

RUPPRIGGER® SERIES

RUPP

SERIOUS SPORTFISHING HARDWARE SINCE 1980

RUPP POWER RIGGERS™

With the push of a button, your Tournament or Big Rigg outriggers can be hydraulically actuated by adding a Rupp Power Rigger Package. Available in 110V AC and 24V DC.

Hydraulic Locking Mechanism
(Patent Number: 7,654,214)

Anodized Aluminum Cylinders

Stainless Steel Attachment Hardware

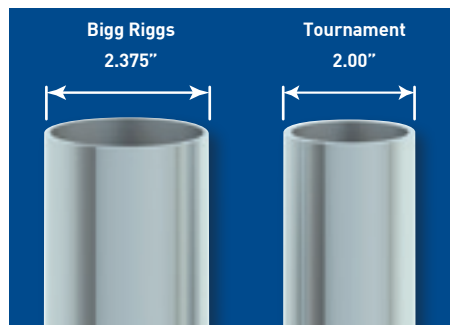

RUPP BIGG RIGGS™

This innovative product combines precision engineered design features with Rupp's highest quality materials to create a longer, stronger outrigger for today's larger, faster sportfishers. Big Riggs are the outrigger of choice for many custom and semi-custom manufacturers of sportfishing boats over 50 feet.

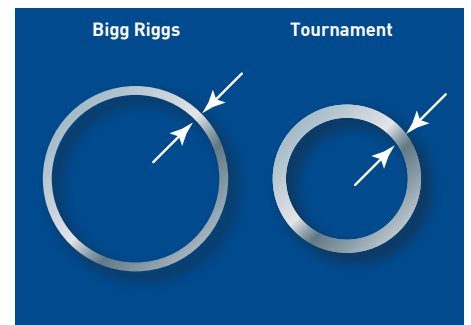

O.R. LENGTH	# SPREADERS	MODEL #
39'-41'	THREE	A3-0012-BR
42'-44'	THREE	A3-0014-BR
45'-47'	FOUR	A4-0012-BR
48'-50'	FOUR	A4-0014-BR

