The Way To Fish®
Each Scotty Downrigger comes with a Limited Lifetime Warranty. The best warranty in the industry, backed by over 60 years of manufacturing experience and unbeatable customer service.

Scotty Fishing & Outdoor Products
WHAT IS A DOWNRIGGER?

Fight the fish, not the fishing gear

Downriggers were created for one principal reason: to allow anglers to troll their lures at a specific depth. Years of testing and practical use had shown that a moving bait or lure in the water, trolled at the depth where fish were present, was the best way to ensure a hookup and to get results. Downriggers improved both trolling results, and the fun factor—they put the sport back in sport fishing.

The earliest downriggers were very simple in form, generally consisting of a spool of wire mounted to the boat with a heavy weight hung on the end of the wire. The lure or bait was attached directly to the downrigger weight and did not release when a fish struck. The angler had to wind up both the weight and the fish. This concept of deep trolling became popular with the sport fisherman when the idea of attaching a rod to the downrigger, by means of a release clip, was introduced. A release clip is attached to the wire and then the fishing line from the rod is clipped into the release. The downrigger weight is then lowered to precisely the depth required. When a fish hits, the line is released from the downrigger wire, leaving the heavy weight on the downrigger. The angler is then free to fight the fish on the rod and reel alone, without the added drag of heavy lines and trolling weights used in the past.

Scotty introduced its first downrigger over 40 years ago and now produces the most complete range of downriggers and accessories in the world.

1. Clip your fishing line to the downrigger line using the patented Scotty Power Grip line release.
2. Loosen the drag on your fishing reel and carefully let the downrigger line out to a specific depth.
3. When a fish strikes it pulls your fishing line out of the release and you are free to fight the fish on the rod and reel.

DEPTHPOWER

Scotty Depthpower Electric Downriggers have the highest performance and reliability standards ever, while remaining competitively priced. Thousands of fishermen now enjoy the superior speed, power and years of reliability that only Scotty offers. From custom designed marine motors to the final quality control tests, Scotty performance is unmatched in the industry.
1099 Compact
All the performance features in an easy to stow compact size. Equipped with 250 ft of 150 lb. test stainless steel cable. 24” long, 1” dia. boom.

1101 Depthpower
Designed for heavy duty use, this unit will handle long hours and heavy weights in tough conditions. Equipped with 250 ft of 150 lb. test stainless steel cable. 30” long, 11/4” dia. boom.

1106 Depthpower
Our most popular electric downrigger. Equipped with 250 ft of 150 lb. test stainless steel cable. 36”-60” long, 11/4” dia. telescopic boom.

1106B Depthpower
All the features you have come to love with our depthpower series. Now available with more options than ever. Equipped with 300 ft of 200 lb. test braided line. 36”-60” long, 11/4” dia. telescopic boom. Included, downrigger weight storage hook and sure-stop kit.

1116 Propack
The top choice of charter captains. Equipped with 250 ft of 150 lb. test stainless steel cable. 36”-60” long, 11/4” dia. telescopic boom. Heavy duty adjustable dual rod holder also included.
**Manual**

Scotty Manual Downriggers have been the preferred choice of fishermen for over forty years. They are engineered with a number of exclusive features contained in no other downrigger.

**Standard Features Included with All Manual Downriggers**

- **A 358**
  Rod Master II Rod Holder

1080
Strongarm
This downrigger has outstanding features for small and intermediate size boats. Equipped with 200 ft. of 150 lb. test stainless steel cable. 24” long, 1” dia. boom.

1085
Strongarm
The heavy duty workhorse of the Scotty manual lineup. Excellent for the intermediate size boat. Equipped with 200 ft. of 150 lb. test stainless steel cable. 30” long 1 1/4” dia. boom.

1091
Longarm
Ideal for big boats. Equipped with 200 ft. of 150 lb. test stainless steel cable. 36-60” long 1 1/4” dia. telescopic boom. Includes 1026 swivel mount.
COMPACT

The Depthmaster and Depthking models offer more value for the fisherman than anything else on the market. The price and operating features of these units beat the competition hands down.

STANDARD FEATURES INCLUDED WITH ALL COMPACT DOWNRIGGERS

A Limited Lifetime Warranty
B 355 Rod Master II Rod Holder
C 1170 18" Power Grip Plus line release
D 1010 Quick-Slide Deck Mounting Bracket
E 1146 Mechanical Counter

1050
Depthmaster
The perfect introductory downrigger. One foot per turn of the spool. Equipped with 200 ft. of 150 lb. test stainless steel cable. 23" long, 3/4" dia. boom.

