHROMA LIGHTING WITH 16.8 MILLION CUSTOMIZABLE COLOR OPTIONS

With Chroma customizable lighting for both the scroll wheel and thumb grid, you can choose from an impressive spectrum of colors to personalize your Razer Naga Epic Chroma. As each region is controlled independently via Razer Synapse, you can make this truly unique mouse distinctly yours.

EXPERIENCE MORE WITH RAZER SYNAPSE

Lighting effects

Spectrum cycling

Slowly cycles through the entire spectrum of 16.8 million colors for a subtle yet visually stunning look.

Static

Illuminates your mouse in any color you pick from the selection of 16.8 million colors.

In-game MMO configurator

When you enable the Grid Assist Display overlay in-game, you'll be able to refer to exactly where every skill has been set on the grid.

You can even configure your entire mouse's setup from inside the game. Never have to Alt-Tab or exit a game to prepare yourself before an epic dungeon raid or boss fight. Set the transparency to make the overlay more prominent or less intrusive as you need.

If you play World of Warcraft, we've got a special configurator developed just for it. Intuitively drag and drop your skills right onto the overlay to customize your loadout. Create as many grids so you have all necessary skills ready on-hand.

Note: In-game configurator support is compatible with Windows 10 / Windows 8 / Windows 7 only.

Make your Razer Naga Epic Chroma work exactly the way you need it to. Configure every button on this powerful MMO-optimized weapon.

You can even manually set each button to display each skill's corresponding in-game icon for visually intuitive actuations.

ALL THE FEATURES

8200dpi 4G laser sensor

No Razer gaming mouse is complete without a cutting-edge mouse sensor to deliver precision and ultra-responsiveness to your game. The 4G laser sensor matches your mouse movement down to the exact pixel and offers additional customizable features in Synapse.

Scroll wheel

Scroll wheels are just as important for going through lengthy websites and documents, as they are for gaming.

Whether it is to scope, throw a grenade or zoom in on the battlefield, yours needs to be highly robust for heavy duty scrolling. That's why Razer mice scroll wheels can turn hundreds of millions of times in its lifespan, and be actuated with the exact same precision as a mouse button.

ARM 32-bit processor

The Razer Naga is outfitted with a 32 bit ARM processor which means there's a little computer onboard that is computing

Synapse

Synapse is not just a standard mouse configurator. It's packed with basic and advanced customizable features so your Razer Naga Epic Chroma works exactly the way you want it to.

Unlimited profiles and other configurations

The Razer Naga is outfitted with a 32 bit ARM processor which means there's a little computer onboard that is computing everything at an incredibly fast rate. The mouse is quite literally an extension of your hand when every movement you make, every function on the mouse you execute, is delivered instantaneously.

Inter-device communication

Pair two Razer peripherals for the ultimate gaming combo. You can temporarily change the sensitivity on your Razer mouse by holding down a button on your Razer keyboard, or quickly change keyboard profiles using the mouse scroll wheel, with customizable lighting reflecting these changes. Even create macros on your mouse and have it available on your keyboard, there is no limit to what you can do with the hive mind that is Razer Synapse.

Buttons

1. Left mouse button
2. Right mouse button
3. Scroll wheel
4. Mouse button 5
5. Mouse button 4
6. Left tilt-click - repeat scroll down
7. Right tilt-click - repeat scroll up
8. 12 programmable mechanical thumb grid buttons

Charging dock

When you need to recharge the Razer Naga Epic Chroma or just display it when not in use, pop it onto the supplied sleek charging dock/wireless receiver.

everything at an incredibly fast rate. The mouse is quite literally an extension of your hand when every movement you make, every function on the mouse you execute, is delivered instantaneously.

Hyperresponse buttons

From Razer's very first gaming mouse to now, our mice buttons are designed to be hair-trigger sensitive. This means as soon as you think it, your finger has already mouse clicked it. Utilizing highly durable Omron switches, there is a pronounced tactile feedback to your fingertips with each actuation, so you get the absolute assurance that you're winning with precision.

On top of that, the Razer Naga's thumb grid buttons are outfitted mechanically so they offer an even quicker rate of actuation than before. There's nothing quite like the clicky goodness you'll feel under your thumb.

TECH SPECS

- 19 MMO optimized programmable buttons
- 12-button mechanical thumb grid
- Tilt-click scroll wheel
- 8200dpi 4G laser sensor
- Wireless gaming-grade technology
- Charging dock
