

REMUS

Custom Exhaust

HARLEY-DAVIDSON® / BUELL

CUSTOM EXHAUST SLIP-ON (OPTIMIZED)

with changeable end caps (with EC homologation)

Geometry:

Cylindrical

Diameter:

Ø 84 mm

Sleeve length :

420 mm

Sleeve material:

Stainless steel

Surface treatment:

Chrome plated or black coated

Weight:

2,65 kg

Choose between 6
different end caps

EK80 / EK10 - SLASH CUT

EK81 / EK11 - STRAIGHT END

EK82 / EK12 - TAPERED

- Improved sound by third octave analysis
- Deeper sound at low frequencies
- Catalytic converter place in inlet unit
- Inlet unit equipped with heat shield
- Available for:
Harley-Davidson® Sportster, Dyna & Softail

CUSTOM EXHAUST

with changeable end caps (with EC homologation)

Geometry: _____

Cylindrical

Diameter: _____

Ø 84 mm

Sleeve length _____ :

~ 405 mm

Sleeve material: _____

Stainless steel

Surface treatment: _____

Chrome plated or black coated

Weight: _____

2,65 kg

Choose between 9
different end caps

EK76 - SNIPER

EK72 / EK02 - PERFORATED

EK73 / EK03 - TAPERED

EK71 / EK01 - SLASH CUT

EK75 / EK05 - ROLLED UP

Custom Exhaust Touring \varnothing 102 mm (4 inch)

with changeable end caps (with EC homologation)

Geometry: _____

Cylindrical

Diameter: _____

\varnothing 102 mm

Sleeve length: _____

~ 670 mm

Sleeve material: _____

Stainless steel

Surface treatment: _____

Chrome plated or black coated

Weight: _____

3,6 kg

Custom Exhaust Complete systems

(with EC homologation)

Complete system 2-1 with conical exhaust

Complete system 2-1 with PowerCone exhaust

Complete system 2-2 with cylindrical exhaust

REMUS SC15 / SC17

for Sportster, Dyna, Softail and Touring

The electronic sound control system from REMUS, called SC15, is a CAN-bus controlled valve system, with a muffler integrated valve. The control unit processes the CAN-bus signals and passes it via the actuator to the exhaust valve. This leads in dependence on engine parameters and ride conditions to an accurate triggering of the valve to optimize the sound under consideration of legal guidelines.

Total new electronics and the optimized hardware of the SC17 ensured that the CAN-bus-controlled valve system fulfills the stringent R41.01 requirements in regards to noise emissions.

At both systems the sound can be modulated via a handle bar mounted push button switch. In any situation the complex electronic ensures in dependency of rpm, speed and gear the compliance with the latest sound regulations.

In addition to this, high-quality coated catalysts ensure compliance with the emission limits of the currently valid Euro 4 exhaust gas standard.

FACT BOX

	SC15	SC17
CAN-bus controlled valve system	✓	✓
Sound modulation via push button switch	✓	✓
Selectable and changeable end caps	✓	✓
Compliance with EURO 4 emission limits		✓
Compliance with R 41.04 noise limits		✓
EC homologation	✓	✓

- CAN-bus controlled valve system
- Sound modulation via push button switch
- Hot sound
- Selectable and changeable end caps
- For Sportster, Dyna, Softail and Touring
- EEC homologation

deactivating plug for serial valve (RACING - no EG/ABE/EEC)

The newest electronic sound control system from REMUS, called SC15, is a CAN-bus controlled valve system, with a muffler-integrated flap. The control unit processes the CAN-bus signals and passes it via the actuator to the exhaust flap. This leads in dependence on engine parameters and drive conditions to an accurate triggering of the flap to optimize the sound under consideration of legal guidelines.

In addition to this the sound can be modulated via a handle bar mounted push button switch. In any situation the complex electronic ensures in dependency of rev, speed and gear the compliance with sound regulations stated in the EEC homologation.

- for Touring

- for Touring

REMUS MCS - MECHANICAL CONTROLLED SOUND

for Sportster, Dyna and Softail

- Perfect design
- Hot sound
- Selectable and changeable end caps
- For Sportster, Dyna and Softail
- EEC homologation*

* ATTENTION:
The activation of the mechanical valve (MCS) of the EEC homologated exhaust is not permitted according to homologation documents. The increase in sound once the valve is activated is too loud for public road usage and not permissible according to the road transport authority.