1050 MP
Masterpack
The 1050 Depthmaster equipped with 200 ft. of 150 lb. test stainless steel cable. 23" long, 3/4" dia. boom. Includes 1021 portable anodized aluminum clamp mount for added versatility.

1060
Depthking
Ideal for the small boat that fishes deep and needs a high speed retrieve. Includes a high speed 2 ft. per turn of the spool. Equipped with 200 ft. of 150 lb. test stainless steel cable. 23" long, 3/4" dia. boom.
1071
Clamp Mount
Comes with fully portable engineering grade modified nylon clamp for mounting on the gunnel or transom (2” opening). Great for aluminum boats and canoes. 1 ft. per turn of the spool. Includes 1181 mini power grip line release.

1073
Bracket Mount
Mounting bracket permits mounting on a flat deck surface or on the side of a gunnel or transom. The mounting design gives 360° of rotation. Comes with a 241 side/deck Mount. 1 ft. per turn of the spool. Includes 1181 mini power grip line release.

1017
3 lb. finned Downrigger lead weight.

LAKETROLLER
Laketroller downriggers built for the smaller boat. Great for aluminum boats, kayaks and canoes.

**Scotty Fishing & Outdoor Products**
LINE RELEASES
power grip plus & mini power grip plus

1. Attach the Cannonball snap to the Cannonball.
2. Attach your fishing line to the Power Grip release by squeezing the jaws apart and placing your fishing line between the pads. The release tension is lighter at the outer tip, and is heavier the further into the jaws you place the line.
3. The tension adjuster can be moved forward to decrease or back to increase the release tension.

POWER GRIP PLUS
Streamlined design won’t snag on weeds or foul lines.

A 1170 18” heavy monofilament leader with cannonball snap
B 1171 18” leader with stacking, self-locating snap B 1172 30” leader with stacking, self-locating snap B 1173 48” leader with stacking, self-locating snap
B 1178 60” leader with stacking, self-locating snap C 1176 stacker with 6” leader C 1179 stacker with 30” leader C 1191 stacker with 40” leader C 1192 stacker with 60” leader D 1190 6 replacement power grip pads E 1177 planer board snap

MINI POWER GRIP PLUS
A compact version of the Power Grip Plus.

F 1181 18” wire leader with cannonball snap G 1182 planer board - (4) H 1180 18” wire leader with stacking, self-locating snap H 1183 30” wire leader with stacking, self-locating snap
LINE RELEASES
hairtrig, snapper & mini snapper

1022 Extra pins for all hairtrigger release clips (3).

1020 Hairtrigger Release Clip
Release clip attaches directly to the downrigger line. Simple and effective.

Ideal for use with Braided Line

1041 18"
1049 30"
1040 48"
Snapper Release Clip
Leader with stacking, self-locating snap.

1042 Snapper Release Clip
18” Leader with cannonball snap.

1043 Snapper Release Clip
Planer Board Release.

1045 Snapper Release Clip
7” wire cable leader.

1160 Snapper Release Clip
Stacker - 6” leader.

1156 3” stainless steel trolling snap (2)
1155 5” stainless steel trolling snap (2)

1047 Mini Snapper Release Clip
18” leader with cannonball snap.

1048 Mini Snapper Release Clip
Planer Board - (4).

1046 Mini Snapper Release Clip
18” leader with stacking, self-locating snap.

The fishing line is gripped between the soft pads and variable release tension is attained by moving the line in or out of the jaws.

1006 Extra Pins for Original Plug Style Downrigger Release (3).

1005 Original Style Downrigger Release

Scotty Fishing & Outdoor Products
**LINE PULLER**

**2500 Line Puller**
The ultimate crab and prawn trap pulling machine. This compact puller makes for easy stowing, and attaches directly to your existing Scotty downrigger mounts.