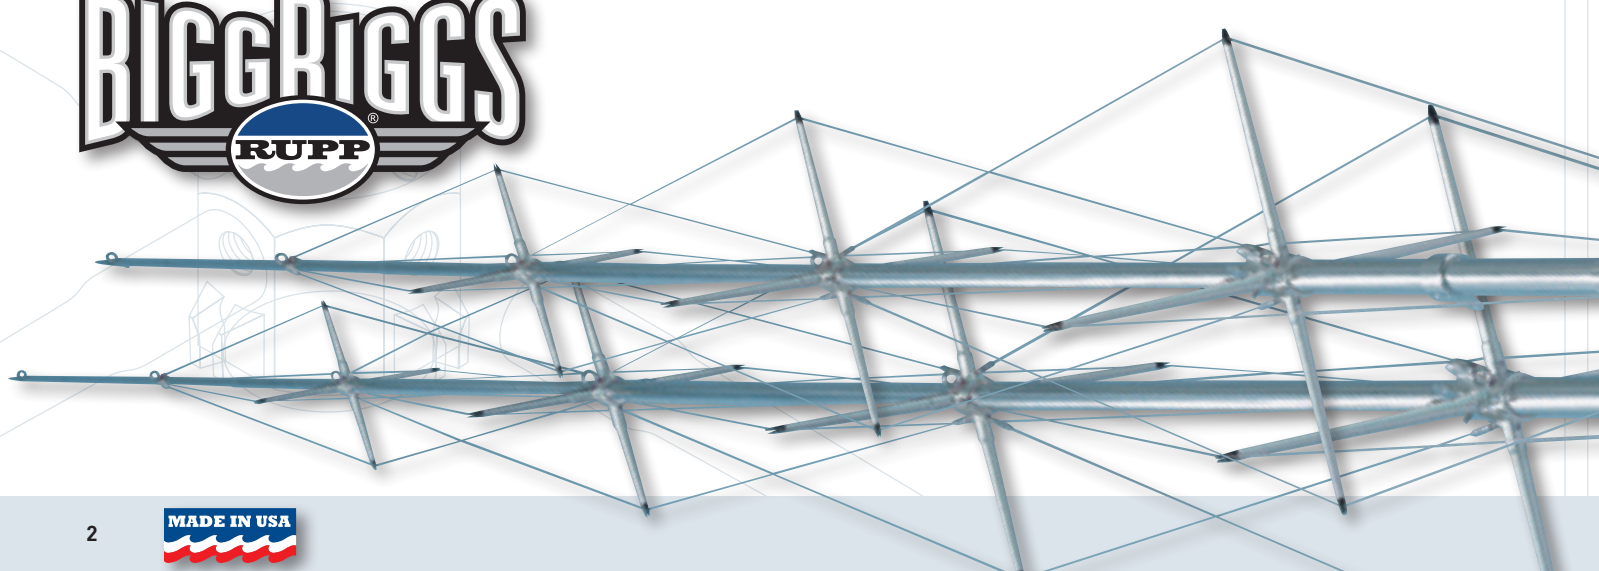

Rupp Big Riggs are the lightest and strongest (per foot) aluminum outrigger available on the market.

Big Riggs are made of larger diameter tubing for the latest Rupp riggers.

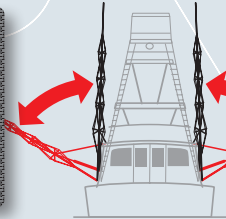

A thinner wall keeps the weight down, without sacrificing strength.

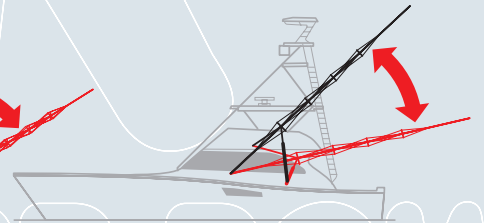

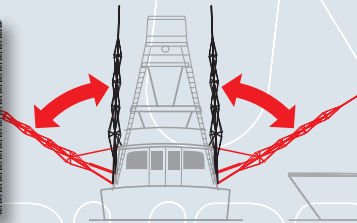

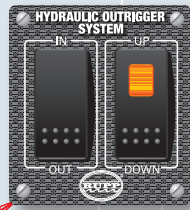

STANDARD POWER RIGGER PACKAGE

Includes two hydraulic cylinders (one port/one starboard) for laying out your outrigger. This package also includes Rupp's patented hydraulic locking mechanism allowing for push button release of outriggers for fishing and automatic locking upon return to the stowed position.

DELUXE POWER RIGGER PACKAGE

Four hydraulic cylinders (two port/two starboard). Two for laying out your outriggers for fishing, while additional two lay down your outriggers for bridges or other obstacles. This package also includes Rupp's patented hydraulic locking mechanism allowing for push button release of outriggers for fishing and automatic locking upon return to the stowed position.

SYSTEM TYPE	POWER	MODEL #
STANDARD	24V DC	AO-HYDR-STD
DELUXE	24V DC	AO-HYDR-DLX
STANDARD	110V AC	AC-HYDR-STD
DELUXE	110V AC	AC-HYDR-DLX

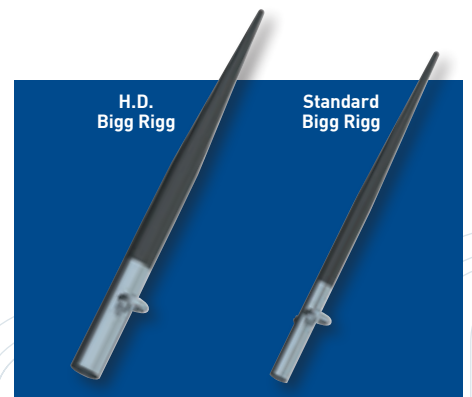

Outriggers sold separately.

RUPPRIGGER H.D. OPTIONS

Unmatched durability for the hardcore fishing machine. By specifying one of these Heavy Duty packages you get all three optional components added to any Bigg Rigg outrigger order. The packages includes larger diameter layout arms, and Rupp's new larger diameter upper tip section. You can also upgrade your existing Bigg Riggs or Tournament RuppRiggers to HD by ordering components individually.