REMUS INNOVATION

competence in motorbike sport exhaust systems

Since more than 25 years, high quality sport exhaust systems for motorbikes are produced and manufactured at REMUS.

Furthermore, REMUS produces OE components and complete OE exhaust systems for well known vehicle manufactures.

The REMUS Research and Development center offers extensive possibilities in the development of exhaust systems. Beside the mechanical and thermal design and optimization, the creation of the well known sonorous REMUS sound is one of the most important development targets.

The combination of high quality raw materials, modern machining and special process technologies together with highly qualified employees results in first class products of perfect shape and fitting accuracy.

CUSTOM EXHAUST SLIP-ON (OPTIMIZED)

with changeable end caps (with EC homologation)

**NEW
PRODUCT**

- Improved sound by third octave analysis
- Deeper sound at low frequencies
- Catalytic converter place in inlet unit
- Inlet unit equipped with heat shield
- Available for Harley-Davidson® Sportster, Dyna und Softail

**Choose between 6
different end caps**

EK80 / EK10 - SLASH CUT

EK81 / EK11 - STRAIGHT END

EK82 / EK12 - TAPERED

- Cylindrical geometry
- Diameter: Ø 84 mm
- Sleeve length 420 mm
- Sleeve material: Stainless steel
- Surface treatment: chrome plated or black coated
- Weight: 2,65 kg

CUSTOM EXHAUST

with changeable end caps (with EC homologation)

Choose between 9 different end caps

EK76 - SNIPER

EK72 / EK02 - PERFORATED

EK73 / EK03 - TAPERED

EK71 / EK01 - SLASH CUT

EK75 / EK05 - ROLLED UP

- Cylindrical geometry
- Diameter: Ø 84 mm
- Sleeve length ~ 405 mm
- Sleeve material: Stainless steel
- Surface treatment: chrome plated or black coated
- Weight: 2,65 kg

CUSTOM EXHAUST Touring Ø 102 mm (4inch)

with changeable end caps (with EC homologation)

- Cylindrical shape
- Diameter: Ø102 mm
- Sleeve length ~ 670 mm
- Sleeve materials: Stainless steel
- Surface treatment: Chrome
- Weight: 3,6kg

CUSTOM EXHAUST Complete systems

(with EC homologation)

Complete system 2-1 with conical exhaust

Complete system 2-1 with PowerCone exhaust

REMUS SC15 - ELECTRONIC SOUND CONTROL

for Sportster, Dyna, Softail and Touring

The latest electronic sound control system from REMUS, called SC15, is a CAN-bus controlled valve system, with a muffler integrated flap.

The control unit processes the CAN-bus signals and passes it via the actuator to the exhaust flap. This leads in dependence on engine parameters and drive conditions to an accurate triggering of the flap to optimize the sound under consideration of legal guidelines.

In addition to this the sound can be modulated via a handle bar mounted push button switch. In any situation the complex electronic ensures in dependency of rev, speed and gear the compliance with sound regulations stated in the EC homologation.

- for Sportster, Dyna & Softail

deactivating plug for serial valve (RACING - no EG/ABE/EEC)

- for Touring

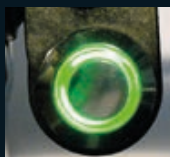

- for Touring

- for selected models only

LED loop OFF
valve closed

LED loop GREEN
valve 10% open

LED loop YELLOW
valve 40% open

LED loop RED
valve 100% open

- CAN-bus controlled valve system
- Sound modulation via push button switch
- Hot sound
- Selectable and changeable end caps
- EC homologation

SCOOTER

RSC DUAL FLOW SPORTEXHAUST

with EC homologation & Racing

- Double-Cylindrical shape
- Diameter: 2x Ø 84 mm
- Sleeve length: 220mm
- Sleeve materials: Stainless steel, Stainless steel black, Carbon
- Inlet cap: Stainless steel
- End cap: Plastic compound material
- Weight: ab / from 2,30 kg

Vespa GTS 300 ie Super
REMUS RSC dual flow Slip on

including EC homologation

EDIZIONE SPORTIVA

REMUS RSC dual flow & REMUS Performance air filter.