- High torque 12v motor pulls 1 crab trap and up to 4 prawn traps
- 120 fpm retrieval speed
- Accommodates 1/4” – 3/8” line
- Compact size makes for easy stowing
- Low amperage draw
- Heavy duty stainless steel and composite construction
- Easy access on/off switch
- Scotty/Marinco™ plug, receptacle and mount included
- Backed by a 2 year warranty
- For recreational use only

---

**749 Trap-ease**
Crab and prawn trap roller for easy retrieval. Fits all Scotty post mounts.

**750 Trap-ease**
with 241 Combination side/deck mount.

---

**2515 Line Puller Stow-Away Bag**
This durable stow-away bag protects your Scotty Line Puller from the elements when not in use.
ORCA

- The inner sleeve opens in one complete motion allowing your rod to be released in an instant
- With one quick motion, your fishing rod is lifted straight out into the fish fighting position
- Built-in front locking tab to prevent rod loss while traveling
ROD HOLDERS

ROD HOLDERS
bait caster/spinning

BAIT CASTER/SPINNING

• Holds a bait caster reel securely in the cushioned cradle
• A slot in the front of the rod holder allows for secure holding of a spinning reel • This rod holder is designed with a side mounted flange which leaves the bottom open, this allows for the rod holder to accommodate trigger grips. • Rods can be secured with a soft latching strap which snaps over the top for baitcaster or under the bottom for spinning reels
ROD HOLDERS
bait caster/spinning

281
Bait Caster/Spinning
with 244 Flush Deck mount.

282
Bait Caster/Spinning
with 438 Gear-Head and 440-4 Low-Pro Track.

279
Bait Caster/Spinning
without mount.

280
Bait Caster/Spinning
with 241 Combination side/deck mount.

284
Bait Caster/Spinning
with 243 Square Rail mount.

389
Bait Caster/Spinning
with 449 Clamp mount.

388
Bait Caster/Spinning
with 428 Gear-Head, 459 double ended extender and 241 side/deck mount.
FLY ROD

- Innovative compact design allows for hands free trolling with a fly rod
- Rod can be secured in holder with a soft latching strap which snaps over the top
- Works well with “short butt” fly rods
- All post mount

Scotty Rod Holders are fully adjustable

260
Fly rod without mount.

264
Fly rod with 244 Flush Deck mount.

265
Fly rod with 241 Combination side/deck mount.

267
Fly Rod with Float Tube mount combination.
MOUNTS
for downriggers

1023
Tilt-up Mounting Bracket
Extra mounting bracket for all Scotty tilt-up downriggers. Also used as the mounting bracket for the Scotty 2500 Line Puller.
**Dimensions:** 2 1/2” x 4 1/2”
**Bolting dimensions:** 3 3/4” x 15/8”

1025
Right Angle Side Gunnel Mount
For boats with narrow or uneven gunnels. Fits all Scotty downriggers (except Laketrollers) and can be used with 1026 Swivel mount.
**Dimensions:** 6” x 6” x 6” (top plate)
**Bolting dimensions:** 2” x 4” (side plate)

1026
Swivel Mount
Gives a full 360° of rotation with 16 locking positions. Comes with 1036 Mounting Plate. Fits all Scotty downriggers (except Laketrollers).
**Dimensions:** 5 1/2” x 5 1/2” x 4”
**Bolting dimensions:** 3 1/2” x 4 1/2”

1027
Rail Mount
Fits up to 1 1/2” round rails, including oval-shaped wooden rails. Transfers the downward pressure to the boat gunnel. Fits all Scotty downriggers (except Laketrollers) and can be used with 1026 Swivel mount.
**Dimensions:** 6 1/8” x 7 1/8”

1036
Mounting Plate
Extra mounting plate for 1026 Swivel mount, 2606 Pedestal Riser 6” and the 2612 Pedestal Riser 12”.
**Dimensions:** 5 1/2” x 5 1/2”
**Bolting dimensions:** 4 1/2” x 3 1/2”

2027
Stanchion Mount
The Scotty Stanchion Mount enables you to quickly mount a downrigger to your boat’s railing stanchion for extra stability. Fits all Scotty downriggers (except Laketrollers) and can be used with 1026 Swivel mount.
**Dimensions:** 6” x 6” x 6” (top plate)
**Bolting dimensions:** 2” x 4” (side plate)

1037
Mounting Plate
Extra mounting plate for 1025 Right Angle Side Gunnel mount.
1028/1029
Gimbal Mount - 9”/Gimbal Mount - 12”
Fits into a boat’s flush mount rod holder. Made from welded stainless steel and nylon for strength and durability. For use in heavy duty factory mounted gimbal rod holders only. Fits all Scotty downriggers (except Laketrollers) and can be used with 1026 Swivel mount.
Dimensions: 1028 6 1/8” x 7 1/8” (top plate)
9” x 1 1/2” dia. (gimbal)
1029 6 1/8” x 7 1/8” (top plate)
12” x 1 3/4” dia. (gimbal)