PACKAGES	MODEL #
HD PACKAGE/KNUCKLE-TIP	CA-0152-HDBB
HD PACKAGE/COLLAPSIBLE BACK BAR	CA-0152-HDCB

COMPONENTS	O.D.	TYPE	MODEL #
COLLAPSIBLE BACK BAR	1.75"/1.50"	BIGG RIGG H.D.	A0-BR00-CBB
HEAVY BACK BAR	1.75"	BIGG RIGG H.D.	CA-0065-BR
HEAVY LAYOUT ARM	1.375"	BIGG RIGG H.D.	A0-BR00-KN
HEAVY TIP SECTION	1.50"/1.10"	BIGG RIGG H.D.	CA-0151

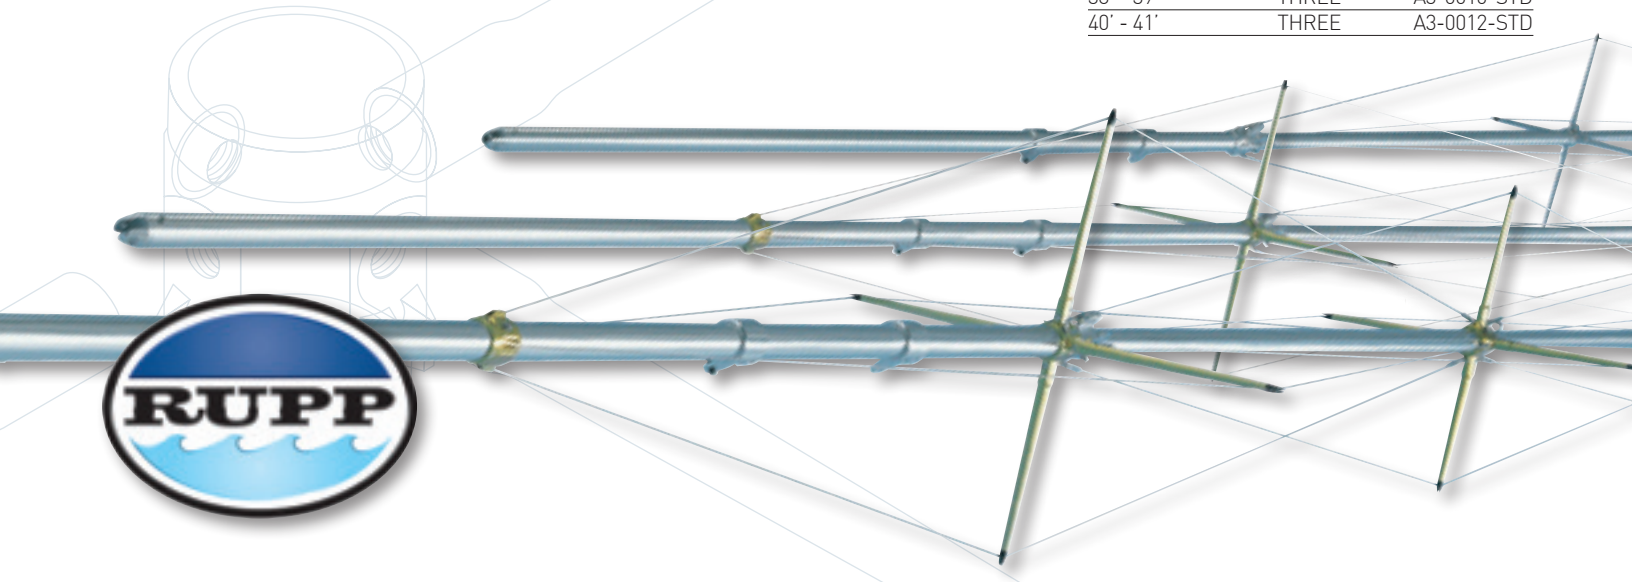

The larger H.D. Bigg Rigg tip section includes all new components above the upper spreader including a redesigned tip point.

