The **WIDE LOAD** Sign Continues

Our founder Merritt Mosby and Carita Mosby
Rest in Peace Merritt Mosby
April 27, 1933 - April 25, 2016

For more than 40 years, SafeTruck by Ms. Carita has been the leader in quality Oversize Load products including signs, banners, and flags. We have the widest variety of OSL products with the best quality of any nationally distributed line in the market today, as well as more than 600 safety products for the professional trucker.

We are dedicated to continuing the legacy and vision of Merritt Mosby, Founder of SafeTruck by Ms. Carita, who passed away in April 2016.

Thank you for your support and loyalty to our brand. Merritt's legacy will live on through his sons and the leadership of this company. We will continue to bring you products that are bigger, stronger, and safer.

Bigger. Stronger. Safer. **COMPARE**

Ms. Carita SafeTruck has been the industry leader in OVERSIZE products, for the Heavy Haul Industry. When it comes to Over Dimensional banners, signs, and Safety Flags, we have the best quality in the business. We also have the widest variety of products to choose from for a specific application or region. Our skilled technicians use only the best materials and can also build customized products for those hard to fit applications. That's what we do.

There are many companies that have tried to copy our products none have been able to compete. We set the industry standard forty five years ago and no other line has even come close.

Below are just a few quick comparisons. Please visit our website for more comparisons that separate us from them.

Thicker edge binding, always double stitched, and heavy duty grommets.

	Safetruck by Ms. Carita	Competitor #1
GROMMETS	#5 toothed, set with 90-lbs of pressure through two layers of material	#3 toothed, set through a single layer of material
STITCHING	Reinforced Double stitching	Single stitching
MAGNETS	Epoxy filled for stronger product	No epoxy filling, allows magnets to crack and fall out
MESH MATERIAL	12 yarns per SQ/IN 30% stronger material Visible in all lighting conditions	9 yarns per SQ/IN Difficult to see in many conditions
INK	High quality printing on banners Does not bleed through	Poor print quality Bleeds through
BUNGEEES	Heavy duty 3/8" bungees	Low quality 1/4" bungee
STAFF FLAGS	Sewn pole pockets for a better, stronger flag	Material rolled around staff & stapled, high chance of failure

SOLID VINYL BANNERS

Our Vinyl Banners are exceptionally strong and durable. Printed on 13 oz. vinyl-laminated polyester, they are tear and fray resistant. Fitted with large #5 toothed grommets or heavy 3/8" bungee cords. Grommets have a 9/16" center hole and are set with 90 lbs of pressure.

Bungees are 18" with coated steel hooks. Our 18"x 84" banners exceed AASHTO requirements for all 50 states. All banners are double-stitched.

"SafeTruck products are durable and made our heavy haul projects safer in transport dealing with traffic!"

WOOD SIGNS

Our wood signs are made from premium quality 3/8" DMDO (double medium density overlay). We seal the edges and prime the surface before coating with enamel. After printing they are top-coated to ensure a long service life.

"SafeTruck Wood Signs are easy to purchase, not too expensive, very durable, and the color seems to last a long time. SafeTruck's customer service is excellent as are the vendors I work with."

~JD - Petaluma, CA

This SafeTruck Wood Sign was purchased in the 1980s. Still going strong today!

MAGNETIC SIGNS

Made from heavy .030" magnetic sheeting material, they are perfect for bumpers, tailgates, dozer blades, cranes, or any steel surface. Magnets are flexible and can be rolled for easy storage.

"Here at D. Hill Trucking, we have been using these reflective signs for 15 plus years on all of our trailers and they hold up very well to the weather and abuse of heavy hauling."

ROUND BASE MAGNETS

Standard round base magnet assemblies are made with ceramic magnets in steel base cups. They are magnetized together with the casings to create a holding force that is up to 32 times stronger than an individual ceramic magnet.

Neodymium rare earth magnets are extremely powerful and are chrome plated with a protective cover.

RB85	3.79"	0.380"	120 LB ROUND BASE MAGNET
RB90	4.90"	0.500"	210 LB ROUND BASE MAGNET

**Ratings based on Manufacturer's data*

Pull strength is measured on a flat 0.50" thick steel plate. Use caution when handling our magnets. Their exceptional magnetic force will attract to metal and each other, don't get pinched.

Common Applications

Antenna mounts • Work lamp bases • Emergency light holders • Vehicle flag holders • Sign and banner holders

5-PANEL DUO-FLIP PLACARD

The duo-flip system features 5 placard panels in a single frame. Placards meet D.O.T. specifications for transporting hazardous materials in bulk. The frames are constructed of corrosion resistant, fully formed rigid aluminum. Placard panels are made of aluminum alloy and mill roller coated with white acrylic paint baked at 400°. Panels lock in place with four stainless steel pressure fasteners. The numerals flip easily to give you any combination of 4-digit numbers. This system is available in brute mill finish.

The system includes:

- Corrosive 8
- Flammable 3
- Poison 6
- Combustible 3
- Blank Panel

P/N: 126CT

9-PANEL DUO-FLIP PLACARD

For the ultimate in convenience, flexibility and time saving, the 9-panel duo-flip placard allows you to change both D.O.T. placards and ID numbers in seconds to match your commodity. This duo-flip 9-panel placard system includes 9 placard panels in a single frame. .032 aluminum alloy placard panels slide over easily on four aluminum hinges. Notches in the aluminum panels allow you to flip numerals without interference. Panels lock in place with four stainless steel pressure fasteners.

The system includes:

- Inhalation Hazard 2
- Flammable Liquid 3
- Poison 6
- Combustible 3
- Oxidizer 5.1
- Inhalation Hazard 6
- Corrosive 8

TANDEM AXLE STOP

The Tandem Axle Stop is designed specifically for adjusting your tandem axles. The Tandem Axle Stop fits both old and new suspension types so it's ideal for the fleet driver who pulls a different trailer regularly. The double ends also act as a counter balance to keep it firmly in place while sliding the frame to the desired location. P/N: MST110

- **START** getting it right the first time, every time.
- **START** adjusting your tandems without a spotter.
- **STOP** guessing where to stop while adjusting your tandems at the scales or for tight curvy roads.
- **STOP** climbing in and out of your rig multiple times for each adjustment.
- **FITS** both 1.5" and 1.75" frame holes.

How it works:

1. Release and latch the tandem retaining pin lever.
2. Place the Tandem Axle Stop in the hole next to where you want the tandem retainer pins to catch.
3. Lock your trailer brakes.
4. Pull forward or reverse until the tandems hit the Tandem Axle Stop.
5. Ease pressure off the Tandem Axle Stop just a little so it is easier to remove.
6. Unlatch and reset the tandem retaining pin lever, locking-in the pins.
7. Remove the Tandem Axle Stop and go.