2612
Pedestal Riser - 12”
Made from fibre reinforced nylon and 2” stainless steel tubing for the ultimate in strength and durability. Designed to be used with 1026 swivel mount, 1023 tilt-up downrigger mount and 1010 compact downrigger mount.
Plate Dimensions: 5 1/2” x 5 1/2”
Bolting Dimensions: 3 1/2” x 4 1/2”

2606
Pedestal Riser - 6”
Made from fibre reinforced nylon and 2” stainless steel tubing for the ultimate in strength and durability. Designed to be used with 1026 swivel mount, 1023 tilt-up downrigger mount and 1010 compact downrigger mount.
Plate Dimensions: 5 1/2” x 5 1/2”
Bolting Dimensions: 3 1/2” x 4 1/2”

347
Extended Dual Rod Holder
Comes with 346 Extended Rodmaster II rod holders. Designed for use with the 1026 Swivel mount.

247
Dual Rod Holder
Designed for use with the 1026 Swivel mount.

447
Stainless Steel Dual Rod Holder
Rocket Launcher rod holders, features stainless steel. Designed for use with 1026 swivel mount.

1021
Portable Clamp-on Bracket
Portable mounting option. Great for aluminum boats. Double stainless steel bolts and black anodized aluminum. 2” clamp opening. To be used in with 1010 (not included) mounting bracket.
Dimensions: 5 5/8” x 4 3/4” x 3 1/8”

1015
Side Mount Bracket
For boats with narrow or uneven gunnels. Fits 1050 downriggers. To be used in with 1010 (not included) mounting bracket.
Dimensions: 5 1/4” x 2 1/2”
Bolting Dimensions: 4 9/19” x 1 5/8”

1010
Quick-Slide Deck Mounting Bracket
Works with the 1025 through 1029 optional mounts.
Dimensions: 4 3/4” x 5 5/8”
Bolting dimensions: 2 5/8” x 4 7/8”

Scotty Fishing & Outdoor Products
MOUNTS for rod holders

241 Combination Side/Deck Mount
Can be mounted on top or side of your gunnell.

241L Locking Combination Side/Deck Mount
A 241 mount with a easy to use lock and unlock push button system.

344 Round Flush Deck Mount
Sealed base for watertight applications.

248 Oarlock Mount
Use the Oarlock mount on your row boat to mount any post mount rod holder or accessory.

444 Compact Threaded Deck Mount
Use on gunnels up to 2” thick. Base cap for water tight applications.

449 Clamp Mount
Fully portable mounting option for all Scotty post mount rod holders and accessories.

244 Flush Deck Mount
Sealed base for watertight applications.

244L Locking Flush Deck Mount
Locks and unlocks your post mount product easily by sliding a lever.

433 Coaming/Gunnel Clamp Mount
Position your rod holder or accessory virtually anywhere on the lip of your kayaks coaming or boat gunnel.

Scotty Fishing & Outdoor Products
MOUNTS
for electronics

368
Universal Sounder Fishfinder Mount
This uses a multi pattern universal top plate and the post mount design for quick removal and adjustable rotation.

268
Float Tube Fishfinder Mount
Adapt a fishfinder to your float tube or pontoon boat. Includes transducer bracket and 6’ strap.

135
Camera/Compass Mount
This mount is fully twistable, turnable, rotatable and best of all, instantly portable. Locks down a sport or standard camera without needing a special adapter.

272
Swivel Fishfinder Mount
Mount only.

269
Swivel Fishfinder Mount Kit
With 241 side/deck mount.

270
Swivel Fishfinder Mount
with 244 flush deck mount.
TRANSDUCER MOUNT

• Designed for kayaks and small boats • Made from high strength composite materials • 415 slip disks for micro adjustments • Adjustable arm allows for multiple depths and angles • Collapses easily for storage

140
Transducer Arm Post Mount
Transducer Mounting Arm with 241 side/deck mount

141
Transducer Arm Track Mount
Transducer Mounting Arm with with 438 Gear-Head and 440-4” low profile track
LOW PROFILE TRACK

- Made from corrosion proof high strength composite materials that will last a lifetime
- The lowest profile track on the market
- Top load design for quick and easy use
- Use the 438 Gear Head Track Adaptor to mount all of your favourite rod holders and accessories

440-1
1" low profile track

440-4
4" low profile track

440-8
8" low profile track

GEAR HEAD

- Quick and easy, drop and lock system
- Allows you to secure and reposition your rod holder or accessory with just a twist
- Fits all Scotty post mount rod holders and accessories

438
Gear-Head Track Adapter
Use the Track Adaptor with the 440 Low Profile track for quick and easy instal and removal of your favourite Scotty post mount product.

