

SOLAR[®]

POWER INVERTERS

SONIC COMPRESSION TECHNOLOGY™

SOLAR power inverters utilize a proprietary modified sine wave to provide stable, clean and reliable power throughout the operating range of each model. This results in smooth, consistent operation for powered electronics and appliances.

**SONIC
COMPRESSION**

Working in the vicinity of a battery is dangerous — always wear protective eye wear!

PERFECT FOR ON-THE-GO POWER

Our 150 Watt model features an ideal shape for on-the-go power, in or out of a vehicle. It is powered by a 12V adapter that is plugged into a vehicle's 12V power port.

SAFETY FEATURES

SOLAR power inverters feature short circuit protection, fault leakage protection and under/over voltage shut down to ensure safe operation of the inverter for the operator and all powered equipment.

TEMPERATURE ACTIVATED FAN CONTROL

Heat dissipating fans turn on only when needed to reduce battery demand and save battery reserve capacity.

PI1500XCD - 6PK Display 150 Watt Power Inverters

The 150W Power Inverter Counter Display, PI1500XCD, is a great merchandising tool to drive sales of this convenient device. It prominently addresses the key benefits of the product for consumers, highlighting the product's ability to provide household AC power inside a vehicle.

TECH TIP:

SOLAR Power Inverters are equipped with a low voltage shut down feature to protect your 12V power source. If the 12V power source drops below 10 Volts, the inverter will turn OFF to avoid excessively depleting your power source.

PI1500X

150 Watt Power Inverter

SOLAR power inverters, featuring Sonic Compression Technology™, deliver clean, reliable power from a 12 Volt power source to a wide variety of power equipment and appliances.

Our 150 Watt model, PI1500X, utilizes a perfect shape and size for convenient in-vehicle use. It features one AC outlet plus one USB outlet to power a variety of small electronics and appliances.

PI5000X

500 Watt Power Inverter

Delivers 500 Watts of continuous power and 1000 Watts peak power to meet initial surge loads for powered tools and appliances.

Features dual AC outlets, one USB outlet and rugged construction. Includes input lead with clamp set and input lead with 12V male plug.

PI10000X

1000 Watt Power Inverter

Delivers 1000 Watts of continuous power and 2000 Watts peak power to meet initial surge loads for powered tools and appliances.

Features dual AC outlets, rugged construction and mounting plate for easy installation in fixed applications.