TOURNAMENT RUPPRIGGERS™

Rupp Marine's flagship product, Tournament Ruppriggers, have been the industry standard for over 35 years. Engineered for consistent high performance, they combine patented designs with meticulous craftsmanship and top-grade materials to become the outrigger of choice for those who demand the very best. Cold-drawn from aircraft quality aluminum for maximum strength and minimum weight, Tournament Ruppriggers are built to last. Every piece is highly polished and protected by the toughest anodizing. Exclusive user-friendly designs provide effortless, one-man operation. You'll find them a fitting addition to the finest boats — from luxurious pleasure yachts to state-of-the-art sportfishing machines.

STANDARD LIFT-OUT BASES & POLES

STANDARD LIFT-OUT BASES

These bridge operated outriggers offer the versatility of lift-out poles, plus the same overall look of Rupp's Tournament Ruppriggers with a slightly smaller diameter. All aluminum, two piece construction allows poles to be removed for easy cleaning, storage and re-rigging. Bases are 5' or 8' long; available poles are 15', 18' or 20', with or without spreaders. Collapsible back bars are optional, see page 6.

- 5' STANDARD LIFT-OUT BASE A0-0005-MIN
- 8' STANDARD LIFT-OUT BASE A0-0008-MIN

TOWER MOUNT

Make any Rupp Tournament or Standard Lift-Out Base a Tower Mount with the addition of our Clamp-On Fittings. See chart below for proper sizing of clamps.

PIPE SIZE	I.D OF CLAMP	MODEL #
0.75"	1.050"	11-1178-23
1.00"	1.315"	11-1130-23
1.25"	1.660"	11-1131-23
1.50"	1.90"	11-1132-23
2.00"	2.40"	11-1449-23
1.00" TUBE	1.00"	11-1171-23

STANDARD LIFT-OUT POLES

The best combination of performance and style. Advanced patented designs and state-of-the-art components offer the ultimate in strength and durability. Made of cold-drawn aluminum, stepped and tapered for good looks and solid performance. Available with silver or gold spreaders and collars. Standard lift-out poles have a base diameter of 1.50" and are designed to work with Rupp Standard Lift-Out Bases.

2.00"	2.40"	11-1449-23
1.00" TUBE	1.00"	11-1171-23

CAMERA CLAMPS

Mount cameras to your outriggers or other aluminum structure with these anodized aluminum collars. Available in various sizes to fit standard pipe and tube diameters. Designs are available to fit GoPro® and other marine grade cameras.

HALYARD LINE TENSIONER - THRU GUNWALE

Stainless steel fairlead tube, mounting bracket and cleat all incorporated into an assembly designed to allow for easy installation in the gunwale. Fairlead tubes available in lengths of 2.875" or 3.875".

SIZE	MODEL #
3.875"	MI-0011-LG
2.875"	MI-0011-ST

SPACER BLOCKS

Ideal for spacing riggers away from cabin sides and to give more clearance around hardtops and tower structure. Available in the four sizes listed below.

SIZE	MODEL #
1" SPACERS	03-1278-23
1-1/2" SPACERS	03-1279-23
2" SPACERS	03-1280-23
2-1/2" SPACERS	03-1281-23

PULL ROPES

Set and retrieve your riggers with these first class pull ropes. Rupp pull ropes feature heavy duty stainless steel hooks and braided nylon rope. Sold individually.

MODEL # CA-0029

OUTRIGGER BACKING PLATE

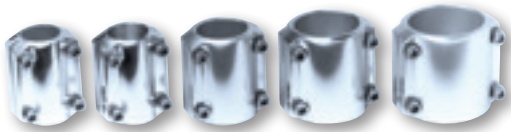

Anodized aluminum backing plates for Rupp rigger oval bases. With a polished finish, these are ideal for applications where backing hardware is visible.

MODEL # 03-1057-23

ALL PURPOSE CLAMPS

Rupp's popular Clamp-on Fittings are available in a basic two-piece design, ready to be used for your special applications. Made of extruded aircraft alloy with a polished and anodized finish. These fittings are ideal to fabricate custom pieces for your towers and tops. Available in all popular sizes.