428
Gear-Head Mount
Use in conjunction with any of our hight extenders to bring your rod or accessory closer to you.

426
Side Slide Track Adapter
Our unique track adaptor allows you to securely fasten your favourite post mount product to side mounted track.
**STICK/GLUE ON MOUNTS**

- Our flexible PVC mounts are the perfect fit where bolts and screws are not an option.
- Simply peel and stick to any ridged surface or glue any of our mounts to your inflatable and you are ready to attach your favourite Scotty product to your watercraft.
- When glue your mount onto a inflatable we always recommend using a marine grade adhesive such as Poly Marine Glue, Stabond UK-148, HH-66 (RH Adhesives), and many more that can be found at your favourite marine dealer.

Jordan-Scotty
FISHER EGG INCUBATOR SYSTEMS
**Purpose**

The critical need to enhance our salmon and fish stocks is well documented. Natural spawning has declined dramatically over the past few decades for many reasons. Many of the spawning areas no longer exist. The areas that do still exist are only partially effective and many of our original salmon stocks are now extinct.

The need for enhancement programs by volunteers and organizations has never been greater. The availability of the Jordan-Scotty Fish Egg Incubator unity can be of great help for our precious salmon and other fish stocks and their eventual recovery. The development of the Jordan-Scotty Fish Egg Incubator is the direct result of the desire by Scotty to make a contribution to the enhancement of the salmon, trout and walleye stocks in the streams and creeks around the world. Over the years, due to human interference, these habitats have lost their natural spawning and rearing capabilities. At Scotty, we hope that our efforts will assist bringing the fish back. With your help, future generations will be able to watch fish return to streams and rivers in historic quantities.

For use by everyone who is interested in enhancing salmon and other fish runs in any stream, river or lake. Perfect for streamkeeper groups, research applications and education projects.

How to Obtain Jordan-Scotty Fish Egg Incubators

JORDAN-SCOTTY fish egg incubator systems

Scotty Fishing & Outdoor Products
**Troubleshooting**

**Common Problems & Solutions**

**Weight comes up too fast and breaks away from the HP Downrigger.**
The Scotty High Performance Downrigger is equipped with a high speed, high torque motor. Extra caution should be observed when jogging your downrigger weight near the surface. When retrieving your weight near the surface you may want to apply the brake while pressing the jog button at the same time. This will help you retrieve the weight at a slower speed.

This should only be done for the final few feet at the surface when you wish to lift your weight out of the water.

**Downrigger runs backwards after installation.**
Wiring may be reversed at either the battery or the socket. **Auto stop switch won't shut off.**
Be sure you are operating the auto stop correctly. Press and hold green button for momentary, controlled power. Turn and release the ring around the green button for hands free auto retrieve. Make sure that you have stopper beads on your cable.

**Cable jumps when spooling out or is bunched on one side of spool.**
Your rigger may have a slight bend in the boom, causing the cable to spool unevenly and catch on itself. You may need to adjust the fairlead (if applicable), or straighten or replace the boom. This may also be caused by a lack of tension on the cable at some point in time, causing the cable to unwind and then catch on itself. Unspool and respool as much cable as necessary. Always keep tension on the cable.

**Motor hums and won't retrieve.**
Motor may hum or growl if there is insufficient power to it. Check all your connections and your power source.

**Release clip is not holding.**
Pads may be worn—replace pads or release clip. Pads may have scent, lubricant or oil on them. Replace pads or release clip. Line type may not be compatible to release clip. Refer to replacement pads on product pages.

**Cable hums when fishing.**
Downriggers may produce a hum as the wire is dragged through the water. Normally this is not audible, although sometimes it can be high or low pitched noise that drives some fishermen crazy. It is not widely believed that this bothers the fish in any way. However, if the hum bothers you, it can be reduced several ways. Sometimes changing the weight size will do it. Another solution is to hang a piece of styrofoam or other floating material around the wire at the surface of the water to dampen the noise. Or use a ring or pulley on the wire and a cord tied onto the boat (or a bungee snapped from the downrigger to the wire). The 3025 Downrigger Weight Retriever can also be used for this application.

**My gear keeps tangling when I put it down.**
Make sure you start your trolling motion before you lower your gear. Reduce the speed at which you lower your gear. This will help keep it untangled as it descends. Do not allow the gear to freespool.