Package includes a REMUS RSC dual flow sport exhaust and a free REMUS Performance air filter.

SCOOTER SPORTEXHAUST

with EC homologation & Racing

- Hexagonal geometry
- Width x height:
~ 105 x 137 mm
- Sleeve length:
250 - 300 mm, (depends on motorcycle)
- Sleeve materials: Stainless steel, Stainless steel black, Carbon
- Inlet cap: Stainless steel
- End cap: Plastic compound material
- Weight: ab / from 2,82 kg

RSC SPORTEXHAUST

with EC homologation & Racing

- oval shape
- Width x height:
~ 100 x 134 mm
- Sleeve length: 250 - 300 mm,
(depends on motorcycle)
- Sleeve materials: Stainless steel and Carbon
- Inlet cap: Stainless steel highly polished
- End cap: Plastic compound material with REMUS Logo
- Weight: ab / from 1,70 kg

BRAKE LEVERS

Individually adjustable

suitable for:

SPORT = Silencer with homologation number (sound level is within the tolerated limit), but without catalytic converter, therefore no EEC!

1) While stocks last! ***)** EC-approval only for vehicles with a registration date before 1st July 2004. Specifications in the registration document have to match the actual conditions, i.e. the omission of the catalyser has to be reported to the licensing authority! A warranty of 24 months is given on all systems with EC-approval. No warranty on racing products. No warranty is given for small colour changes of the carbon!

STREETBIKES

REMUS 8

with EC homologation & Racing

**NEW
PRODUCT**

- Octagonal geometry
- L x B x H / L x W x H: 485 x 110 x 180 mm
- Sleeve materials: Stainless steel black or stainless steel
- Inlet cap: Stainless steel
- End cap: Carbon
- Weight: 3,20 kg

REMUS BLACK HAWK

with EC homologation & Racing

- Hexagonal geometry
- Width x height: ~ 105 x 137 mm
- Sleeve length from 350 to 420 mm, depends on motorcycle
- Sleeve materials: Stainless steel black
- Inlet cap: Stainless steel
- End cap: Carbon
- Weight: from 1,96 kg

REMUS HEXACONE

with EC homologation & Racing

- Hexagonal geometry
- Width x height:
~ 105 x 137 mm
- Sleeve length from 250 to 420 mm,
depends on motorcycle
- Sleeve materials: Stainless steel,
Carbon, Titanium
- Inlet cap: Carbon
- End cap: Carbon
- Weight: ab / from 1,54 kg

REMUS HYPERCONE

with EC homologation & Racing

- Conical geometry
- Diameter:
~ Ø 120 mm bis / up to ~ Ø 75 mm
- Sleeve length from 250 to 400 mm,
depends on motorcycle
- Sleeve materials: Stainless steel,
Stainless steel black, Carbon, Titanium
- Inlet cap: Stainless steel
- End cap: Carbon
- Weight: from 1,28 kg

REMUS OKAMI

with EC homologation & Racing

- Hexagonal geometry
- Width x height:
~105 x 137 mm
- Sleeve length from 250 to 420 mm, depends on motorcycle
- Sleeve materials: Stainless steel, Stainless steel black, Carbon, Titanium
- Inlet cap: Stainless steel
- End cap: Plastic compound material
- Weight: from 1,54 kg

REMUS POWERCONE

with EC homologation & Racing

- Conical geometry
- Diameter:
~ Ø 120 mm – ~ Ø 75 mm
- Sleeve length 250 – 400 mm, depends on motorcycle
- Sleeve materials: Stainless steel, Titanium
- Inlet cap: Stainless steel
- End cap: Stainless steel
- Weight: from 1,28 kg

REMUS RACING TECHNOLOGY

from the racetrack to the street

REMUS Racing Technology can be found on nearly every race track around the world. The technical expertise of racing is transferred straight to our street legal sport exhaust systems. Extensive racing usage provides the necessary feedback for the REMUS technicians to develop and produce REMUS sport exhaust systems and guarantee ongoing product innovation and highest quality.

- Since many years numerous Superbike and Supersport teams trust in the know-how of REMUS. Wins in different national and international racing series proved the performance of REMUS sport exhaust systems in an impressive manner.
